Mr. Phillips: The property at Stanyan and Frederick, that the matter was a proposition of an even trade, that they needed the other lot for the rounding out of their holdings. They told me that the original street railway company had purchased this lot a great number of years ago as a part of a right of way, so that the steam trains could turn around that corner. I was not satisfied with the statement of the Market Street Railway officials, and from confidential sources, which are open to me whenever I desire them, I found that last fall the Market Street Railway Company had accepted a cash offer of $7,500 for the corner of Stanyan and Frederick. The man purchasing it had paid a deposit, and when he found that there was no official sidewalk on the Stanyan street frontage he forfeited his deposit. The Board of Supervisors, by Ordinance 1061, Section 145, adopted December 18, 1903, had this language: "The width of sidewalks on Stanyan street, the westerly side of, between Oak street and Frederick street, is hereby dispensed with and abolished. The width of sidewalks, the westerly side of, between Oak street and Frederick street, shall be 15 feet." In the meantime, I was carrying on negotiations with Mr. Hirschberg, and he told me that there was a lease in existence for this property for the sum of $10,500, at the rate of $87.50 per month, commencing with the 1st of May, 1928. I have that lease in my hands. It is signed by Ruth Lamberton, a widow, and the California Petroleum Corporation. It has been properly acknowledged with a notarial acknowledgment, as far as Ruth Lamberton is concerned, and F. C. Van Deinse, known to me to be the vice-president, and D. E. O'Brien, known to be the secretary of the California Petroleum Corporation. The lease, however, has been signed by Mrs. Lamberton, and in spite of the notary having the acknowledgment as having witnessed the signatures, those signatures are not on the lease.

The Mayor: How long was that lease to run?

Mr. Phillips: That lease was to run for ten years from the 1st day of May, 1928, to the 30th of April, 1938, for the sum of $10,500, payable monthly in advance, in current lawful money of the United States of America, in instalments as follows: $87.50 a month from May 1, 1928, to April 30, 1938. I could not get together on the matter of price with Mr. Hirschberg. He told me that that he could refer me to five or six real estate men who would vouch for the statement that he had refused cash offers of $11,500 and $12,500 for this property, based on this lease. I found that this Board of Supervisors in March of this year had granted to the California Petroleum Corporation a permit for a gasoline station on this property. That was finally approved on March 27, 1928. I then went to the Chairman of the Finance Committee and made practically the same statement that I have made here, and asked for permission to employ Mr. Philip Paschel, the president of Baldwin & Howell, and a very competent real estate man, to make an appraisal on this property, as I could not see Mr. Hirschberg's value. I was granted that permission. I went to Mr. Paschel. He told me that Mr. Hirschberg had already spoken to him about the matter and that consequently he was not liberty to make the appraisal for the city, but he did go so far as to tell me that he thought the price of about $10,860 could be justified on the basis only of the gasoline station permit, and the lease which he said he had read. I then came back to the Chairman of the Finance Committee, relating those facts to him, and said that Mr. Hirschberg had said to

me that he was willing to name some twenty real estate men in San Francisco, and that I could select any one of those twenty, and that he would agree to the price. I was then authorized by the Chairman of the Finance Committee to employ Mr. Vincent Finigan, the manager of Buckbee & Thorne, and twenty-five years, I understand, in that position, a man of unquestioned ability and unquestioned integrity. We employed Mr. Finigan to make that appraisal and Mr. Finigan reported under date of May 8, 1928, "In accordance with your request, I have inspected the premises consisting of the lot in the City and County of San Francisco, State of California, and described as follows," then giving the same description. "In my opinion, the value of the said lot is the sum of $10,000, subject, however, to there being an existing lease to a responsible oil company of the said premises for a period of ten years from May 1, 1928, at a monthly rental of $87.50 for use as a gasoline service station. Yours very truly,

VINCENT F. FINIGAN,"

Mr. Hirschberg again came to my office and I showed his this appraisal and he refused to sign the option. He told me that a member of the firm of Coldwell, Cornwall & Banker had offered him, I am not positive, it was eleven five or twelve five, but one of those two figures for this property, based on the permit and the lease. He said, "You can get on the telephone and listen while I talk to him." I have two phones in my office, under one local, and, at Mr. Hirschberg's request, I took the other phone, and he rang up that firm. The man he wanted was not in. Mr. Pfau, a member of the firm and the president of the Real Estate Board, came on the telephone, and Mr. Hirschberg asked him if he had any knowledge of the property. He said he did not. Mr. Hirschberg then made a statement to him in regard to the size of the property, it was zoned commercially, that a permit had been granted, and that the lease was in existence. He said, "In your opinion, under those circumstances, what do you think I could get for the property?" Mr. Pfau's answer was, "$10,000." We then hung up and Mr. Hirschberg offered to give me the names of some four or five other real estate men whom, he said, could secure more money for it. In the mean time, he had told me on a previous occasion that he was a man of his word, that he had sold property worth $120,000 for $70,000, that he had never seen, though he owned it, because he had given his word to a real estate man that he would sell it. I called his attention to that, and, after considerable discussion, he did sign the option. The letter of transmittal to the Board of Supervisors stated that, "The above sum is in accordance with the appraisal of Mr. Vincent F. Finigan, employed by the city for the purpose of making this appraisal." Mr. Hirschberg told me that, if I could show him anything in San Francisco with three frontages, the third frontage on Golden Gate Park, at anything like this price that he would buy all that I could bring to him. And he told me that, in my experience, I had never purchased anything of this character for as low as $10,000. I called his attention to the fact that about two years ago we purchased in our office for the city the corner of Mission and Randall, 65 feet on Mission, 135 feet on Randall, narrowing in width as it approached the Southern Pacific right of way, but having three frontages, and an oil station permit on that property that was leased to a responsible oil company for $100 per month, and that we had paid $10,000 for that property. That, in the breaking of the bottle neck the Union Oil Company had a long lease on a corner at $75 per month, and that we had paid $7500 for that based entirely on the gas station permit and the lease to a responsible company. I showed him those papers and I said, "Under those circumstances, and entirely on the fact that there is a permit and this lease, $8750 is what I consider all that you should get. However, we had agreed to leave it to outside men and the figure was $10,000 and Mr. Hirschberg finally signed for that figure. I believe, Mr. Mayor, that that covers everything and that is as near as I can remember the statement that I made to you.

Supervisor Gallagher: Just one question or two. You are an employee of the Board of Public Works?

Mr. Phillips: I am.

Supervisor Gallagher: You are not influenced by any member of this Board of Supervisors, or any public official, in your recommendation to the committee?

Mr. Phillips: I am not.

Supervisor Gallagher: You recommend the price of $10,267.85.

Mr. Phillips: I should explain that $267.85 inasmuch as the appraisal was $10,000. I thank you for calling my attention to that. The California Petroleum Corporation who had this signed lease spent a certain amount of money on that property. I have the itemized statement here. Superintendent for 2½ days, the foreman, a carpenter and the labor, the lumber, the cartage, the freight and materials and the total is $267.85. You will remember, Mr. Supervisor, in speaking to me about this property, that you understood that there had been some money spent on it and you asked me what our policy would be and I said that, on a legitimate proposition where a company had spent money, based on their lease, and based on their permit, that, in order to get that lease revoked, it would be necessary to pay that expenditure, and that is the reason why the $267.85 is added to this figure, and the resolution passed by your Board carries a clause——

Supervisor Gallagher: You read that.

Mr. Phillips: No, I did not: "It is hereby understood and agreed that $267.85 is to be paid by said A. Hirschberg to California Petroleum Corporation, in full payment for the release of the lease of said corporation with said A Hirschberg." At the time that resolution was drawn we did not know whether that was another name on the lease, but Mr. Hirschberg had told me that he did not take property in his own name, but that he was the owner.

Supervisor Gallagher: The letter of transmittal was signed by the city attorney, was it not?

Mr. Phillips: At my request. I explained to Mr. O'Toole the matter and the statement was made in here and I read that, "I respectfully recommend that the attached resolution be adopted by your honorable Board, provided the purchase price meets with your approval." In other words, the city attorney took no responsibility whatever on the price.

Supervisor Gallagher: That is all.

Supervisor Roncovieri: A lady here has whispered to me that there was something wrong about your statement. I wish this lady would have the privilege of the floor and explain what it is that is wrong with your statement.

Supervisor Gallagher: Wait a minute. What is wrong? Let her tell you.

Supervisor Roncovieri: My God, let us crush them right now, right here. If the lady has a rumor, or if she knows, let her say it.

Supervisor Stanton: Mr. Phillips, is there anything in the transaction that you consider wrong, in any way or shape?

Mr. Phillips: No, I do not.

Supervisor Stanton: Was there any undue influence brought upon you to fix a price, or anything?

Mr. Phillips: None that I know of.

Supervisor Stanton: Is there any difference in this than there is in any other real estate transaction where you buy land?

Mr. Phillips: No, I find this same state of affairs where people lie to me and misrepresent values. That does not mean anything because we expect that on almost every transaction.

Supervisor Stanton: Then you went out and bought this piece of property on what you consider the best terms?

Mr. Phillips: I did, I considered that, under the circumstances, as long as Mr. Paschel and Mr. Finnegan and Mr. Pfau had said $10,000 was a fair price, even though I did not agree with them, and I do not agree with them yet, that it would be impossible, under eminent domain proceedings, to secure it for a less price and consequently it would be foolish to put the city to the expense of a condemnation suit, if there was no hope of getting it for a lower price.

Supervisor Roncovieri: I ask that this lady be given the privilege of the floor.

Supervisor Gallagher: The statement that this lady makes is that somebody went out there and dug a hole in the ground, took down the billboard and moved away. The detailed statement of what the California Petroleum Corporation is there, and it is only $267.

Supervisor Roncovieri: Supervisor Gallagher misunderstands, this is a rumor.

Supervisor Gallagher: And now you are putting yourself in the hands of the women, go ahead and see where you land.

Supervisor Havenner: Now Mr. Mayor.

Supervisor Roncovieri (interrupting): I have not relinquished the floor. The lady says that Foster & Kleiser had a sign up there and they took it down and a hole was dug in the ground, and that was all that was done on the property, and that it was not worth the $200 and some that you spoke of.

Mr. Phillips: I have the itemized statement submitted by the California Petroleum Corporation.

Supervisor Roncovieri: Would you mind reading that itemized statement to the Board?

Mr. Phillips: I want to say that it is very hard, of course, after the labor is put in, for me to determine how they spent it. I notice that the sidewalk has been removed on Frederick street, evidently in preparation for putting in their oil tank. Supervisor Gallagher says, in closing a lease of this kind, if it is a small matter, we naturally would have to accept the figures of a responsible company, unless we could find something wrong with them. The figures are as follows: This is submitted to me by the California Petroleum Corporation. "Cost on Stanyan and Frederick streets service station, labor, R. E. Yeoman, superintendent 2½ days, $30. L. Patch, foreman, 4 days, $44. E. Pickler, carpenter one day, $9. P. Johnson, carpenter 2 days, $18. S. Stevenson, labor 4 days, $20. E. Neil, laborer, 2 days, $12. Tim McNaughton, laborer 2 days, $10. Material, lumber, $34.85. Cartage $5, freight on tool box from Santa Cruz $5, detailing and plan in connection with cut special type building, $25, engineering and location work $50; application for permit $5, total $267.85.

Supervisor Roncovieri: Is there anything wrong with that?

A Lady: Yes, it is.

The Mayor: You have heard Mr. Phillips' statement, and Mr. Phillips told me that he thought the price was entirely too high, but what was he going to do when he had an appraisement from Mr. Paschel. So I took the matter up, acting upon the suggestion given to me by him, and I asked what the assessed value of this property was, from the Assessor himself. He sent back word to me, $2210. He sent back to me Stafford's sale value of the lot at $5140. And he sent back to me his own appraisement of this property, $5000, and he sent me back Stafford's true value at the very utmost of $5711. Now, there is a difference between the appraisements which I have and $10,000 at which the city is purchasing this lot.

Supervisor Gallagher: Do they know about the lease?

The Mayor: The lease is of no value, that is the point I am going to bring up to you. Why should a lease have been made on that property when the city knew that the city ought to have that property for the widening of Stanyan street?

Supervisor Gallagher: Could I answer you there?

The Mayor: Yes.

Supervisor Gallagher: At the time the lease was made and at the time it appeared that the Board had granted the permit—was voting on it—there was no knowledge on the part of anybody concerned, that I know of, and it developed, I think, in the course of your investigations that there was not. The first knowledge that we had that there was a lease, if there was one, or that there was a permit, was when the City Engineer called my attention to the fact that the matter was on the calendar in the Board, and it is entirely to be presumed that the Fire Committee of the Board, of which I happen to be a member, proceeded with the matter unknowingly. And I think our action in

the Street Committee came after the action of the Fire Committee of the Board.

The Mayor: Now, what value is there to any lease for an oil station on any piece of property? It is a revocable permit, revocable at the will of the Board of Supervisors. How, therefore, can Mr. A. Hirschberg claim a value for a cancellation of a lease which has not been recorded, nor have I seen the lease. Now, the property was transferred from the Market Street Railway Company to the California Pacific Title Insurance Company. And I have been trying to get some information out of them this morning, but the thing, they say, has got so muddled up they do not care to give any. I asked Mr. Samuel Kahn, president of the Market Street Railway Company, over the phone, what price did he get for this property. He said, "Mr. Mayor, it was a simple trade, Mr. Hirschberg approached us and thought that we had something out there at Frederick and Stanyan streets that they might want to get rid of and he had a piece up here at Sutter and Presidio avenue that he obtained in a trade. There was not a dollar's worth of money passed between in the transaction. It was simply a trade of piece for piece." I said, "Well, what did you value that at?" "Well," he said, "You know we have a valuation for every piece of property we have got," and he said, "Wait a minute." And he went and got his book and came back to the telephone and told me that "Our full value for that property, according to our books, is $7,500." Now, so far as a clean trade is concerned, it might have been $25,000 each, or $10,000 each, as long as there was no money paid for the property. Now, the lot is only 32 by 58. It has a great building there along the side of it, and I believe, and I have no proof, that the dates will show it, that Mr. Hirschberg, knowing that he would get a lease for that property before he made the trade, he got the lease, made the trade, and did the transaction all at once. Now, am I justified as the Mayor here?—I am supposed to investigate everything that comes over to me from the Board of Supervisors—not to take cognizance of the fact of this transaction, these appraisements, and the fact of the lease being granted to Mr. Hirschberg when the city knew that it was going to widen Stanyan street? Why, therefore, should we pay him anything? Why should it be over the $5,000 or the $5,700? And if you want to go to the full value that he traded it for Mr. Kahn, $7,500 is the utmost value that was on the books of the Market Street Railway Company. Am I justified in throwing away the people's money? I came here today purposely to tell you this thing, not veto it first and tell you afterwards about it. I will give you some rumors and I can prove some of these: That Mr. "Murphy" Hirschberg goes along Montgomery street and says he is the whip of the Board of Supervisors. I can bring testimony in here that Mr. "Murphy" Hirschberg says that he controls ten votes of the Board of Supervisors: I can bring not rumors but facts that he says that he takes members of the Board of Supervisors up into his 823 Geary street, and the whole real estate row is talking about the Board of Supervisors for having anything to do with the company of "Murphy" Hirschberg. Now, those are not rumors, those are facts. And when he talks of deals in land, Mr. "Murphy" Hirschberg tried to buy the block of land on "N" and Ortega. The City Planning Commission zoned 100 feet on the north side of "N" and 100 feet on the south side of "N," right in the very block that the city is purchasing for that grand boulevard through the Sunset. He offered to make a purchase, and then it was to be purchased by the City of San Francisco for the acquirement of that boulevard. Now, if those are not real facts, based more on fact than on rumor, I think it is about time that the Board of Supervisors heard of some of these things that are going on, instead of flying off the handle when I am trying to help the Board of Supervisors to clear up some of these rotten rumors. I use "rotten" this time, that are going on around this town. Mr. "Murphy" Hirschberg claims that he can do business with the city. Mr. "Murphy" Hirschberg does traffic in lands that the city is going to buy. Mr. "Murphy" Hirschberg is active in garage permits.

Mr. "Murphy" Hirschberg is interested in oil stations, Mr. "Murphy" Hirschberg is so close to the administration that he says he is the whip of the Board of Supervisors. I do not make those rumors, I do not make those statements, but they are clear as a bell, and I can prove them all, and here I am, trying to clear up these other rumors for you that are going around. And you know them yourself, you ought to thank me for bringing them to your attention, you ought to thank me for trying to clear up the atmosphere because I get it from the boys of the press, I get it from all the people that come in to see me. And it is my duty. I cannot any more sign my name to that—giving Mr. "Murphy" Hirschberg $10,287 for that property—it is not worth it. (Applause.) You know what Mr. "Murphy" Hirschberg did in 1923 when the newspapers were all full of it, when he bought the Sussex Apartment House and raised the rents, bought up leases, during the war, and after the war interested in all those things. Why, it is the talk down on California street and the real estate row the influence that Mr. Hirschberg claims he has got here in the administration.

Supervisor Stanton: Mr. Mayor, let me correct you: Mr. "Murphy" Hirschberg volunteered the second day that war was declared and served his country throughout the war, so that Mr. "Murphy" Hirschberg did not buy land and raise rents during the war because he was in Europe.

The Mayor: I did not say he did, I said in 1923.

Supervisor Stanton: You said when this country was at war.

The Mayor: I say in 1923. Now, I am going to clear, if it takes an awful lot of my time, I am going to clear, out of this Board of Supervisors and the Mayor's office the influence of "Murphy" Hirschberg prove what ten of the Board of Supervisors he controls, I am going to stop his loquacious tongue on Montgomery street, and I am going to kick him out of here, and I have several members of the Board of Supervisors with me. And I have several members of the Board of Supervisors who have brought to my attention the question of purchasing land for the city. I am going to look those up, too. But the Board ought to stand with me and help me clear up these rumors, to clear all our good names. Now, I bring this to you today because I am going to veto it, and if anybody can show me cause why I should not veto it I want to know it now.

Supervisor Gallagher: I do not know what Mr. "Murphy" Hirschberg is claiming, and God bless him, if he claimed he owned the whole Board, we have no objection to that. I did not hear any great speeches when the Hon. Mr. George Skaller used to go around this Board and talk to members right in voting time. Mr. George Skaller, late lamented president of the Civic League, was supposed to be the boss of the Board, and so rumored in the public press. I do not pay any attention to the rumor that members of your staff in your office are participants in fight privileges and get their dough from the fight promoters—I do not believe it. And I give no credence to rumors of that kind. I do not pay any attention to the rumor that a son of an executive officer of this city and county is selling stock in a lumber company and that before permits can be signed by duly accredited officials, that stock has to be bought in the lumber company. I do not pay any attention to them, I do not believe them.

The Mayor: Well, that is all right.

Supervisor Gallagher: Very good. Now you cannot ask the public to put a cloud on the Board because a gentleman goes somewhere along Montgomery street or anywhere else and says he controls ten votes of the Board of Supervisors. The facts are, and the thing that ought to be developed here, has there been anything done in the Board to indicate that this gentleman's statement is correct? The Emperor Norton used to go up and down Montgomery street and claim he was the Emperor of France and some place else, but I do not think he needed an official investigation. Now, I am serious about this because, Mayor, I will tell you, your Board of Public Works, your Police Com-

mission, you know yourself you had word of the rumor that a member of your Police Commission was a participant and an owner in a fight pavilion and participated in the receipts, but we did not pay any attention to it because we trusted that public official and we did not think it was fair. You know those rumors were brought to you, do you not?

The Mayor: But that it not doing business with the city.

Supervisor Gallagher: It is the same thing.

The Mayor: No, it is an entirely different proposition.

Supervisor Gallagher: It is a rumor.

The Mayor: I think he used bad judgment, but nobody can stop him going into any legitimate line of business that he wants to.

Supervisor Gallagher: I do not think so and I think he is a very honest man. For instance, there was a rumor all over the public streets on 333 Kearny street, that a committee of this Board desired to investigate. That is not to be charged to the entire Board. And I think that in view of the fact that that rumor reached a stage of charges in the public press, it was incumbent upon the Board and yourself to clear it up. That had some validity. I do not care to believe that. I am going to ask you, as a business man, Mr. Phillips is your appointee, through your Board of Public Works. We have, I want to say to you, implicit faith in him. I have, as chairman of the Streets Committee, in the purchase, I think, of over a million dollars worth of land, checked his values in the last analysis. And he has only been brought into court, I think it is, three times in sixteen years, isn't that so?

Mr. Phillips: In San Francisco.

Supervisor Gallagher: In San Francisco. He has been brought into court on the purchase of millions of dollars worth of property. Now, here is a man who does what? You say you are going to veto this. Let us see if you are fair about the thing—veto it if you want to. How long have you been our right of way man?

Mr. Phillips: Sixteen years.

Supervisor Gallagher: Whose integrity has never been questioned, and he feeling that he cannot go into court and get the value that you say there ought to be in the lot, he proceeds to select whom? Mr. Paschel. Is there any question about his integrity, is there any question about Vincent Finigan's integrity? He proceeds to select them. After he selects them they name a price. He considers he is bound by that, and the owner of the property desires not to sell even then. This thing can be simply dealt with and justified through your figures, or those recommended by your department, not by any committee of the Board, except from your department. Let the Mayor veto it, let us put condemnation on this property and let us see where we will land. We have got to have it.

The Mayor: Sure we have got to have it.

Supervisor Gallagher: I do not want to go much further except to say this: that the Judah street matter went to your office on a given date. Now, you are very busy undoubtedly. I do not believe criminations and recriminations are going to do any good here. I do not know how much time you had to investigate. We knew you had ten days. That at the last moment you saw fit to veto it was not of moment except for the reasons recited. Now I say to you very well, I want to go with you the whole route. I am satisfied myself at least as to what the outcome will be, but I want it to be quickly taken. In respect to this property, as far as members of the Board are concerned, the answer has been had here this morning. No. 1, your appointee, your employee, the employee of the Board of Public Works, your department, not ours, has recommended this price for this property. Your employee has stated there has been no influence of any kind or character in his office, or by any public official on behalf of anybody connected with this deal. Your employee now, Mr. Mayor, has relieved the Board of responsibility for the rumors. And I hate to say it, because I trust the man more than you have any idea of, but now you have pinned the ribbon of so-called suspicion upon Mr. Phillips, your own employee. And I tell you, if you stop to go on down in the real estate market, take any one of the thousands of real estate men and put the facts before

them, and ask them what they think the city ought to pay for this property, you will come back, I think, Mr. Mayor, and tell Mr. Phillips that you are sorry that these statements got out into the light. I admire your carefulness in surveying the actions of this board relative to land purchases. How many million dollars worth of property, Mr. Phillips, have you bought?

Mr. Phillips: $22,000,000.

Supervisor Gallagher: This is the first time that ever the department has been questioned. Now, do not forget this: the rumor is abroad this morning that because—now, this is a rumor—that because, first, Mr. "Murphy" Hirschberg is a very dear friend of the editor of the Daily News—he happens to be one of mine, not in the same regard though—and because of the rumor too, Mr. Mayor, that Mr. "Murphy" Hirschberg had something to do with trying to elect Mr. Power for Mayor, and because of the fact that Mr. "Murphy" Hirschberg spent his money trying to elect Mr. Power Mayor and lost it, that therefore the rumor is abroad this morning, and it is all over Montgomery street, as Mr. Kent I think might testify if he has been to his office, that you are punishing Mr. "Murphy" Hirschberg and hurting the Board because of his political activities. I do not believe it. I believe this: that certain information was brought to you and that because Mr. Hirschberg claimed certain things you assumed that perhaps there was something wrong about this transaction. And you were right in investigating it. But, sir, when you find that your employees, that your department has gone out and investigated, and that your employee in your department has recommended this price, and all we have done is to approve it, it seems to me, Mr. Mayor, that your investigation in that respect is pretty nearly concluded.

The Mayor: If my attention had not been called to this matter I would have approved it. I would not stop anybody from getting their legitimate price for a piece of property any time. But it was not my employee but your employee because I do not pay him any money and you do through the funds of the Finance Committee.

Supervisor Gallagher: You mean Mr. Phillips?

The Mayor: Yes.

Supervisor Gallagher: He is your appointee, you recommended his appointment, ask him.

The Mayor: Well, I think I did sixteen years ago. Now, let me tell you, I would not have brought this up if Mr. Phillips had not told me that he thought the price was altogether too high, and Mr. Paschel and Mr. Finigan and Mr. Phillips have allowed in the price here something for the lease. Do you think a man is going to give up a ten year lease, $10,500 or $87.50 a month, for a paltry $10,000 for the piece of property?

Supervisor Gallagher: He would have had to do it.

The Mayor: But Mr. Paschel and Mr. Finigan and Mr. Phillips have figured something in there for the lease. I was out there yesterday; there had nothing been done, the lady is right. But there is the itemized account, I am not kicking about $287.85. But I am saying it is right for me as Mayor, with the appraisement of the Assessor, the Stafford appraisement and the value of the property as figured by the Market Street Railway to investigate a price of $10,000 for that property.

Supervisor Gallagher: In the light of what you have heard this morning what do you think?

The Mayor: Well I think the same thing, it is too high, and Mr. Phillips thinks it is too high, and I think the Chairman of the Finance Committee will tell you it is too high.

Supervisor Havenner: Well, Mr. Mayor, I do not know anything about any members of this Board over whom Mr. Hirschberg may claim to crack a whip. If he cracks any whip at the Finance Committee it is a surreptitious and a hostile whip. When the Finance Committee heard that, in regular form, the recommendation had come for the purchase of this land for the widening of the street, I talked to Mr. Phillips. Mr. Phillips told me that Mr. Hirschberg was demanding $17,000 approximately for this land. I told Mr. Phillips that I did not want any concessions made to Mr. Hirschberg that were improper in any way, or that could not be

substantiated, that I did not want an extravagant price paid for this land, and that I wanted him to be most careful in his procedure. He will justify that statement.

Mr. Phillips: That is correct.

Supervisor Havenner: Mr. Phillips then asked me, as he has told you, whether I would consent to the appointment of Mr. Paschel as a referee. I know Mr. Paschel. I would consent to the appointment of Mr. Paschel. I would consent to the appointment of Mr. Paschel as a referee. I know Mr. Paschel, know his reputation and I said yes. He advised me subsequently that, because of some business relations between Mr. Paschel and Mr. Hirschberg, Mr. Paschel did not care to serve. He then recommended the name of Mr. Vincent Finigan whom I did not know personally. He told me that he would guarantee personally Mr. Finigan as a real estate man of outstanding integrity and ability and experience.

Mr. Phillips: Correct.

Supervisor Havenner: I said, "On the strength of your recommendation then we will accept Mr. Finigan as the arbitrator in this dispute." Now, the thing has been done, Mr. Mayor, with utmost pains to guard against the possibility of any suspicion as to the integrity of this whole deal. Mr. Phillips brought back to me Mr. Finigan's appraisal, over his signature, in which he did, to be sure, make some allowance of value for the existence of this lease. But it was done and done in the most regular fashion, and I cannot see where there is any possibility of any odium attaching to anybody. No other member of this Board spoke to me about the deal when the transaction finally came in, and Mr. Phillips signed up Mr. Hirschberg at the appraised figure, the Finance Committee went to the trouble to have a detailed record made a part of the official records of that hearing, and I would like to have the clerk read this now. I say that we have gone to extra efforts to preserve the integrity of this whole deal, and now the only question can be the personal opinion as to whether the value fixed by this expert is right or not. It is common procedure in disputes to employ appraisers of good reputation here, to fix a value, and I think that it is probably Mr. Phillips' opinion that, if we did go into court, and had brought men like Mr. Finigan and Mr. Paschel into court, that we would have to pay this price. I do not see how we would expect to get away from it. It may be that it is a higher price than the land would be worth without this permit, but I think courts do allow added value for contracts of that sort which are a guarantee of income producing ability over a period of years. So, Mr. Mayor, so far as the Finance Committee is concerned, I say that we went to extra efforts to safeguard this transaction against the possibility of criticism. And, very frankly, I went to those efforts because I have heard those rumors that this gentleman had boasted on the streets of some influence somewhere. I can assure you that he has no influence with the Finance Committee.

The Mayor: Thank you.

The Clerk: (Reading).

"Before the Finance Committee of the Board of Supervisors,
Friday, May 18, 1928.

Finance Committee (Present) Havenner, Kent, Powers.

Supervisor A. J. Gallagher also present. No. 15 on Calendar:

'City Attorney's resolution accepting offer of A. Hirschberg at $10,267.85 for property required for widening of Stanyan street.'

Supervisor Kent: What is that No. 15?

Supervisor Gallagher: A. That is that corner of Stanyan and Frederick.

Supervisor Kent: What is the appraisal?

Supervisor Gallagher: A. Finigan recommended a price of $10,000, and there was a California Petroleum Oil station going in there which had some expense, $267.85.

Supervisor Kent: Q. 32 feet by what?

Supervisor Gallagher: A. 32-7¼ x 56-1½.

(Supervisor Kent here requested a record be made of the transaction for future reference).

Supervisor Gallagher: For the record—If you want it I will dictate

it—(continuing) That the Street Committee determined to recommend the purchase of the lot at the northwest corner of Frederick and Stanyan streets, A. Hirschberg owner. That Joseph Phillips, right of way agent, commenced negotiations for the purchase, as per the request of the Street Committee, and that he and the owner, Hirschberg, disagreed on the price. It was then suggested that Philip Paschel's services be secured, to which the Chairman of the Finance Committee consented, to make a valuation for all parties concerned. Mr. Philip Paschel refused for personal reasons —reasons not stated to me; and the chief of the right of way department, Joseph Phillips, then selected Vincent Finigan, connected with Buckbee-Thorne & Company, who, on the date of May 8, 1928, filed a recommendation addressed to Joseph J. Phillips, recommending, quote——

'In my opinion the value of the said lot is the sum of Ten Thousand ($10,000) dollars, subject however, to there being an existing lease to a responsible oil company, of the said premises, for a period of ten years from May 1, 1928, at a monthly rental of $87.50, for use as a gasoline service station.' (Continuing) And there was filed with the Finance Committee, as of this date, from the California Petroleum Corporation, the cost on the Stanyan and Frederick service station, a list in detail of labor, engineering, detail and plan, etc., in the sum of $267.85. And the Street Committee, on yesterday, recommended to the Finance Committee the purchase of the property in the sum of $10,267.85. Is that complete enough?

Supervisor Kent: A. Yes.

Supervisor Gallagher: (to J. S. Dunnigan, Clerk) You take these (papers)—(A. Hirschberg agreement to sell at $10,267.85. Letter to Jos. J. Phillips, valuing the lot at $10,000, signed Vincent F. Finigan, and hereinabove referred to; California Petroleum Corporation cost bill in sum $267.85; copy of City Attorney's letter transmitting resolution authorizing acceptance of offer at $10,267.85; and copy of resolution accepting offer of A. Hirschberg at $10,267.85.) (Continuing) And that record will be signed by Phillips, Finigan, Paschel and myself, if you want it, Milo.

Supervisor Kent: It is necessary for the widening?

Supervisor Gallagher: Yes. It clears that wall, etc.

Supervisor Kent: No objection.

(No. 15 approved)."

The Mayor: What is the pleasure of the Board?

Supervisor Gallagher: Well, I have a motion to make and it is as follows, dealing with the rezoning ordinance and his Honor's reasons for vetoing it. I desire the privilege of asking, through the Mayor and the Board, that the Clerk of the Board develop the following information: How many meetings of the City Planning Commission have been held since January 1, 1927, to date? Two. The name and number of members present at each meeting. Three. The number of matters referred to this Board by the City Planning Commission, and in how many instances have the recommendations been sustained or reversed. I would like permission to have the Clerk develop that information. I do not need to explain my reasons, I think they are obvious.

The Mayor: Any objection? (Bringing down the gavel).

So ordered.

MONDAY, MAY 28, 1928, 2 O'CLOCK P. M.

Supervisor Marks: I desire to know as to the disposition of the motion made by me this morning that $5,000 be appropriated in connection with the investigation of certain rumors.

Supervisor Gallagher: The Mayor declared it out of order.

Supervisor Marks: My understanding is the Mayor declared the motion carried and subsequently declared it out of order.

The Chairman: It was declared out of order.

The Clerk: Yes, the Mayor declared it out of order.

Supervisor Marks: I will ask that Mr. Girvin be sent for to read his notes.

The Clerk: Mr. Girvin has gone to his office.

Supervisor Gallagher: Let's go ahead with this Islais Creek matter.

Supervisor Marks: Mr. Chairman, I desire to interrupt these proceedings, because this is a vastly more important matter than these particular matters. I desire to appropriate the sum of $5,000 to be placed at the disposal, if requested by the Mayor, or any other public official or body, for the purpose of conducting an investigation into the rumors against the members of this Board.

Supervisor Andriano: I rise to a point of order.

Supervisor Stanton: I second the motion, that the money be given to the Grand Jury. I can't see for the life of me why the money should be placed at the disposal of the Mayor.

Supervisor Marks: My motion is a request to the Finance Committee that, upon the request of the Mayor or any public body, the money be made available for the purpose of an investigation. It doesn't designate anybody. I assume the investigation is to be made, and I insist upon an investigation being made, and this is to make the money available.

Supervisor Stanton: I second the motion, but it doesn't seem to me it is up to the Mayor to make the investigation, or the Police Department, who are directly under him. It seems to me if there is an investigation it should be by some impartial person or body, and if you will make your motion read that way, I will second it.

Supervisor Marks: It does include that, with respect to both the Mayor and District Attorney, and the Grand Jury. In other words, Mr. Stanton, I think it is improper for this Board to direct who should make the inquiry, but I think it is proper for the Board to place available to such body as makes the investigation such funds as may be necessary, and then to see that the funds be used for that investigation. I shall be glad to have the suggestion of the Finance Committee, Mr. Havenner or Mr. Powers, as to whether they look with favor upon such an appropriation if it be called for.

Supervisor Powers: I explained my position this morning. I am not afraid to vote any amount of money to thresh this thing down right where it belongs. If there is any truth to the rumors, they should be found; if they are not true, that should be found out and the parties exonerated.

Supervisor Stanton: I would like to have this article read, first, in this connection.

Supervisor Marks: Let me just restate my motion. My motion is a request to the Finance Committee that they hold in readiness, or that they make an appropriation, if requested by anybody, the Grand Jury, the Mayor, or the District Attorney, of $5,000 for this purpose. Do you find anything objectionable in that?

The Chairman: You have heard Mr. Marks' motion; is it seconded as he words it?

Supervisor Stanton: If you will permit the Clerk to read the article first.

The Chairman: Then I will have to declare the motion lost for the time being for lack of a second.

Supervisor Marks: I serve notice at this time that I will make it again and again until it is acted upon.

Supervisor Gallagher: What is the motion; I will second the motion.

Supervisor Marks: I will withdraw the motion for the time being.

The Chairman: Mr. Stanton has requested that an article be read into the record.

Supervisor Schmidt: I believe that Mr. Marks withdrew his motion until a statement is made by Supervisor Stanton.

Supervisor Andriano: I rise to a point of order, that there is nothing before the Board at the present time.

The Chairman: The point of order is well taken. Proceed with the next matter.

Supervisor Marks: I move you that the sum of $5,000, that the

Finance Committee appropriate $5,000, so that it may be available for the purpose of investigating the matters which the Mayor has before him.

Supervisor Gallagher: If you will use the words "rumors given expression to by the Mayor," I will second the motion.

Supervisor Marks: I don't care what you call it, call it statements as to the rumors made by the Mayor which he has under investigation.

Supervisor Stanton: I want to have that statement read before you vote on it.

Supervisor McSheehy: When the statement is read I will proceed.

The Clerk (reading): "Why not investigate some more rumors?

Editorial.

"Mayor Rolph has given voice to two ugly rumors of graft in the City Hall. He has asked his Police Department to investigate:

"1—The rumor that 'money has passed' to some supervisors to vote for the rezoning of Judah street.

"2—The rumor that somebody was bribed in the Golden Gate Ferry franchise negotiations.

"Now, while we're at it, why not declare open season on City Hall rumors? Why not hunt out the truth in some other rumors that have been floating around town for months and years?

"Why not investigate:

"1—The rumor that the son of a high city official sells to people who do business with the city, stock in a Philippine lumber company before his father approves the business.

"2—The rumor that a certain political banker carries a $1,000,000 insurance policy on the life of a high city official, to protect said banker in case the official dies before he repays loans.

"3—The rumor that gambling places and bootleg joints flourish in San Francisco, under protection of the police and high city officials.

"4—The rumors about Hollywood trips.

"5—The rumors about graft in the Board of Public Works.

"6—The rumor about that $20,000 plus paid for appraisals of the McLaren Park property.

"7—The rumor that a certain political banker 'carries' a high city official for 10,000 shares of Standard Oil stock.

"8—The rumor about that loss of $3,000,000 in Hetch Hetchy bonds in 1921.

"9—The rumor about 'protection privileges' dealt out for taxi stands and sidewalk flower stands.

"10—The rumor about lotteries operated under protection of the police.

"11—The rumor about the bail bond graft involved in the monopoly on bail bond business given to McDonough Brothers.

"12—The rumor about 333 Kearny street.

"13—The rumor that Supervisor McSheehy was not the only official interested in and working for a tube across the Bay, instead of a bridge.

"14—The rumor about a certain bootlegging joint on Market street operated in a building owned by a city official.

"15—The rumor that a certain high city official, who is in the insurance and surety bond business, compels people who get contracts from the Board of Works to patronize his surety bond department.

"These rumors, all of them, are of much longer standing than the two that Mayor Rolph has asked the police to investigate. They persist through the years. If our Police Department is to be used to run down rumors, it certainly should not confine its activities to the two that Rolph has voiced.

"It is a dangerously irresponsible person who gives publicity to rumors that he does not substantiate, who assails indiscriminately the character of eighteen Supervisors. Rolph has done this. So he should be compelled to either prove his insinuations or apologize, not only to those he has accused, but to the public.

"The public has not forgotten that rumors of graft were circulated

in this city 25 years ago, and that one result was the conviction of a mayor for felony."

Supervisor Gallagher: Why not investigate some more rumors, the Mayor has asked the Police Department to investigate this matter; why not now investigate all of them?

Supervisor McSheehy: I seem to be the only one interested in these rumors, I am apparently the only one named.

The Chairman: Mr. Stanton, you have the floor.

Supervisor Stanton: Mr. Chairman, I just want to say that when we are taking up the matters of rumors, that we have a lot of them, and why stop at investigating one particular thing if there is so much wrong in San Francisco; and according to the newspapers the last few days there are a lot of things wrong. Reflection has been cast on this Board of Supervisors by rumors, the people walk up and feel of your pocket to see if they can feel the money jingling and pull off a lot of comedy along that order, and a certain amount of that sticks, you can't get away from it, and I for one, am for as full and complete and impartial an investigation as it is possible to have. I am not willing to have the thing go along and then stop, it doesn't seem to me that this investigation should be in the hands or in the control of any particular individual. There have been too many things said, too many nasty rumors broadcast. Let somebody outside of this Board, or the Mayor, do the investigating. Somebody that is free from any influence or any connection with him, or any connection with the Mayor or this Board, make the investigation, otherwise there might just as well not be any investigation. We should have this investigation by all means; either find somebody around here guilty of the things charged with or exonerate them. If they are right and upstanding and fair they can have nothing to fear from any investigation. But I say go all the way as long as this matter has gone as far as it has, we should see it all the way through.

Supervisor McSheehy: I said that I might not be unwilling, if that paper was read, to make a statement in this connection myself. I didn't know what was in that, and I was surprised to a great degree. However, I find that someone is abrogating a tube besides myself. I am not the original tube man, tubes have been advocated by the Board of Engineers, I have only advocated one tube myself, the one on which we could get a permit.

Members of the Board, I cannot understand why we should make an appropriation of this kind at this particular time. We made up a budget here last Friday, and in that budget there were a couple of commitments, one commitment for $250,000 for the Kezar Stadium, the appropriation of $100,000 for the Marco Polo celebration was also brought up. The Finance Committee chairman was very fair in his position, and he seems to have a lot of merit to his views on the matter, his views, as I see them, were really very sound. He said to "bring me and show me that the merchants of San Francisco will contribute $100,000 for this celebration, and I will recommend it". We met and agreed to a commitment of $80,000 if the merchants would come forward with their share. Now, you are asking here this afternoon to make an appropriation of $5,000. We don't know what department wants the money, some say that we have no right to appropriate this money for this purpose, that the Mayor is already investigating it. Why not get the matter in an orderly manner, go to the assistant City Attorney and ask him to draw up a proper resolution and present it in an orderly manner, and then have the proper department go into the matter and if these rumors are not well founded, of course, the parties accused will be exonerated. But why make an appropriation at this time——

Supervisor Hayden (interrupting): I would like——

The Chairman: Supervisor McSheehy has the floor.

Supervisor McSheehy (continuing): When I have finished I can be asked questions, or the Supervisor can reply. It seems to be the

habit of this particular Supervisor to try to destroy the continuity of a man's thought at times.

May I say this, I don't know any reason why this appropriation should be made, and my name was mentioned, even in this rumor. I voted for the Judah street rezoning, I voted for it, and I have no apologizes to make, none whatever. There is an old Biblical saying: "The guilty seeketh where no man findeth." I have no apologies to make, and I say to you here, members of this Board, and I have been on this Board quite a few years, this is the first time I ever heard of an appropriation for money for a purpose of this kind—I ask that I be not interrupted until I have finished—I say to you, members of this Board, and particularly to the mover of this motion, to bring in a proper resolution. This resolution should prescribe for some department of the city government, and I imagine that the Grand Jury or the District Attorney would be the proper parties to run down these matters. We know that you can present a matter of this kind to the District Attorney's office and they will make all of the necessary investigations, and then if the District Attorney feels that the matter requires the action of the Grand Jury, an investigation by the Grand Jury, that will follow. Then if they wish $5,000 for this investigation, either the District Attorney or the Grand Jury, they will get one vote on this Board for it, and that will be mine. But until we have something more definite to act upon I don't believe we ought to appropriate this money at this time. I am guilty of nothing, I am willing to have any investigation made of any of my actions that anyone may see fit. You can have rumors every day, you can send rumors from here to Oakland by tube.

Supervisor Hayden: I move that this subject matter be referred to the Finance Committee.

Supervisor Havenner: The Finance Committee, I am sure, is willing to provide funds if they be necessary for any duly authorized investigation. If the Board wants it, they should direct us to make the appropriation and the Finance Committee will not hold it up one minute, but the Finance Committee does not wish to act on its own responsibility in the matter. If it be desired to have an investigation now I think the Board should decide who should make this investigation.

The Chairman: Do I hear any second to the amendment of the motion of Mr. Hayden?

Supervisor Andriano: Both the original motion and the amended motion are out of order, for the reason that the Grand Jury has funds at its disposal for the making of any investigation or investigations it desires; the Police Department has funds at its disposal for the making of investigations, and the District Attorney's office has funds and officers for the making of investigations, and the Mayor, who is the only one, the only other agent of the city who can make an investigation, has funds at his disposal; consequently I believe that both the original motion and the amendment to the motion are out of order.

The Chairman: The chair will recognize the protest and so rule.

Supervisor Marks: I understand that the motion and the amendment to the motion are ruled out of order. I would like to ask, Mr. Chairman, whether or not if requests come from the Mayor, the District Attorney or the Grand Jury for appropriations in addition to their normal funds for the purpose of making such investigation, whether ample funds for such purpose will be provided by this Board?

Supervisor Havenner: I think so, yes. If the Board will recommend us to appropriate money for that purpose we will gladly do it.

Supervisor Stanton: It seems to me that the matter of ruling this out of order is not altogether fair procedure. It is very evident, and a well known fact, that certain members of this Board of Supervisors are the Mayor's personal friends. It is also perfectly well known that the Mayor himself, sitting in that very pulpit there, pointed to me and said: "I will get you." And the Mayor or anybody else who

has made any such statement as that should not attempt to investigate anybody that he has made those statements against, and anybody who has made those statements is not going out and make an impartial investigation. Or is he going out to try and pass something onto a few people? I don't believe he is in a frame of mind to make a fair and impartial investigation. Therefore, this investigation should, at least, not be by a member of the Board of Supervisors or by the Mayor, and not particularly by somebody who right from that rostrum has made the statement that there are certain members of this Board of Supervisors that he is going to get. It should be made by some impartial person or body.

Supervisor Schmidt: It has already been in my mind that this Board could authorize that if any of these agencies mentoned, the District Attorney or the Grand Jury, that this Board could authorize the Finance Committee to give them any funds they so desired. Now, I am making a motion that the Finance Committee be authorized, if request is made from the Grand Jury or the District Attorney, so that no loss of time will be had in the investigation, that we, the Board of Supervisors, recommend this motion be passed, and you be allowed to give them any funds to carry this investigation to completion.

The Chairman: Well, don't you appreciate that we meet every Monday, and between now and the next meeting of this Board, if any request is made to the Finance Committee, and the Finance Committee will ask the Board, I am sure that the Board will act upon it in plenty of time. I don't see what you accomplish by asking for any appropriation of funds for the Grand Jury or District Attorney or anybody else now. We have the machinery and if there is any call it can be done without the loss of any time.

Supervisor Havenner: If the Board wants an investigation it should call on the body it wants to make the investigation. I will move then that the District Attorney be requested to investigate these rumors in the public press, at the instigation of the Mayor, and that he call upon the Mayor if there are any additional funds required.

Supervisor Marks: Second the motion.

Supervisor McSheehy: My name was the only one mentioned in this article: I would like to see this bridge question investigated, I would certainly like to see that investigated. I suppose the mover of the motion has no objection to including that?

Supervisor Havenner: You can make it as large as you please, the scope of the investigation.

Supervisor McSheehy: That he be asked to investigate the rumors as made by the Mayor, and made by this newspaper—I don't know what paper it is, what paper is it?

The Clerk: The Daily News.

Supervisor Roncovieri: Why not the Grand Jury also? It is the proper body.

Supervisor Todd: The District Attorney's office handles all of those things, and if he thinks, after his investigation, that it warrants, it goes to the Grand Jury.

Supervisor Roncovieri: I move to amend the motion by adding to it "the Grand Jury". The Grand Jury is the inquisitorial power, with the right to call any citizen before it. The Grand Jury, consisting of nineteen persons, nineteen citizens, has the right to call anybody before it that it desires in its investigations. It is the inquisitorial body of the government and is the proper one to handle a matter of this kind. The District Attorney is a single individual, and he might have certain friends and might want to whitewash some of his personal friends. Let's have the Grand Jury investigate these rumors and investigate the Mayor and everybody else concerned.

The Chairman: Is there any second to Mr. Roncovieri's amendment?

Supervisor Roncovieri: How does it read?

The Clerk: The memorandum I have, that Supervisor Havenner has moved that the District Attorney be directed to investigate these

rumors in the public press and that he call upon the Board of Supervisors if any funds are necessary.

Supervisor Havenner: The District Attorney and the Grand Jury.

Supervisor Roncovieri: At the earliest possible moment.

Supervisor McSheehy: And the words "rumors" should be "all rumors".

(The Board then took up the matter of the sealed proposal for lighting the public streets and public buildings and parks.)

After the transaction of other business, the following proceedings were had:

(Supervisor Havenner acted as Chairman).

The Clerk (reading):

"San Francisco, Calif., May 28, 1928.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, California.

Gentlemen: Please furnish me as soon as convenient with a full transcript of all proceedings today in connection with the re-zoning of Judah Street and all associated matters.

Please have read into the record the accompanying editorial of The San Francisco News: 'Use the Veto, Mr. Mayor.'

In view of the editorial of The San Francisco News this afternoon, I think this editorial might just as well be included in the transcript of proceedings today.

Very respectfully,

JAMES ROLPH, JR., Mayor."

Supervisor Roncovieri: Will you read that again? I didn't get that.

(The Clerk re-read the letter).

Supervisor Roncovieri: I move that every member of the Board be furnished with the same transcript.

Supervisor Gallagher: Those that want them. I want one. I move that the request be complied with and that those who desire the transcript procure them from the Clerk.

Supervisor Stanton: I want one.

The Chairman: You want this editorial that he sends here?

Supervisor Gallagher: The editorial was already read.

The Clerk: Not this one.

Supervisor Roncovieri: I am going to move also that a copy of the transcript be sent to all the newspaper editors and to the Grand Jury.

The Chairman: So ordered.

The Clerk: Under date of May 19th in the San Francisco News, the title "Use the Veto, Mr. Mayor.

"The Mayor should veto the ordinance re-zoning Judah Street from 10th to 25th Avenue for commercial purposes.

"Judah Street is not needed as a business street. One block north Irving Street has for years been in the commercial zone. It has not reached its limit of development. The limit will not be reached for many years. It offers sufficient space for the building of stores which would serve the same district that stores on Judah Street would serve.

"As a matter of public convenience, the re-zoning is not needed. As a means of allowing property owners on Judah Street to realize higher prices for real estate, the re-zoning defeats the purpose of the zoning law and makes of that law a thing to be juggled at will by people desiring to make money.

"Owners of property on Judah Street may anticipate higher values. They have nothing to lose and everything to gain. On the other hand, property owners on Irving Street have vested rights which should be protected. They bought and built without suspicion that owners on a parallel street a block away soon would obtain the same privilege, but without the same justification.

"The argument that business should follow a car line, advanced in behalf of Judah Street, is not sound. Even with the widening of Judah Street auto and street car traffic with necessary parking to permit stopping, will present a traffic problem and traffic hazards with which San Francisco should be so familiar that another experiment of the kind in

a district where we may plan 'from the ground up' should not be attempted. So close was the vote on the Board of Supervisors—10 in favor of the re-zoning, 6 opposed, with one not voting and one absent—that the ordinance could not be passed over the veto."

Supervisor Roncovieri: I would like also to ask that the District Attorney be furnished with one of those transcripts.

The Chairman: Any objection? (Dropping the gavel). So ordered.

Hearing of Appeal, Geneva Avenue.

Hearing of appeal from action of Board of Public Works in overruling the objections of property owners against improvement of Geneva avenue between Delano avenue and San Jose avenue.

No objection being offered, the following was presented:

Denying Appeal of Property Owners, Geneva Avenue.

Supervisor Gallagher presented: Resolution No. 29065 (New Series), as follows:

Resolved, That the appeal of the property owners from the action and decision of the Board of Public Works in overruling the objections of property owners against the improvement of Geneva avenue between Delano avenue and the easterly line of San Jose avenue be and the same is hereby denied and the work ordered.

Adopted by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—16.

Absent — Supervisors Colman, Toner—2.

Passed for Printing.

Whereupon, the following bill was *passed for printing*:

Bill No. 8567, Ordinance No. —— (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors May 9, 1928, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of 1918 of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

That said Board of Supervisors, pursuant to the provisions of Part II of the said Street Improvement Ordinance of 1918 of said City and County of San Francisco does hereby determine and declare that the assessment to be imposed for the said contemplated improvements respectively, may be paid in twenty installments; that the period of time after the payment of the first installment when each of the succeeding installments must be paid is to be six months from the time of the payment of the preceding installment, and that the rate of interest to be charged on all deferred payments shall be seven per centum per annum.

The improvement of Geneva avenue between Delano avenue and the easterly line of San Jose avenue, by grading to official line and grade; by the construction of concrete curbs; by the construction of an 8-inch ironstone pipe sewer with Y branches, side sewers and brick manholes along the center line of Geneva avenue from a point 20 feet easterly from San Jose avenue to the westerly line of Delano avenue, and by the construction of an asphaltic concrete pavement, consisting of a 6-inch concrete foundation and a 1½-inch asphaltic concrete wearing surface, on the roadway thereof.

Section 2. This ordinance shall take effect immediately.

Action Deferred.

The following hearing was *continued one week*:

Hearing of Appeal, Treat Avenue.

Hearing of appeal from assessment for the improvement of Treat avenue between Sixteenth street and Seventeenth street.

PRESENTATION OF PROPOSALS.

Lighting Public Streets, Buildings and Parks.

A sealed proposal from the Pacific Gas and Electric Company for lighting public streets, public buildings and parks with gas and electricity and for furnishing heat, light and power to the City and County of San Francisco for the year ending June 30, 1929, was received and

opened between the hours of 2 and 3 p. m. this date.

Referred to Committee on Lighting, Water Service, Telephone Service and Electricity.

SPECIAL ORDER, 11 A. M.

Relative to War Memorial Opera House.

Consideration of approval of resolution approving seating capacity of proposed Opera House as recommended by War Memorial Trustees.

Privilege of the Floor.

John S. Drum, Mr. Lansburgh, architect, and *Mr. Kilsby*, War Memorial Trustee, were granted the privilege of the floor and addressed the Board relative to the necessity of determining on a seating capacity of the proposed War Memorial Opera House that will not interfere with its acoustical properties and thus render the building unsuitable for the purposes of its construction.

Mr. Boyd, Chairman of the War Memorial Committee of the United Veterans Council, said the veterans' organizations have no opinion to express regarding the capacity of the Opera House.

Adopted.

Whereupon, the following resolution was *adopted*:

Seating Capacity of Opera House Approved.

Supervisor McSheehy presented:

Resolution No. 29069 (New Series), as follows:

Resolved, That the recommendation of the War Memorial trustees, that the proposed Opera House to be erected as part of the War Memorial group of buildings shall have a seating capacity of thirty-five hundred, is hereby approved.

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, Marks, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—16.

Absent — Supervisors Colman, Toner—2.

RECESS.

Whereupon, the Board at the hour of 12:55 p. m. took a recess until 2:30 p. m.

J. S. DUNNIGAN,
Clerk.

REASSEMBLED.

The Board of Supervisors reassembled at 2:30 p. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—16.

Absent — Supervisors Colman, Toner—2.

Quorum present.

His Honor Mayor Rolph being absent, Supervisor Havenner was elected to preside.

Hearing of Protests Against Assessment for Islais Creek Reclamation Project.

Supervisor Gallagher: I move that we proceed with the Islais Creek matter.

The Chairman: Are you ready to proceed with the hearing of protests against the assessment for Islais Creek Reclamation Project?

Mr. Savage: At the last hearing I concluded the taking of testimony. I understand that Colonel Wright wishes to produce some testimony, after which I desire to address the Board in argument.

(At this point the hearing on the Islais Creek Reclamation matter was interrupted by a discussion on investigation of rumors.)

Supervisor Gallagher: I move that Colonel Wright be given the floor.

The Chairman: Colonel Wright has the floor in Islais Creek Reclamation matters.

Colonel Allen G. Wright: The Islais Creek Reclamation District, in connection with the protest now before the Board, wrote the Board a letter of information on April 14, 1928, and I should like to commence the presentation of the case from the viewpoint of the district by having that letter read to the Board at this time.

(Whereupon, the letter to the Board from the Islais Creek Reclamation District was read to the Board by the Clerk.)

Colonel Wright: I would now like to call on Chief O'Shaughnessy.

M. M. O'Shaughnessy, City Engineer, was duly sworn.

Colonel Wright: Q. You are the City Engineer? A. I am.

Q. You are one of the trustees of the Islais Creek Reclamation District? A. I am.

Q. Will you give to the Board, briefly, a statement of what the proposed works of reclamation will consist and of the benefit to the public and property which will come from this reclamation work?

Supervisor Gallagher: What was that question?

(Question read.)

A. The proposal is to fill 280 acres of land in the Islais Creek Basin, which is a mud or tidal basin, the tides flow in and out of

there now. The general level of this basin is eight or ten feet below the street grades. The improvement will consist of two elements, the first making a wall on the north side of Islais Creek from the Third Street Bridge westerly of the Southern Pacific Railroad tracks, then placing mud or earth in behind this wall to fill in the land west of the Southern Pacific tracks down as far as Oakdale avenue on the south and San Antonio road on the west.

At the present time that hole is in a very unsanitary condition, because in days gone by the pest house was down in it, and all this filth is still in it, and from a sanitation point as well as from an economical point of view it is very important that this be done.

As you know the harbor extension from Third street to Evans avenue is already in use, and every foot of that space is occupied by docks and wharves. The State Harbor Board cannot extend a rail extension south of Channel street. We are now working with them to make a large bridge across Channel street which will carry locomotives and cars. At the present time there is a bridge across the street there which carries street cars, which weigh about thirty tons, but the plan is to make a bridge which will carry locomotives weighing 150 tons or more, and then extend The Embarcadero down along Illinois street as far as this basin. As I told you, every inch of space in control of the Harbor Board is taken up, and the Harbor Board also owns land which is in process of reclamation.

The filling in of this spot remedies and does away with a nuisance in the very heart of our City.

Is that all you wanted, Mr. Wright?

Colonel Wright: That is all.

Supervisor Gallagher: May I ask a question, Mr. Wright?

Colonel Wright: Yes.

Supervisor Gallagher: Q. In the matter of the assessments on these properties named in these protests, are you familiar with any of the details of them? A. I am.

Q. As to the properties involved, or rather three, one of whose case has not been presented, do you think the assessment apportioned upon them should be the same as the others in the district? A. Absolutely.

Q. Were they assured before they gave their consent to this project that their share, their price, would be somewhere in the neighborhood of two or three cents per square foot for their property? A. No, no guarantee was given to any proponents or opponents as to the price, because we didn't know what it would cost.

Q. Do you think that the assessments in all cases are commensurate with the benefits which will accrue to the property? A. I believe they are absolutely fair, Mr. Supervisor.

Supervisor Gallagher: I think that is all.

Colonel Wright: I would now like to have the Clerk read a letter to the Board from the District, under date of May 23d.

(Whereupon, the Clerk read a letter from the Reclamation District to the Board under date of May 23, 1928.)

Colonel Wright: That is all we have to present on behalf of the District.

Supervisor Gallagher: You are through presenting your witnesses?

Colonel Wright: Yes.

Supervisor Gallagher: Mr. Savage, I would like to ask Mr. Taaffe a few questions.

Mr. Savage: Mr. Taaffe, will you please come forward again.

Edward Taaffe recalled.

Supervisor Gallagher: Q. At any time or any place where your approval or disapproval, or that of your people, was asked for the proceedings preliminary to this reclamation, and at any time or place or by any officials was a price indicated for your assessment or named to you and if so what? A. At no time in the history of the making of this Islais Creek Reclamation District were we invited to attend any meeting or any hearing, nor were we at any time during the course of these proceedings ever invited by writing or telephone or any other way. The only knowledge I had or my firm had of this Islais Creek proposition going over was the publication in The Bulletin that I saw and immediately filed a protest. I rang up the City Engineer's office and asked him what he thought the assessment would be and he said about two cents a foot. Several days later he called up and said he thought they had made a mistake. Is that what you wanted?

Q. You say that prior to this assessment coming up you talked with no public official with reference to your assessment. A. No.

Q. You had no knowledge of what it might be? A. No.

Q. You say you were never called in, incidentally to these proceed-

ings, in any way, shape or form? A. Yes, sir.

Q. You say you found out only through a newspaper publication? A. Yes.

Q. I had understood that some of you people had been given a guarantee, or there had been indicated to you a very small price per foot that you would pay? A. No.

Supervisor Gallagher: That is all. I would suggest that these gentlemen be allowed to refresh themselves and come back next Monday morning prepared to present their cases before the Board.

Mr. Wright: Very well.

Mr. Savage: I wish to say that if the Board would give us the time today we would be very pleased to do it.

Supervisor Gallagher: I would like very much to give you the time, but the Board is in a very complex situation, and I think that you would get more leg-room, so to speak, in your argument, if you would let your argument go until eleven o'clock.

Motion.

I move that the further hearing or consideration of protests against the assessment for the Islais Creek Reclamation Project be continued until Monday, June 4, at eleven a. m. I make that as a motion.

The Chairman: Is there any objection? There being no objection, it is so ordered.

SPECIAL ORDER—3 P. M.

Mayor to Enter Into Agreement With Southern Pacific Company, Bernal Cut.

Action Deferred.

Supervisor Gallagher moved that following matter be continued until June 4, 1928, and made a Special Order for 11 a. m.:

Resolution No. ——— (New Series), as follows:

Resolved, That the Mayor is herebe authorized to enter into agreements with the Southern Pacific Railway Company, terms and conditions as follows:

This agreement, made this —— day of ————, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

The parties hereto entered into a certain agreement dated March 23, 1914, relating to rights of way through Bernal Cut, in the City and County of San Francisco, and also entered into a certain agreement of even date herewith modifying and changing said agreement of March 23, 1914, and enlarging the plan of construction of rights of way, tracks and a public street or roadway through said Bernal Cut.

In connection with said work it will be necessary that the Southern Company remove its existing team track near Bosworth street, in said City and County of San Francisco, from the southeasterly side of its track to the northwesterly side of proposed location of its main track through Bernal Cut.

Said agreement of March 23, 1914, provided, among other things, that Southern Company would convey certain land to the City, which land was conveyed pursuant to said agreement by deed dated March 23, 1914. Said deed contained a reservation on behalf of Southern Company to use a certain strip of land 8½ feet wide and a certain strip of land 13½ feet wide, both of which are hereinafter described. In the event that the agreement of even date herewith is carried out the City desires that Southern Company quitclaim to the City all of its right, title and interest in and to said strip of land covered by said reservation above mentioned.

The parties hereto desire to set forth their understandings and agreements relative to the matters hereinabove mentioned.

Agreement:

Now, therefore, in consideration of the mutual and dependent promises of the parties hereto, it is hereby agreed as follows, to-wit:

First: That the City will pay to Southern Pacific Company the entire cost, plus ten (10) per cent of all labor, to cover supervision of removing said existing team track and replacing and reconstructing said team track in kind and in good condition upon the property hereinafter described, to be acquired by the City and conveyed to the Southern Pacific Railroad Company.

Concurrently with the delivery to it by the City of the deed hereinafter specified the Southern Company will deliver to the City a quitclaim deed conveying all the right, title and interest of the Southern Company in and to those certain parcels of land described as follows, being those certain strips of land 8½ feet in width and 13½ feet in

width, respectively, covered by said reservation contained in said deed dated March 23, 1914, to-wit:

All those certain strips of land situate, lying and being in the City and County of San Francisco, State of California, more particularly described as follows:

Parcel 1: A strip of land 8.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles and radially southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno Branch, between Engineer's Station 78+48.5 and 92+40.

Parcel 2: A strip of land 13.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno branch, between Engineer's Station 92+40 and 101+20.

The above described parcels of land being the same property as reserved in part III, page 3, of that certain deed dated March 23, 1914, between Southern Pacific Railroad Company, Southern Pacific Company and the City and County of San Francisco.

The City hereby covenants and agrees to acquire and convey to Southern Pacific Railroad Company, without cost to Southern Company, by good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear of all encumbrances, to that certain parcel of land described as follows, to-wit:

That certain piece or parcel of land situate, lying and being in the City and County of San Francisco, State of California, more particularly described as follows:

Beginning at the point of intersection of the southwesterly line of Roanoke street with the southeasterly line of Arlington street; thence along said southeasterly line of Arlington street south 47 deg. 16 min. 17 sec. west a distance of 663.843 feet to a point; thence south 30 deg. 41 min. .09 sec. east a distance of 22.104 feet to a point, said point being distant radially 58.77 feet northwesterly from the original center line of the Southern Pacific Railroad Company's right of way; thence in a northeasterly direction on the arc of a curve, concave to the left, having a radius of 5670.826 feet (the tangent to said curve at last mentioned point bears north 58 deg. 57 min. 20 sec. east) an arc distance of 675.82 feet to a point on said southwesterly line of Roanoke street (last described arc course is concentric with and distant northwesterly and radially 58.77 feet from said original center line of the Southern Pacific Railroad Company's right of way); thence north 42 deg. 43 min. 43 sec. west along said southwesterly line of Roanoke street a distance of 118.768 feet to the point of beginning and containing an area of 51401 square feet (equals 1.180 acres), more or less.

Upon delivery of the conveyance by the City mentioned in the last preceding paragraph of this agreement, and upon completion of the work of grading, to be done by the City as provided in said agreement of even date herewith, the Southern Company will, simultaneously with the shifting of the location of its main track, as provided in said agreement of even date herewith, remove its said existing team track from its present location and construct said team track as aforesaid upon said property above described, to be conveyed by the City to Southern Pacific Railroad Company.

This agreement is subject to the approval of the Railroad Commission of the State of California, and if not approved by said Railroad Commission it shall be of no force or effect.

In witness whereof, the parties hereto have executed this agreement in quadruplicate the day and year first hereinabove written.

This agreement, made this——— day of———————, 1928, between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of

San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

Under the terms of an agreement entered into on the 23rd day of March, 1914, and subsequent deed bearing even date therewith, recorded June 16, 1914, in Vol. 794 of Deeds, pages 276 and following, the City acquired, for street purposes, a portion of the railroad right of way of the Southern Company through the so-called Bernal Cut, in said City and County of San Francisco, being the easterly portion of said right of way from the westerly line of Dolores street produced, to the center line of San Jose avenue produced, near Diamond street.

It was stipulated in said agreement that the Southern Company shall grade the strip of land described in section 1 thereof, so as to provide a uniform roadway for the proposed street at least forty (40) feet in width or thirty-five (35) feet, according to the width of said strip, according to the directions and under the supervision of the City Engineer of the City, and said City shall cooperate in such work to the extent of removing encroachments and also by the erection of retaining walls wherever necessary along the line of said grading; and Southern Company agreed to deposit the material excavated as aforesaid upon such portions of the land described in said agreement and deed as may be indicated by said City Engineer, and to entirely remove all surplus material; said grading and filling to be at the expense of Southern Company. It was further understood and agreed and so provided in said agreement that the construction of retaining walls along said grading and the paving of the roadway upon said strip of land shall be at the cost and expense of the City and without cost to the Southern Company.

The City now desires to acquire additional rights of way in said Bernal Cut for the purpose of constructing a better roadway than at first contemplated and offering better facilities for the construction of its double-track street railroad adjacent to the northerly and westerly line of the land conveyed to the City for street purposes by the hereinbefore mentioned deed. Such construction would be facilitated by the railroad of the Southern Company being moved northerly and westerly not exceeding 31.27 feet.

The parties hereto desire to set forth their agreement as to their rights and obligations in connection with acquisition and exchange of certain parcels of land to provide additional rights of way for each of the parties hereto, reconstruction of the railroad and appurtenances of Southern Company, construction of the municipal railway and the proposed street, and other matters in relation thereto.

Agreement:

Now, therefore, in consideration of the premises, it is hereby mutually agreed as follows, to-wit:

ARTICLE I.

1. The location plan, showing the changes proposed and the parcels of land to be acquired and exchanged by and between the parties hereto, for the purpose of carrying out the plans of the parties hereto as hereinafter set forth, is shown on the attached copy of Southern Pacific Company's Drawing entitled, "Proposed Improvements in Bernal Cut, San Francisco," and numbered M W D Drawing 5806, Sheet 2, which is hereby made a part hereof.

2. Southern Company hereby agrees to execute and place in escrow a conveyance to said City of all of Southern Company's right, title and interest in and to that certain portion of Southern Company's right of way in the City and County of San Francisco, State of California, particularly described as follows, to-wit:

A strip of land 32.77 feet in width lying between the southerly line of Randall street and the center line of San Jose avenue (near Diamond street), said strip being bounded and described as follows:

Bounded on the northeast by the southerly line of Randall street; on the west and northwest by a line drawn parallel or concentric with and uniformly distant 22.77 feet westerly and northwesterly, measured radially or at right angles from the original center line of the main track of the Southern Pacific Railroad Company's branch line between San Francisco and Colma; on the southwest by the center line of San Jose avenue (near Diamond street) and on the southeast and east by a line drawn parallel or concentric with and uniformly distant 10.00 feet southeasterly and easterly, measured radially or at right angles from said original center line of the Southern Pacific Railroad Company's branch line, said line coinciding with the northerly and westerly boundary line of the strip of land heretofore conveyed to the City and County of San Fran-

cisco by Southern Pacific Railroad Company and Southern Pacific Company by deed dated March 23, 1914.

Also a triangular shaped parcel of land, described as follows:

Beginning at a point in the westerly line of Dolores street, distant 100.00 feet northerly from the northerly line of Randall street; thence southerly along said westerly line of Dolores street and its prolongation a distance of 150.00 feet, more or less, to the southerly line of Randall street; thence westerly along said southerly line of Randall street a distance of 22.50 feet, more or less, to a point; thence in a northeasterly direction on a direct line to the point of beginning.

Said parcel of land above described are more particularly shown tinted in pink on said Drawing No. 5806, Sheet 2.

Said conveyance shall contain and be subject to the following express covenants, reservations and exceptions, to-wit:

(a) "Reserving nevertheless to the first parties (Southern Pacific Railroad Company and Southern Pacific Company), their successors and assigns, the right to use the northwesterly eighteen (18) inches in width of said strip of land 32.77 feet in width for the erection and maintenance of poles, wires, and any and all other necessary appliances, appendages and adjuncts, in the event that said first parties, their successors and assigns, should at any time operate their railroad by electricity, it being expressly understood and agreed, however, that first parties, their successors or assigns, may, instead of erecting and maintaining said poles, wires, appliances, appendages and adjuncts upon and along said eighteen (18) inch strip herein described, at their option fasten their wires, fixtures, appliances and appurtenances to any poles erected by second party along or near the northwesterly boundary line of said strip of land whenever the first parties, their successors and assigns, operate their said railroad by electricity and such right is hereby granted by second party to first parties; but in the event that said first parties do attach their wires to any poles erected by the second party, as aforesaid, then said first parties shall pay to second party one-half (½) of the then value of said poles so used, at the time the attachments are made by said first parties, and upon receipt of such payment second party shall execute and deliver to Southern Pacific Railroad Company a bill of sale conveying an undivided one-half (½) interest in said poles to Southern Pacific Railroad Company. First parties shall thereafter pay one-half (½) of the cost of maintaining said poles so used, as aforesaid, from time to time as such costs are incurred and bills rendered by second party."

(b) "Excepting and reserving unto said first parties all of those certain rights reserved by the Southern Pacific Railroad Company and Southern Pacific Company for themselves, their successors and assigns, in that certain deed dated December 5, 1898, from said companies to said City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco, also those certain rights reserved by Southern Pacific Railroad Company in that certain deed from said Southern Pacific Railroad Company to said City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco."

(c) "The foregoing conveyance is subject to all the terms, conditions, restrictions and reservations contained in that certain deed, dated October 5, 1863, from H. G. Livermore et al. to the San Francisco and San Jose Railroad Company, recorded October 6, 1863, in Book 215 of Deeds, at page 276, and subject to the rights of any and all industries located upon or adjacent to said right of way between St. Mary's avenue and Bosworth street, and subject to first parties' right to maintain such spur, team or station tracks as may be required to be maintained under any subsisting agreement, recorded or otherwise, or deed, or by law. The Southern Company hereby reserves the right to maintain and operate existing industrial spur tracks upon the land hereinabove described and to maintain and operate such spur tracks in such new locations to which any of said spurs may be moved, as hereinafter provided. The City covenants and agrees that if it is necessary to reconstruct or change the location of any or all of said existing industrial spur tracks by reason of or in connection with the use of said land by the City, the City will pay the entire cost of the work of reconstruction and relocation of said tracks, including paving, and the cost and construction of crossings of said tracks by the municipal railway, if any. Nothing herein contained shall in anywise impair the right of the

first parties to use, for railroad purposes, the remaining portion of their right of way adjoining the strip of land hereinabove described on the northwest, or in anywise prejudice their rights therein or thereto."

The above mentioned conveyance shall be executed by Southern Company and placed in escrow with the California Pacific Title & Trust Company of San Francisco, California, if and when this agreement has been approved by the Railroad Commission of the State of California, to be delivered to the City when the City shall have (a) acquired the lands described in Section 1 of Article II hereof and executed and delivered to the above mentioned escrowee for account of Southern Pacific Railroad Company the conveyances to Southern Pacific Railroad Company specified in said Section 1, Article II, and (b) performed, or caused to be performed, all of the construction and reconstruction work by it to be performed or contracted for, as provided in Article II hereof.

ARTICLE II.

1. In consideration of the covenants herein agreed to be performed by the Southern Company, and without further consideration or payment, the City shall at its own expense acquire and convey or cause to be conveyed to Southern Pacific Railroad Company, by a good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear of all encumbrances to (1) a strip of land along and adjacent to the northerly and westerly boundary line of Southern Company's right of way between Randall and Diamond streets, in the City and County of San Francisco, State of California, sufficient in width, and which, together with that portion of the Southern Company's existing right of way which will remain after the conveyance to the City of the portion heretofore described, will provide a right of way sufficient in width so that a standard gauge double track railroad may be constructed for Southern Company, and so that clearances not less than those prescribed by the Railroad Commission of the State of California shall be provided; (2) strips of land sufficient in width and adjoining the additional right of way for the proposed location of the proposed double track railroad of the Southern Company, to provide a sufficient area for proper slopes, not exceeding 1¼ horizontal to one vertical in the cuts and not less than two horizontal to one vertical in the fills; provided, however, that in lieu of providing such additional land for slopes, the City may construct at its sole cost and expense adequate concrete or masonry retaining walls to provide for the full and unobstructed use of land of sufficient width to permit of the construction and operation of said standard gauge double track railroad, with clearances not less than those prescribed by said Railroad Commission, and at the grade of the Southern Company's now existing track between Randall and Diamond streets, unless a different grade is agreed to by Southern Company. The land required for said right of way for said proposed double track railroad is shown tinted in green and the land required for said slopes is shown tinted in purple upon said drawing MWD 5806, Sheet 2.

2. In the event that it shall be necessary or advisable for the City to institute condemnation proceedings to acquire any land which is to be acquired in order to comply with the terms of this agreement, and to be conveyed to the Southern Pacific Railroad Company, such proceedings may be had in the name of Southern Company, or either of them, but the City shall pay all expense thereof and all judgments and costs therein and hold Southern Company harmless therefrom.

3. The City shall, at its own expense, make all necessary excavations and construct embankments and waterways, and, if deemed necessary by Southern Company, retaining walls to support slopes on the existing right of way of Southern Company, and the said land to be acquired for the Southern Company, as hereinabove provided, so as to provide for the construction of the said double track railroad of the Southern Company, as aforesaid, and at the grade specified in Section 1 of this Article II, unless a different grade is agreed to by Southern Company, and the City shall also pay the cost, plus ten (10) per cent of all labor to cover supervision, of moving Southern Company's existing single track rails, ties, ballast and appurtenances to such new position, not exceeding 31.27 feet northerly and westerly of the present location, and the cost, plus ten (10) per cent of all labor to cover supervision, of placing Southern Company's single track in such new location in at least as good condition as the existing track was at the time of being so moved, it being understood that the Southern Company will furnish all necessary

ties which, in its judgment, are required to replace those unfit for further service.

4. The City shall, at its own expense, remove and reconstruct Southern Company's present telephone, telegraph and signal lines and the poles and fixtures thereof to such new position upon and along said relocated railroad line and right of way as may be required by Southern Company.

5. The City shall, at its own cost and expense, reconstruct and thereafter maintain, at clearances not less than those prescribed by the Railroad Commission of the State of California, all bridges or other structures and foundations and appurtenances of same (including the subway at Bosworth street) located between and at Randall and Diamond streets so that the double track railroad of Southern Company may be constructed and operated without further change in said bridges, structures or appurtenances, and, in order to accomplish such works, the City shall be granted the right to the use of any land to be conveyed by the City hereunder to Southern Pacific Railroad Company, for the purpose of erecting thereon any portion of the above-mentioned structures or appurtenances thereto that may be necessary; provided, however, that the plans for any such bridges and structures and appurtenances shall be subject to the approval of the Southern Company and of the Railroad Commission of the State of California. It is also agreed that the City shall have the right to construct and maintain at its sole cost and expense drainage constructions of such character as may be required, to be placed upon or beneath the lands to be conveyed hereunder by the City to Southern Pacific Railroad Company; provided, however, that such drainage constructions meet with the approval of Southern Company and will in no way interfere with Southern Company's operations.

6. The City shall include in the contracts which it is to let for the grading work to be performed by it under this contract, the grading work provided to be done at the expense of Southern Company in said agreement of March 23, 1914, and Southern Company shall have the right of access at all reasonable times to the books, accounts, contracts, records and papers relating to said work, for the purpose of checking the bill or bills rendered by the City to Southern Company for the cost of said work. The Southern Company shall reimburse the City in full for all of the yardage removed or excavated and graded at the contract price or rate covering the work included in said contract for the account of the Southern Company. All of the work herein provided for to be done by the City shall be in substantial conformity with the City's Cross Section plan or map entitled "Bernal Cut," numbered A-7328, hereto attached and made a part hereof.

7. It is understood and agreed that the City may enter upon said land above described for the purpose of carrying out and complying with the terms and conditions of this contract as soon as this contract becomes effective.

8. All the expenses in connection with the construction of the future second track of said Southern Company's railroad, which the Southern Company may construct now or in the future at its option, except the work herein provided to be done by and at the sole cost and expense of the City, shall be borne by the Southern Company, as this is a facility in addition to its present trackage.

9. All work required to be done by and at the expense of the City hereunder upon or affecting the property and operations of Southern Company shall be performed by it in a good and workmanlike manner to the satisfaction of the Southern Company, according to plans approved by Southern Company or such lawful authority as may have jurisdiction in the premises, and at such times and in such manner as to interfere as little as possible with the operations of Southern Company.

10. It is expressly understood and agreed that all expense of paving and otherwise improving the roadway and constructing the municipal railway and appurtenances upon the roadway upon said strip of land 32.77 feet in width, hereinabove referred to, and upon the land heretofore conveyed by the Southern Company to the City by said deed dated March 23, 1914, recorded in Volume 794 of Deeds, at pages 276 and following, County Records of the City and County of San Francisco (except the grading and filling work as herein otherwise provided for in the previous agreement) shall be borne by the City; and in the event that any improvements upon said roadway should be done upon the local assessment plan, then and in that event the City shall pay out of its treasury any and all assessments therefor levied upon or assessed against any rights, properties or franchises of

Southern Company, or either of them.

ARTICLE III.

1. It is understood and agreed that the City shall have the right to construct its municipal street railroad beneath either one of the bridges carrying the railroad of the Southern Company over Thirtieth street or over Day street, and that the City shall, at its own sole cost and expense, provide the necessary clearances therefor under said bridge. The plans for said crossing and any necessary changes in the said bridge shall be subject to the approval of the Railroad Commission of the State of California. The City, subject to the approval of the Railroad Commission of the State of California, shall have the right to construct its municipal street railroad at grade across the track or tracks of Southern Company's railroad at or near the intersection of San Jose avenue and Diamond street, subject to the terms and conditions of an agreement to be executed by the parties hereto establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings; and if the parties are unable to agree upon such terms and conditions, then upon such terms and conditions as may be prescribed by said Railroad Commission. Such crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the City. The expense of maintaining said crossings and any and all such protective device or devices, except interlocking plant, after completion, shall be borne solely by said City, but the expense of maintenance and operation of interlocking plant, if any, shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

2. The Southern Company shall likewise have the right, subject to the approval of said Railroad Commission, to construct a track or tracks at grade across the track or tracks of the municipal railway, subject to the terms and conditions of agreements in each case to be executed by the parties hereto, establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings, and if the parties hereto are unable to agree upon such terms and conditions, then subject to such terms and conditions as may be prescribed by said Railroad Commission. Such track crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the Southern Company. The expense of maintaining said crossings and such protective devices, except interlocking plants, after completion, shall be borne solely by Southern Company and the expense of maintenance and operation of interlocking plants shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

ARTICLE IV.

1. Nothing contained in this agreement shall affect the rights reserved by the Southern Pacific Railroad Company and/or Southern Pacific Company, for themselves and their successors and assigns, in that certain deed dated December 5, 1898, from the said companies to the City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco; and in that certain deed from the Southern Pacific Railroad Company to the City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco.

2. Said agreement dated March 23, 1914, hereinabove referred to, between the parties hereto, shall be and remain in full force and effect and shall not be affected hereby unless and until the City shall comply with said conditions of the escrow hereinabove set forth; but upon full compliance with the conditions of said escrow, then and in that event this agreement shall, in so far as it changes or modifies said agreement of March 23, 1914, supersede the same.

ARTICLE V.

The City hereby agrees to forever indemnify and hold Southern Company harmless from and against any and all claims, demands, liabilities and judgments, and loss, damage and injury resulting from any damages caused or claimed in the acquisition by said City of any of said lands, or occurring in or caused by or claimed to have been caused by any and all of the work covered by this agreement. In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as

in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as here in this paragraph provided.

ARTICLE VI.

1. This agreement shall not become effective and the parties hereto shall not be bound hereby unless and until it shall have been approved by the Railroad Commission of the State of California.

2. Time is of the essence of this agreement, and if this agreement is approved by said Railroad Commission and the City does not comply with and perform all the covenants and conditions hereof to be complied with and performed by it within said term of five (5) years, this agreement and any and all rights of the parties hereto hereunder shall forthwith upon the expiration of said term of five (5) years cease and determine as completely as if this agreement had never been made.

3. This agreement shall be binding upon and inure to the benefit of the successors and assigns of the respective parties hereto.

In witness whereof, the parties hereto have executed these presents in quadruple the day and year first hereinabove written.

City Attorney.

This agreement, made and entered into this ——— day of ———, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and Southern Pacific Company, its lessee, a corporation of the State of Kentucky, first parties (herein collectively called "Railroad Company"), and ———, second party (herein sometimes called "Contractor").

Witnesseth:

That, whereas, on the ——— day of ———, 1928, the Southern Pacific Railroad Company and Southern Pacific Company as first parties, and the City and County of San Francisco, California, as second party, entered into an agreement covering the exchange of certain parcels of land between the Railroad Company and the City and County of San Francisco, for rights of way through the so-called Bernal Cut in the said City and County of San Francisco, and covering, among other things, certain construction work more specifically set forth in said agreement dated the ——— day of ———, 1928; and

Whereas, said agreement, dated the ——— day of ———, 1928, contains the following provision:

"In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as herein this paragraph provided," and

Whereas, said City and County of San Francisco did, on the ——— day of ———, 19—, enter into a contract with contractor to do and perform certain work pursuant to a compliance with the terms of said agreement dated the ——— day of ———, 19—, above referred to:

Now, therefore, it is understood and agreed that the contractor shall, in advance of performing any work under said contract of the ——— day of ———, 19—, between said City and County of San Francisco and said contractor,

give to said Railroad Company a bond in the sum of twenty thousand (20,000) dollars, in form and of good and sufficient surety to be approved by the Assistant Treasurer of the Railroad Company, conditioned that the contractor will well and truly perform and fulfill all of the covenants, conditions, stipulations and obligations on his part in this agreement set forth and contained, to-wit:

In consideration of the Railroad Company permitting contractor to enter upon its property and perform said work, contractor agrees to indemnify and save Railroad Company harmless from and against any and all claims, loss, damage, injury and liability howsoever may be caused, resulting directly or indirectly from the performance of any or all work to be done upon Railroad Company's property, contemplated by said agreement dated ————, 19—, between said City and County of San Francisco and the said contractor; also from all claims, loss, damage, injury and liability howsoever same may be caused resulting directly or indirectly, made or suffered by said contractor, contractor's agents and/or employees while engaged in the performance of said work, whether caused by the negligence of Railroad Company in the operation of its railroad or otherwise.

Contractor expressly releases and discharges Railroad Company from all liability of whatsoever character for any and all personal injuries sustained by contractor while engaged in the performance of work to be done upon Railroad Company's property, whether caused by the negligence of Railroad Company in the operation of its railroad or otherwise, and whether resulting in death or otherwise.

Contractor expressly waives any and all claims arising from said death or injury to contractor.

The contractor agrees that the license hereby given him to enter upon the premises of the Railroad Company for the purpose of performing the work covered by said contract dated the ——— day of ————, 19—, between said City and County of San Francisco and said contractor, shall not give nor be deemed or construed to give said contractor a right to do or perform any work whatsoever at any time upon or in connection with the work covered by said contract dated the ——— day of ————, 19—, between said City and County of San Francisco and said contractor, that will render unsafe the use by said Railroad Company of its real estate, tracks, structures and other appurtenances now or hereafter existing, or weaken or injure the same for the operation of its trains, engines or cars or for its other purposes.

Contractor further agrees that should the Railroad Company deem it necessary to engage any inspectors, watchmen or flagmen, or do anything to protect its engines, trains or cars during the performance by said contractor of the work covered by said contract dated the ——— day of ————, 19—, between the said City and County of San Francisco and said contractor, then and in that event contractor agrees to fully reimburse Railroad Company promptly for all cost and expense of such inspectors, watchmen, flagmen and other expenses that may be incurred by said Railroad Company incident to or in connection with work contemplated to be performed by said contractor.

Contractor further agrees that upon completion of the work covered by said contract dated the ——— day of ————, 19—, between said City and County of San Francisco and said contractor, contractor will promptly remove from the premises of the Railroad Company all of contractor's tools, implements and other materials and leave said premises clean and presentable.

This agreement shall not be assigned, sublet or transferred in whole or in part by contractor, except with the previous written consent of Railroad Company.

Except as otherwise provided herein, the terms and conditions of this agreement shall inure to the benefit of and be binding upon the heirs, executors, administrators, successors and assigns of contractor and the successors and assigns of Railroad Company.

In witness whereof, the parties hereto have executed these presents in triplicate the day and year first hereinabove written.

City Attorney to Report on Franchises.

Supervisor Stanton moved that the foregoing agreement be referred to the City Attorney for his opinion, requesting that he make a thorough investigation as to whether or not the Southern Pacific Company has any valid franchise through the Mission District and that he advise the Board of Supervisors as to the effect of the agreement in validating the operation of the Southern Pacific Railroad through the Mission District where franchises may not now exist.

So ordered.

Water Main Installation Policy.

On recommendation of Streets Committee:

Resolution No. 29062 (New Series), as follows:

Whereas, miles of street work have been constructed under private contract in San Francisco and water mains have been omitted in the construction; and

Whereas, this condition results, first, in only conditional acceptance of said streets when finished according to specifications, and, second, necessitates the ripping up of said streets in the future and further disintegration of the surface of the pavement and its foundation; and

Whereas, the law under which said street work is done permits the Board of Public Works to speci-

fy that water mains shall be laid, and the size of same; and

Whereas, the people have recently voted bonds sufficient to purchase Spring Valley Water Company; and

Whereas, said company has heretofore announced its financial inability to install proper water mains in the streets of San Francisco; therefore, be it

Resolved, That this Board hereby declares for the policy of installation of water mains in all streets hereafter to be constructed in San Francisco, and requests the Board of Public Works to include same in the specifications; and be it further

Resolved, That wherever a water main of larger size than ordinarily used is necessitated, the City and County assist the property owners on any proposed street in the matter of the additional expense involved.

Adopted by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Stanton, Suhr—13.

Resolution of Intention to Establish Set-back Lines No. 178.

On recommendation of City Planning Committee:

Resolution No. 29064 (New Series), as follows:

Whereas, the City Planning Commission has recommended that setback lines be established along the streets hereinafter mentioned and as delineated upon maps accompanying said recommendations, to which reference is hereby made for further particulars; therefore, be it

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to establish set-back lines as provided by Ordinance No. 5636 (New Series), approved May 18, 1922, as follows:

Along the easterly side of Baker street, commencing at Jefferson street and running thence northerly 137½ feet, said set-back line to be 5 feet; thence northerly 35 feet 10½

inches, said set-back line to be 6 feet; thence northerly 36 feet, said set-back line to be 7 feet; thence northerly to Marina boulevard, said set-back line to be 9 feet.

Along both sides of Nineteenth avenue between Vicente street and Wawona street, said set-back lines to be 15 feet.

Along both sides of Nineteenth avenue between Wawona street and Sloat boulevard, said set-back lines to be 15 feet.

Absent — Supervisors Colman, Toner—2.

Invitation to Interstate and Foreign Commerce Committee to Visit San Francisco.

Supervisor Havenner presented:

Resolution No. 29066 (New Series), as follows:

Whereas, public opinion in San Francisco is solidly committed to the necessity of a bridge across the central portion of San Francisco Bay; and

Whereas, we, the duly elected representatives of the people of San Francisco, are convinced that the arguments against the construction of such a bridge will be dispelled in the minds of all fair-minded persons if they can make a first-hand inspection of San Francisco Bay and an investigation of the tremendous traffic problem centering here; therefore, be it

Resolved, That in the name of the people of San Francisco the Board of Supervisors hereby extends a very cordial and urgent invitation to the members of the Interstate and Foreign Commerce Committee of the House of Representatives to visit San Francisco during the present summer and to make an inspection of the bay and the bridge problem as our guests; be it further

Resolved, That copies of this resolution of invitation be transmitted immediately to the representatives of San Francisco in the House of Representatives and the Senate, and that they be requested to transmit copies of this invitation immediately to all of the members of the House Committee on Interstate and Foreign Commerce.

Adopted by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, Marks, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—16.

Entertainment Committee, Citizens' Military Training Camp.

Supervisor Kent presented:

Resolution No. 29068 (New Series), as follows:

Whereas, the United States Government has established the custom of annually holding citizens' military training camps for the purpose of inviting eligible young men and American citizens to become interested in the importance of military training and the teaching of self-discipline and obedience, and particularly to develop the physical standard of our American youth; and

Whereas, such camp is now being established for the present year at Del Monte, California, and Fort Winfield Scott, San Francisco, as well as in many of the other States,

inviting young men who are physically and morally eligible to take advantage of the opportunities extended to them; and

Whereas, it has become customary in many of the larger cities to tender to those enlisted for attendance at the camps some sort of entertainment before their embarcation to the camp, for the specific purpose of showing an interest and encouragement by the citizens of such worthy cause; therefore, be it

Resolved, That his Honor the Mayor be requested to apoint an appropriate committee to prepare a fitting entertainment or testimonial to those who may enlist in the membership in the citizens' military training camp, thereby expressing the approval of this Board of the great good that has been and is being done to our American youth at these camps by promoting their physical condition and moral conduct, constituting good citizenship.

Adopted by the following vote:

Opinion of City Attorney on Marina Food Terminal Ordinance.

May 28, 1928.

Honorable Board of Supervisors,
City Hall, San Francisco, Cal.

Dear Sirs:

On the 21st inst., you referred to me a letter addressed to you by the Marina District Improvement Association and kindred organizations of the Marina District, relative to the adoption by your Board of an ordinance preventing the establishment of commercial and industrial business along the Bay front west of Hyde street, and requested that I prepare appropriate ordinance to this end.

Until you advise me as to the exact character of ordinance which you desire prepared, it is impossible for me to submit to you any ordinance covering the subject. If it is your desire to prohibit the establishment of a food or freight terminal or warehouse in this particular district, and you desire to enact an ordinance less comprehensive than the one which I submitted to you on the 14th inst., it will be possible to prepare an ordinance which would prevent the establishment of wholesale food terminals, freight yards and warehouses within specified districts in the city, and should you desire to enact such legislation, if you would advise me as to the particular districts which you desire excepted, I will be pleased to prepare such an ordinance.

I am of the opinion that it will not be possible to prepare any ordinance which will prevent the establishment of all commercial and industrial business along the Bay front west of Hyde street where any of the property is not in the First or Second Residential Zones as provided in the Zoning Ordinance. It will lie within the power of your Board to place in the First or Second Residential Zone any property which may be utilized for residential purposes, but the placing in either of these zones of property which cannot be used for residential purposes will not be sustained by the courts. Under ordinary conditions property that is covered by water, unless the same might be filled in, cannot be utilized for residential purposes and, therefore, the placing of such property in a residential zone would be practically preventing it from being used by the owner and such zoning would be looked upon as unreasonable.

On the other hand, it will also lie within the power of your Board to modify the presenting Zoning Ordinance by changing the character of business which might be conducted in zones other than the so-called First and Second Residential. The prevention of the conduct of certain lines of business in certain zones might accomplish your purpose. Should you desire to rezone any portion of the property in question which is capable of rezoning or to change the provision of the ordinance which would prevent the establishment of certain lines of business in the already existing zone, it will be well for you to refer the matter to the City Planning Commission for study and investigation.

Sincerely yours,
JOHN J. O'TOOLE,
City Attorney.

On motion of Supervisor Stanton *read and filed and request made of City Attorney that he prepare new ordinance.*

Garage Construction Ordinance, Proposed Amendment.

Relative to Inspection of San Francisco Bay Bridge Project by Committee on Interstate and Foreign Commerce.

The following was read by the Clerk:

Honorable Board of Supervisors,
City Hall, San Francisco, California.

Dear Sirs:

I have been advised by my assistant, Mr. Chas. J. McDonnell, who was in Washington during the early part of last week, that when the invitation extended by your Board to the Committee on Interstate and Foreign Commerce of the House of Representatives to make a personal inspection of San Francisco Bay during the present summer was received by Mrs. Florence Kahn and Mr. Richard J. Welch, that most of the Committee had already left Washington. Mr. McDonnell, however, advises me that the secretary to Mr. Welch is to forward to me a list of the home addresses of the members of the Committee, and that it is the suggestion of Mr. Welch that the invitation of your Board be extended to these members at their home addresses.

Mr. McDonnell further advises me that he had the opportunity of conferring with Representative Cooper, the ranking member of the Committee, and Mr. Dennison, the chairman of the Subcommittee on Bridges, and both of them ex-

pressed a desire to visit San Francisco and make a personal inspection of the Bay during the summer, but neither could at this time fix a definite date for their visit.

I will be pleased to cooperate with your Board in any way to the end that the purpose of the resolution adopted on last Monday may be carried out.

Sincerely yours,

(Sgd) JNO J. O'TOOLE,
City Attorney.

Referred to Supervisor Havenner.

Fire Commission Expresses Thanks for Budget Consideration.

The following was read by the Clerk:

May 25, 1928.

To the Honorable the Finance Committee, Board of Supervisors. Attention Franck R. Havenner, Chairman.

Gentlemen:

At the last regular meeting of the Board of Fire Commisisoners, held on the 21st instant, I was directed to send a communication to your Honorable Committee expressing the appreciation of the Fire Commission for the constructive way in which this Department has been treated in the Budget for the Fiscal Year 1928-1929.

The additional men allowed will fill a much-needed want in the Department and permit of greater efficiency.

The appropriation made for the Fire Prevention Bureau is in line with similar work done in other large cities and the Board believes will be a big step towards the best possible way of fighting fires, namely, their prevention.

The new fire house at the Cliff House will be an attractive addition to that part of the city and will do away with the building that has been an "eye-sore" to the city for so many years.

Aside from the constructive manner in which the problems of the Department have been handled, the cooperative, progressive and friendly spirit in which your Committee received the various members of this Commission and its officers is also appreciated.

Assuring you of our cooperation at all times, we remain,

Very truly yours,

Board of Fire Commissioners,
By Frank T. Kennedy,
Secretary.

Read and made a part of the record.

Reply.

The Clerk was instructed to send the following reply:

June 2, 1928.

Board of Fire Commissioners, City Hall, San Francisco, California.

Gentlemen:

I am directed by the Finance Committee to acknowledge receipt of your letter under date of May 25, 1928, in which your Honorable Board expresses its appreciation for the constructive and generous manner in which the Fire Department has been treated in the Budget for the Fiscal Year 1928-29.

The receipt of such a letter from a City Department expressing its satisfaction and gratification of its budget allowance is unusual and refreshing.

The Finance Committee desires to thank the Fire Department for its expression of approval and its assurance of cooperation at all times.

Sincerely yours,

J. S. DUNNIGAN,
Clerk.

Addition to War Memorial Committee.

The following was read by the Clerk:

San Francisco, Cal.,
June 4, 1928.

Hon. Board of Supervisors, City Hall, San Francisco, California.

Gentlemen:

In consonance with your letter of May 22, 1928, and at the suggestion of the War Memorial Trustees, I hereby appoint Supervisors Franck R. Havenner and Jesse Colman to act with the War Memorial Trustees on the building of the Opera House and Soldiers' Building.

Respectfully,

JAMES ROLPH, JR.,
Mayor.

SPECIAL ORDER—11 A. M.

Hearing of protests against assessment for Islais Creek reclamation project.

Privilege of the Floor.

Theo. Savage, representing the Reinhart Company and William Taaffe & Company and others in the matter of protesting assessment levies on property in the Islais Creek Reclamation District, declared that all his evidence was in, and thereupon made his argument as to the justification of protests against assessment levied on his clients.

Wm. Taaffe, protestant, was also heard in the pending matter.

Allan Wright, attorney representing the Board of Commissioners, Islais Creek Reclamation District, was also heard in support of report of the Board of Commissioners.

Resolution Approving Report of Commissioners.

Whereupon, Supervisor Suhr presented:

Resolution No. ——— (New Series), as follows:

Whereas, H. C. Crozier, Walter H. Sullivan and Louis A. Weidenmuller, as Commissioner of Assessment, heretofore appointed by Resolution No. 27656 (New Series) of the Board of Supervisors of the City and County of San Francisco, State of California, for the purpose of viewing the lands within the Islais Creek Reclamation District, a reclamation district created by an act of the Legislature of the State of California, known as the Islais Creek Reclamation District Act, approved April 6, 1925, and assessing thereon a reclamation assessment of $1,620,152, same to be apportioned according to the benefits that will accrue to each tract of land within said district, respectively, by reason of the expenditure of said sum of money, estimated in gold coin of the United States, did, on the 9th day of March, 1928, in accordance with law, file with the Clerk of the Board of Supervisors of the City and County of San Francisco, State of California, their completed assessment list, and the said Board of Supervisors of the City and County of San Francisco having appointed Monday, the 9th day of April, 1928, at the hour of ten o'clock a. m., in the chambers of the Board of Supervisors of said City and County of San Francisco, in the City Hall in said City and County of San Francisco, as the time and place when and where the said Board of Supervisors would meet for the purpose of hearing objections to said assessment, and notice of such hearing having heretofore been given by publication for two weeks daily (Sundays excepted) in The Bulletin, a newspaper of general circulation, published in said City and County of San Francisco, and the matter of objections to said assessment coming on regularly on said day, to-wit, the 9th day of April, 1928, to be heard, and having thereafter been regularly continued for hearing, from time to time (the actual taking of testimony having commenced on April 17, 1928), and it appearing to the said Board of Supervisors that the said assessment had been made in accordance with the provisions of law and should be approved, and that the only written objections to said assessment filed at any time before the date of said hearing by any person interested in any land upon which any charge has been assessed, were the following: the verified written objections of Henry A. Whitley, Wm. Taaffe & Co., Reinhart Lumber and Planing Mill Company, Anderson Bros. Planing Mill and Mfg. Co., and Henry Windt, and it appearing that after April 9, 1928, the following written objections to said assessment were filed as follows: verified objection by Chas. E. Reinhart, filed April 11, 1928; additional verified objections by Wm. Taaffe & Co., filed April 16, 1928; additional verified objections by Reinhart Lumber and Planing Mill Company, filed April 16, 1928; unverified objections by Edward Wenzel, filed April 16, 1928; unverified objections by John K. Bulger, filed April 19, 1928, and verified objections by P. F. Reilly, filed April 23, 1928.

And whereas, the said Board of Supervisors, after hearing the evidence offered in support of said objections, hereby finds that the same are not well taken, and do not warrant a reapportionment of the entire assessment aforesaid, or a modification or amendment of said assessment in any particular.

Now, therefore, it is ordered and resolved by the Board of Supervisors of the City and County of San Francisco, State of California, that the aforesaid assessment list be, and the same is hereby, approved and that an order of such approval shall be endorsed upon said assessment list, which endorsement shall be signed by the Chairman of said Board of Supervisors and attested by the Clerk thereof. It is

Further ordered and resolved that the said assessment list shall be filed with the County Treasurer of said City and County of San Francisco, State of California.

This resolution shall take effect immediately.

Action Deferred.

After recess the foregoing matter was taken up and on motion of Supervisor McSheehy the hearing was *continued until June* 18, 1928, *at* 11 *a. m.*

On motion of Supervisor Marks, the Clerk was directed to make provision to take the entire Board on a tour of inspection to the Islais Creek District.

BUDGET
FOR MUNICIPAL EXPENDITURES
City and County of San Francisco, California, For Fiscal Year 1928-1929

Bill No. 8565, Ordinance No. 8073 (New Series), as follows:

An ordinance fixing and appropriating the aggregate sums of the items thereof allowed to each department, officer, board and commission for the fiscal year ending June 30, 1929, and making a Budget of the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The aggregate sums and items thereof hereinafter set forth are hereby fixed, designated and appropriated for the respective purposes set opposite the same, to be expended during the fiscal year ending June 30, 1929, in accordance with the provisions of Article III, Chapter 1, of the Charter of the City and County.

Section 2. No department, officer, board, commission or employee shall expend, agree to expend or incur any liability which shall exceed the amount of any appropriation herein made or which may be hereafter appropriated for any specific purpose, and no such appropriation shall be used or subjected to any liability for any purpose other than that for which it is herein specifically made, unless otherwise authorized by the Board of Supervisors.

All balances of appropriations unexpended, or against which no liabilities have been incurred, at the end of each calendar month, shall be reported to the Board of Supervisors by the department, board, commission, officer or employee within ten days after the expiration of such previous month, and at the end of the fiscal year all such balances shall revert to and become a part of the unappropriated general fund unless otherwise ordered by the Board of Supervisors.

The Auditor shall not audit or issue any warrant contrary to the express provisions of this section.

Section 3. The amounts appropriated are as follows:

NEW BUSINESS.

The following bill was, on motion of Supervisor Hayden, *referred to the City Planning Committee*:

Amending Zoning Ordinance, Twenty-eighth Street.

Bill No. ——, Ordinance No. —— (New Series), as follows:

Amending Ordinance No. 5464 (New Series), entitled "Regulating and establishing the location of trades, industries and buildings, and the locations of buildings designed for specific uses, and establishing the boundaries for said purposes, and providing penalties for the violation of its provisions."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Ordinance No. 5464 (New Series), the title to which is above recited, is hereby amended as follows:

Section 7 of the Use of Property Zone Map, constituting a part of said ordinance, is hereby ordered changed so as to place the northerly side of Twenty-eighth street between Guerrero street and San Jose avenue, for a distance of 79 feet 9 inches along Guerrero street and a distance of 85 feet 11 inches along San Jose avenue in the Commercial District instead of in the Second Residential District as now zoned.

Section 2. This ordinance shall take effect on the date of its approval and shall continue in effect for the period of ninety (90) days thereafter, at which time it shall cease to be in effect and the premises herein described shall revert to and be in the Second Residential District.

Passed for Printing.

The following matters, on recommendation of the Finance Committee, were *passed for printing*:

His Honor Mayor Rolph, presiding.

Mayor's Veto, Judah Street Rezoning.

Consideration of Mayor's veto of ordinance providing for rezoning of

Judah street between Tenth and Twenty-fifth avenues.

Question: Shall the ordinance pass notwithstanding the objection of his Honor the Mayor?

Communication from His Honor the Mayor Transmitting Report of Captain Matheson of Detective Bureau in the Rumors That Corrupt Methods Had Been Employed to Pass Judah Street Rezoning Ordinance.

The following matters were presented, read, ordered *filed and spread in the Journal*:

San Francisco, Cal., June 4, 1928.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco.

Gentlemen:

As I informed your Honorable Board at your meeting of Monday, May 28th, during the proceedings which followed my veto of the so-called Judah street rezoning ordinance, I placed in the hands of the San Francisco Police Department the entire investigation of reports which had come to me that corrupt influence had been exerted to secure the passage of this ordinance.

I am today in receipt of a report made to Chief of Police Daniel J. O'Brien by Captain of Detectives Duncan Matheson, and in turn transmitted to me, and I attach a copy herewith. You will note in Captain Matheson's report the statement that his investigation has disclosed no basis whatever for the reports which came to me and which I transmitted to you.

You will likewise note in this report that the purported payment of $2,000 has been found to be a legal fee contracted for by Judah street property owners with Mr. Francis W. Murphy, their regularly employed attorney—$500 paid as a retainer and $1,500 to be paid subsequently should the ordinance secure passage. I am convinced that no member of the Board of Supervisors was corruptly influenced in any way whatsoever to support the Judah street measure, and I am pleased to announce this publicly.

I have already stated that in the face of the reports which came to me only a short time before, it was necessary for me to act upon this ordinance. I believed that the best interests of the City, as well as of the members of your Honorable Board, required that I veto the ordinance.

Captain Matheson's report, indicating, as it does, that the statements upon which I felt obliged to act in attaching my veto are wholly without foundation, I take this means of expressing my gratification that such has been the outcome and that the good name of the Board of Supervisors is maintained in full integrity.

Respectfully,

JAMES ROLPH, JR.,
Mayor.

Bureau of Detectives.
Captain's Office.

June 4, 1928.

D. J. O'Brien, Esq., Chief of Police.

Sir: On May 25, 1928, his Honor Mayor James Rolph, Jr., requested me to come to his office, and on arrival the Mayor informed me that there were rumors that money was improperly used in an endeavor to rezone Judah street. The Mayor stated that he had no information how or by whom the money was handled or who was to accept or receive it.

The Mayor gave orders to have these rumors traced to their origin, for the purpose of fixing responsibility and to determine if any money was collected, and if so, how it was used. The Mayor also called my attention to the proposed purchase of a lot by the City from Mr. A. Hirschberg, for the purpose of widening Stanyan street. He directed me to investigate all the circumstances connected with the proposed purchase. He also directed me to investigate any and all rumors from any source that in any way related to the conduct of the business of the city. The Mayor said that he had no direct or indirect information of wrongdoing on the part of anyone, but that he wanted these rumors cleared up.

In compliance with said order Lieutenant Charles W. Dullea, Detective Sergeants Thomas Hyland, Fred Bohr, Otto Frederickson, Sergeant Alexander E. McDaniell and Detective Officer Clarence Herlitz were detailed to make a thorough and complete investigation of these rumors.

The investigation shows that there are two associations—one for Irving street and one for Judah street—to further their own interests in the rezoning of Judah street. The Judah Street Association employed Attorney Francis W. Murphy to represent them and paid him a retainer of $500, with the understanding that he would be paid $1,500 more if he was successful. Seventy property owners on Judah street pledged $8,801, and up to date $1,068.45 was collected. The balance, $568.45, was paid for help, stationery, postage, steno-

graphic and incidental expenses. The investigation shows that not one cent was spent illegally and that the employment of an attorney to represent them was perfectly honorable and open and above-board.

The Irving Street Association was represented through Mr. Henry C. Witt, 1259 Ninth avenue, as president, and Mr. R. R. Stephens, 305 Chancery Building, as secretary. Mr. Aaron Cohen, 369 Pine street, was their attorney. A committee, consisting of Mr. Michael Hughes, 1346 Pine street; Mr. Charles Robison, 926 Irving street, and Mr. Julius Berendsen, 1631 Twenty-first avenue, waited on the San Francisco daily papers, requesting them to publish editorials against the rezoning of Judah street.

Mr. Charles Robison had in mind the collection of a special fund of $3,000 and employing special counsel to oppose the rezoning, but on advice of his friends he abandoned the plan. There is absolutely no business or political association between Attorney Aaron Cohen and any member of the Board of Supervisors. Everything done by the Irving Street Association to defeat the rezoning of Judah street was perfectly proper and in their own interest.

The only independent transaction that occurred in connection with the rezoning of Judah street was the retaining of Mrs. Mary Schwab, attorney-at-law, 351 California street, by Mrs. Selina Ferris, 1319 Twenty-fifth avenue. Mrs. Ferris was interested in the extension of the rezoning to include her property. She paid Mrs. Schwab $100 on account and agreed to pay $400 more if Mrs. Schwab was successful. Mrs. Schwab acted as an attorney in the application and did not attempt to influence any person.

The history of the proposed purchase of a lot by the City for the widening of Stanyan street is as follows: The lot in question was exchanged for another lot at an appraised value of $7,500. The deed does not show any money transaction other than a property exchange of lots. The title to the lot is held in trust for Mr. A. Hirschberg by the California Title and Trust Company. The deed for the lot was recorded on February 28, 1928, and permit for an oil station was filed February 20, 1928, by the California Petroleum Company and was approved March 8, 1928.

The proposed monthly rental of the oil station was $87.50. On May 21, 1928, a resolution was passed by the Board of Supervisors authorizing the purchase of the lot for $10,267.85. This price was approved by Mr. Joseph R. Phillips, right-of-way agent for the City. All negotiations for the purchase of the lot were conducted in the open and without secrecy. The only question involved is whether or not the value of the lot was enhanced from $7,500 to $10,000 by a long-term lease at a profitable rental for an oil station, revocable at the pleasure of the Board. The sum of $267.85 was spent on the lot after it changed hands, to put it in shape for the equipment of the oil station.

The rumors arising out of the controversy evidently had their origin on the occasion of the Mayor's visit to the Sunset District on his tour of inspection on May 24, 1928, when he stopped at Twenty-first avenue and Irving street. A crowd gathered by his automobile and some person said that money had been used by the Judah street people to put their proposition over. When a remark of that kind is passed in a crowd it immediately becomes a by-word and common gossip.

On May 25, 1928, Mr. Frank A. Clarvoe, a reporter on the Daily News, spoke to the Mayor and asked him if he heard about $2,000 being passed in the case, and the Mayor stated that something was said about money on the 24th, but no specific amount was mentioned. Mr. Clarvoe stated that he heard this rumor from an unknown man that he met in the corridor of the City Hall. The rumor emanated, no doubt, from the crowd about the Mayor's car on Irving street on the 24th of May, and are merely gossip, without any foundation whatever.

On May 30th Mr. Norton C. Wells, 1310 Third avenue, stated that, although strongly in favor of the Judah street rezoning, and one of the most interested and one of the hardest workers on account of being the third largest property owner affected, he still felt that Mayor Rolph did the proper thing in vetoing, and explained this statement by saying that he had on the day previous, the 29th, heard rumors which, if true, would cause him, if he were in the Mayor's place, to have taken the same action.

Diligent inquiry was made to locate the person responsible for the instigation of the rumors, without success. People are reticent to even talk about, much less discuss, their origin. The department is not in possession of any facts or evidence of any kind that would warrant investigation by the Grand Jury.

Attached please find the reports

of Lieutenant Dullea on the finances of the Judah Street Association and the statement of Mr. Clarvoe; the report of Detectives Hyland and McDaniell on the Irving Street Association, and the report of Detective Bohr on the history of the sale of the lot.

Sir:

I hereby submit the report of my investigation of the activities of the Judah Street Improvement Association in their efforts to have Judah street rezoned for business from Tenth avenue to Twenty-fifth avenue.

I called on Francis W. Murphy, attorney for the Judah Street Improvement Association, and he stated to me that he had been retained early in the year of 1927 by the association to present their measure before the Board of Supervisors. For this service he was to receive $500 as a retaining fee and a further sum of $1,500 in the event that he was successful in the rezoning. Mr. Murphy showed me his bank deposit slips and his bank account, which records showed two deposits of $250 each, made in April and May of 1927 and recorded in his cash book on the days corresponding to the bank deposits as having been received from the Judah Street Improvement Association. Mr. Murphy invited me to his home and tendered the books of the association for my inspection.

At 8:15 p. m. May 28, 1928, I went to the residence of Mr. Murphy, at 330 San Benito way, and there met Mr. Murphy and Norton C. Wells, secretary of the Judah Street Improvement Association. Mr. Wells had the records of the association and I inspected them and obtained the following information: That the total sum of $8,801 had been pledged by 70 property owners on Judah street within the proposed rezoning limits. This amount was to be collected in one-fifth installments, and up to date one installment had been collected, for a total amount of $1,068.45. Of this amount $500 was paid to Mr. Murphy as attorney fees and the balance was used in employing stenographic help, postage, stationery and incidental expenses over a period of approximately one year, and at the present time the fund is exhausted. The money in this fund was deposited, when collected, in the American Bank, and the account is open for our inspection. The funds of the association, independent of the rezoning fund, are deposited in the Bank of Italy, and this account is likewise open to our inspection.

I was informed that the Judah Street Improvement Association has a membership of 350, but that only 70 of them would be affected by the rezoning, and it was this latter class that had contributed to the fund to further their measure, so two bank accounts were maintained and the funds kept separate. The dues in the association are set at 2 cents a front foot, and the assessment for the rezoning measure was set at $2 a front foot. (Pledge card is attached.)

Mr. Murphy and Mr. Wells cooperated with me and stated that they would produce their books and records at my request at any time.

Respectfully submitted,

Sir:

Relative to the investigation ordered by yourself in connection with the rezoning of Judah street, I interviewed Mrs. Mary R. Schwab, attorney-at-law, No. 351 California street, and she stated to me that on January 2, 1927, she was retained by Mrs. Selina Ferris, 1319 Twenty-fifth avenue, to represent her interests in the then pending rezoning of Judah street. The circumstances were as follows: At that time Judah street was zoned from Eighth to Tenth avenues and from Twenty-fifth avenue to the beach. Mrs. Ferris was the owner of property on the east side of Twenty-fifth avenue and Judah street and on the west side of Twenty-second avenue and Judah street, both pieces being corners. The proposed rezoning territory at that time was to take in Judah street from the west side of Nineteenth avenue to the east side of Twenty-second avenue, and prior to that time, when the street was zoned from Twenty-fifth avenue to the beach, the rezoning started from the west side of Twenty-fifth avenue, thus excluding both pieces of Mrs. Ferris' property. Upon Mrs. Schwab being retained by Mrs. Ferris, she (Mrs. Schwab) sought to have the

street rezoned so as to include Judah street from Twenty-second avenue to Twenty-fifth avenue; in other words, making the zone extend from Nineteenth avenue to the beach.

For the above services Mrs. Schwab received $100 from Mrs. Ferris, and it was agreed that should she be successful in the measure she would receive an additional $400. Up to the present time Mrs. Schwab has received $100, and she will produce the cancelled check to support this statement whenever so desired by this department. Mrs. Schwab stated that she has appeared before the Board of Supervisors on a number of occasions in support of her measure and denies that she has attempted in any way to unduly influence any Supervisor in his vote.

Sir:

In obedience to your orders calling for an investigation of the rumors in connection with the rezoning of Judah street, I called on his Honor the Mayor, James Rolph, Jr., at the City Hall, at 1 p. m. May 28, 1928, and he stated to me that a few days previous, and prior to his exercising his veto on the Judah street measure, he had driven his automobile into the Sunset District and personally inspected the proposed rezoning territory and the adjacent business district, and while he was in the district a crowd of Irving street merchants surrounded his automobile and urged him to veto the proposed bill. He stated that, in the heat of their arguments, someone made the remark that money had been passed in order to further the Judah street cause. The Mayor was at that time unable to locate the person who made the remark, and after an inspection of the district he returned to his office. On the following day, Friday, May 25, 1928, Frank A. Clarvoe, a reporter for the Daily News, spoke to the Mayor and asked him concerning the action he intended taking in the Judah street matter. The Mayor stated to him that he was giving it a great deal of attention and that he had heard some disagreeable rumors in connection with the same. Mr. Clarvoe asked if the Mayor had heard the same rumor as he (Clarvoe) had heard—that there was $2,000 passed to put the deal over. The Mayor stated that he had heard some remark on the day previous regarding the passing of money, but that no specific amount had been named.

While I was talking to the Mayor and he was relating the above incidents Mr. Clarvoe came into the office and I asked him what he knew about the matter, and he stated to me that a man had stopped him in the corridor of the City Hall and asked him if he had heard about the Judah street ordinance, and Clarvoe asked him what he meant, and the man stated that $2,000 had been passed in the case. Mr. Clarvoe stated that he did convey this information to the Mayor in a subsequent conversation. Mr. Clarvoe stated that he did not know the name of the man, but that he had seen him in the City Hall on two prior occasions and that he would know him if he saw him again. I requested him to keep a lookout for this man and to notify me should he make his appearance. On this date, accompanied by Sergeant Alexander McDaniell and Detective Sergeant Thomas M. Hyland, I went to the City Hall and met Mr. Clarvoe and asked him if the man had been around the City Hall since, and he stated that he had not, but that he was on the lookout for him and would cooperate with us should he see him again.

The Mayor stated to me that this was his source of information that $2,000 had been passed, and up to the present time I have been unable to make further progress along this particular line.

Sir:

Regarding the controversy over the Judah street rezoning project, our investigation develops the following:

That the Irving Street Association was formed to further the interests of Irving street property owners, with Henry C. Witt, address 1259 Nineteenth avenue, as president, and R. R. Stephens, 305 Chancery Building, as secretary, and that at one time Aaron Cohen, 369 Pine street, was acting as their attorney.

We interviewed a great many persons regarding this matter—partisans on both sides—and while many state that rumors of a suspicious nature were being circulated, we found no person that could or would in any way give us anything tangible or concrete.

On May 30, at his home at 1310 Third avenue, Mr. Norton C. Wells, secretary of the Judah Street Association, stated to Sergeant A. E. McDaniell and I that he, although strongly in favor of the Judah street rezoning, and one of those most interested, and one of the hardest workers, on account of being the third largest property owner affected, still felt that Mayor Rolph did the proper thing in vetoing, and explained this statement to us by saying that he (Wells) had on the day previous (May 29th) heard rumors which, if true, would cause him, if he were in the Mayor's place, to have taken the same action.

We also interviewed the members of the committee that called upon the different daily papers in the interest of the Irving street owners. This committee was composed of Mr. Michael Hughes, 1346 Pine street, who was the spokesman; Mr. Charles Robison, 926 Irving street, and Mr. Julius Berendsen, 1631 Twenty-first avenue.

Mr. Hughes stated to us that he had on different occasions heard rumors of money having been passed, but could not name a single person who had made the statement. He further stated that on the occasion of Mayor Rolph's visit to the Sunset District on his tour of inspection on May 24, 1928, and while the Mayor's automobile was stopped at Twenty-first avenue and Irving street, a crowd gathered around the auto, and Hughes states he heard someone from the crowd, in the confusion, tell Mayor Rolph that money had been used by Judah street partisans to put their proposition over.

Both Mr. Robison and Mr. Berendsen stated to us that they had also heard that money was passed, but could not give us any lead through which these rumors might be substantiated or refuted.

We have made diligent inquiry in following up these different rumors, but have been unable to verify any of them.

Sir:

I respectfully submit to you the following information taken from the records of the Board of Supervisors' meetings at the City Hall regarding certain resolutions, permits and other transactions in question, as follows:

Regarding the widening of Stanyan street: Investigation showed that no resolution was adopted by the Board of Supervisors for the widening of Stanyan street, and that the Streets Committee of the Board of Supervisors have had the matter under consideration for the relief of traffic congestion at the Kezar Stadium. Conference was held with John McLaren, Superintendent of Parks, and the widening of the street was approved by McLaren and the Streets Committee, but never went to print on account of McLaren changing his opinion recently and opposing cutting off the frontage of the park.

When the permit was granted by the Board of Supervisors for oil station on lot: The permit was filed on February 20, 1928, and approved March 8, 1928. Applicant was the California Petroleum Company, 311 California street.

When Hirschberg exchanged property located at Stanyan and Frederick streets with the Market Street Railway Company: Records of the Assessor's office (Block 1263, Lot 1) shows new registration of lot on February 15th, 1928, from the Market Street Railway Company to the California Title and Trust Company, 148 Montgomery street. Further investigation showed the deed for the lot was recorded in the Recorder's office on February 28, 1928, in Book 1620, page 164, showing the purchaser to be the California Title and Trust Company, and sold by the Market Street Railway Company. The records of the California Title and Trust Company showed that the said lot was being held in trust for Mr. Abraham Hirschberg and was purchased by Hirschberg on an exchange for a lot located at California and Presidio avenue to the Market Street Railway Company. The deal does not show any money transaction other than a property exchange of lots.

When resolution was passed by the Board of Supervisors authorizing the purchase of lot at Stanyan and

Frederick streets by the City: The resolution was adopted and passed on May 21, 1928, for the purchasing of the lot from Abraham Hirschberg at a fixed sum of $10,267.85.

The resolution for the rezoning of Judah street: The resolution for the rezoning of Judah street was passed to print on February 20, 1928, and finally passed on May 14, 1928. (Board of Supervisors.)

Respectfully submitted,

In re Veto of Judah Street Rezoning Ordinance.

The regular meeting of the Board of Supervisors was held on Monday, the 4th day of June, 1928, beginning at the hour of 10 o'clock a. m. of said date, in the chambers of the Board, City Hall, San Francisco, California.

After the transaction of other business, and during the afternoon session of the Board, with the Mayor presiding, the following proceedings were had with relation to the veto of the ordinance rezoning a portion of Judah street:

The Mayor: May I ask, as Mayor, the right to submit to the Board now my letter of transmission and the report of the Police Department regarding the so-called Judah street zoning? Are there any objections?

(The Clerk reads the Mayor's letter dated June 4th.)

Supervisor Roncovieri: I ask the indulgence of the Board and ask to have it read just once more. I did not hear the beginning.

(The Clerk rereads the Mayor's letter.)

The Mayor: Now please read the report of Captain of Detectives Matheson.

(The Clerk reads the report of Captain of Detectives Matheson.)

The Clerk: Do you want the other reports read?

The Mayor: Yes.

(The Clerk reads three reports of Lieutenant of Detectives Charles W. Dullea, one dated May 29, one dated June 1, and one dated June 2.)

The Mayor: What is the pleasure of the Board?

Supervisor Gallagher: Does that report show whether the Bureau interviewed Mr. Hirschberg?

The Clerk: It does not say so.

Supervisor Stanton: I do not believe it said.

Supervisor Gallagher: I was wondering whether the report showed that the Bureau had interviewed Mr. Hirschberg or not.

The Clerk: The report does not say that they did.

Supervisor Andriano: I move the report be received and filed, Mr. Mayor.

Supervisor Todd: I move it be made a part of the record, Mr. Mayor.

Supervisor Havenner: Mr. Mayor, I would like to ask concerning the report that $8,000 was pledged by the Judah Street Association. Is that the name of the organization? Does that mean that this $8,000 was pledged for the purpose of assisting in the passage of this rezoning? Can I ask that somebody who is in a position to answer reply to that question?

Mr. Norman Wells: That is true, that was the amount subscribed. When we began the work of rezoning Judah street we understood that there had never been a Supreme Court decision of the United States on the question, and we were prepared—we had been told that we were going to meet strong opposition on Irving street, and that their influence would be pitted against our influence, and we were not so sure of our influence, because no one ever is. So we took it up with our members and they determined that as long as the car line was to run over Judah street it made it a commercial street in fact, even though it was not in law, therefore they were going to prepare for a case, a test case, before the Supreme Court of the United States. To do that we figured that it would cost us between five and six thousand dollars. So we felt that as long as we might have to take it to the Supreme Court of the United States that we would prepare a sum sufficiently large to carry it up, because we were determined to have it done. In the interim, however, a decision was handed down, about three months after our meeting in which we determined to go on with the fight, a case was decided in Ohio which covered the point that we were prepared to make a fight on. So, while that sum was subscribed on paper, demand was never made for the full amount. Only one thousand some odd dollars—I have not that at my fingers' ends—was really paid in, of which the attorney fee was $500, and was paid, and the balance went for incidental expenses, as the report shows.

Supervisor Havenner: So, then, it was the intention of the association merely to use a sufficient amount of money to reimburse your attorney for his fee, plus the incidental clerical expenses in pressing

this case for rezoning before the Board of Supervisors?

Mr. Wells: Exactly.

Supervisor Havenner: The balance of that $8,000 subscribed was to be used in the event that you decided to take a test case in the court?

Mr. Wells: Exactly.

Supervisor Havenner: Well, Mr. Mayor, I find myself in a rather peculiar position. I have opposed the rezoning of Judah street consistently. I felt that two years ago, when this Board voted a program for the rezoning of the Sunset District, that we committed ourselves publicly by our action and our votes at that time to the belief that we had provided a rezoning program for the Sunset District that would cover a period of years. It had been very carefully worked out by the people interested and by the representatives of this Board. We were informed that the action we then took was in the nature of a permanent rezoning, so far as any rezoning can be permanent; permanent, at least, until the development of the Sunset District had taken place. I was not convinced that the proposal now, on the heels of that rezoning, to rezone another section of Judah street, in view of the fact that Irving street was already zoned for business and had been developed for business, was justified, and I have not seen any reason to change that opinion. I have voted consistently against this rezoning of Judah street. But, Mr. Mayor, if I understand your message aright, after you appeared here in this chamber, indicating publicly your sympathy with the rezoning of Judah street, as this Board finally approved it, you vetoed the action of this Board in approving that rezoning, on the ground that certain rumors had come to you tending to indicate that improper methods had been used to bring about the vote of this Board. Now, the investigation ordered by your Honor has been completed, I take it; at least there is no suggestion that there is any reason for continuing it. It has been completed thus far, and these reports indicate that the rumors that reached you were groundless. It seems to me, therefore, your Honor, that your veto falls of its own accord, you having indicated previously that you were in favor of this rezoning, which I opposed and still oppose, saw fit to change your attitude because of these rumors. It seems to me there can be no argument, your Honor, that the rumors must be proven in order to make your veto valid, from your own standpoint. The rumors have not been proved. The report of the Police Department indicates that there is no truth in the rumors. They have been unable to find any truth in these rumors. Now, I am in a peculiar position. I do not wish to vote to override your veto, because, if I vote in that fashion, I will be voting to reverse my previous position. I am still opposed to the rezoning of Judah street on its merits. I do not wish to reverse myself and put myself on record as approving this rezoning merely because I do not happen to approve of your Honor's veto. It seems to me that something should be done here to withdraw this veto and allow this thing to go ahead on its merits. The veto, your Honor, cannot stand on the reasons which you advanced, because the reasons have been proven to be without weight. I say, with all respect, your Honor, that we cannot subscribe to the theory of vetoing legislative actions of this Board on the strength of rumors, because, if we do, your Honor would be justified in vetoing almost every action of this Board in which important property interests were involved, because it seems to be a rule of human nature that the defeated side in a conflict of interest is always willing to hurl insinuations of improper influence on the other side. I have heard those rumors, your Honor, over and over again, about all kinds of actions in this Board and in other legislative bodies with which I have been connected in some capacity or other. And if we adopt the rule of veto based on rumors, uninvestigated, we will set up a government, your Honor, by falsification, by slander. We cannot do that sort of thing. This veto, I submit with all respect, should be withdrawn. We should not be compelled to vote against your veto merely because we do not happen to approve of it in this instance. But I think you would be thoroughly justified in withdrawing it. Of course, you would not have vetoed it if you had known the rumors were groundless. You vetoed it at the moment because the rumors had been placed before you and you thought them of sufficient moment to warrant this investigation. The investigation has been made, the rumors have fallen, and I submit, with all respect, that the veto has fallen and should be withdrawn, and this issue should be decided on its merits.

The Mayor: Well, I have cer-

tainly give a great deal of thought, Mr. Havenner, to this matter. The points you raise are legal ones. I find no way whereby that veto of mine can be withdrawn. There is nothing can take it away from the Board. I have not the power myself to bring it back, and it is with the Board. I am certainly giving most of my time studying over this matter, to see what can be done. And it may have to take its course and it may have to come up again. But there is no legal way where I can bring it back onto my desk, the time having expired. I think the Board will have to study and discuss it with the City Attorney and find by what law the matter can get back again to my desk.

Supervisor Gallagher: Could I ask your Honor if, in the light of the statements just made by you and the statement made by Mr. Havenner, would you advise the Board to sustain your veto, or would you advise them not to sustain it? It would seem to me that many members' minds might be determined by that one factor or your statement. You, as I understand it, will probably leave the city, and the matter will have to be considered during your absence, very likely. Would you advise the Board, in view of the situation, to sustain your veto, or are you ready to say that you advise them not to sustain it? I would like an answer to my question.

Supervisor Andriano: It seems to me that the question is improper. The only case in which the Mayor has ever asked this Board to override his veto was when he had vetoed a bill thinking that it was another bill. I recall that a few weeks back your Honor did request this Board to override your veto for the reason that you thought that you were vetoing another bill at the time that you vetoed the bill in question. But I think it would be highly improper for the Mayor to tell this Board what he desires the members of this Board to do, and I for one, wish to serve notice upon the Mayor and upon all the members of the Board that notwithstanding his wishes in the case, should he declare his wish, I am going to vote as I see fit, as the arguments presented or the merits of the question warrant. I think that the question of Supervisor Gallagher is improper.

Supervisor Gallagher: Would the Supervisor yield to a question?

Supervisor Andriano: Certainly.

Supervisor Gallagher: Do you think there is any better authority in the world, at the moment, to advise us on what the Mayor thinks on the question than the Mayor himself? And do you think, in view of the fact that there are precedents set where the Mayor has given such advice, do you think, in further view of the way the matter rests here, that there is anything improper in that question?

Supervisor Andriano: Can you cite a single instance, Supervisor, where the Mayor has asked this Board to override a veto where it was not a case of a mistake?

Supervisor Gallagher: I think there are two instances, the one you speak of and one formerly—I have not the records.

Supervisor Andriano: I do not think it is a case of mistake.

Supervisor Havenner: May I ask Mr. Andriano—the veto was issued by his Honor on the ground of rumors having reached him which he desired to be investigated. The rumors have been investigated by the Police Department, they have been declared by these reports on file here to be without foundation. Was not, therefore, the veto a mistake?

Supervisor Andriano: The veto may have been a mistake, but I say that the question is improper for the reason that it would make members of the Board of Supervisors mere rubber stamps, and I, for one, refuse to be made a rubber stamp, to vote on a question simply because a member or any number of the members of the Board of Supervisors, or the Mayor, desires me to vote on a certain question in a certain manner.

Supervisor Powers: Mr. Mayor, and members of the Board: I, for one member of this Board of Supervisors, do not have to ask the Mayor or any other member of the Board of Supervisors how I am going to vote on a bill, and, furthermore, I want no instructions from anybody about how I am going to vote on a bill. I do not believe in legislation by veto. But I know I have been consistent in my vote on the Judah street rezoning, and I have on all rezoning throughout the City and County of San Francisco, and I will not sit in my seat here and take anybody's advice whether I will vote for or against a bill. I will use my own judgment the same as I have in the past on my votes.

Supervisor Havenner: I would ask that the City Attorney be brought here at this time, if you please.

Supervisor Gallagher: While you

are sending for the City Attorney could I ask, with your permission, a few questions of Captain Matheson?

The Mayor: If he has no objection, certainly.

Supervisor Gallagher: Captain, the papers have quoted you—I notice your report there—the papers have quoted you as saying—whether they have done so correctly or not I cannot say—the papers have quoted you as saying that you are investigating the Judah street matter, that you are investigating the real estate matter, and that you are investigating the Golden Gate Ferry matter. Have the papers quoted you correctly?

Captain Matheson: No, that is a mistake about the Golden Gate ferry.

Supervisor Gallagher: You never made a statement to that effect?

Captain Matheson: No.

Supervisor Gallagher: You were not asked to investigate that?

Captain Matheson: No.

Supervisor Gallagher: Do you know, Captain, from any information that you have, the name or names of any parties who, at any time—and the Mayor says it was made in his presence twice—the name or names of any parties that are authors of the statement that $2,000 was to have been used, passed or paid in the Judah street matter?

Captain Matheson: The only inference was made was on the report—through the report of Lieutenant Dullea—that, in speaking with Mr. Clark of the Daily News, the sum of $2,000 was mentioned, and that is the only time that a specific sum was mentioned.

Supervisor Gallagher: That is the only person to whom there is any accredited information about having made the rumor?

Captain Matheson: That is all.

Supervisor Gallagher: Were you asked to investigate a rumor that somebody was to get all the insurance, or some of the insurance, or a part of the insurance incident to the rezoning on Judah street?

Captain Matheson: No.

Supervisor Gallagher: You were not?

Captain Matheson: No.

Supervisor Gallagher: Were you asked to investigate the information that rumors or information of land deals being made by the City and County—advance information of these land deals—was given out?

Captain Matheson: No.

Supervisor Gallagher: I presume the Mayor does not care to answer. That is all, Captain, thank you. You do not care to answer my question on the subject of the veto?

Mr. Mayor: Well, I do not see what you could do about it. You could either override the veto or sustain it.

Supervisor Gallagher: You do not care to offer any advice on the subject?

The Mayor: I only got the Captain's report at half past 11 this morning, and I have written my message and sent the report to you. You know as much about it as I do.

Supervisor Roncovieri: I would like to ask you a question, Mr. Chairman: Do you feel regarding the rezoning of Judah street, do you feel today as you felt on the 14th of February when you stood up there, with the rezoning tag upon your coat and urged us to vote for it? Do you still feel that we should vote for it?

The Mayor: Excuse me, I never opened my mouth. I did wear the valentine.

Supervisor Roncovieri: You forget that you certainly urged us at that time. There were certain indications in your statement that urged a favorable vote upon the rezoning and you certainly placed a heart, a red heart on yourself on Valentine's Day "Rezone Judah Street." That was upon the breasts of several, well, perhaps, a hundred or two hundred people here. Now, you seemed to be on that side, favorable to r e z o n i n g. Whether you said anything on that I cannot quote you. But as you feel now, would you wear that badge today? Are you in favor of rezoning it in other words? (Laughter.)

The Mayor: There is no laughing at that matter. I believe that government is a sacred trust, and the question of every act of a government official should be just like a good woman's name, above reproach and suspicion, and I have tried to clear up here any of the rumors that were of a suspicious nature, as I have told you before, for not only your good but for my good. I am friendly to Judah street. I gave to one person on Judah street every hope to believe that I would approve Judah street until this matter came to my attention two days before the time of action. I am deeply grateful for Mr. Wells for the statement he has made, which I had never heard of before except through these police reports, and for other members of the Judah Street Association, who have sent me word that, if they had been in my place, under the circum-

stances, they would have done just exactly as I did. I think this matter requires some thought for the benefit of all concerned. I think to jump at this thing hastily, without giving it another hearing, or taking it back into the Board and rehearing this thing over—and if it comes to me for a rehearing by the Board and all the circumstances that have been brought out in this investigation, I will sign it. But I do not think it is fair to let this police investigation, these rumors, groundless as they have proven to be, not remarks of mine, but rumors that have come to me, of such a nature that the administration was at stake, a fight between Irving street and a fight between Judah street and the good name of the City and the good name of the Board of Supervisors at stake, newspaper articles denouncing the very act that they asked to be done. The San Francisco News wrote a veto editorial, urging me, "Use the Veto, Mr. Mayor," and what have they done ever since? I believe they wrote the editorial "Use the Veto, Mr. Mayor," hoping that I would not pay any attention to them and that I would approve it. Now, I think the whole thing ought to go back to the Board. It should be heard again in committee, and if it comes to me, I will sign it. I cannot take it out of the Board, nor no city attorney can take it out of the Board. It is in your possession. The Charter is clear and the law is clear, and I admire Mr. Andriano for saying what he did. that he is no rubber stamp. I never asked him for a thing. I never asked him for one single moment to give any consideration to his actions on this Board except as his own conscience dictated. Is that right, Mr. Andriano?

Supervisor Andriano: Absolutely correct, sir.

The Mayor: Did I ever appoint a Supervisor and ask a Supervisor to do a single thing? Did I ever ask any one of you to vote for anything here in sixteen years, did I ever ask a Supervisor? Never once. And I want to maintain that relationship between the Board and the Mayor's office that the Board is the legislative branch of the City government, and the veto comes, and the Mayor certainly has a right, if he finds things as I found them in this legislative act, to clear them up, and I have cleared them up. I paid my compliments to the members of the Board of Supervisors, which can be heralded everywhere. The good name of the Board of Supervisors is still maintained. But you cannot do anything, in my opinion, but either override the veto or sustain it.

Supervisor Gallagher: So that the record may read right—it has no relation to this now—you asked a question there, did I ever—I cannot repeat your words—did I ever ask a member of this Board to vote for a measure before the Board? I cannot repeat your words. So that the record may not be left there to hit me in the wrong spot at times, I wish to make a reservation there, for events that are to come, not related to this, and I do not want the record to say that I assented to the statements. I have been an appointee of the Mayor, but I do not want the record to prove that I sat here and that I assented to the statement that no Supervisor was ever asked to vote on a question before or coming before the Board. It has no relation to this. I would just like the privilege of letting that go in the record at this time.

The Mayor: I am glad it is in the record.

Supervisor Havenner: I want to ask the City Attorney whether there is any method, provided or allowed by the Charter, whereby this veto could be withdrawn?

Mr. O'Toole: You mean, withdrawn by the Mayor?

Supervisor Havenner: Withdrawn by the Mayor.

Mr. O'Toole: I do not think there is, in fact, I would say there is not, Mr. Supervisor. The Mayor is charged with the duty of approving or disapproving any ordinance, and when he affixes his signature to the approval or disapproval of that particular ordinance, why, as far as he is concerned, he is done with it and the matter then comes back and remains in the hands of the Board until they take action on it.

Supervisor Havenner: Does the action of the Mayor in disapproving an ordinance passed by this Board, preclude the Board, subsequently, while that veto is still before the Board, from rescinding its prior action on the ordinance itself?

Mr. O'Toole: I would not want to answer that, Mr. Supervisor, without making some investigation for it is a doubtful question on that as to how far the Board, the powers of the Board of Supervisors go to undo what they have done after another branch of the government has acted upon it. Now, I presume the matter might rest in the Board

until the next meeting. You do not have to act on the veto today—no, you have ample time, and I would not want to answer that question offhand, it is too doubtful.

Supervisor Havenner: I would like to be advised then, Mr. City Attorney, if you please, whether, in a situation of this sort, after the Board has finally passed an ordinance, after his Honor has returned the ordinance with his disapproval, prior to the final action on the disapproval, whether this Board may rescind its previous action and throw the matter back into the hands of the Board. I would like to have that answered because I do not wish to vote to sustain this veto on the grounds on which it was made. On the other hand, I do not wish to reverse my previous vote on the merits of the question, and I think there are perhaps others here who may be in the same situation.

Mr. O'Toole: How soon do you have to be advised on that?

Supervisor Havenner: How long is that veto to run?

City Attorney O'Toole: I can advise you by next week.

Supervisor Havenner: I want to know whether this Board now, by a vote, if it so desires, could rescind the final passage of this ordinance, thereby invalidating the ordinance and putting this ordinance back to its previous position here on passage to print, rescind our vote on final passage and bring this ordinance back to its previous position on passage to print, thereby nullifying the veto and allowing the Board to use its own judgment on final passage again?

Supervisor Gallagher: Isn't it a fact, Mr. City Attorney, that there can be no rescinding, in the ordinary sense of the word, and the only way the Board could accomplish what Mr. Havenner is speaking about if that was to be accomplished, is by repealing the ordinance which was adopted? Does it occur to you that this is a continuing legislative act? The Board has passed the ordinance and the legislative action is, in that sense, final; the Mayor has acted within the law and has temporarily, at least, withheld the action until the Board sustains or refuses his veto, and the only way that that action could be recommenced is by repeal of the ordinance by which it was accomplished.

Supervisor Havenner: I think not, the ordinance is not yet a law, it is still awaiting final action by this Board, either in sustaining or overriding the Mayor's veto.

City Attorney O'Toole: There is only one action this Board can take regarding that ordinance, as far as the veto is concerned, either to override it or to sustain it, and I am inclined to have the views that Supervisor Gallagher expresses at this time, but I would not want to state positively because it is a question that should be examined into, and the Board should have the benefit of any investigation I could make on the matter.

The Clerk: This veto was filed May 24, you have thirty days after that date, within thirty days after that date.

Supervisor Gallagher: What is the parliamentary situation? The motion is to file the communication by his Honor the Mayor.

The Clerk: And made a part of the record.

Supervisor Gallagher: I have no objection to filing it, but before it is filed, having brought this matter to the attention of the Board on a question of personal privilege, I should like to be permitted or indulged in just a few words. No action of any city government anywhere, even probably reaching into the confines of the national capital itself, on matters of great public interest and on measures on which there is conflict, is free from statements made, idly or sometimes with a foundation of fact, relative to the integrity of the action itself, or the honesty, sincerity, integrity or advisability of the policy involved. This is the first time that there is recorded, that I recollect, within the annals of this city government—and I have spoken to a few people on the subject—wherein there has been brought to public attention and given sustenance by so doing, by a responsible public officer, that sort of thing that is known as "rumor". It is the obvious duty of an executive public officer such as yourself, of course, to investigate rumors, even if it is so desired, if they appear to be at all well founded in any respect. It is a question, in my mind, but what this record ought not to be a guide. Whether we like it or not—and we do not like it, that is apparent—every member of this Board of Supervisors, including those whom the executive numbers among his close personal political friends, and those whom he might consider to be the contrary, whether well founded or not, has been, in a sense, put under a cloud. Whether the Mayor's letter today and the reports of the

members of the police department will clear the suspicion that has been raised and the cloud that has gathered is a very large question in my mind. There are some who believe that his Honor the Mayor has not gone far enough, and I have been advised that this communication of his is already published in the daily papers, this afternoon's papers. I am not one who desires to carry this much further than it has gone, and I am one of those who feels that it went to a point that is discouraging and almost disgusting in its public sense. I do know that I have felt very, very keenly the sting of the statements made in the published articles relative to his Honor, and to which he himself has centered, except in the Golden Gate Ferry matter. I do not know whether this will be the lesson it ought to be nor do I understand that it may end here because, after all is said and done, it is the most serious thing, except one, that I know of, that has happened since I have been a member of the city government, and that extends over some years. It is the first time, I repeat, that any public officer, except in a political campaign, which is outside the official circles, has given credence and importance to the rumors that reach him or them in connection with public matters. It is altogether too bad and very sad indeed that, in view of the fact that you said, in the stenographic record here, that on two occasions, once in your office and once on Irving street, that these statements were made to you, I repeat, it is altogether too bad and disappointing, except as to one name, we are without a name on which to plant the responsibility for this rumor in the Judah street case. You have not, apparently, carried out your first thought in the matter of the statement that information, inside information or advance information of city land deals has been had by somebody. I think if you did investigate you will find, except as rumors or statements drip from offices of the city government, or in any manner that they get about, that there is no foundation in them. In fact, I have found, in talking with the member of the right of way staff who purchased this property, and who are under the jurisdiction at the present of the Board of Public Works, that very little if any information is given out. The only piece of information I have ever seen in anybody's hands, outside of that department, relative to appraisals made on city property, was where I saw the five sets of appraisals, or six, on the subject of the Sunset boulevard property. And there is something yet left, it seems to me, in the question of this insurance. I do not know who the lucky broker or insurance man was to have been on Judah street. I would not have minded it if it had been myself, but, at the same time, in consideration of the fact that practically three or four or five members of this Board are people, wholly or partly in the insurance business, that sting is still left. I do not believe there is anything in it myself. I just merely want to express this thought now, and this is not said critically of yourself, and it is not said in the spirit of advice, but it is said in the spirit of the give and take, that there ought to be, despite the quarrels that may ensue in public life, there ought to be a give and take among those who are honored by election by the people. I said, in the first instance here, that the only thing that a man had left, if he had that when he retired from public office, was as much of a good name as any person can retain. There is not, nor will there be, within my lifetime or recollection at least, nor do I think will there be in yours, or anybody else, any public officer anywhere, that I know of, in a responsible position, whose name at least does not suffer as time moves on in the channels of legislation. That is true of me; it is true of you; it is true of everybody. And I hope that the result of this investigation, so fortunately ended, at least for the time being, will have its effect in this: that hereafter those who accuse shall be known, and those who give responsibility to the statements shall know who makes them, and if they are to be given for public consumption there will be a hesitancy at least to find out if they are well founded. This has been a most unfortunate incident.

Addressing myself to the veto, my friend, Mr. Andriano, said my question to the Mayor was unfair. On the very contrary, I think it is the fairest question that I could put, with no desire to heckle his Honor, or with no desire to confuse him, or with no desire to compromise him. I read, from his Honor's message, that the sole reason on which he vetoed this Judah street ordinance—and I will read it if anybody wishes—the sole reason he says that, "This ordinance is disapproved by me, without prejudice, for the sole reason that certain ru-

mors had come to me of alleged improper practices by which certain members of the Board of Supervisors are supposed to have profited. I do not believe these rumors, but I do feel that, for the sake of the honor and integrity of your Board, they should be thoroughly investigated." It was on the sole basis of rumor brought to him that the Mayor decided to veto this. I do not know by what method of reasoning you attorneys arrive at the points that you come to. But it would seem to me to be the most obvious fact that, the Mayor himself having indicated before and again now, that he is not opposed to the rezoning of Judah street, we can let that rest for the time being, that having said, "I have used the power of veto solely because of these rumors," and now having found, to his satisfaction apparently, by the responsible officer appointed to investigate that the sole reason upon which he based this veto has been dissipated into thin air, why, it seems to be the obvious thing for a public official to say to the people that he is associated with, and by whose action he has used the veto power, is this: I have found myself mistaken, my sole reason was not a reason, and therefore the only reason that I have for vetoing this having been disapproved and having been dissipated, the obvious thing, gentlemen, is to renew the action. You do not have to go through it, it would seem to me——

Supervisor Andriano (interrupting): Do you wish me to answer that question? I am perfectly willing to answer it.

Supervisor Gallagher: I shall be very glad when I am through. Now, I do not say that, in any case, that you should change your views regardless of the veto, but I do say that the strength of the veto, at least by the action of his Honor, is lessened, in a legislative sense. I said a little bit more than I thought I would on the subject. I trust that, as far as this matter is concerned, it will have proven the futility and undesirability of anybody, anywhere, when men's characters are involved, giving credence to mere rumor and publication to statements that put us under a cloud.

Supervisor Andriano: I say that the question was improper, for the reason that it implies that we, sitting here as representatives of the people, are going to vote in a certain way, simply because the Mayor may desire us to vote in that particular way. As I view the question, we are here sitting as representatives of the people of San Francisco. And the first consideration, in our minds, should be the rights and the interests of the people involved in this particular question. I am convinced that a very serious injustice is being done to the people of Irving street, that they are being deprived of their rights and of their vested interests by means of an expensive lobby. And I would feel, and I do feel that it would be improper for the Mayor to try to dissuade me from voting according to my likes on that question, and that is why I say that the question was improper because I feel that I am here to express my views, as I see them, not the views of any other person. I have to answer for my own action and not for the action of the other members of this Board or of the Mayor.

Supervisor Havenner: Mr. Mayor, without rancor, and without disrespect, I desire to add to what Mr. Gallagher has said. My conviction that the reason advised by your Honor for the veto of this measure would always be an improper reason on any legislative action. I submit to you that it is always improper to overturn the action of a legislative body on the score of unproven rumors of wrongdoing. If those rumors of wrongdoing reach you, Mr. Mayor, or anyone in your position, at an hour too late to enable you to investigate them before final action is taken on the measure, then I submit to you, if you have no reasons for vetoing the measure on its merits, that you should permit it to go to passage, that you should then conduct your investigations independently, and if that investigation developed facts which justified the accusations involved in those rumors, there is no legislative body in the land which, upon presentation of those facts, facts which would serve as a basis for charges involving the integrity of a member or members of the legislative body, there is no legislative body in the land which would not repeal its former action and throw it back on its merits where it was before. Mr. Mayor, you have used the simile of the honor of a good woman. You have said that it is the duty of a gentleman, when he hears rumors or whisperings against the honor of a good woman, to investigate those rumors and clear her name. That is true, Mr. Mayor, but it is not part of the code of the gentleman to give those rumors to the police department, to put them in the newspapers and publish them broadcast to the

world, and then hope, ultimately, to repair the damage that has been done to the name of that good woman by those actions. (Applause.) Mr. Mayor, I know, as surely as I stand here, that my own name has never been involved in any of these rumors, but I am jealous of the name of the whole Board, I am jealous of the reputation of this group of which I am a member, and I say to your Honor that, having investigated these things, and having made what, I respectfully submit, was a grievous error and a mistake, and taken the action of submitting these charges to public opinion and to public investigation by the police department before you had any conclusions regarding them, I submit that it is your Honor's duty to make some further and public reparation of the injury that has been done to this Board. (Applause.)

Supervisor Suhr: What becomes of my motion there?

The Chairman: The motion before the Board is that the message and the report of the police department be filed and placed in the record. Call the roll, Mr. Clerk.

Supervisor Stanton: I think each member of the Board should have a copy of the report of the police department, I think that we should be able to see just what the police department has had to say.

The Mayor: Well, there is no objection to that.

Supervisor Stanton: I felt last week that possibly your investigation by the police department, or anybody else, would have been the proper thing before the matter would be given wide publicity and before the sting was left on most every member of the Board of Supervisors. But that not having been the case, we are left in somewhat a different position. There were a number of things said at the last meeting of the Board. There were a number of things published in the paper. One was that there were certain members to get some insurance. Another was that certain people were given advance information of all real estate deals. Those matters have not been cleared up. I do not know whether the police department have looked into them, or whether they have inquired into that particular phase of the matter or not, but it surely is something that should be looked into and some sort of a report made. We cannot say these things one day and forget about them the next day, without leaving some part of a sting or a slur on the members who are directly responsible for passing these different ordinances. We are going to sit here from time to time, and pass ordinances affecting San Francisco and its people, and we must have some protection against people just starting rumors and then sending them broadcast. From your own statements, from the statements of the police department there was very little to work on. Somebody in a crowd said that some money was passed, or that they understood some money was passed. A newspaper man, looking for news, looking for a story, approached you and said that he had heard or that some stranger had come to him and said something about money being passed. It is mighty little evidence, Mr. Mayor, to start an investigation on. It is might little evidence to broadcast that certain rumors have been circulated. It has not done San Francisco any good, it has not done the Board of Supervisors any good, and I am positive that it has not done you any good. And, really, I do not know just what could be done. I do not know how the thing could ever be taken back or how it could ever be straightened out. There is a certain amount of damage that has been done that will never be righted. For the matter of your veto I voted against Judah street rezoning, tried to keep out of it as much as possible, regardless of whether you vetoed or did not veto. When you seemed to be in favor of Judah street I was against it, I voted against it, did not make any particular fight against it and, regardless of what you do at this time, I have not changed my opinion one iota. But I feel that there is a certain amount of sting been left on the members of the Board of Supervisors of San Francisco, been left on the good name of San Francisco. It has been sort of broadcast throughout the country that another scandal was about to break in San Francisco, and those things do not tend to do San Francisco any good, and particularly those whose names, through inference, have been dragged into it.

The Mayor: What is the pleasure of the Board? Call the roll on filing it and making it a part of the record. All in favor will please say aye. (Ayes.)

Supervisor Stanton: Now, as I understand it, and I think Supervisor Gallagher asked the question, I would like to ask it again: there is no further investigation, is there, or isn't there, of the Golden Gate Ferry at this time?

The Mayor: No, I never heard of one.

Supervisor Stanton: And Mr. Matheson has not investigated?

Captain Matheson: We are through with our investigation.

The Mayor: Any objections? (Bringing down the gavel.)

Supervisor Todd: I want to make a statement for the record, being as I was one who was very active in this Judah street rezoning, and being as there has been a lot of talk about insurance. I have never solicited any insurance from anyone owning any property on any part of Judah street, nor have I received any business from any of them. It has been said to me several times, "Well, you have got an office in the Sunset District that is very active." That office belongs to a man by the name of C. E. Todd & Son, he is no relation of mine, I have never seen the man and know nothing about him and have no connection with any real estate office in the Sunset District whatsoever.

Supervisor Powers: We have a special order of business for 3 o'clock, and it is now 4 o'clock—rezoning of 28th and San Jose avenue.

Supervisor Havenner: I move that the consideration of the Mayor's veto be continued for one week.

Supervisor Andriano: Second the motion.

The Mayor: Are there any objections? (Bringing down the gavel.)

Leave of Absence, Mayor Rolph.

The following was presented and read by the Clerk:

Death of Assemblyman Leland R. Jacobson.

Supervisors Schmidt and Stanton presented:

Resolution No. 29103 (New Series), as follows:

Whereas, this Board learns with sincere sorrow of the sudden and untimely death of Assemblyman Leland R. Jacobson, who for a number of years has been San Francisco's able representative from the Twenty-seventh Assembly District (Sunset) in the State Legislature; and

Whereas, Leland R. Jacobson, as Chairman of the very important Judiciary Committee in the Legislature, has been identified with a great many progressive movements that have redounded to the benefit of San Francisco; and

Whereas, as senior lieutenant in the Naval Air Forces of the United States during the World's War, he gave a splendid account of himself in the service of his country; and

Whereas, through his conspicuous ability he was marked for high honors at the hands of the Governor of our State as the successor to the late Honorable A. T. Barnett, Justice of the Peace; now, therefore, be it

Resolved, That this Board of Supervisors deeply deplores the loss of Leland R. Jacobson and expresses its sincere sympathy to the sorrowing family in the loss of a loving father and a man, though young in years, whose distinguished ability gave every promise of a brilliant and successful future in the political and professional life of his native city; and be it

Further Resolved, That when this Board adjourns, it does so out of respect to the memory of Leland R. Jacobson, and that copies of this resolution be sent to the bereaved family of the deceased.

Adopted unanimously by rising vote.

Remarks: Supervisors Schmidt, Stanton and Acting Mayor Havenner spoke in feeling terms of the high character and ability of the deceased.

Mayor's Vetoes.

Consideration of Mayor's veto of Ordinance No. 8036 (New Series) providing for the rezoning of Judah street from Tenth to Twenty-fifth avenues, from Second Residential to Commercial.

Opinion of City Attorney on Power of Board to Rescind or Reconsider Ordinance After Veto by Mayor.

The following was read by the Clerk:

June 11, 1928.

Dear Sirs:

On motion made by Supervisor Havenner at your meeting of June 4th, I was requested to advise your Board as to whether or not after an ordinance had been finally passed and returned to your Board, vetoed by the Mayor, the action of your Board adopting the ordinance could be rescinded or reconsidered.

Opinion.

Section 12, Chapter I, Article II, of the Charter provides: "That when a bill is put upon its final passage and a motion is made to reconsider, the vote upon such motion shall not be acted upon before the expiration of twenty-four hours after adjournment."

Rule 12 of Rules of Order of your Honorable Board provides that

when a motion has been made and carried or lost, it shall be in order for any member voting with the prevailing side to give notice that he will move for a reconsideration thereof. In the instant case I understand that no such notice has been given, and I am, therefore, of the opinion that under the rules of your Board, and well settled parliamentary procedure, a motion to reconsider would not now be in order.

As to your power to rescind: Section 16, Chapter I, Article II, provides "that every bill and every resolution as hereinbefore provided, which shall have passed the Board and shall have been duly authenticated, shall be presented to the Mayor for his approval. The Mayor shall return such bill or resolution to the Board within ten days after receiving it. If he approves it, he shall sign it and it shall then become an ordinance. If he disapproves, it he shall specify his objections thereto in writing. If he does not return it with such disapproval within the time specified, it shall take effect as if he had approved it, etc." In passing the ordinance and transmitting it to the Mayor, you have exhausted your powers over that particular ordinance.

See Kendell v. City Council of Camden, 47 N. J. Law 64, where the court held: "A deliberate assembly has the right of reconsideration, yet where there is no reconsideration during the session at which final determination is had, it cannot, in the absence of special powers conferred upon it, take further action."

Also, Hadley v. Mayor of Albany, 88 Am. Dec. 412, the court said: "The City Council having by ballot determined who had been elected, and having examined and decided the question, could take no further steps to reverse its action at a subsequent meeting."

Also, City of Kanakee v. Small, 147 N. E. 404. In this case the court held: "Where no motion to reconsider or other motion on proposition finally voted on by the City Council is pending, Council cannot reconsider action after adjournment of its meeting, especially if rights of others have intervened."

As a matter of fact, I am of the opinion that at the present time there is nothing for you to rescind. As the ordinance now stands vetoed by the Mayor, it leaves the matter legislated on in the same condition as if the ordinance had not been passed. If the veto be not sustained by your Board, it becomes a valid ordinance and can only be repealed by an ordinance repealing same. Section 18, Chapter I, Article II, Charter.

Therefore, you are advised, that if the veto be sustained you may legislate anew on the subject covered by the ordinance, and if overriden the ordinance must stand until repealed.

Yours sincerely,
JOHN J. O'TOOLE,
City Attorney.

Action Deferred.

Whereupon, further consideration of the foregoing matter was *laid over one week.*

Mayor's Veto, Lot Stanyan and Frederick.

Consideration of Mayor's veto of Resolution No. 29008 (New Series), accepting the offer of A. Hirschberg to sell for $10,267.85 certain land at the corner of Frederick and Stanyan streets required for the widening of Stanyan street was *continued one week.*

Civil Service Examinations.

Mayor's Veto—Budget Item No. 224.

Consideration of Mayor's message vetoing Budget Item No. 224, Civil Service Examiner and Clerk, was *continued one week.*

Communication From Mayor.

June 6, 1928.

To the Honorable Board of Supervisors of the City and County of San Francisco, City Hall, San Francisco.

Gentlemen:

I am returning to you herewith Ordinance No. 8073 (New Series), Bill No. 8565, representing the Budget of the City and County of San Francisco for the fiscal year 1928-1929.

This ordinance has my approval with the exception of Item No. 224 under the Civil Service Commission, appropriation 12-A. This item I reduce from $8,500 to $3,500. My reason for this reduction is that $5,000 has been added to the amount given the Civil Service Commission in a similar item last year, the additional $5,000 being for the purpose of holding civil service examinations for certain positions in the City government which are not now filled from civil service eligible lists.

There are a number of employees in the various departments of the City government who have served for a great many years in such positions, which they now occupy. These, including both men and women, are trained to the work which they are performing. In the past the employees of various de-

partments have, by special Charter amendment, submitted to the voters and adopted by them, been "blanketed in," and have since enjoyed full civil service standing. I feel that such employees as have not a civil service status, but who have rendered long and faithful service, should be given the opportunity of having their cause submitted to the voters by Charter amendment at the election next November, and if the voters in their wisdom so decide, they should be "blanketed in" under civil service.

What in the past has been fair for some employees is still fair for other employees. There should be equal opportunity for all City employees to receive the boon which the people have in their power to bestow as a reward for the long and faithful service which I have mentioned.

In my inaugural message directed to your honorable Board under date of January 3, 1928, I used the following language:

"Due attention should be paid to the needs of the Civil Service Commission, and appropriations should be made in each annual budget of sufficient size to enable the Commission to increase its activities and to hold examinations for the creation of eligible lists for all positions defined by the Charter as coming under civil service control.

"During my administration of sixteen years as Mayor nearly every department of the City and County government has been brought under civil service. Examinations for the few remaining positions, which have not been held because of lack of funds, should now be made possible."

I do not recede in any degree whatsoever from the position I took at that time. Should the voters decide upon the matter being presented to them, that these employees whom I have in mind should not be granted civil service standing, thereafter examinations for these positions should be held with all possible speed. Not until the voters have expressed their will should these examinations proceed, and I respectfully urge that this appropriation of $5,000 be deferred until one year hence.

Respectfully,
JAMES ROLPH, JR.,
Mayor.

Southern Pacific Suisun Bay Bridge Commended.

Supervisor Shannon presented:

Resolution No. ——— (New Series), as follows:

Whereas, the Southern Pacific Railroad Company has publicly announced its intention to construct a bridge over a mile long across Suisun Bay, connecting Benicia and Port Costa, to replace the train ferry service between these two points; and

Whereas, the construction of this bridge will reduce the running time and bring all cities and towns in the Sacramento Valley in closer touch with the City of San Francisco; and

Whereas, all progressive communities are constructing bridges wherever possible for the improvement of transportation facilities; and

Whereas, the City of San Francisco is deeply interested in all bridge projects, and particularly in the problem of bridging San Francisco Bay; therefore, be it

Resolved, That the Board of Supervisors commend and congratulate the Southern Pacific Railroad Company for its enterprise and progressiveness in its decision to build this bridge, which will be of such great benefit to Northern California, and particularly to San Francisco and the communities around the Bay.

Referred to the Public Welfare Committee.

Leave of Absence, Dr. John E. Bohm.

After the transaction of other business the following proceedings were had in relation to the report of Bridge Committee:

Supervisor McSheehy: Mr. Chairman and Members of the Board: Mr. Dunnigan has my report; I wish he would read it. Time could be saved.

Supervisor Todd: Is this the same report we had before?

Supervisor McSheehy: No, sir, it is not.

(Clerk reads Supervisors McSheehy's report.)

San Francisco, Calif.,
June 8, 1928.

To the Members of the Special Bridge Committee:

I submit the following report as Chairman of the Special Bridge Committee:

On the 8th day of December, 1927, the Board of Supervisors of the City and County of San Francisco passed the following resolution:

"Resolution No. 28135.

"Resolved, That Supervisor James B. McSheehy be and is hereby authorized and directed to proceed to the City of Washington, in the District of Columbia, and then and there present to the Congress of the United States a bill presented to the Board of Supervisors granting permission to the City and County of San Francisco to construct a transbay bridge from the City of San Francisco to the County of Alameda; and, be it

"Further Resolved, That the said James B. McSheehy be and is hereby given authority to consent to all minor changes in the wording of said bill which he may deem proper, provided that the said changes do not change the tenor or effect of said bill; and, be it

"Further Resolved, That James B. McSheehy be and is hereby authorized and directed to use all honorable means and efforts to obtain favorable action of said Congress on said bill; and, be it

"Further Resolved, That the sum of $5,000 be hereby appropriated from the money in the Treasury of the City and County of San Francisco, not otherwise appropriated, to defray his expenses to and from the City of Washington, and while remaining in said city and engaged in the presentation of or in the urging of the passing of said bill.

"*Finally passed* by the Board of Supervisors of San Francisco, December 5, 1927.

"Ayes — Supervisors Colman, Deasy, Gallagher, Harrelson, Haven-

ner, Hayden, Herz, Kent, McSheehy, Roncovieri, Schmidt, Stanton, Todd.

"No—Supervisor Byington.

"Absent—Supervisors Badaracco, Marks, Powers, Shannon.

"J. S. DUNNIGAN,
"Clerk.

"Approved: San Francisco, December 8, 1927.

"JAMES ROLPH, JR.
"Mayor."

As instructed by this resolution, I presented to Senator Hiram W. Johnson and Congressman Richard J. Welch this bill, which is known as Senate Bill 1762, and House Bill 7467.

The plans and specifications of the proposed bridge are on file in booklet form, 90 pages, in the War Department, and they call for a combination high level, low level tube and bridge. Two tubes are called for under the Estuary. The cost of the structure and the estimated tolls are not given.

On March 21 and 22 the Interstate and Foreign Commerce Committees of the House of Representatives heard the applications for bridge permits to cross San Francisco Bay: Rincon Hill, City of San Francisco, Bridge Bill 7467; Telegraph Hill, Knutson Bill, No. 10760; near Hunter's Point, Webb Bill, No. 8712. The hearings consumed ten hours, eight hours of which were taken up by the City of San Francisco. Nineteen witnesses were heard. The committee consists of twenty-three members, seventeen of whom are lawyers and only six have ever visited San Francisco. There was an average attendance of fourteen members. I counted twenty-one members present the first day.

The following facts were very forcibly brought out in the hearing:

1. San Francisco, Oakland, Berkeley and Alameda are united on our proposed site.

2. It is the shortest route between San Francisco, Oakland, Berkeley and Alameda.

3. It will serve all four cities from isolated points where there is no congestion.

4. Sixty-five thousand people cross the Bay twice a day.

5. The vehicular traffic in 1920 was 775,000; in 1927 3,500,000, and in 1934 it will be 6,000,000.

6. In the peak hours of the mornings and evenings ferry boats leave on an average of one every minute from the ferry slips. The average is 35 trips an hour, 24 hours a day.

7. It took the same time 60 years ago to cross the bay in the ferry boats as it does today.

8. It takes 30 minutes to go from the City Hall in Oakland to the Ferry Building in San Francisco, a distance of about eight miles. By the proposed Rincon-Hill-Alameda Mole bridge route it will take 18 minutes.

9. Fogs are prevalent in San Francisco Bay the year round and especially in the summer time. These are generally what are known as the tule fogs. They are often so dense you cannot see 50 feet ahead of you. Picture a steamer going through our bay with ferry boats running at right angles to it every minute. Consider the danger to the steamer and the ferry boat, which, in peak hours, carries 3000 people. Accidents have happened and accidents will happen if the congestion of the San Francisco Bay is not minimized.

Regarding the crossing of San Francisco Bay, on October 7, 1921, the War Department announced a policy dealing with the construction of bridges or tubes in which it was stated:

(1) That no bridge of any kind will be approved north of Hunter's Point.

(2) That no low bridge will be approved north of San Mateo.

(3) That a tunnel crossing of the bay will be approved in any location, provided that the highest part of the structure is placed at least 50 feet below mean lower low water, and proper compensation is made for obstruction of cross-section as affecting tidal flow.

(4) That a combined bridge and tunnel will be approved at a location south of the proposed Alameda Naval Base site, provided that the tunnel is so placed as to leave the channel along the San Francisco side unobstructed to a depth of 50 feet at mean lower low water for a width of 3000 feet measured from the nearest point of the pierhead line, and provided that proper compensation is made for obstruction of cross-section as affecting tidal flow.

(5) That not more than one crossing will be approved at present in any location north of San Mateo.

Favorable consideration will be given to a plan conforming to these requirements and having the necessary financial backing and the support of the local authorities of the cities and counties affected.

General Jadwin and Admirals Hughes and Gregory were very firm in reference to this policy and they quoted the same in their writ-

ten statement in opposition to our bill.

Congressman Denison, vice-chairman of the Committee, stated that 172 bridge permits were issued by Congress and the War Department from December 5, 1927, to March 22, 1927. They are issued in two forms: one by Congress direct, known as the interstate permit, and the other by the War Department, known as the intrastate permit. The passing of our Bridge Bill would mean that Congress would have to repeal the act of March 23, 1906, regulating the construction of bridges over navigable waters. In other words, our bill is asking for the repeal of an act that would destroy one of the most important functions of the United States War Department, the department in charge of bridges over navigable waters. This department has officers and functions in every important harbor in this country. Here in San Francisco we have District No. 1, under the command of Colonel T. H. Jackson.

The hearing in the Senate Committee was somewhat similar to that in the House. There are nineteen members in the Commerce Committee of the Senate. It took ten hours to hear all the witnesses. The Knutson and the Webb bills were not heard, as they had not been presented in the Senate. There was an average of four Senators in attendance. Eleven witnesses were heard.

Senator Johnson conducted the entire proceedings.

During the hearing, Senator Jones, chairman of the Commerce Committee, stated that the assignment of construction to private companies was dangerous.

On April 17, 1928, the Committee on Commerce in the Senate reported a bill out just as suggested by Senator Jones, striking out three entire sections, or almost cutting the bill in half.

While riding to and from Washington I carefully read and analyzed the engineers' booklet report for a combination bridge and tube. Here are three sections from said report:

"Page 89—Cost Estimate: Owing to lack of information regarding foundations, it was believed inadvisable to make any estimate of the cost of the bridge, as such estimate, if made, would be a little more than guess and would be misleading. For this reason no discussion of the financial program is possible.

"Page 72—Proposals have been submitted to the Board of Supervisors to construct tunnels or tubes under the bay or under the deep channel portion of it. Engineers of high standing have advocated such a solution of the transbay problem. This type of structure has not been given consideration in the report, as the language of the instruction limits consideration to bridges."

These instructions were given by the Board of Supervisors and as Chairman of the Supervisors' Committee I feel that I am safe in saying that the same body may modify its instructions.

"Page 82—Railroad and highway tubes will cross the Estuary about at right angles. The railroad tubes will be designed to provide for two tracks. If in the future a third track is needed, a single-track tube may be constructed adjacent to the first one. It is not wise to provide for it at this time, as it will probably not be needed for the first ten years of bridge operation. No pedestrian walk need be provided, but there should be refuge niches in the walls for the use of men working in the tube.

"The highway tube should be wide enough for a 20-foot clear roadway and a narrow foot walk for use in emergencies. This would provide for two lanes of vehicles. Facilities for adequate ventilation must be made in the design. It is estimated that a 20-foot roadway will be sufficient for the first installation, since not all of the automobile bridge traffic will use this tube. Some will use the Harrison street tube, now under construction, and a considerable number will go through Alameda. Should traffic through the new tube grow at a more rapid rate than is anticipated, and it becomes necessary to do so, additional tube may then be constructed, either alongside the first one or at some other location that may be selected.

"The tops of both the railroad and highway tubes must be 40 feet below mean low water and the approach grades will not exceed 4 per cent and 6 per cent for the railroad and highway tubes, respectively. The approaches at both ends will be open as they descend until they reach a depth sufficient for a roof below the surface of the ground."

On the 3d day of January I received a statement, accompanied by a set of plans, from C. M. King, engineer in charge of the construction of the tube under the Estuary, showing that a combination tube

and low-level bridge between Oakland and Alameda could be built for $33,000,000.

The Construction Company of North America filed the following summary of cost and tolls for their high-level bridge from Rincon Hill to Oakland Mole:

Superstructure—

2 decks, 6 railroad tracks, 6 auto lanes, including Oakland terminal, $28,750,000.

Deck flooring, tracks, lighting and signals, $9,000,000.

San Francisco terminal, including land purchases and damages, $7,500,000.

Foundations, $35,000,000.

Contingencies, engineering, and so forth, $8,750,000.

Financing, $11,000,000.

Total, $100,000,000.

Also the following is an estimate of the tolls that will be collected: In 1933—

Vehicular, 6,000,000, at 80 cents, $4,800,000.

Passengers (local), 54,000,000, at 6 cents, $3,240,000.

Auto freight, 1,000,000 tons, at $1.20 per ton, $1,200,000.

Passengers (main line), 2,000,000, at 15 cents, $300,000.

Power lines, tables and concessions, $250,000.

Total, $9,790,000.

This proposed bridge was shorter than the one offered by our board of engineers. The company spent a large sum of money in gathering data and preparing plans and specifications. It was represented by three prominent local engineers, one of whom served as junior engineer for a number of years under the late Howard Holmes, who designed most of our harbor improvements for the State. R. C. Hackley and E. D. Bronson filed statements with their applications for high-level bridge franchise over almost the same route as called for in our bill which would cost $100,000,000. It seems to be the unanimous opinion that the high-level tube and bridge, recommended by our board of engineers, will cost $100,000,000.

Congress adjourned on the 29th day of May to reconvene on the first Monday in December, 1928. Our bridge bill would have been reported out favorably by the Interstate and Foreign Commerce Committee of the House if the author of the bill would eliminate that portion of the bill making it mandatory that the Secretary of the Navy approve the plan as called for. This the author properly refused to do because if such section of the bill is omitted the bill would not mean anything; in other words, it would be an idle act. This is the crux of the situation as far as our legislation is at present concerned. The bill will not come out of the House Committee unless it is agreed that the Secretary of the Navy be given power to approve plans; it will not be voted upon by the Senate unless it is reported favorably by the House Committee. In other words, we face the necessity either of conforming to the War Department's wishes or of getting no bridge. The net result of our labors, therefore, is that we find ourselves again confronted by the Navy's objections, which, try as we might, we have not been able to overcome. It is chiefly for this reason, as well as others I shall set forth, that I now propose and ask you to sanction plans for a bay crossing that will meet the Navy's objections and will be economically feasible.

As Chairman of the Bridge Committee, I now suggest a modification of the bridge plan submitted by our board of engineers. Enclosed you will find four drawings showing in detail this modification. The plans do not call for any change in route, either on the San Francisco or the Alameda side. They simply call for a low-level bridge and tube instead of a high-level bridge and tube recommended by our board of engineers. The ruling of the War Department, dated October 7, 1921, paragraph 4, states that a combination bridge and tunnel will be approved at a location south of the proposed Alameda Naval Base site, provided that the tunnel is so placed as to leave the channel along the San Francisco side unobstructed to a depth of 50 feet at mean lower low water for a width of 3000 feet, measured from the nearest point of the pierhead line, and provided that proper compensation is made for the obstruction of cross-section as affecting tidal flow. This modification that I am suggesting will meet this requirement and will enable us to get a permit to erect a bridge across San Francisco Bay.

There are three fundamentals that govern all such enterprises: cost, receipts and disbursements. The cost of the bridge was not given because, as stated in the engineer's report, on page 89, information regarding foundations was not obtainable. Statements have been made that it will cost $300,000 to $500,000 for this information, and in this year's budget we have placed

an item of $100,000 for "Bay Bridge Investigation," provided that no part of this item shall be expended but for this purpose unless and until the federal government has granted a permit for a bay bridge. In my opinion this money will never be spent for the present bay bridge as recommended by the board of engineers because the War Department will never give a permit.

Soundings were made in the bay close to Goat Island and they show that bed rock is 245 feet below the bottom of the bay. There is every reason to believe that the same condition exists at Rincon Hill, and if such is the case, it would be impossible to erect a high-level bridge because pressure is so great at 245 feet that it would be impractical to put a foundation down at that depth.

The present high-level, low-level tube and bridge called for in the engineers' report, dated May 5, 1927, will cost at least $100,000,000. I challenge anyone to contradict this statement. I have positive figures showing the cost. An investment of such a huge sum of money would require a toll of at least $1 per automobile. This is economically impractical. Now, why continue advocating the erection of a bridge that is impossible to construct? Why continue to advocate something for which we cannot get a permit? Gentlemen, do we want a bridge, or do we not? If we want a bridge, why, then, continue to advocate this impossibility? If we do want a bridge, let us look at it in a practical light and advocate something that is practical and something that we can receive a permit to construct.

It is nothing uncommon for a committee to change plans, especially where certain objections arise that they cannot overcome. We are in that position in reference to our bridge plans. We have accepted a set of plans that we find we cannot receive a permit to erect. We also find that the cost is prohibitive. As business men, what are we going to do? We know a bridge must be erected across San Francisco Bay. We know that the proper location on the San Francisco side is Rincon Hill, and we know that the proper location on the Alameda side is the site designated by our board of engineers. Then, why not change the plan?

The following is the cost of the modified plan that I am submitting to you:

Tube and Bridge.

Depot building, purchase of property, damage to property, $3,000,000.

Beale street cut, 1190 lineal feet, $595,000.

Beale street tunnel, 2250 lineal feet, $3,130,000.

Tube, 6000 lineal feet, $12,000,000.

Steel bridge, 6000 lineal feet, $4,050,000.

Trestle bridge, 5000 lineal feet, $2,000,000.

Tube bridge, 6400 lineal feet, $5,120,000.

Roadway, 17,600 lineal feet, $4,400,000.

Engineering and so forth, $3,429,500.

Total, $37,724,500.

Year 1934.

6,000,000 automobiles at 50c, $3,000,000.

12,000,000 passengers, two to the machine, $600,000.

55,000,000 interurban passengers at 2c, $1,100,000.

1,000.000 tons freight at 50c, $500,000.

Total receipts, $5,200,000.

Disbursements.

Operating expense, $300,000.

Maintenance, 2 per cent, $754,490.

Interest, 5 per cent, $1,886,225.

Depreciation, 2 per cent, $754,490.

Total, $3,695,205.

There seems to be a grave doubt in the minds of some as to the feasibility of tube construction. Let me call your attention to the fact that the engineers in their plan advocate the erection of two tubes that are longer than the tube that I am advocating. The two tubes as called for in the engineers' plan were placed under the Estuary, so as not to block the Oakland harbor. Is there anything unreasonable in the same request being made by the War Department, which has charge of our harbor? The Department has stated that they will give us a permit if we will meet with that request. I have quoted that section to you: paragraph 4 of their policy of October 7, 1921.

The cost of maintenance of a tube is far less than the cost of maintenance of a high-level bridge. I have figures here from the city of Pittsburgh showing that the cost of maintenance of two tubes 1⅛ miles long is a little less than $90,000 a year. I have an itemized statement from the superintendent in charge of those tubes.

The modified plan that I am suggesting will have a terminal at Beale and Mission streets. Within a radius of one-half mile of this

point 100,000 people are working; at least 50,000 of them reside across the bay and commute daily. It is an ideal point for a terminal. Beale street is an isolated street with very few buildings. It is at the foot of Rincon Hill; it is of a rock formation that lends itself readily to tunnel construction. It leads right into Pier 34, which is the pier that the engineers designate as the point to take off their high-level bridge. Tube construction is not new, but tube construction for automobile usage is new, and New York has solved that problem for us. An estimated maximum, daily, of 46,000 machines pass through the Holland tubes, and the ventilation is so perfect that the carbon monoxide has been reduced to four ten thousandths parts of air. As I have stated, the City of Pittsburgh has two tubes running through the city 1⅛ miles long that are perfectly ventilated. The City of Oakland is just about to complete the tube that will connect Oakland and Alameda and its engineers have followed the New York plan of ventilation. This tube is 4600 feet long, a little less than one mile, and it has cost four and one-half millions of dollars, the exact amount allowed in the bond issue for the construction of the tube. It will be completed and ready for service about the first of September of this year. I honestly believe that if the board of engineers had the information that I am submitting to you here today in reference to this low-level bridge and tube, that they would have recommended that in their report instead of the high-level bridge and tube that they have recommended, assuming they did not have specific instructions otherwise.

As chairman of the Bridge Committee I have come to these conclusions:

1. That a bridge is a positive necessity for the future welfare and prosperity of the cities of San Francisco, Oakland, Berkeley and Alameda.

2. That the Rincon Hill and the Alameda terminii, as designated in the engineers' report, are the sites at which the bridge should be erected.

3. That the cost should be such that it would be practical to place a toll of not more than 50 cents per automobile and not a toll of $1, that would have to be charged in case we should make an investment of $100,000,000. The modified plan that I am suggesting will cost $38,000,000, and you have an itemization of that cost before you.

In closing, I desire to call your attention to pragraph 5 of the War Department's policy of October 7, 1921, in which it is stated that no more than one crossing will be approved at any location north of San Mateo. Now, gentlemen, we know the state of mind of our sister county to the south. Three members have stood loyally by us in reference to our wishes that a franchise be denied, but two have advocated the giving of a franchise. If one member should be won over to those two, a franchise would be given and San Francisco would be high and dry with no bridge across our bay.

In this situation we are faced with the necessity of speedy and decisive action. I am honestly convinced, and I have letters from scores of our citizens who agree with me, that the only means of overcoming the War Department's objections, of bridging our bay and of securing for our great communities the adequate transportation facilities they need and must have, is the modification of the plans along the lines I have suggested and the construction at once of a low-level bridge that will be legally possible, practical and economical. In this conclusion I trust I may have your agreement and in our future plans I shall seek your cooperation.

Supervisor Roncovieri: What is the bottom of the Bay? Silt, mud?

Supervisor McSheehy: Yes.

Supervisor Roncovieri: 245 feet below that?

Supervisor McSheehy: Yes.

(At this point Supervisor Todd acts as chairman.)

Supervisor Shannon: Mr. Chairman, I would like to ask, through the chair, a question of Mr. McSheehy: Mr. McSheehy, do you think it is useless for us to attempt to proceed further in the attempt to get the Welch and Johnson bills through Congress?

Supervisor McSheehy: I do. Members of the Board, you have just heard my report. I am sorry that there is not a full attendance of the Board, but, of course, I cannot govern that no more than any other man can. The necessity of the bridge I do not think requires any argument on my part whatsoever. I do not think it requires any argument on the part of any member of this Board. I think San Francisco as a whole are united that we need a bridge across San Francisco Bay. We cannot continue the way we are going on. Now, members of the Board, we have

had this matter before us, and we have sat here, some of us older members, for twenty-odd weeks, listening to some twenty-eight applicants. Up to that time there were twenty-eight applicants, and since then there have been a number more come in. We listened for twenty odd weeks, and we came to the conclusion that the Rincon Hill site is the proper site for a bridge from the San Francisco side. We have come to the conclusion that the Alameda side, as recommended by our engineers, is the proper site from the other side. Now, in the engineers' report they said that they did not have certain data. This plan—this is not a plan, it is a perspective bird's eye view of the bridge. I did not draw this. I drew every line of every other plan that will be presented to you in the small booklet form except this particular plan, and this is a sort of a bird's eye or an artist's design of it. I am going to ask the Clerk to pass this around.

Now, members of the Board, as I stated, the cost of this bridge—consideration should be given, first, to the cost of the bridge. The cost has never been given to you on account, as the engineers said, that they have not data in reference to the foundations of the Bay. I do not deny that fact entirely. There is certain data which they have had and I think they can get and which they have today and that is in reference to certain borings which were made at Goat Island, showing 245 feet depth.

Supervisor Roncovieri: Who made those borings?

Supervisor McSheehy: They were made by a construction company under Mr. Harrelson, who was formerly a member of this Board, and some construction company made the borings and paid for them individually. And Mr. Harrelson made the borings for the construction company, a former member of this Board. And they show 245 feet. If those same borings reflect into the Rincon Hill site, it is impracticable to build a bridge at that site, a high-level bridge, and that has been so stated by the engineers, not once but several times. Now, we made an appropriation of $100,000 for the purpose of making studies, and we very wisely placed a rider on that appropriation, stating that not one dollar of that money can be used until a permit is given to us by the War Department. And that was a very wise provision to make.

(At this point Acting Mayor Havenner acted as chairman.)

Supervisor McSheehy (continuing): Why did we make that? Because the War Department, on October 7, 1921, very carefully prepared a statement, in the form of a policy, and submitted it to the City and County of San Francisco, stating under what conditions they would give a permit for a bridge. And we went back to them in June last year, almost this time of the year, and we presented our case to them and they reaffirmed their rulings of October 7, 1921. And then we came back home here and we asked and we presented two bills to the Congress of the United States, and they appeared before the Congressional committees and reaffirmed their same stand. Now, what does that stand mean? It means simply this: The War Department is an arm of the United States government that functions all over the United States. It does not function in one particular locality. Right here in San Francisco we have Colonel Jackson in charge of the rivers and harbors here, representing the United States government, and you are asking the rescinding of the law that allows that man and allows his whole department to function. Well, what is the outcome of it? You find that the Senate passes the first portion of it, but under certain conditions. Now, what has the House told you? Members of the House have told you that they will pass our particular bridge bill if we rescind that particular section of the bill. If we do that the bill is an idle act and it is meaningless—it does not mean anything. Now, what are we going to continue to do? Are we going to continue to ask for something that it is impossible to get? Are we going to chase rainbows all over the United States, or are we going to treat this as practical men should treat it? It was only two weeks from today that this very Board was called upon to change the plans of the opera house over here. As a member of the Board of Trustees I came in here and recommended a resolution to this Board to change the plans for that opera house from 4000 to 3000, which would shrink the entire building and which netted a saving of $250,000 which will be reflected in other parts of the building.

Now, members of the Board, I want to give you just a little history about that, which I can, as a member of the Board of Trustees. Mr. John Drum—and I do not like

mentioning the gentleman's name and I mention it in all due respect —Mr. John Drum was very firm, as chairman of that committee, that the opera house could be erected with a seating capacity of 4000, and he stayed very firm on that subject, but he received such advice from so many people who had knowledge of opera houses and what acoustics meant pertaining to them, that he changed his mind, and the entire Board of Trustees changed their mind, and they brought in here a report asking this Board to countenance a change of the plans so that that opera house could be erected with a seating capacity of 3500 instead of 4000. Now, members of the Board, we are in that same position here today. We have started out with a plan to erect a bridge across San Francisco Bay, and we are confronted with two obstacles: Obstacle No. 1: The government will not give us a permit for that plan because it obstructs the navigation of San Francisco Bay. The city of New York, for fifty years, asked the government for a permit to erect a bridge from New York to New Jersey over the lower section of the river—and New York is no mean city—and the government positively refused, and the outcome of that refusal was the erection of two tubes under the river today, connecting New York and New Jersey, known as the Holland tubes, and those tubes have been erected and those tubes are functioning today, and they are carrying 46,000 people. I do not want to talk about what happened some weeks ago. But I was contradicted in that statement, and I stated I would look up the data, and I have, and I say 46,000 and I have the estimate from the department of New York, showing that amount of automobiles that crossed under those tubes.

Now, what position do we find ourselves in, gentlemen? We want a bridge and we want it badly because San Francisco demands a bridge, San Francisco needs a bridge for her prosperity in the future. She should have a bridge. Now, how are we going to get the bridge? We have got to get a permit from our government. We must get a permit. And therefore we must comply with the orders of our government, and they have described certain orders laid down on October 7, 1921. Now, what are those orders asking for? They are asking for you to erect a combination tube and bridge under this portion of the bay, and I have read to you the rule and I will read it to you again. If any man is in doubt of it I will read you Section 4 again, and it is as clear as clear can be. They will give you a permit, under certain conditions. Now, we will go into the financial aspect, and what do we find? What do we find in regard to the financial aspect? We find in the financial aspect—and I will give you figures, I will go into details with any engineer, I will go into details with any man with reference to those figures because I have carefully compiled those figures, and I have sought a great deal of advice in those figures, and I could not make them public if I did not feel that I was right. Now, what do those figures show? They show that a combination bridge and tube can be erected for practically $38,000,000. There is a great difference between $100,000,000 and $38,000,000. Now, we are not taking any risk, we are not doing any pioneering in this matter. Here is a tube. Now, that tube comes over from the city of Oakland, connecting Oakland and Alameda. The same identical tube is over there only smaller. Now, I never took this from the clouds. This is no visionary matter with me. I practically went into this entire matter, and that tube is over there today, only it is a smaller tube, and the same engineer that drew that tube over there and the same engineer that erected that tube—and I never met the man before in my life until I met him the 3rd day of January of this year—that same engineer has submitted to you a combination tube and bridge plan here a week ago, from 16th street. Now, I am not in accord at all with the man's location. I am not in any manner or form in accord with the man's location. But the man has a standing as an engineer and his work speaks for itself.

Supervisor Roncovieri: Who is he?

Supervisor McSheehy: His name is King, he is the engineer in charge of the tube which crosses from Alameda to Oakland. And that man erected that tube in 200-foot lengths, by simply going in the bay and trenching it out, and we have the tube like one would erect any type of pipe. And he was told by one of our own Board of Engineers that it was impracticable and impossible, but he erected the tube and it speaks for itself, it is there today, and automobiles will be passing through it along about the 1st of September of this year.

Now, members of the Board, I do

not want to get off on any tangent, but I am going to take you first, as shortly as possible, over our own engineers' report. This map here was the map that was presented in Washington, the exact map. And what does it show? It shows that our engineers here start, we will say, at First and Fremont streets and run along Tehama street to Seventh, down Seventh to Bryant and back Bryant to Rincon Hill and from there over to Oakland. Now, that was to be an elevated railroad. And that served that section, and you gentlemen can visualize that section, it is a section where very few people work and very few people travel on the railroads. The Folsom street line and the Howard street line are two units of our present Market street roads that are not paying. Now, that section started in there and it went right over and crossed over from Rincon Hill, or Pier 34 to the Alameda Mole and ran just as you see over here, with these two tubes here (indicating on map). I see some of the members that were not here before. I want you to remember clearly that the engineer called for two tubes in his report, and those two tubes are under the Estuary there, and they are practically called for on the drawings, 3600 feet the engineer says, and they are about 4000 feet long, they will be closer to 4000 than they will to 3600, but the drawings which I have here show exactly that amount. Now, why were those two tubes placed there? They were placed there to meet with the objection of the city of Oakland, so as not to block their harbor. Now, that is the only consideration our government is asking for. They ask you not to block our harbor in San Francisco, and they prescribe for you certain rules for you to follow, and if you follow them you do not block the harbor.

Now, I have changed that route to go out Beale and Mission streets. Why did I do that? Beale street, if you will visualize it, members of the Board, is an isolated street. There are two blocks on Beale street that there is not even one building on. It is an isolated street, about 80 feet wide. As I said in my report, it is at the foot of Rincon Hill, it is of a sort of a rock formation all through and lends itself to tunnel construction. Now, that is our own street. We tunnel underneath there and we condemn only one block between Beale and Mission street, or between Beale and Mission and Howard and Mission street; there is one block and one block only. And there is not a pretentious building on that entire block. And that is the only block of land that we have to condemn or purchase with reference to this particular route. Now, within a radius of one-half a mile of Beale and Mission streets there are about 100,000 people working. 100,000 people working! So that terminal there would serve that entire number of people. About 50,000 of those people are commuters. There are 65,000 commuters a day cross our bay. So we are serving these people, we are giving something and we are rendering a service. Now, I have made this as a suggestion clear through in the modification of this plan.

Now, members of the Board, may I simply say this to you: you have been over this a great many times, you have heard a great deal about it. My modification of the plan has not met with the approval, perhaps to some degree, of our newspapers here in San Francisco. For what reason I do not know. I cannot, for the life of me understand. I have not attempted to and I will not attempt to go to the papers. I do not know whether they have received the reports I have made or not. But it has not met, as we would term it, with any particular popular approval. And therefore I know the attitude of this Board. I have been here a great many years. But let me say this to you, members of the Board: that, when the plans were changed for the War Memorial, that Mr. Redfern Mason, a writer on one of our papers, was the principal advocator for the change of the plans of the War Memorial. He wrote to me and he called on me in person and he asked me to do what I could to help. And he went on to show me why the plans of the War Memorial, the building, should be shrunk, and that the opera house should have a seating capacity of 3500 and not 4000. I said to Mr. Mason, "It is a wonder the papers do not take this up, and especially the paper that you are connected with." He said, "I cannot get a line in the paper, I have written articles and I have had friends of mine write articles, and it won't take, and there is nothing doing, that is all, I cannot do anything only to appeal to you as a member of the Board of Supervisors and appeal to your colleagues on the Board." And he did that, and the outcome of it was that we changed the plans. Now, I am appealing to you gentlemen. Do you

want to build a bridge across San Francisco Bay? If you want to build a bridge across San Francisco Bay, I tell you, as Chairman of this committee, a man who had gone to Washington, a man who has been actually crucified by the newspapers of San Francisco in reference to the advocacy of this modification of the plan that I am offering, I tell you that you cannot build the present bridge projected, for the reason that your government will not give you a permit, and secondly, I tell you that the cost is prohibitive. The engineer is not here this morning. The Engineer cannot come here and defend his stand on this matter. The Engineer never attended the meeting the other day, no, because he cannot defend his stand. When he was here three weeks ago—I have here the record, showing certain questions that I asked the Engineer, and you know the manner and form that he answered——.

Supervisor Shannon (interrupting): Whom are you referring to?

Supervisor McSheehy: I am referring to Chief Engineer O'Shaughnessy, that is the gentleman I am referring to, sir.

Supervisor Shannon: I would like to ask a question of Mr. McSheehy, through the Chair; as long as you have referred to the matter of three weeks ago, I was not here at that time.

Supervisor McSheehy: I wish you were.

Supervisor Shannon: I notice that your report is continued until this date. Are you making the report at this time that you made at that time?

Supervisor McSheehy: No, I am making an entirely different report.

Supervisor Shannon: How do you get before the Board with this new report? There is something I do not understand. It is continued from May 21st to this date. How are you making an entirely new report?

Supervisor McSheehy: I will tell you, Supervisor: Supervisor Gallagher, by motion here on the 21st day of May, instructed me, as Chairman, his motion instructed me and it was adopted unanimously by this Board, to report this matter in here today as Chairman of the committee.

Supervisor Shannon: To report what matter?

Supervisor McSheehy: This bridge matter in here today.

Supervisor Shannon: Your report of May 21st, I recall when Mr. Gallagher requested that, due to the fact that he did not hear the report, he would like to hear it and he wanted to hear from you on the subject. Now, you are not making the report of the Special Bridge Committee that went to Washington?

Supervisor McSheehy: I am, sir.

Supervisor Shannon: You are reporting Supervisor McSheehy's report, on the matter of tubes, that is what you are doing. You are not giving us a report on what took place in Washington when the Special Bridge Committee went there to make the presentation that San Francisco sent you there on. That is the point that I am making. And I am not finding fault with you on your own opinion, get that straight, but I do not think you are before the Board properly. And I appeal to the chair that Mr. McSheehy is not in here in proper form. Mr. Chairman, I am making this point, that, according to this calendar, it says, "May 21, 1928, continued" to this date. Now, as I understood it, Mr. McSheehy was to make a report to the Board as to what transpired in Washington when the Special Bridge Committee made its presentation to the departments and the Congress of the United States. Now, I contend that he is not doing that, that he is making an appeal to the membership of this Board to adopt his plan of tubes. Now, I think that the proper method of procedure for any plan of that kind is to do what has been done with the twenty odd other applications that are before the Board, file, advertise, let them go six weeks, when the time of advertisement has expired, then make the presentation to the Board. But just because he is a member of the Board and making a presentation of this kind, I feel that it is all out of order. I do not believe Mr. McSheehy is properly before the Board in any respect. If he wants to make a presentation to the Board of the report of the Special Bridge Committee that went to Washington, of which he has been honored as being Chairman, that is something I think the Board should listen to. But, for a member of the Board to take advantage of his position as Chairman of the Special Committee and come in here and make an appeal to the Board, I feel it is all out of order, and I so make the point.

Supervisor McSheehy: Mr. Chairman, may I reply to the Supervisor? The Supervisor attends the meetings so seldom that, of course, it is rather hard——

Supervisor Shannon (interrupt-

ing): Now, that is not right, Mr. McSheehy. I have been very fair and for you to say that I attend meetings so seldom is all wrong, and I challenge you, here and now, to make good that statement that I am so seldom at meetings. I was absent from the meeting last Monday, I was absent in Los Angeles, from the meeting three weeks ago. Now tell me some other dates when I have been absent?

Supervisor McSheehy: I will make this statement, Supervisor: that, if you will take the record here, you will find you have been absent more from this Board since the first day of January than any other member of the Board.

Supervisor Shannon: Now I do not think that you can say that when you have been absent more yourself than any other member of the Board, away on official business. Now, you have made the statement and I challenge you—you do not need to tell me to take the calendar —I challenge you to get the calendar of the Board and show that I have been away more than any other member of the Board.

Supervisor McSheehy: All right, sir.

Supervisor Shannon: I want it brought in, and I would like to have a ruling on my point of order.

Supervisor McSheehy: I hope the Chair will not allow this to get into any acrimonious debate.

Supervisor Shannon: You are bringing on the acrimonious debate.

Supervisor McSheehy: I would ask the order of the Chair on the matter. First of all, I will accept the Supervisor's challenge and, before the day is over, I will have a record in here showing the attendance of every member of the Board. If I am wrong, I will apologize, if I am not wrong I am going to ask your apology, Supervisor. No. 2, I have here, which you know, Mr. Chairman, Supervisor Gallagher made this motion, which I will read to you. And it was under that motion and under that motion only that I submitted this report to the committee last Friday.

Supervisor Shannon: Let us hear the motion.

Supervisor McSheehy: Here is the motion of Supervisor Gallagher —I have not the motion here, I will read you the letter——

Supervisor Shannon (interrupting): No, we want the motion.

Supervisor McSheehy: Will you kindly look up that motion of Supervisor Gallagher of three weeks ago. I have here the letter that I addressed to Honorable James Rolph, Jr., Hon. M. M. O'Shaughnessy and Hon. John J. O'Toole, City Attorney. "I have been instructed by Supervisor McSheehy" (reading).

Supervisor Shannon: Did you do it?

Supervisor McSheehy: I will answer the question after I have finished. This does not require any such questions of that kind. "This meeting is being called for the purpose of receiving" (concluding reading of the letter).

Supervisor Shannon: I rise to a question of information. The letter just read by the Supervisor states that the meeting was to be called on the 8th of June. I would like to ask if Mr. Martin was present, I would like to have Mr. Martin sent for.

(Mr. Martin, Assistant Clerk of the Board, comes into the chambers of the Board.)

Supervisor Shannon: Mr. Chairman, I would like to ask, through the Chair, some questions of the Clerk of the committee: Mr. Martin, did you send out notices for a meeting of the Special Bridge Committee called for the 8th of June?

Mr. Martin: Yes, sir.

Supervisor Shannon: How many notices did you send out?

Mr. Martin: Four.

Supervisor Shannon: To whom?

Mr. Martin: The Mayor, City Attorney, City Engineer, Mr. O'Shaughnessy.

Supervisor Shannon: Did you ignore Mr. Havenner?

Mr. Martin: Sir?

Supervisor Shannon: Did you ignore Mr. Havenner?

Mr. Martin: I sent them as requested by Supervisor McSheehy.

Supervisor Shannon: He did not request that that be sent to the full membership of the committee?

Mr. Martin: Just those four.

Supervisor Shannon: And how many were present at the meeting?

Mr. Martin: One, Supervisor McSheehy.

Supervisor Shannon: And that is the report that we are receiving this morning, I should judge, Mr. Chairman, and if such, I fail to see how we can receive a report from a committee when only one member of the committee was present at the meeting, and we know that, in addition to yourself and Mr. McSheehy, that the engineer and the Mayor and the City Attorney and the three engineers are members of that committee. Some eight or nine members of the committee and one man attended. So I move the further point of order, that the mat-

ter is not properly before us, as there was not a quorum present at the meeting.

Supervisor McSheehy: Mr. Chairman, in reply to same, I do not want to differ with the Chair, the committee consisting of only four members and there were only four members that went to Washington on this entire matter. I say that, with all due respect to the Chair.

The Chairman (Supervisor Havenner): The Chair would like to remind the Supervisor that the Bridge Committee, originally appointed by this Board, has never been dismissed and has never been changed, and was not recreated at the time that the last mission went to Washington, and that would have to be the ruling of the Chair because the Chair is absolutely certain that the original Bridge Committee has not been dismissed, and that no change has been made in its personnel.

Supervisor Shannon: There have attempts been made to dismiss them but unsuccessfully.

Supervisor McSheehy: I will merely say this: if there has been such an attempt, the motion was entirely made by the gentleman who just made the statement, and every statement that is being made in that line I will positively bring to this Board. My memory is rather fair in that matter. I am not differing with the Chair, but I do know that the present member who is raising the points of order made several attempts to have the committee discharged.

Supervisor Shannon: And unsuccessfully, which proves the Chair's contention.

Supervisor McSheehy: All right, sir. Now, with reference to this matter, Mr. Chairman, I will simply say this: that I brought this report in. The Chairman of the Finance Committee just states that it is no report. You, as Chairman of the Finance Committee, at your Finance Committee hearing last Friday, entirely alone, transacted the entire business of that committee. And the Chairman of the Utilities Committee, to my knowledge, not once but dozens of times, has transacted the business of that committee.

Supervisor Shannon: I challenge that statement.

Supervisor McSheehy: I will never forget one day, I was five minutes late in attending that committee and the committee had adjourned. So that is a common occurrence here, of individual members transacting the city's business where other members of the committee do not attend the meeting. If we did not do that, we would find, especially in various committees, we would find a lot of the city's business being held up and not properly attended to. So the Chairman of the committee invariably, after calling a meeting and sending out notices to members of the committee, calls the meeting to order and transacts the business. I am not here today in any shape, manner or form trying to be technical——

Supervisor Shannon (interrupting): Now, I think it is all right for a man to make a statement on a point of order here but we do not want him to make a long speech on it. And I want to make the further point, Mr. Chairman, that the committee was not notified to attend the meeting. There is my particular point, that the Special Bridge Committee was not notified to attend the meeting, that the Chairman of the Special Bridge Committee notified the Clerk to send notices to three members of the committee other than himself, and that the full Bridge Committee was not notified to attend. That is my particular point.

Supervisor McSheehy: Mr. Chairman, the point of order—I do not want to differ with the Chair at all, I do not see how the point of order has any particular bearing at this particular time. I have been instructed to bring a report in here. I have brought the report in here. If I made any mistake in not notifying a member of that committee, I did not do it wilfully. As I said, the committee that went to Washington, and the committee that this Board sent to Washington —and I have the entire resolution here—with all due respect, it did not include yourself. You are the last man in the world that I would think of not sending a notice to. So therefore I feel that the point of order is not well taken. And I hope the Chair will so decide so that I can complete this entire matter.

The Chairman: The Chair cannot rule that he is not a member of the Bridge Committee because the Chair is conscious of the fact that he is still a member of the Bridge Committee and will so continue until such time as that committee is dismissed and he is removed from it.

Supervisor McSheehy: I am not going to contend that you are not a

member, for a minute, I will tell you that much, because I have no objection to you as a member of any committee. I simply make this statement, gentlemen——

Supervisor Shannon: What is the ruling on my point of order?

The Chairman: I think, technically, that the point of order is good because I did not receive any notice of a meeting on Friday. I think, furthermore, that the Chairman made a mistake of procedure, at least, in holding a meeting when he knew that the Mayor had left the city, and I do not think that this particular report ought to come before the Board as the committee report when a quorum of the committee was not present.

Supervisor McSheehy: May I simply reply to that. I was ordered by this Board, as Chairman of the committe, to make a report. I was more or less somewhat criticized here a couple of weeks ago for not making a report and the motion was made and a specific time was set, a special order of business was all made for this report, and I am making the report now and I am making it in good faith, and with but one thought in mind and I cannot understand Supervisor Shannon entirely, only as Supervisor Shannon does not want a bridge to cross San Franicso Bay, he has a perfect right to contend on the technicalities that he is contending on, but if Supervisor Shannon is sincere, and wishes a bridge to cross San Francisco Bay, he would at least give some consideration to the report that I am making. Now, he is his own keeper and I am not his keeper and I am making no apologies for him whatsoever.

The Chairman: The Chair, in order that the argument may not be prolonged indefinitely, will have to rule that no report emanating from a committee, which has not received the votes of the majority of the members of the committee, or does not come with the signatures affixed of a majority of the members of the committee, is a committee report.

Supervisor McSheehy: All I can say to that is that——

Supervisor Stanton (interrupting): Was that motion read of Supervisor Gallagher's?

The Clerk: Monday, May 21. 1928. Supervisor Gallagher moved "That Supervisor McSheehy's special bridge committee's report be made a special order of business for 11 a. m. June 11, 1928. So ordered."

Supervisor McSheehy: Gentlemen, after receiving that order from the Board I proceeded to hold a meeting of the committee. I have here a long resolution authorizing the committee and so forth, which I do not want to read, and especially where the Chair contends that he is a member of the committee, and I am not denying it. There is no man on this Board I would accept quicker on any committee because when I had the original appointment of the committee —and by the way, that motion was made, and I want to especially address myself to some of the new members, that motion was made by Supervisor Shannon, and I appointed Supervisor Havenner and Supervisor Harrelson on that committee. So you can understand my position with Supervisor Havenner, it has not changed at all, we might differ——

Supervisor Schmidt (interrupting): There seems to be an order from the Board directing Supervisor McSheehy to bring in a report. The significant point is that, through probably the failure of Supervisor McSheehy or some one, the entire committee was not called to order. Now, surely he cannot bring in a report at the same time. I think what we ought to do is to rescind our action taken for the report this morning, and set it over to another date, asking that the entire committee be communicated with to be present at the hearing, and then have the matter brought into the Board in the proper way. But surely Supervisor McSheehy is between two fires. The Board dictates one policy to him to bring in a report today at 11 o'clock, and through his failure probably, or someone's, the entire committee has not been notified of the meeting and therefore the full attendance was not present. So I think to really get the thing in shape we ought to rescind our action making the request that Supervisor McSheehy bring in his report today and set it over for another date and then let him, as Chairman of the Committee, call the entire committee together.

Supervisor Todd: You do not have to rescind it, extend the time two weeks.

Supervisor Schmidt: We can rescind our action asking that the report be brought in here at 11 o'clock. I move that we rescind the action taken.

The Chairman: If the Chair may make a statement, I think the proper procedure would be to refer this report that Supervisor McSheehy has submitted here back to the Special Bridge Committee, with a request that the Special Bridge Committee report on this matter as

soon as the members can be convened. And, obviously, that cannot be done until the Mayor returns to the city.

Supervisor Powers: I will make that as a motion.

Supervisor Schmidt: I will second that motion.

Supervisor Stanton: It seems to me that there is a whole lot in the contention of Supervisor Shannon; that a committee was sent to Washington for a specific purpose. Supervisor McSheehy, in making the report for the committee that went to Washington, is entirely ignoring the thing for which they were sent and advocating an entirely different proposition. Nobody figured on a tube when Supervisor McSheehy went to Washington. And the thing that he is doing is taking the place of a bridge or tube proponent and setting forth his plans, which does not seem to me to be the proper procedure. He should either report whether the bridge was feasible, whether we were going to get the bridge across San Francisco Bay, whether there was a possibility and whether we should continue the fight to put the bridge across there, or tell us that there is no chance, and that his idea is a tube. It seems to me that that is as far as he should go, and not get up here and take the place of a proponent. I do not feel that he has any more right to get up here than Mr. Greene, or whoever the gentleman was that wanted to come in at Sixteenth street, or any other bridge proponent who wants to come in here and put a bridge or a tube across. He is going wide afield from the purpose entirely for which he was sent, and coming back with another proposition.

Supervisor McSheehy: I do not want to reply to the Supervisor, but my report entirely refers to just exactly what he has stated. He could not state it any clearer.

Supervisor Schmidt: Supervisor Powers made the motion and I seconded it that the matter be referred back to the Bridge Committee and that they hold a meeting this coming week.

The Chairman: They cannot hold a meeting until the Mayor returns.

Supervisor Schmidt: That the matter be referred back to the Bridge Committee.

The Chairman: Is there any objection? (Dropping the gavel.)

Hearing of Appeal, Treat Avenue.

The hearing of appeal from assessment for the improvement of Treat avenue between Sixteenth and Seventeenth streets, fixed for 10 a. m. this day, was, on motion, *continued for one week.*

Providing for the Issuance and Redemption of Bonds, Acquisition of Spring Valley Water Company, Properties.

On motion of Supervisor Havenner:

Bill No. 8579, Ordinance No. —— (New Series), as follows:

Providing for the issuance and redemption of bonds of the City and County of San Francisco to the amount of forty-one million dollars ($41,000,000) for the acquisition, construction and completion of a public utility, to-wit: All of the property, or such portion thereof as may be deemed necessary, water rights, rights of way, storage reservoirs, water works, water supply, pumping plants, lands within and without the confines of the City and County of San Francisco that shall be deemed necessary, and distributing system of the Spring Valley Water Company, a public utility, now distributing water within the City and County of San Francisco, used or useful in supplying water to the City and County of San Francisco and to its inhabitants, to be owned and controlled by the City and County of San Francisco for supplying water to said City and County and to the inhabitants thereof, in accordance with and as authorized at a special election held in said City and County on the first day of May, 1928.

Whereas, a special election was held in the City and County of San Francisco on the 1st day of May, 1928, in accordance with the provisions and requirements of Ordinance No. 7991 (New Series), calling and providing for such election, and Resolution No. 28813 (New Series), giving notice thereof, reference to said ordinance and resolution for further particulars being here made; and

Whereas, it has been determined by Resolution No. 29039 (New Series), reference thereto for further particulars being here made, that at such special election more than two-thirds of the votes cast thereat were cast and counted as being in favor of and to authorize the incurring of a bonded indebtedness for the purpose and to the amount stated in the proposition submitted thereat;

Now, therefore, be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That bonds of the City and County of San Francisco be issued in accordance with the result of the special election held in said City and County on the 1st day of May, 1928, and the provisions of said charter of said City and County and with Ordinance No. 7991 (New Series), and Resolution No. 28813 (New Series), as follows, to-wit:

That bonds of the City and County of San Francisco be issued to the amount of forty-one million dollars ($41,000,000) for the purpose of the acquisition, construction and completion of a public utility, to-wit: All of the property, or such portion thereof as may be deemed necessary, water rights, rights of way, storage reservoirs, water works, water supply, pumping plants, lands within and without the confines of the City and County of San Francisco that shall

be deemed necessary, and distributing system of the Spring Valley Water Company, a public utility, now distributing water within the City and County of San Francisco, used or ueful in supplying water to the City and County of San Francisco and to its inhabitants, to be owned and controlled by the City and County of San Francisco for supplying water to said City and County and to the inhabitants thereof.

That such bonds shall be called "Spring Valley Bonds," shall be 41,000 in number, and shall be numbered from 1 to 41,000, both inclusive, and shall be payable one million dollars thereof two years from the date of said bonds, beginning with the lowest number, and one million dollars thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

Section 2. All of the bonds issued as herein provided shall be of the form and character known as "serials." All of said bonds shall be dated July 1, 1928, shall bear interest at the rate of four and one-half percentum per annum, payable semi-annually on the first day of January and July of each year until the maturity thereof; shall be of the denomination of $1,000 each, and the principal and interest thereof shall be payable in gold coin of the United States at the office of the Treasurer of said City and County, or, at the option of the holder, at the fiscal agency of said City and County in the city and State of New York.

Section 3. Said bonds shall be signed by the Mayor and by the Treasurer of the City and County of San Francisco, countersigned by the Auditor, and attested by the Clerk of the Board of Supervisors with the seal of said City and County.

Said bonds shall be in substantially the following form:

THE UNITED STATES OF AMERICA.

State of California.

City and County of San Francisco.

SPRING VALLEY BOND.

No. $1,000.00

For value received, the City and County of San Francisco, a municipal corporation, organized and existing under the laws of the State of California, hereby acknowledges itself indebted and promises to pay to the bearer, on the first day of ———, 19—, one thousand dollars, with interest thereon at the rate of 4½ per centum per annum, payable semi-annually January 1 and July 1, on presentation and surrender of the coupons hereto attached as they respectively become due, both principal and interest being payable in gold coin of the United States at the office of the Treasurer of said City and County, or, at the option of the holder, at the fiscal agency of said City and County of San Francisco in the city and State of New York.

This bond is issued under and pursuant to the constitution and statutes of the State of California and the charter of said City and County of San Francisco and amendments thereto, and under and pursuant to ordinances and proceedings of said City and County duly adopted and taken, and a vote and assent of more than two-thirds of all the qualified electors of said City and County voting at a special election duly and legally called and held for that purpose.

It is hereby certified, recited and declared that all acts, conditions and things required by law to exist, happen and be performed precedent to and in the issuance of this bond have existed, happened and been performed in due time, form and manner as required by law, and that the amount of this bond, together with all other indebtedness of said City and County, does not exceed any limit prescribed by the constitution or statutes of said State or charter of said City and County, and that provision has been made as required by the constitution and statutes of said State and the charter of said City and County for the collection of an annual tax sufficient to pay the interest on this bond as it falls due, and also provision to constitute a sinking fund for the payment of the principal of this bond on or before maturity. The full faith and credit of said City and County are hereby pledged for the punctual payment of the principal and interest of this bond.

This bond may be converted into a registered bond upon presentation to the Treasurer of the City and County of San Francisco, in which event such Treasurer shall cut off and cancel the coupons of this bond, and shall sign a statement stamped, printed or written upon the back or face of the bond to the effect that this bond is registered in the name of the owner and that thereafter the interest and principal of this bond are payable to the registered owner. Thereafter and from time to time this bond may be transferred by such registered owner in person or by attorney duly authorized on presentation of this

bond to the Treasurer, and the bond be again registered as before, a similar statement being stamped, printed or written thereon.

This bond is exempt from all taxation within the State of California.

In witness whereof, said City and County of San Francisco has caused this bond to be executed under its corporate seal, signed by its Mayor and Treasurer, and countersigned by its Auditor, and has caused the interest coupons hereto attached to be signed with the engraved or lithographed signature of its Treasurer, and this bond to be dated the first day of July, 1928.

....., Mayor.

....., Treasurer.

Countersigned:

....., Auditor.

....., Clerk of the Board of Supervisors. (Seal.)

Section 4. Interest coupons shall be attached to each bond to the number of twice the number of years such bond will run until the maturity thereof, and the coupons shall be of such a sum as will amount to the interest due on such bond for six months. Such coupons shall be numbered from one upwards and shall state the name and number of the bond to which it is attached. Such coupons shall bear the facsimile signature of the Treasurer of the City and County of San Francisco and be substantially in the following form:

FORM OF COUPON.

Communication From City Attorney.

The following was read by the Clerk:

June 11, 1928.

Hon. Board of Supervisors, City Hall, San Francisco, Calif.

Gentlemen:

I regret that I am not able to advise you today relative to the rights of the Southern Pacific Company to operate trains from 17th and Division streets to the county line. It was only on last Friday that I was able to obtain the requisite data to make this examination and the time intervening between that day and today was too short to complete the investigation. An opinion will be rendered to you on Monday, the 18th instant, covering this matter.

Sincerely yours,
JOHN J. O'TOOLE,
City Attorney.

Action Deferred.

Whereupon, the foregoing matter was *continued until June* 18, 1928, *and made a Special Order of Business for* 11 *a. m.*

Phelan Plaque on Hetch Hetchy Dam.

Commendation of "Southern Cross" Pacific Flight.

Supervisor Andriano presented:

Resolution No. 29130 (New Series), as follows:

Whereas, the world has been entranced by the greatest monoplane flight in the history of aviation; and

Whereas, this flight from San Francisco to Sydney, Australia, in the giant monoplane "Southern Cross" has been accomplished without mishap; and

Whereas, a part of the flight covered one of the longest nonstop flights, of 3144 miles, in history; and

Whereas, those who accomplished the wonderful record-breaking air journey — Captain Charles Kingsford-Smith and Charles Ulm, the Australians, and Navigator Captain Lyon and James Warner, Americans—have shown intrepid courage and remarkable endurance as well as an excellent knowledge of all the intricate details of the science of navigation; be it therefore

Resolved, That the Mayor and Board of Supervisors of the City and County of San Francisco do hereby laud the epoch-making feat of the men who piloted the "Southern Cross" to Australia; and be it

Further Resolved, That the Mayor and Board of Supervisors of the City and County of San Francisco, California, do hereby extend to the intrepid flyers an invitation to visit their City of San Francisco and hereby offer them the hospitality of said City in order to publicly manifest their admiration at the greatest feat in the history of aviation and to show their high regard for the courage, endurance and knowledge exhibited by the flyers who successfully performed this wonderful feat.

UNFINISHED BUSINESS.

Final Passage.

The following matters, heretofore passed for printing, were taken up and *finally passed* by the following vote:

Providing for the Issuance and Redemption of Bonds, Acquisition of Spring Valley Water Company, Properties.

Bill No. 8579, Ordinance No. 8086 (New Series), as follows:

Providing for the issuance and redemption of bonds of the City and County of San Francisco to the amount of forty-one million dollars ($41,000,000) for the acquisition, construction and completion of a public utility, to-wit: All of the property, or such portion thereof as may be deemed necessary, water rights, rights of way, storage reservoirs, water works, water supply, pumping plants, lands within and without the confines of the City and County of San Francisco that shall be deemed necessary, and distributing system of the Spring Valley Water Company, a public utility, now distributing water within the City and County of San Francisco, used or useful in supplying water to the City and County of San Francisco and to its inhabitants, to be owned and controlled by the City and County of San Francisco for supplying water to said City and County and to the inhabitants thereof, in accordance with and as authorized at a special election held in said City and County on the first day of May, 1928.

Whereas, a special election was held in the City and County of San Francisco on the 1st day of May, 1928, in accordance with the provi-

sions and requirements of Ordinance No. 7991 (New Series), calling and providing for such election, and Resolution No. 28813 (New Series), giving notice thereof, reference to said ordinance and resolution for further particulars being here made; and

Whereas, it has been determined by Resolution No. 29039 (New Series), reference thereto for further particulars being here made, that at such special election more than two-thirds of the votes cast thereat were cast and counted as being in favor of and to authorize the incurring of a bonded indebtedness for the purpose and to the amount stated in the proposition submitted thereat;

Now, therefore, be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That bonds of the City and County of San Francisco be issued in accordance with the result of the special election held in said City and County on the 1st day of May, 1928, and the provisions of said charter of said City and County and with Ordinance No. 7991 (New Series), and Resolution No. 28813 (New Series), as follows, to-wit:

That bonds of the City and County of San Francisco be issued to the amount of forty-one million dollars ($41,000,000) for the purpose of the acquisition, construction and completion of a public utility, to-wit: All of the property, or such portion thereof as may be deemed necessary, water rights, rights of way, storage reservoirs, water works, water supply, pumping plants, lands within and without the confines of the City and County of San Francisco that shall be deemed necessary, and distributing system of the Spring Valley Water Company, a public utility, now distributing water within the City and County of San Francisco, used or useful in supplying water to the City and County of San Francisco and to its inhabitants, to be owned and controlled by the City and County of San Francisco for supplying water to said City and County and to the inhabitants thereof.

That such bonds shall be called "Spring Valley Bonds," shall be 41,000 in number, and shall be numbered from 1 to 41,000, both inclusive, and shall be payable one million dollars thereof two years from the date of said bonds, beginning with the lowest number, and one million dollars thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

Section 2. All of the bonds issued as herein provided shall be of the form and character known as "serials." All of said bonds shall be dated July 1, 1928, shall bear interest at the rate of four and one-half per centum per annum, payable semi-annually on the first day of January and July of each year until the maturity thereof; shall be of the denomination of $1,000 each, and the principal and interest thereof shall be payable in gold coin of the United States at the office of the Treasurer of said City and County, or, at the option of the holder, at the fiscal agency of said City and County in the city and State of New York.

Section 3. Said bonds shall be signed by the Mayor and by the Treasurer of the City and County of San Francisco, countersigned by the Auditor, and attested by the Clerk of the Board of Supervisors with the seal of said City and County.

Said bonds shall be in substantially the following form:

THE UNITED STATES OF AMERICA.
State of California.
City and County of San Francisco.
SPRING VALLEY BOND.

No. $1,000.00

For value received, the City and County of San Francisco, a municipal corporation, organized and existing under the laws of the State of California, hereby acknowledges itself indebted and promises to pay to the bearer, on the first day of ———, 19—, one thousand dollars, with interest thereon at the rate of 4½ per centum per annum, payable semi-annually January 1 and July 1, on presentation and surrender of the coupons hereto attached as they respectively become due, both principal and interest being payable in gold coin of the United States at the office of the Treasurer of said City and County, or, at the option of the holder, at the fiscal agency of said City and County of San Francisco in the city and State of New York.

This bond is issued under and pursuant to the constitution and statutes of the State of California and the charter of said City and County of San Francisco and amendments thereto, and under and pursuant to ordinances and proceedings of said City and County duly adopted and taken, and a vote and assent of more than two-thirds of all the qualified electors of said City and County voting at a special election duly and legally called and held for that purpose.

It is hereby certified, recited and

declared that all acts, conditions and things required by law to exist, happen and be performed precedent to and in the issuance of this bond have existed, happened and been performed in due time, form and manner as required by law, and that the amount of this bond, together with all other indebtedness of said City and County, does not exceed any limit prescribed by the constitution or statutes of said State or charter of said City and County, and that provision has been made as required by the constitution and statutes of said State and the charter of said City and County for the collection of an annual tax sufficient to pay the interest on this bond as it falls due, and also provision to constitute a sinking fund for the payment of the principal of this bond on or before maturity. The full faith and credit of said City and County are hereby pledged for the punctual payment of the principal and interest of this bond.

This bond may be converted into a registered bond upon presentation to the Treasurer of the City and County of San Francisco, in which event such Treasurer shall cut off and cancel the coupons of this bond, and shall sign a statement stamped, printed or written upon the back or face of the bond to the effect that this bond is registered in the name of the owner and that thereafter the interest and principal of this bond are payable to the registered owner. Thereafter and from time to time this bond may be transferred by such registered owner in person or by attorney duly authorized on presentation of this bond to the Treasurer, and the bond be again registered as before, a similar statement being stamped, printed or written thereon.

This bond is exempt from all taxation within the State of California.

In witness whereof, said City and County of San Francisco has caused this bond to be executed under its corporate seal, signed by its Mayor and Treasurer, and countersigned by its Auditor, and has caused the interest coupons hereto attached to be signed with the engraved or lithographed signature of its Treasurer, and this bond to be dated the first day of July, 1928.

....., Mayor.

....., Treasurer.

Countersigned:

....., Auditor.

....., Clerk of the Board of Supervisors.

(Seal.)

Section 4. Interest coupons shall be attached to each bond to the number of twice the number of years such bond will run until the maturity thereof, and the coupons shall be of such a sum as will amount to the interest due on such bond for six months. Such coupons shall be numbered from one upwards and shall state the name and number of the bond to which it is attached. Such coupons shall bear the facsimile signature of the Treasurer of the City and County of San Francisco and be substantially in the following form:

Providing for the Issuance and Redemption of Bonds, Hetch Hetchy Water Supply.

Bill No. 8589, Ordinance No. 8087 (New Series), as follows:

Providing for the issuance and redemption of bonds of the City and County of San Francisco to the amount of twenty-four million dollars ($24,000,000) for the construction and completion of a public utility, to-wit, aqueduct tunnels, pipe lines and other structures and appurtenances, including lands necessary for the completion of the Lake Eleanor Tuolumne system, also known as the Hetch Hetchy project, for the conveying of water from the Tuolumne river and its tributaries, situated within the State of California, to the City and County of San Francisco for domestic and municipal purposes, to be used as an available source of a sufficient supply of good, pure water for said City and County and its inhabitants, in accordance with and as authorized at a special election held in said City and County on the first day of May, 1928.

Whereas, a special election was held in the City and County of San Francisco on the 1st day of May, 1928, in accordance with the provisions and requirements of Ordinance No. 7990 (New Series), calling and providing for such election, and Resolution No. 28812 (New Series), giving notice thereof, reference to said ordinance and resolution for further particulars being here made; and

Whereas, it has been determined by Resolution No. 29040 (New Series), reference thereto for further particulars being here made, that at such special election more than two-thirds of the votes cast thereat were cast and counted as being in favor of and to authorize the incurring of a bonded indebtedness for the purpose and to the amount stated in the proposition submitted thereat:

Now, therefore, be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That bonds of the City and County of San Francisco be issued in accordance with the result of the special election held in said City and County on the 1st day of May, 1928, and the provisions of said charter of said City and County and with Ordinance No. 7990 (New Series) and Resolution No. 28812 (New Series), as follows, to-wit:

That bonds of the City and County of San Francisco be issued to the amount of twenty-four million dollars ($24,000,000) for the purpose of the construction and completion of a public utility, to-wit, aqueduct tunnels, pipe lines and other structures and appurtenances, including lands necessary for the completion of the Lake Eleanor Tuolumne system, also known as the Hetch Hetchy project, for the conveying of water from the Tuolumne river and its tributaries, situated within the State of California, to the City and County of San Francisco for domestic and municipal purposes, to be used as an available source of a sufficient supply of good, pure water for said City and County and its inhabitants, to be owned and controlled by the City and County of San Francisco for supplying water to said City and County and to the inhabitants thereof.

That such bonds shall be called "Hetch Hetchy Bonds," shall be 24,000 in number, and shall be numbered from 1 to 24,000, both inclusive, and shall be payable six hundred thousand dollars thereof ten years from the date of said bonds, beginning with the lowest number, and six hundred thousand dollars thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

Section 2. All of the bonds issued as herein provided shall be of the form and character known as "serials." All of said bonds shall be dated July 1, 1928, shall bear interest at the rate of four and one-half per centum per annum, payable semi-annually on the first day of January and July of each year until the maturity thereof; shall be of the denomination of $1,000 each, and the principal and interest thereof shall be payable in gold coin of the United States at the office of the Treasurer of said City and County, or, at the option of the holder, at the fiscal agency of said City and County in the city and State of New York.

Section 3. Said bonds shall be signed by the Mayor and by the Treasurer of the City and County of San Francisco, countersigned by the Auditor, and attested by the Clerk of the Board of Supervisors with the seal of said City and County.

Said bonds shall be in substantially the following form:

THE UNITED STATES OF AMERICA.
State of California.
City and County of San Francisco.
HETCH HETCHY BOND.

No. —— $1,000.00

For value received, the City and County of San Francisco, a municipal corporation, organized and existing under the laws of the State of California, hereby acknowledges itself indebted and promises to pay to the bearer, on the first day of ———, 19—, one thousand dollars, with interest thereon at the rate of 4½ per centum per annum, payable semi-annually January 1 and July 1, on presentation and surrender of the coupons hereto attached as they respectively become due, both principal and interest being payable in gold coin of the United States at the office of the Treasurer of said City and County, or, at the option of the holder, at the fiscal agency of said City and County of San Francisco in the City and State of New York.

This bond is issued under and pursuant to the constitution and statutes of the State of California and the charter of said City and County of San Francisco and amendments thereto, and under and pursuant to ordinances and proceedings of said City and County duly adopted and taken, and a vote and assent of more than two-thirds of all the qualified electors of said City and County voting at a special election duly and legally called and held for that purpose.

It is hereby certified, recited and declared that all acts, conditions and things required by law to exist, happen and be performed precedent to and in the issuance of this bond have existed, happened and been performed in due time, form and manner as required by law, and that the amount of this bond, together with all other indebtedness of said City and County, does not exceed any limit prescribed by the constitution or statutes of said State or charter of said City and County, and that provision has been made as required by the constitution and statutes of said State and the charter of said City and County for the collection of an annual tax sufficient to pay the interest on this bond as it falls due, and also provision to constitute a sinking fund for the payment of the principal of this bond on or before maturity. The full faith and credit of said City and County are hereby pledged for the punctual payment of the principal and interest of this bond.

This bond may be converted into a registered bond upon presentation to the Treasurer of the City and County of San Francisco; in which event such Treasurer shall cut off and cancel the coupons of this bond, and shall sign a statement stamped, printed or written upon the back or face of the bond to the effect that this bond is registered in the name of the owner and that thereafter the interest and principal of this bond are payable to the registered owner. Thereafter and from time to time this bond may be transferred by such registered owner in person or by attorney duly authorized on presentation of this bond to the Treasurer, and the bond be again registered as before, a similar statement being stamped, printed or written thereon.

This bond is exempt from all taxation within the State of California.

In witness whereof, said City and County of San Francisco has caused this bond to be executed under its corporate seal, signed by its Mayor and Treasurer, and countersigned by its Auditor, and has caused the interest coupons hereto attached to be signed with the engraved or lithographed signature of its Treasurer, and this bond to be dated the first day of July, 1928.

....., Mayor.

....., Treasurer.

Countersigned:

....., Auditor.

....., Clerk of the Board of Supervisors.

(Seal.)

Section 4. Interest coupons shall be attached to each bond to the number of twice the number of years such bond will run until the maturity thereof, and the coupons shall be of such a sum as will amount to the interest due on such bond for six months. Such coupons shall be numbered from one upwards and shall state the name and number of the bond to which it is attached. Such coupons shall bear the facsimile signature of the Treasurer of the City and County of San Francisco and be substantially in the following form:

FORM OF COUPON.

No. ——— $———

On ——— 1, 19—, the City and County of San Francisco, California, will pay to bearer at the office of the Treasurer of said City and County, or, at the option of the holder, at the fiscal agency of the City and County of San Francisco, in the City and State of New York, ——— dollars ($———) in gold coin of the United States, being six months' interest then due on its "Hetch Hetchy Bond" dated July 1, 1928, number ———.

....., Treasurer.

Section 5. Any bond may be converted into a registered bond upon presentation to the Treasurer of the City and County of San Francisco, in which event such Treasurer shall cut off and cancel the coupons of this bond, and shall sign a statement stamped, printed or written upon the back or face of the bond to the effect that the bond is registered in the name of the owner and that thereafter the interest and principal of the bond are payable to the registered owner. Thereafter and from time to time the bond may be transferred by such registered owner in person or attorney duly authorized on presentation of the bond to the Treasurer, and the bond be again registered as before, a similar statement being stamped, printed or written thereon. Such registration shall be substantially in the following form:

Retirement Ordinance Amendment.

Also, Bill No. 8586, Ordinance No. —— (New Series), as follows:

Amending Subdivisions (g), (h), (i) and (n) of Section 2; Paragraph 3, Subdivision (a) and Paragraphs 9 and 10, Subdivision (b) of Section 4; Subdivisions (d) and (e) of Section 5; Section 6; Section 7 by changing the designations of Subdivisions (a), (b) and (c) to (b), (c) and (d), respectively, and by adding a new Subdivision (a); Section 10; Section 11; Section 12; Subdivisions (a) and (b) of Section 13; Subdivision (b) of Section 14; Subdivision (a) of Section 16; Subdivision (a) of Section 17; Option No. 1 of Section 18; Section 19 by adding a Subdivision (c); Section 21 and Section 24, all of Ordinance No. 5561 (New Series), entitled "Establishing a retirement system for employees of the City and County of San Francisco providing for the payment of retirement allowances to aged and disabled employees and for the payment of death benefits; prescribing the conditions under which said allowances and benefits shall be paid; fixing rates of contribution and the amounts of retirement allowances and death benefits, and providing for the administration of said retirement system in accordance with Article XVII of the Charter."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Subdivisions (g), (h), (i) and (n) of Section 2 of Ordinance No. 5561 (New Series), the title of which is above recited, are hereby amended to read as follows:

(g) "City-service" shall mean service rendered as an employee of the City for compensation, and for the purposes of this ordinance, a member shall be considered as being in the "city-service" only while he is receiving compensation from the City for such service.

(h) "Prior Service" shall mean the city-service of a member rendered before the first day of April, nineteen hundred and twenty-two, except that, for members employed as teachers by the San Francisco School Department at the time of their entry into the Retirement System, "prior service" shall mean the city-service, excluding service as a member, rendered before the first day of October, nineteen hundred and twenty-five.

(i) "Continuous Service" as applied to prior service shall mean all prior service, regardless of interruptions in such service, and as applied to service as a member shall mean uninterrupted employment by the City, except that discontinuance of city-service of a member from any cause whatever followed by reentrance into city-service within three years from the date of such discontinuance shall not be considered as a break in the continuity of service.

(n) "Regular Interest" shall mean interest at four per centum per annum, compounded annually, plus such additional interest as the Board of Administration may declare from year to year in accordance with the provisions of this ordinance.

Section 2. Paragraph 3, Subdivision (a) and Paragraphs 9 and 10, Subdivision (b) of Section 4 of Ordinance No. 5561 (New Series) are hereby amended to read as follows:

(a). (3) Every other employee who shall enter city-service after April first, nineteen hundred and twenty-two, shall become a member of the Retirement System upon the completion of six months of continuous service; except that

every other employee who shall enter city-service after October first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department shall become a member of the Retirement System upon the completion of six months of continuous service; and except, further, that any employee who shall enter city-service by reason of his status as an employee, for not less than one year, of a public utility at the time such public utility is acquired by the City, shall become a member upon such entry.

(b). (9) Employees engaged outside the City on the Hetch Hetchy project, provided that if any employee so excluded shall later become a member of the Retirement System through any change in status occasioned by transfer or assignment to other employment or by amendment to this ordinance, he shall receive credit for service with the City rendered prior to the date he enters the Retirement System, including service as an employee of the Hetch Hetchy project, in the same manner as credit for prior service is granted to employees who become members on April first, nineteen hundred and twenty-two, and provided, further, that on and after July first, nineteen hundred and twenty-six, employees of the Hetch Hetchy project on units certified, from time to time, to the San Francisco City Employees' Retirement System by the Board of Public Works as being completed and placed on a permanent operating basis, shall not be excluded from membership in the Retirement System under this paragraph, and, also, that on and after July first, nineteen hundred and twenty-eight, employees who were transferred prior to July first, nineteen hundred and twenty-two, to the Hetch Hetchy project outside the City from city-service within the City, and employees who have completed or shall complete ten years of continuous service on the Hetch Hetchy project, shall not be prevented under this paragraph from becoming members of the Retirement System.

(10) Persons in city-service on June twenty-eighth, nineteen hundred and twenty-two, who have not at that time affirmatively exercised the option of becoming members of the Retirement System as provided in Paragraph (1), Subdivision (a) of this section, and whose compensation equals or exceeds five hundred ($500) dollars per month.

Section 3. Subdivisions (d) and (e) of Section 5 of Ordinance No. 5561 (New Series) are hereby amended to read as follows:

(d) Any member may elect to contribute at rates in excess of those provided for in Subdivision (a) of this section, for the purpose of providing additional benefits, but the exercise of this privilege by a member shall not place on the City any additional financial obligation. The Board of Administration, upon application, shall furnish to such member information concerning the nature and amount of additional benefits to be provided by such additional contribution.

(e) At the close of each month the Board of Administration shall determine the aggregate amount of the normal contributions for such month and the portions of such aggregate amount deducted from compensation paid from: (a) funds of operating public utilities, which shall include units of the Hetch Hetchy project certified from time to time by the Board of Public Works as being completed and placed on a permanent operating basis; (b) bond funds not included under the preceding item (a); (c) funds of the San Francisco School Department; (d) County Roads Fund, and (e) all other sources. There shall be paid to the Retirement Fund from each of the funds included under items (a), (b), (c) and (d), as set forth in the preceding sentence, an amount equal to the total normal contributions deducted from compensation paid from such fund during and subsequent to the fiscal year ending June thirtieth, nineteen hundred and twenty-eight, in the case of funds included in items (b) and (d), and on and after July first, nineteen hundred and twenty-eight, in the case of the funds of the San Francisco School Department, included in item (c). The Board shall certify to the Auditor the amount of normal contributions deducted from compensation paid from all other sources as set forth in item (e), and the Auditor shall transfer an equal amount to the Retirement Fund from the appropriation for the Retirement System in the Budget for the then current year.

Section 4. Section 6 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 6. Subject to the following and to all other provisions of this ordinance, including such rules and regulations as the Board of Administration may adopt in pur-

suance thereof, the said Board shall determine and may modify allowances for service and disability.

It shall fix and determine how much service rendered in any fiscal year shall be the equivalent of a year of service and of parts thereof, but shall credit one year for two hundred and fifty or more days of service rendered by employees on a per diem basis and one year for ten months or more of service rendered by employees on a monthly basis, but not more than one year for all service in any fiscal year.

Time during which a member was absent from service without pay shall not be allowed in computing service.

Each employee shall file with the Board of Administration such information affecting his status as a member of the Retirement System as the Board may require.

The Board of Administration shall grant credit for prior service to each member who has rendered such service as defined in this ordinance and who has entered the Retirement System prior to January first, nineteen hundred and twenty-eight. However, prior service so credited shall be the basis for a retirement allowance or benefit as provided in this ordinance only if membership continues until retirement on a retirement allowance or until the granting of such other benefit.

Section 5. Section 7 of Ordinance No. 5561 (New Series) is hereby amended by changing the designation of the present Subdivisions (a), (b) and (c) to (b), (c) and (d), respectively, and by the addition of a new subdivision, to be designated (a), and to read as follows:

(a) Contributions of members, of beneficiaries and of the City shall be improved with interest at the rate of four per cent (4%) per annum, compounded annually. The Board, however, at the end of each fiscal year, beginning with the fiscal year 1927-1928, may credit to all contributions held in the Retirement Fund at June 30th of the then current fiscal year, such additional interest as it may deem proper in the light of the earnings on the Retirement Fund during such fiscal year, provided that the total interest credited to contributions during any fiscal year shall not exceed the earnings on the Retirement Fund during that year; and provided, further, that interest at the rate of four per cent (4%) per annum, compounded annually, shall be used in the calculation of benefits under any mortality table adopted by the Board, regardless of any additional interest allowed on contributions under this paragraph.

Section 6. Section 10 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 10. There shall be paid into the Retirement Fund, by contributions of the City, the amounts necessary to pay all pensions and all other benefits allowable under this ordinance to members on account of prior service. Until the amount accumulated in the Retirement Fund becomes not less than the present value of all amounts thereafter payable from the Retirement Fund, the amount annually due to the said Fund under this section shall be the amount payable from said Fund in the ensuing fiscal year on account of prior service. Such portion of the amount as is annually due to the Retirement Fund on account of prior service rendered by persons as employees of municipally owned operating public utilities, which shall include units of the Hetch Hetchy project certified from time to time by the Board of Public Works as being completed and placed on a permanent operating basis, or on account of prior service rendered by persons as employees of the San Francisco School Department, shall be paid from the funds of such public utilities or from the funds of the San Francisco School Department, respectively, provided that no amount due to the Retirement Fund on account of prior service rendered by persons retired under the provisions of Section 9, Article XVII of the Charter shall be paid from the funds of the San Francisco School Department.

Section 7. Section 11 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 11. The payments of the City into the San Francisco City Employees' Retirement Fund, as provided in Subdivision (e), Section 5 of this ordinance, and the payments into the said fund, as provided in Section 10 of this ordinance, are hereby made obligations of the City. The Board of Supervisors shall appropriate, in the budget for each fiscal year, such amounts as are necessary to make such payments, less the portions to be paid from the several funds set forth in the said Subdivision (e) of Section 5 and Section 10, and the amounts as ap-

propriated shall be included in the tax levy. The Board of Supervisors, also, shall make provision for the payment from the said several funds of such amounts as shall be necessary to meet the obligations of the City under the Retirement System on account of employees whose compensation is or has been paid from such funds.

Section 8. Section 12 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 12. Should the city-service of a member be discontinued, except by death or retirement, he shall be paid, six months after the date of discontinuance, such part of his accumulated contributions as he shall demand; provided that, if in the opinion of the Board of Administration, said member is permanently separated from city-service by reason of such discontinuance, he shall be paid forthwith all of his accumulated contributions, and provided, also, that the Board of Administration may, in its discretion, withhold for not more than one year after a member last rendered city-service all or part of his accumulated normal contributions if after a previous discontinuance of city-service he withdrew all or a part of his accumulated normal contributions and failed to redeposit such withdrawn amount in the Retirement Fund as provided in this Section.

Any member may redeposit in the Retirement Fund, in one sum or in not to exceed six monthly or twelve semi-monthly payments, an amount equal to that which he withdrew therefrom at the last termination of his membership. If a member upon reentering the Retirement System after a termination of his membership shall not make such redeposit, he shall reenter as a new member without credit for any service and the rate of his contributions for future years shall be the normal rate provided for in Subdivision (a), Section 5 of this ordinance at his age of reentrance; otherwise his rate of contribution for future years shall be the same as his rate prior to the last termination of his membership, and his membership shall be the same as if unbroken by such last termination. In the event such redeposit is made by a member, an amount equal to the accumulated normal contributions so redeposited shall again be held for the benefit of the said member and shall no longer be included in the amounts available to meet the obligations of the City on account of benefits that have been granted and on account of prior service of members.

Section 9. Subdivisions (a) and (b) of Section 13 are hereby amended to read as follows:

(a) Each member in the city-service who has attained the age of seventy years at the time of his entrance into the Retirement System shall be retired forthwith, and each member in city-service, or within four months after discontinuance of city-service, or while physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of city-service, who attains the age of seventy years, shall be retired on the first day of the calendar month next succeeding that in which the said member shall have attained the age of seventy years.

(b) Any member in the city-service or within four months after discontinuance of city-service, or while physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of city-service, may retire upon written application to the Board of Administration, stating what time, not less than thirty days subsequent to the filing of such application in case one of the options set forth in Section 18 of this ordinance is selected, he desired to be retired, provided that said member, at the time so specified for his retirement, shall have

(1) Completed ten years of continuous service as defined in this ordinance and attained the age of sixty-two years; or

(2) Completed thirty years of continuous service as defined in this ordinance and attained the age of fifty-seven years.

Section 10. Subdivision (b) of Section 14 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(b) Any member who entered the Retirement System on April first, nineteen hundred and twenty-two, or who entered after said date and receives credit for prior service, and who is retired by reason of attaining the age of seventy years, shall receive on account of prior service such additional pension, purchased by the contributions of the City, as will make his total retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, not less than four hundred and eighty (480) dollars per year unless such four hundred and eighty (480) dollars exceeds one-half of his final compensation, in which

event his total retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, shall be not less than one-half of his final compensation.

Section 11. Subdivision (a) of Section 16 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) Upon retirement for disability a member who has attained the age of sixty-two years shall receive a service retirement allowance as provided in Subdivision (a), Section 14 of this ordinance; otherwise he shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and, if, in the opinion of the Board of Administration, such disability is not due to intemperance, wilful misconduct or violation of law on the part of this member;

(2) A pension purchased by the contributions of the City which, together with the annuity provided by his accumulated normal contributions, shall make the retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, equal to (a) one and one-fourth (1¼) per centum of his final compensation multiplied bv the number of years of service credited to him, if such retirement allowance exceeds one-fourth of his final compensation; otherwise (b) one and one-fourth (1¼) per centum of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age sixty-two, but such retirement allowance shall not exceed one-fourth of such final compensation. In the calculation of a retirement allowance under this paragraph in the case of a member having credit for more than one class of service, that is, service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the final compensation in each case being that for the respective class of service; provided, that the final compensation upon which the minimum total retirement allowance is calculated in such case shall be based on the compensation earnable by the member in the classes of service rendered by him during the ten years immediately preceding his retirement.

Section 12. Subdivision (a) of Section 17 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) The Board of Administration may, at its pleasure, require any disability beneficiary, under age sixty-two, to undergo medical examination, such examination to be made by a physician or surgeon, appointed by the Board of Administration, at the place of residence of said beneficiary or other place mutually agreed upon. Upon the basis of such examination the Board shall determine whether said disability beneficiary is still incapacitated, physically or mentally, for service in the office or department of the City where he was employed and in the position held by him when retired for disability. If he Board of Administration shall determine that said beneficiary is not so incapacitated, his retirement allowance shall be cancelled forthwith, and he shall be reinstated to the position held by him when retired for disability.

Section 13. Option No. 1 of Section 16 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Option 1. If he die before he receives in annuity payments provided for in Paragraph (1), Subdivision (a), Section 14 and Paragraph (1), Subdivision (a), Section 16 of this ordinance, the amount of his accumulated contributions as it was at his retirement, the balance of such accumulated contributions shall be paid to his estate or to such person, having an insurable interest in his life, as he shall nominate by written designation duly executed and filed with the Board of Administration.

Section 14. Section 19 of Ordinance No. 5561 (New Series) is hereby amended by the addition of a subdivision to be designated (c) and to read as follows:

(c) Upon the death of any person after retirement and while receiving a retirement allowance from the Retirement System, there shall be paid to his estate, or to such person having an insurable interest in his life as he shall have nominated by written designation duly executed and filed with the Board of Administration, the sum of five hundred dollars ($500), the funds for such payment to be derived from the accumulated contributions of the City held to meet the obligation of the City on account of benefits that

have been granted and on account of prior service of members.

Section 15. Section 21 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 21. A pension, an annuity or retirement allowance granted under the provisions of this ordinance shall be payable in equal monthly installments or in smaller pro rata amounts when the pension, annuity or retirement allowance begins after the first day of the month or ends before the last day of the month.

Section 16. Section 24 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 24. No person who has been retired for service or disability and who receives a retirement allowance under the Retirement System shall be paid for any service, except as a juror or as an election officer, rendered by him to the City after the date of his retirement.

Section 17. This ordinance shall take effect immediately.

Spur Track Permit, Southern Pacific Company.

On recommendation of Streets Committee:

Bill No. 8587, Ordinance No. —— (New Series), as follows:

Amending Section 2 of Ordinance No. 7511 (New Series), granting

permission, revocable at will of the Board of Supervisors, to the Southern Pacific Company, its successors or assigns, to construct, maintain and operate certain industrial spur tracks upon First street, Bryant street and Beale street as hereinafter described.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 2 of Ordinance No. 7511 (New Series) is hereby amended to read as follows:

Section 2. Said tracks shall be used for the transportation of freight only, and shall not be used as a main line or a part thereof.

Said tracks shall be laid level with the street and must be operated under such restrictions as to interfere to the least possible degree with the use of said streets by the public.

The Southern Pacific Company shall erect and maintain all-night lighted arc lamps to be placed where directed by the Lighting Committee of the Board of Supervisors.

Provided, however, that it is the intention of this Board that said track shall be equally available to all railroads, but in order to promote safety and economy in the operation thereof it is hereby expressly provided that the State Belt Railway, or any railroad operating in San Francisco, shall have the right to make physical connection with the tracks above described, and Southern Pacific Company shall promptly and without discrimination switch to any industry on said track any car or cars which such other carriers may place on proper interchange tracks properly constructed to handle necessary business. It is understood that Southern Pacific Company is to do all of the switching on the trackage known as Beale street spur or industrial tracks.

Provided, that no locomotive, car or cars shall be taken over the spur tracks on Beale street from Howard street to Mission street between the hours of 7 a. m. and 12 m. and 1 p. m. and 4 p. m.

Section 3. This ordinance shall take effect immediately.

Energy Charge:

For the first 20 kw. of connected load, 3.5c per kwh. for first 150 kwh. per month per kw. connected; .75c per kwh. for all in excess.

For all connected load in excess of 20 kw., 2.6c per kwh. for first 150 kwh. per month per kw. connected; .75c per kwh. for all in excess.

Service charge (including switching), $3 per month per point of delivery.

Special Conditions:

This rate is applicable to alternating current series street lighting service delivered to the consumer's system but metered on the primary side of constant current transformers.

The connected load will be determined by taking the rated wattage of all lamps connected to the metered system after dividing by the rated efficiency of its individual transformer, if one is used.

Delivery will be made at the nearest point of contact with the consumer's system and at such additional points as may be necessary, provided the consumer has arranged its system for the least practicable number of delivery points.

Constant current transformers will be located at the nearest convenient points back from the points of delivery, or, at the option of the Company, in the Company's substation. Two or more circuits may be combined on a single transformer.

Meters will be located at the nearest convenient point back of constant current transformers. In case of more than one transformer, the service may be metered at more than one point, or, at the option of the Company, any two or more transformers may be served through a single meter located at the nearest convenient point back on the line or at the substation.

A point of delivery is any point where energy is delivered from a circuit of said Pacific Gas and Electric Company to a circuit of the consumer even though two or more such deliveries may be made at the same location; as, for example, when midnight service and all-night service are both delivered over separate circuits at the same location.

The energy to be delivered under this schedule will be what is commonly designated as 6.6 ampere constant (series) current, reasonable fluctuations consistent with good commercial practice to be permitted.

SPECIAL ORDER—10 A. M.

Treat Avenue Appeal.

Hearing of appeal from assessment for the improvement of Treat avenue between Sixteenth street and Seventeenth street was *continued one week.*

SPECIAL ORDER—11 A. M.

Islais Creek Reclamation District hearing.

Protest of Theodore J. Savage.

The following was read and ordered *filed*:

San Francisco, Calif.,
June 16, 1928.

To the Honorable, the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

Subject: Islais Creek Reclamation District Assessment.

On behalf of my clients, I solemnly protest against the methods which the proponents of this measure have adopted since the evidence has been closed and the matter submitted to your Honorable Board for decision.

This proceeding is judicial. Your Honors sit as a court, hear the evidence on both sides and the arguments of counsel in open meeting and in the presence of and with privilege of reply by the adversary parties, and then it is your function to decide the case according to the evidence, in the exercise of a free and untrammeled judgment.

The evidence on both sides was closed and the arguments were made on June 4, 1928.

Since that time certain individuals and organizations have taken it upon themselves to attempt to influence and coerce your action, not by means of evidence offered in open meeting, but by letters.

The Down Town Association, the San Francisco Real Estate Board, the Chamber of Commerce and others attempt to decide this case for you and to force your decision, not on the merits of the objections, but for reasons extraneous thereto.

They ask you to abandon the judicial frame of mind; they ask you to disregard the justice of our contention; they ask you to sweep aside the evidence in the case and to decide the matter upon grounds of expediency. They suggest that we be forced to carry our protests into court, whereas we are entitled to justice at your hands, here and now.

You will not find in any one of these communications any reference to the evidence in the case, or any mention of the cogent objections which we have made to the gross injustice and manifest illegality of this attempted assessment.

I am sure that not one of the writers knew what the evidence is or what the grounds of our objection are.

I know that none of these organizations gave us the slightest opportunity to state our position to them.

They presume to pass judgment upon the whole matter without informing themselves what the case is about, and then proceed to tell you how you should vote in a manner bordering upon the coercive.

This method of procedure is most unfair, irregular and reprehensible.

Quite recently the Supreme Court of this State cited the Chairman and the Secretary of the Republican County Central Committee, found them guilty of contempt and punished them severely for using exactly similar methods to influence the decision of that tribunal in a case then under submission.

The proposed assessment would work a great injustice upon each of my clients.

In each case his property is the site of a going business concern. The only evidence before you is that these parties would not be benefited. The uncontradicted evidence is that, on the contrary, they would sustain great damage. Obviously this work would necessitate their plants being shut down, their buildings razed and the owners deprived of the use of the property for more than a year.

In the face of these uncontradicted facts, they are assessed at a higher rate than property situated more closely to the heart of the project at Islais Creek.

These and other objections to the assessment made upon the oral argument are so just and so manifest that the protests should be sustained.

Very respectfully,
Theodore J. Savage,
Attorney for William Taaffe & Co., Reinhart Lumber & Planing Mill Co., P. F. Reilly.

Re Islais Creek Reclamation Project.

Upon motion duly made and seconded, Supervisor Havenner took the chair.

Supervisor Gallagher: This matter that I am bringing up, I do not think it will cause much debate, but I desire permission of the chair to

bring up the subject of hearing and appeal from an assessment to Treat avenue—no, Islais Creek reclamation.

Can we bring that up now?

The Chair: No objection.

Supervisor Gallagher: I would like to make a statement for myself, and I do not know how far it fits; I do not know how far my statement may fit in with the idea of these other members of the Board.

As you know, Supervisor Suhr some weeks ago presented a resolution approving the assessment on these properties under the Islais Creek Reclamation District Act. There were some of us who felt and who feel now that the element of damages to two of the property owners, at least, who are legally before us protesting, have not been considered with the degree of regard that might be done. Within the week committees have gone to the several newspapers and have indicated to them that there was danger of this project, at least as far as the assessment was concerned, being defeated, that there being only two per cent of the persons in the discrict protesting that it seemed too bad that it would be endangered by that fact. On behalf of myself and some others I desire to make this statement: that during the week, recognizing that this was an improvement of wrothwhile dimension, and recognizing also the fact that in my opinion an equitable arrangement had not been made as yet by the commission, we indicated our opposition to it under the circumstances and conditions under which it was presented. It has been found that the commission could not in the matter of damages make arrangements for damages prior to the adoption of this assessment, but the protestants here have the desire not to obstruct the assessment bond, but to place themselves in the position to go to the courts and ask for damages. It is too bad the Chamber of Commerce, in the first instance, the Down Town Association, in the second, several individuals, in the third, and some of our newspapers, friendly and unfriendly to the Board, could not have given an opportunity for a broader discussion of this matter. I say it is too bad, because some dust was raised and there were some folks attempted to initiate obstructive measures here that were at least sagacious. I am glad to say to you that the attorney for the district has sat with the attorney for the protestant, Mr. Savage, and they have cleared the air of the things that troubled them, temporarily. Mr. Savage still stands in the position of a protestant, to protect the rights of his clients in the courts. The commission, however, recognizes there are certain features of this thing that are to be taken care of by the courts, and I think it will be found a matter of adequate justice when it does reach the courts. I want everybody here to remember——

The Chair (interrupting): May I interrupt? May I ask that Supervisor McSheehy take the chair while I go to the convention of the Native Daughters?

Supervisor Suhr: I think your vote is necessary.

Supervisor Gallagher: So far as I am concerned, one minute is necessary, except that I want to say to you that if this goes on it will be longer than you figure.

* * *

Supervisor Gallagher: I shall conclude this thing except for what I said previously, all of the folks interested are here and it is the earnest desire of all parties concerned to conclude this matter if they can.

I repeat, number one, that the two protestants do not withdraw their protest, and they do not withdraw for the reason that they desire to protect their future rights; secondly, I was saying, just before the Supervisor had to leave for the convention, that I trusted that at least some consideration will be given to this: that the Chamber of Commerce and others concerned, the Down Town Association, will not try to steam roller this Board or stampeding it into voting on propositions without giving us a fair chance to consider them. Within the last week a drive has been put on, frankly speaking, I think, engineered from the City Hall here. People have been visited and statements made and a drive has been put on to sort of put the members of the Board in the frame of mind that, regardless of these protests, we vote this now.

Had it not been for the fact that we were able to bring the parties together and reconcile their differences I should have voted "no." I believe, Mr. Chairman, that when a man has his day in court, and this is the court, that the obvious duty of the Board of Supervisors is to give that man a fair hearing. To have all sorts of organizations and individuals that do not understand what this is all about write letters in here asking us to vote them down, regardless of their rights, is the wrong principle of

government. These people come within their rights to this court. They were the only two concerns in the district that had going businesses. I venture the opinion now that not one of the protestants—not the protestants, but the ones that want us to vote this thing now—can tell me—and if they will rise I will ask them a few questions—can tell me much about this district, and yet the Clerk's desk is filled with letters, "Push this through." "To the bow-wows with this protest." That is the wrong way to approach public business.

Two men were fined $500 recently by the Supreme Court because of the fact that they did write the Supreme Court, telling the Supreme Court what they ought to do in a certain matter. We are not so ticklish, but we are sitting as a court, a semi-court basis. A gentleman rang me up last week and here is the language that came to me: "Mr. Gallagher, you don't like threats." I said, "Certainly I don't." He said, "Well, I am not threatening you, but I am telling you this. We have a list of the Southern Promotion Association in our hands, and if you do not change your attitude on this Islais Creek thing we will start a new association. We will bust up your association." I said, "Isn't that nice. You can go to hell." That was my answer. And that gentleman is sitting here and glowing with pride this morning.

Now, that is what has been happening, but all of the time it was my thought as a member of the committee that had something to do with this, that perhaps if this thing went into court the whole scheme might be endangered, and our efforts have been put forth earnestly in the last week with an idea of reconciling these differences. I felt that Mr. Reinhart was entitled to some damages, regardless. I felt that Mr. Taaffe could be left where he was and they could dash around him until they got to him, and when they got to him and had to raise him fourteen feet and put him out of business, he would be entitled to damages, but there was no daylight ahead.

We have been accused of delay. Here is the record:

May 22, 1927, the trustees for the Islais Creek Reclamation District filed estimates and requested the appointment of three commissioners to levy the assessment. No recommendation as to commissioners. This is May 27, 1927, and the present Streets Committee was not then sitting. Remember that.

June 2, 1927, Streets Committee takes under advisement to confer with the City Engineer, Healy, and report to the Board Monday, June 6, 1927.

June 6th, no report.

June 9th, Streets Committee to hold conference and report to the Board.

June 13th, no report.

June 16th, committee put matter over one week.

June 18th, trustees file communication recommending the appointment of the following commissioners (names them).

June 27, 1927, committee to confer with trustees Monday, July 7th, and report to the Board.

July 11, 1927, no report made.

July 21, 1927, committee postponed matter one week.

July 28, 1927, committee to confer with trustees Monday, August 1st. They wish to name one commissioner and have trustees name the other two. If this arrangement agreeable, resolution to be presented to Board Monday, August 4, 1927. No definite action taken by committee.

August 8th, Supervisor Marks presented a resolution to the Board naming the three commissioners as recommended by the board of trustees. Supervisor McSheehy moved that the name of Peter J. Hagerty be substituted for one of the names submitted by the trustees. Supervisor Badaracco seconded the motion. Supervisor Gallagher moved to amend the motion by referring the subject matter to the trustees and Streets Committee for conference, resolution to remain on the calendar, and the motion carried by thirteen votes.

August 15, 1927, Resolution 25656 adopted unanimously appointing the three commissioners as recommended by the trustees.

Now, that was from May 27, 1927, until August 15, 1927. A fight took place over the appointment of commissioners. Was there any rush act around here? Did the Chamber of Commerce call out the army and navy, and call everybody names? Of course they didn't. They waited until they got somebody they didn't like.

February 27, 1928, Supervisor Kent presented resolution 2555 accepting the offer of the California Pacific Title to convey certain lands in this district. Resolution adopted unanimously.

On February 27th he presented another resolution regarding streets. Resolution adopted unanimously the same date.

March 19th, committee of three presented Resolution 25704 approving plans for the closing and filling of the streets in the Islais Creek Reclamation District. Resolution adopted unanimously.

Also presented Resolution 28705 setting the date for the hearing of objections to assessments issued by the commissioners for the Islais Creek Reclamation District for Monday, April 9, 1928, at 10 o'clock a. m. Resolution adopted unanimously.

Please observe, Mr. Gum Shoe Men for the railroads and others not so far beyond the sound of my voice, that the Streets Committee of the Board of Supervisors got it from the engineer one day and it was in here the following Monday and recommended.

April 9th, Supervisor Hayden, seconded by Supervisor Gallagher, moved that further consideration of the objections to the assessment be continued until April 17th at 2 p. m. Motion carried unanimously.

April 27th, the Board met for the hearing of protests and objections to the assessment of the Islais Creek Reclamation District, and heard them on that date, and then continued it until April 23d at the hour of two-thirty o'clock p. m.

On April 23rd, further consideration was put over until May 21st, because the members of the Streets Committee were in the delegation which was to go with the Redwood Empire people.

May 21st, objections were heard.

May 28th, objections were heard.

One week later, June 4th, hearing of objections continued. Supervisor Suhr, on June 4th, presented a resolution providing for the approval of the assessment as issued by the commissioners, and overruling all objections thereto. Supervisor McSheehy moved for further consideration of this matter to be continued until June 18th, special order at two-thirty; and so ordered. Supervisor Marks made a provision to take the entire Board to the district. So ordered. The only difference was that it was moved to two-thirty and later changed to eleven o'clock.

Now, my desire, and the desire of my colleagues, and I think the Board, and the City, and everybody is that if possible this thing be put through after the objections have been properly heard, after we have sifted them down and decided them, whether they were proper or not. There is no question that if Mr. Reinhart and Mr. Taaffe had not presented objections they would have forfeited their rights, and their day in court would have gone, and there is no question, either, that had the Board not been faithful to its pledge and given them a full and fair hearing, that they would have been steam-rollered out of possession in this proposition.

Supervisor Stanton: The law gives them the right.

Supervisor Gallagher: That is right, and that is all you will have to do with it. The only time you come into the picture was when you voted for the commissioners, and the other time you come in is now, when you either approve the assessment of the district or turn it out; and if you approve it you are out except when they come back in the matter of damages that you award them.

So we have very little to do with the proposition, and it seems to me, and it has seemed likely to some others, that the thing should go with, on a $1,600,000 proposition, was to move with a little caution since in the case of one of these gentlemen that were assessed—in the case of Mr. Taaffe, $11,000, or in the case of Mr. Reinhart, who thought his bill would probably be in the neighborhood of $3,000 and he found it was $30,000. All we did was to give him a full and fair hearing, and I am glad that we did. I am able to say now, Mr. Chairman, that because of the fact that the attorney for the district, and the engineer's office represented ex officio by Mr. Healy, have put forth these efforts, the air has been clarified, due to a fair consideration of the matter, not sustained the protests of these gentlemen, but of the rights that they have involved, and an adjustment that they think they can make. I am prepared, as one member of this Board, to vote for this assessment district. I am not altogether satisfied with it. I could never be, under the circumstances. I point out to this Board now that that is beyond us. It is water that has gone over the wheel, but this is found on examination—I blame nobody. I can't see how it was done, that property belonging to his Honor the Mayor, and property belonging to other people that I don't know, just outside of where the property is to be put on the map, is left out of the district. That is water that has gone over the wheel. Across the street, some thirty or forty acres in private ownership, is left out of the district. That's all right. I have no objection to it now because, as I say, it is water that has gone over the wheel, and it can be adjusted. There is no question

about that, but I maintain here now and I voice my protest vigorously against the sordid thing that has made for poor government among the people of this City and County, and that is the idea that people can go out in the town and get chambers of commerce and downtown associations and improvement clubs to approach this Board that the rights of the people are overlooked. Certainly, it isn't fair. They ought to be allowed, at least, to consider these things fully and fairly.

I desire to report to the Board, and the Board can do with it as it pleases, that Mr. Henry Feige, who is not a legal protestant at the moment, and did not protest, is here this morning, and has asked me to present just this idea: That there are some questions that he wants to ask in connection with it. I told him the question of whether he would get the floor of the Board was in the hands of the Board, but I would mention the fact that he was here. Mr. Theodore Savage also has written a letter to the Board, which I think ought to be read before the Board takes a vote, and I would ask that that be done.

Supervisor McGovern: I move he be given the privilege.

Supervisor Todd: You can't give him the privilege without fifteen votes.

Supervisor Gallagher: With unanimous consent if there are less than fifteen present.

Supervisor Schmidt: Let us have the letter read.

(Whereupon the letter from Theodore Savage, Esq., was read by the Clerk.)

Supervisor Gallagher: I move that be filed.

Supervisor Suhr: Now, I believe that Supervisor Gallagher has given all the facts and———

Supervisor McGovern: I had moved that Mr. Feige be given the floor. He asked the privilege of the floor.

Supervisor Gallagher: I think it might be well to give him the privilege.

Supervisor Todd: I move that Mr. Feige be given five minutes.

Supervisor McSheehy: I personally know Mr. Feige well, and I will have to object, simply for the reason that our rules are very strict and very clear. If you want to go into a committee of the whole to give him five minutes, I have no objection.

Supervisor McGovern: I move we go into committee of the whole.

Supervisor Gallagher: I object to that.

Supervisor Andriano: First of all, might I inquire, isn't this protestant legally before this Board?

Supervisor Gallagher: No, not legally a protestant.

Supervisor Andriano: Then anything he might say—what effect can anything he might say have upon this Board? I am perfectly willing to listen to him or anybody else who has some argument to offer that in some way may affect our vote, but if he is out of the picture, why do we give him the privilege?

Supervisor Gallagher: I could tell you what he wants to ask If I ask him the questions—the question he wants to ask is this: Why is he assessed for a box sewer that is proposed to be put in the district, That is number one. The second question he desires to have answered, he says he is assessed for a part of the seawall for the Western Pacific. I don't know whether that is so or not. He wants to know why he is assessed to build that seawall. Perhaps this——

Supervisor Andriano: Just a minute. I want to answer that question. If Mr. Feige is desiring information, he can obtain that information from the City Engineer or from those that made the assessment. If he is desiring redress, he has to go to court, because he is improperly before this Board, and we cannot give him any redress.

Supervisor Gallagher: He can't go to court.

Supervisor Andriano: Then what could we do?

Supervisor Gallagher: We could answer his questions.

Mr. Feige: I would like——

(The Chair rapped for order. Mr. Feige continued to talk.)

The Chair: Mr. Sergeant-at-Arms, will you stop that man. You will have to observe the rules of this Board or else leave the chamber.

Supervisor McSheehy: I ask you to—Supervisor Gallagher, I have no objection if Mr. Gallagher asks Mr. Feige a couple of questions. I think we can end that whole matter.

Supervisor Gallagher: I asked the questions he wants answered.

Supervisor Stanton: There is a sort of sad situation that arises out of these assessment districts. The people that know the law come in and protect themselves. They come in and make their protests. As I understand the law, you must protest in an assessment district before this Board. You must bring out the points that you intend to take to court before this Board. They must be made part of the record, and the individual that doesn't know

enough, or isn't familiar enough with the law, to come here and make his protest, as I understand it, is shut out from further protest. That is the sad thing.

Supervisor Andriano: That is sad.

Supervisor Stanton: You won't let this man open his mouth.

Supervisor Todd: Ask him any questions you want.

Supervisor Roncovieri: We have lost five minutes already. It is perfectly ridiculous, a man who has said he was assessed $20,000. I cannot conceive of a member of the Board refusing to listen to this man.

Supervisor Todd: I move that he be given five minutes.

Supervisor Shannon: I second it.

Supervisor Roncovieri: Give him a chance.

Supervisor Todd: Question.

Supervisor McSheehy: You have

Supervisor Todd: Five minutes.

Supervisor McSheehy: I can't help it. Might I ask the man certain questions and get at it without breaking our rule?

Supervisor Gallagher: I have asked his questions and they wouldn't let them be answered.

Supervisor Todd: I moved he be given five minutes.

Supervisor Shannon: I seconded the motion.

The Chair: The Supervisor is entitled to the privilege of the floor.

Supervisor Todd: When there is a motion?

The Chair: The Supervisor is entitled to be heard.

Supervisor Todd: You haven't put the motion.

The Chair: You have heard the motion.

Supervisor McSheehy: Mr. Chairman, I simply say this to you: That if the motion is put I don't think it would carry, because there are not enough members here. Of course, it can be passed. I am trying to cover the same ground, ask Mr. Feige certain questions. If he informs the Board, all right. The same condition will exist and everything is covered in the same way, and we are still observing our book of rules.

Supervisor Schmidt: Ask him the questions.

Supervisor Shannon: No, you won't. There is a motion before the house.

Supervisor McSheehy: Mr. Chairman, I don't want to talk again. I have said it before, but one of the principal objectors or one of the principal movers of the motion was one of the most enthusiastic members of this Board, he was a member of my rules committee, asking for the enforcement of this rule and the adoption of rules. I don't want to be personal. You can put the question, and the members, of course, will vote accordingly. I don't want to consume any time.

Supervisor McGovern: As an amendment I move that Supervisor McSheehy shall ask the questions.

Supervisor Schmidt: Go ahead. Ask them.

Supervisor Todd: I move the previous question.

Supervisor Shannon: That is not an amendment to the motion. The motion cannot be amended.

Supervisor McGovern: I guess that is right.

The Chair: The Chair would like to call attention to the fact that if it proposed to prolong this discussion it will be impossible to avoid a recess, because there are other matters that come up before adjournment.

Supervisor Gallagher: I want to conclude.

Supervisor Todd: Let us get through with it.

Supervisor McSheehy: You can call your motion, if you wish. You have been instructed that the amendment is not germane to the motion. I differ with the learned parliamentarian who says it is not germane to the motion. It is up to the Chair to decide whether it is germane to the motion or not, and the Chair can pass the amendment if the Chair sees fit. If the amendment is carried I can ask the questions.

Supervisor Roncovieri: Ten minutes now, Mr. Chairman; five a little while ago; now it is ten.

The Chair: What is the pleasure of the Board? The Board, I think, can, without rules, because there is no rule covering the subject, can grant the Supervisor permission, if he desires, to ask questions of the audience. If he does not so desire it can be voted down.

Supervisor Stanton: What is the motion before the house?

Supervisor Todd: The motion is to give Mr. Feige the floor. I made the motion, seconded by Supervisor Shannon.

Supervisor Gallagher: I call for the question to give Supervisor McSheehy permission to ask the questions.

Supervisor Todd: That is not the motion.

Supervisor Stanton: There is a motion before the house to give the gentleman five minutes. It seems to me that motion could be amended

to extend the time or vote it down. Supervisor McSheehy's is not an amendment, it is a separate motion, and you have the privilege, if you want, to rule it out of order.

The Chair: Supervisor McGovern moves, as an amendment, that Supervisor McSheehy be permitted to ask these questions. What is the pleasure of the Board?

The Clerk: Supervisor Andriano.
Supervisor Andriano: Aye.
The Clerk: Supervisor Colman. (Absent.)

Supervisor Todd: No.
The Clerk: Supervisor Toner. (Absent.)

The Clerk: Ten "ayes," three "noes," five absent.

Supervisor Shannon: I move a recess until two-thirty.

Supervisor Todd: Second the motion.

Supervisor Suhr: Do you think that is fair, to keep them all here? Here are all these business men sitting here day after day, all morning.

Supervisor Shannon: I will ask to be excused.

Supervisor McSheehy: I will ask the members to vote the recess down.

Supervisor Todd: It is moved that a recess be taken until two-thirty.

Supervisor Gallagher: I rise to a point of order. The Board has given Mr. McSheehy permission to ask questions, and while he has the floor you cannot make a motion.

Supervisor Shannon: He hasn't the floor. He was in his seat when the motion was made for recess.

The Chair: Motion for recess is always in order.

Supervisor Shannon: Call the roll.

Supervisor Suhr: I appeal to the member, whether you feel like eating or not, there is a lot of business men here who have been waiting here, and it would be manifestly unfair to take a recess now. I am surprised to find two colleagues wanting to go out with a lot of high-class men here on a matter that will not take five minutes.

The Clerk: Supervisor Andriano.
Supervisor Andriano: No.
The Clerk: Supervisor Colman. (Absent.)

Supervisor Suhr: No.
The Clerk: Supervisor Todd.
Supervisor Todd: Aye.
The Clerk: Supervisor Toner. (Absent.)

The Clerk: Eleven "ayes", two "noes", five absent.

Supervisor Shannon: I ask to be excused long enough to get a little nourishment.

Supervisor Suhr: I ask that the Supervisor be requested to remain.

Supervisor Shannon: I want to know if it is the intention of the Board to get through with the entire business of the meeting, or is it the intention as soon as this matter is concluded we will take a recess? Personally I have to have some nourishment. I am beginning to burn up with fever now. When I go long over my regular eating time it begins to affect my system. I appreciate that we have some very high-class people here today.

Mr. Suhr has called our attention to it. We generally have a high-class audience here every day, but evidently there are a little bit higher class here today. I didn't know it. I am glad that the Supervisor knows the degree of the class of the people that come here each day. I didn't get it, but for my part, Mr. Chairman, I just want to know definitely from the members of the Board what the intention is as to the matter of procedure.

Supervisor Gallagher: It looks to me like we will have to take a recess after this is over.

The Chair: The Chair will have to leave, on official business, in five minutes.

Supervisor Shannon: If the Chair leaves in five minutes, on official business, I will go with him.

Supervisor McSheehy: Mr. Feige, you are protesting in reference to this assessment district. What are your real reasons for protesting?

Mr. Feige: I am one of the little fellows that never has found out anything, and has had no conversation on anything since the start. I am assessed $20,000 and all I get is to have a little mud on my property. I protested this before, and made objections, and nobody has followed Islais Creek more than I have. There is only a few owners along Islais Creek and we, the owners of the O'Neil & Haley Tract, we have never been told anything. We don't know what is going on. All we know is that we go up to the engineer's office—we are assessed for the Western Pacific sea-wall. That is a matter that lies between the Western Pacific and the other owners of the State of California. The Western Pacific is going to collect toll there. When the Southern Pacific or the lumber men or the State of California or anybody constructs a sea-wall they pay for that. They don't ask a lot of property owners that their property be confiscated as it is in this case. The same way with Islais Creek. We remember the first time the creek is to be ditched. The creek is not to be ditched. It can't be. And the engineer—no, it can't be, because when Coryell constructed his sea-wall his cabin is out in the channel, and the State has spent thousands and thousands of dollars for that, and if they displace that sea-wall one foot, all that southern portion of the creek will slip into the channel. Now, why should we pay, a few property owners pay a big corporation to pay for their sea-wall?

Now, with regard to the sewer there, they are going to construct a wooden sewer in this age of concrete and steel. Isn't it a shame; isn't it a disgrace? That sewer is not going to benefit any of us. The sewer is to be put on piles. The sewers serve the southern end of San Francisco. The water that runs through in front of my property is in an open ditch. It is the duty of the City——

Another thing, why make another stench hole out of Islais Creek? Why assess us $160,000—I am told a few of us property owners must pay—simply highway robbery. Just think of it, to take water from behind us, with nothing done to our property. We don't know whether they will be filled with mud. I understand the only mud to be pumped is the mud that is to be taken out of the fill where the Western Pacific sea-wall is to be constructed, and then the State of California will collect tolls off that sea-wall forever, and they are going to ask me, poor me, and a lot of other poor property owners, to pay for this sea wall.

It is not right. It is not just. It is unjust. I favor this improvement. I am not opposed to this improvement to San Francisco, but if we do anything, let us do it good. Why do it so it will have to be done over again?

Supervisor Shannon: Where did you say you protested?

Mr. Fiege: I protested before the state legislature, and I have a letter in my pocket, and I will show you what happened. It was railroaded through the legislature. I had no opportunity to speak on the floor there either. The senator, Senator Reindollar, from San Rafael, told me it was railroaded through. The idea of the state putting things through like that. Take men like Mr. Reinhart, he is assessed—his land is filled up. He employs hundreds of men, and there are many other property owners here, and pay for them thousands of square feet for the Western Pacific property, not only the Western Pacific, but a lot of other owners, like the P. G. & E. and the Tobins, and I could name a whole lot of them. They were left out. Why? Even some of San Francisco's property is left out and I have to pay for it.

Supervisor Suhr: I don't think that ought to be allowed to go in.

Mr. Feige: That's all right Brother Suhr.

Supervisor Suhr: That's all right about that brother stuff, but I think——

Mr. Feige (interrupting): I say

it is an outrage. You wouldn't do an unjust act towards me or some other citizen. I am not against this improvement. I am for it, but I do not think I should pay to improve the Western Pacific property and I don't think I should pay—I am assessed $3,000 for a sewer that goes by my front door.

I have said enough, and I thank you. But I tell you, if we do anything, let us do it right, and make the people pay for it that will be benefited by it. I am not opposed to reclamation. I am for it. Thank you very much, gentlemen. Let everybody pay. Be fair and square.

Supervisor Schmidt: I desire to ask Mr. Feige a question in reference to railroading this thing through the State Legislature. In my estimation you have told a falsehood before the Board. It was fairly treated. I happened to be a member of the delegation that went before the Legislature and everybody had the opportunity to state their position and protest it.

Supervisor McSheehy: I have——

Mr. Feige: Senator Reindollar of San Rafael stated certain things. He stated one thing——

Supervisor Andriano: A point of order.

Mr. Feige: I have made objections——

Supervisor Schmidt: Reindollar never had——

The Chair: I will ask the Supervisor to observe the rule.

Supervisor Andriano: I rise to a point of order. He has no right to make a speech.

Supervisor McSheehy: Mr. Chairman, Mr. Feige has sat down. I have asked my question. The matter is closed so far as I am concerned.

Supervisor Suhr: In order that it may be properly presented here, I move that all objections be overruled. I move the adoption of it.

The Clerk: Question on adoption?

Supervisor Suhr: I move the adoption.

Supervisor Andriano: Second the motion.

Supervisor Roncovieri: Before the roll is called I desire to exercise my parliamentary right and explain my vote. Since the last adjournment, I have personally investigated the protests and the properties of Mr. Taaffe and Mr. Reinhart. There is no question but that each of these protestants will be heavily damaged by the work, and for that reason I believe the assessments against them are, in part, unfair and unjust, and also because of the damages to the property, that reasonable relief should have been granted by the commissioners as an offset against their assessments. The public need is so great for this splendid improvement, however, that we cannot delay it indefinitely as would be the case if the protests should be today sustained by this Board. The protestants have laid the foundation for an appeal to the courts by first appealing to this Board. I believe no injustice will be done to them by sustaining the assessment as a whole inasmuch as the protestants have established their right to take their cases to the courts and to have them adjudicated. I will, therefore, vote in favor of sustaining the assessment as presented to this Board. I want it clearly understood, however, that I would not vote in favor of this Islais Creek assessment were it not for the fact that the protestants have established their right to appeal their cases to the courts and can now do so over the action of this Board.

Passed for Printing.

Whereupon, the following resolution *was passed for printing* by the following vote:

Resolution No. ——— (New Series), as follows:

Whereas, H. C. Crozier, Walter H. Sullivan and Louis A. Weidenmuller, as Commisisoners of Assessment, heretofore appointed by Resolution No. 27656 (New Series) of the Board of Supervisors of the City and County of San Francisco, State of California, for the purpose of viewing the lands within the Islais Creek Reclamation District, a reclamation district created by an act of the Legislature of the State of California, known as the Islais Creek Reclamation District Act, approved April 6, 1925, and assessing thereon a reclamation assessment of $1,620,152, same to be apportioned according to the benefits that will accrue to each tract of land within said district, respectively, by reason of the expenditure of said sum of money, estimated in gold coin of the United States, did, on the 9th day of March, 1928, in accordance with law, file with the Clerk of the Board of Supervisors of the City and County of San Francisco, State of California, their completed assessment list, and the said Board of Supervisors of the City and County of San Francisco having appointed Monday, the 9th day of April, 1928, at the hour of ten o'clock a. m., in the chambers of the Board of Supervisors of said City and County of San Francisco, in the City Hall in said City and

County of San Francisco, as the time and place when and where the said Board of Supervisors would meet for the purpose of hearing objections to said assessment, and notice of such hearing having heretofore been given by publication for two weeks daily (Sundays excepted) in The Bulletin, a newspaper of general circulation, published in said City and County of San Francisco, and the matter of objections to said assessment coming on regularly on said day, to-wit, the 9th day of April, 1928, to be heard, and having thereafter been regularly continued for hearing, from time to time (the actual taking of testimony having commenced on April 17, 1928), and it appearing to the said Board of Supervisors that the said assessment had been made in accordance with the provisions of law and should be approved, and that the only written objections to said assessment filed at any time before the date of said hearing by any person interested in any land upon which any charge has been assessed, were the following: the verified written objections of Henry A. Whitley, Wm. Taaffe & Co., Reinhart Lumber and Planing Mill Company, Anderson Bros. Planing Mill and Mfg. Co., and Henry Windt, and it appearing that after April 9, 1928, the following written objections to said assessment were filed as follows: verified objection by Chas. E. Reinhart, filed April 11, 1928; additional verified objections by Wm. Taaffe & Co., filed April 16, 1928; additional verified objections by Reinhart Lumber and Planing Mill Company, filed April 16, 1928; unverified objections by Edward Wenzel, filed April 16, 1928; unverified objections by John K. Bulger, filed April 19, 1928, and verified objections by P. F. Reilly, filed April 23, 1928.

And whereas, the said Board of Supervisors, after hearing the evidence offered in support of said objections, hereby finds that the same are not well taken, and do not warrant a reapportionment of the entire assessment aforesaid, or a modification or amendment of said assessment in any particular.

Now, therefore, it is ordered and resolved by the Board of Supervisors of the City and County of San Francisco, State of California, that the aforesaid assessment list be, and the same is hereby, approved and that an order of such approval shall be endorsed upon said assessment list, which endorsement shall be signed by the Chairman of said Board of Supervisors and attested by the Clerk thereof. It is

Further ordered and resolved that the said assessment list shall be filed with the County Treasurer of said City and County of San Francisco, State of California.

This resolution shall take effect immediately.

Ayes—Supervisors Andriano, Gallagher, Havenner, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—12.

Excused—Supervisor Kent—1.

Absent — Supervisors Colman, Deasy, Hayden, Marks, Toner—5.

RECESS.

Whereupon, the Board at the hour of 12:30 p. m. took a recess until 2:30 p. m.

J. S. DUNNIGAN,
Clerk.

REASSEMBLED.

The Board of Supervisors reassembled at 2:30 p. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Andriano, Gallagher, Havenner, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—13.

Absent — Supervisors Colman, Deasy, Hayden, Marks, Toner—5.

Quorum present.

His Honor Mayor Rolph being absent, Supervisor Havenner was elected to preside.

Mayor's Veto, Judah Street Rezoning.

May 25, 1928.

To the Board of Supervisors, City Hall, San Francisco.

Gentlemen:

I am returning to you herewith, without my approval, Ordinance No. 8036, adopted by your Honorable Board May 14, 1928, and providing for a rezoning of a portion of Judah street from Second Residential to Commercial.

This ordinance is disapproved by me without prejudice and for the sole reason that certain rumors have come to me of alleged improper practices by which certain members of the Board of Supervisors are supposed to have profited. I do not believe these rumors; but I do believe that for the sake of the honor and integrity of your Board, they should be thoroughly investigated.

During the hearings on this ordinance, which I held in my office as

well as in the neighborhood involved, these rumors were so insistent that I felt I could do nothing other than veto the measure, without prejudice, so that the entire matter could go back to the Board of Supervisors for further proceedings in the course of which the light of publicity could be directed at what I believe to be false and malicious reports.

I am making no accusation against any member of the Board of Supervisors nor am I casting suspicion on anyone. I have no proof of any wrongdoing.

But I would be derelict in my duty as Mayor of San Francisco if, in the face of all these rumors, I approved the rezoning ordinance. I am sure that the members of your Honorable Board will welcome the opportunity of an investigation which should stop these whispering innuendoes once and for all.

Sincerely,
(Sgd.) JAMES ROLPH, JR.,
Mayor.

Veto Sustained.

The question being put "Shall the ordinance pass notwithstanding the objections of his Honor the Mayor," the roll was called and the Mayor's veto *sustained* by the following vote:

Absent — Supervisors Colman, Deasy, Kent, Marks, Suhr, Toner —6.

Mayor's Veto, Budget Item 224, Civil Service Appropriation.

The following matters were read by the Clerk:

San Francisco, Cal.,
June 6, 1928.

To the Honorable Board of Supervisors of the City and County of San Francisco, City Hall, San Francisco.

Gentlemen:

I am returning to you herewith Ordinance No. 8073 (New Series), Bill 8565, representing the Budget of the City and County of San Francisco for the Fiscal Year 1928-29.

This ordinance has my approval with the exception of Item No. 224, under the Civil Service Commission, Appropriation 12-A. This item I reduce from $8,500 to $3,500. My reason for this reduction is that $5,000 has been added to the amount given the Civil Service Commission in a similar item last year, the additional $5,000 being for the purpose of holding civil service examinations for certain positions in the city government which are not now filled from Civil Service eligible lists.

There are a number of employees in the various departments of the city government who have served for a great many years in such positions, which they now occupy. These, including both men and women, are trained to the work which they are performing. In the past, the employees of various departments have, by special Charter amendment, submitted to the voters and adopted by them, been "blanketed in," and have since enjoyed full Civil Service standing. I feel that such employees as have not a Civil Service status, but who have rendered long and faithful service, should be given the opportunity of having their cause submitted to the voters by Charter amendment at the election next November, and if the voters, in their wisdom, so decide, they should be "blanketed in" under Civil Service.

What in the past has been fair for some employees is still fair for other employees. There should be equal opportunity for all city employees to receive the boon which the people have in their power to bestow as a reward for the long and faithful service which I have mentioned.

In my inaugural message directed to your Honorable Board, under date of January 3, 1928, I used the following language:

"Due attention should be paid to the needs of the Civil Service Commission and appropriations should be made in each annual budget of sufficient size to enable the Commission to increase its activities, and to hold examinations for the creation of eligible lists for all positions defined by the Charter as coming under Civil Service control.

"During my administration of six-

teen years as Mayor, nearly every department of the City and County government has been brought under civil service. Examinations for the few remaining position, which have not been held because of lack of funds, should now be made possible."

I do not recede in any degree whatsoever from the position I took at that time. Should the voters decide, upon the matter being presented to them, that these employees whom I have in mind should not be granted civil service standing, thereafter examinations for these positions should be held with all possible speed. Not until the voters have expressed their will should these examinations proceed, and I respectfully urge that this appropriation of $5,000.00 be deferred until one year hence.

Respectfully,
JAMES ROLPH, JR.,
Mayor.

SPECIAL ORDER—11 A. M.

Mayor to Enter Into Agreement with Southern Pacific Company, Bernal Cut.

The following matters fixed as a Special Order for 11 a. m. this day was taken up:

Resolution No. ——— (New Series), as follows:

Resolved, That the Mayor is herebe authorized to enter into agreements with the Southern Pacific Railway Company, terms and conditions as follows:

This agreement, made this —— day of ————, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

The parties hereto entered into a certain agreement dated March 23, 1914, relating to rights of way through Bernal Cut, in the City and County of San Francisco, and also entered into a certain agreement of even date herewith modifying and changing said agreement of March 23, 1914, and enlarging the plan of construction of rights of way, tracks and a public street or roadway through said Bernal Cut.

In connection with said work it will be necessary that the Southern Company remove its existing team track near Bosworth street, in said City and County of San Francisco, from the southeasterly side of its track to the northwesterly side of proposed location of its main track through Bernal Cut.

Said agreement of March 23, 1914, provided, among other things, that Southern Company would convey certain land to the City, which land was conveyed pursuant to said agreement by deed dated March 23, 1914. Said deed contained a reservation on behalf of Southern Company to use a certain strip of land 8½ feet wide and a certain strip of land 13½ feet wide, both of which are hereinafter described. In the event that the agreement of even date herewith is carried out the City desires that Southern Company quitclaim to the City all of its right, title and interest in and to said strip of land covered by said reservation above mentioned.

The parties hereto desire to set forth their understandings and agreements relative to the matters hereinabove mentioned.

Agreement:

Now, therefore, in consideration of the mutual and dependent promises of the parties hereto, it is hereby agreed as follows, to-wit:

First: That the City will pay to Southern Pacific Company the entire cost, plus ten (10) per cent of all labor, to cover supervision of removing said existing team track and replacing and reconstructing said team track in kind and in good condition upon the property hereinafter described, to be acquired by the City and conveyed to the Southern Pacific Railroad Company.

Concurrently with the delivery to it by the City of the deed hereinafter specified the Southern Company will deliver to the City a quitclaim deed conveying all the right, title and interest of the Southern Company in and to those certain parcels of land described as follows, being those certain strips of land 8½ feet in width and 13½ feet in width, respectively, covered by said reservation contained in said deed dated March 23, 1914, to-wit:

All those certain strips of land situate, lying and being in the City and County of San Francisco, State of California, more particularly described as follows:

Parcel 1: A strip of land 8.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles and radially southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno Branch, between Engineer's Station 78+48.5 and 92+40.

Parcel 2: A strip of land 13.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno branch, between Engineer's Station 92+40 and 101+20.

The above described parcels of land being the same property as reserved in part III, page 3, of that certain deed dated March 23, 1914, between Southern Pacific Railroad Company, Southern Pacific Company and the City and County of San Francisco.

The City hereby covenants and agrees to acquire and convey to Southern Pacific Railroad Company, without cost to Southern Company, by good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear

of all encumbrances, to that certain parcel of land described as follows, to-wit:

That certain piece or parcel of land situate, lying and being in the City and County of San Francisco, State of California, more particularly described as follows:

Beginning at the point of intersection of the southwesterly line of Roanoke street with the southeasterly line of Arlington street; thence along said southeasterly line of Arlington street south 47 deg. 16 min. 17 sec. west a distance of 663.843 feet to a point; thence south 30 deg. 41 min. .09 sec. east a distance of 22.104 feet to a point, said point being distant radially 58.77 feet northwesterly from the original center line of the Southern Pacific Railroad Company's right of way; thence in a northeasterly direction on the arc of a curve, concave to the left, having a radius of 5670.826 feet (the tangent to said curve at last mentioned point bears north 58 deg. 57 min. 20 sec. east) an arc distance of 675.82 feet to a point on said southwesterly line of Roanoke street (last described arc course is concentric with and distant northwesterly and radially 58.77 feet from said original center line of the Southern Pacific Railroad Company's right of way); thence north 42 deg. 43 min. 43 sec. west along said southwesterly line of Roanoke street a distance of 118.768 feet to the point of beginning and containing an area of 51401 square feet (equals 1.180 acres), more or less.

Upon delivery of the conveyance by the City mentioned in the last preceding paragraph of this agreement, and upon completion of the work of grading, to be done by the City as provided in said agreement of even date herewith, the Southern Company will, simultaneously with the shifting of the location of its main track, as provided in said agreement of even date herewith, remove its said existing team track from its present location and construct said team track as aforesaid upon said property above described, to be conveyed by the City to Southern Pacific Railroad Company.

This agreement is subject to the approval of the Railroad Commission of the State of California, and if not approved by said Railroad Commission it shall be of no force or effect.

In witness whereof, the parties hereto have executed this agreement in quadruplicate the day and year first hereinabove written.

City Attorney.

This agreement, made this——— day of———, 1928, between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

Under the terms of an agreement entered into on the 23rd day of March, 1914, and subsequent deed bearing even date therewith, recorded June 16, 1914, in Vol. 794 of Deeds, pages 276 and following, the City acquired, for street purposes, a portion of the railroad right of way of the Southern Company through the so-called Bernal Cut, in said City and County of San Francisco, being the easterly portion of said right of way from the westerly line of Dolores street produced, to the center line of San Jose avenue produced, near Diamond street.

It was stipulated in said agreement that the Southern Company shall grade the strip of land described in section 1 thereof, so as to provide a uniform roadway for the proposed street at least forty (40) feet in width or thirty-five (35) feet, according to the width of said strip, according to the directions and under the supervision of the City Engineer of the City, and said City shall cooperate in such work to the extent of removing encroachments and also by the erection of retaining walls wherever necessary along the line of said grading; and Southern Company agreed to deposit the material ex-

cavated as aforesaid upon such portions of the land described in said agreement and deed as may be indicated by said City Engineer, and to entirely remove all surplus material; said grading and filling to be at the expense of Southern Company. It was further understood and agreed and so provided in said agreement that the construction of retaining walls along said grading and the paving of the roadway upon said strip of land shall be at the cost and expense of the City and without cost to the Southern Company.

The City now desires to acquire additional rights of way in said Bernal Cut for the purpose of constructing a better roadway than at first contemplated and offering better facilities for the construction of its double-track street railroad adjacent to the northerly and westerly line of the land conveyed to the City for street purposes by the hereinbefore mentioned deed. Such construction would be facilitated by the railroad of the Southern Company being moved northerly and westerly not exceeding 31.27 feet.

The parties hereto desire to set forth their agreement as to their rights and obligations in connection with acquisition and exchange of certain parcels of land to provide additional rights of way for each of the parties hereto, reconstruction of the railroad and appurtenances of Southern Company, construction of the municipal railway and the proposed street, and other matters in relation thereto.

Agreement:

Now, therefore, in consideration of the premises, it is hereby mutually agreed as follows, to-wit:

ARTICLE I.

1. The location plan, showing the changes proposed and the parcels of land to be acquired and exchanged by and between the parties hereto, for the purpose of carrying out the plans of the parties hereto as hereinafter set forth, is shown on the attached copy of Southern Pacific Company's Drawing entitled, "Proposed Improvements in Bernal Cut, San Francisco," and numbered M W D Drawing 5806, Sheet 2, which is hereby made a part hereof.

2. Southern Company h e r e b y agrees to execute and place in escrow a conveyance to said City of all of Southern Company's right, title and interest in and to that certain portion of Southern Company's right of way in the City and County of San Francisco, State of California, particularly described as follows, to-wit:

A strip of land 32.77 feet in width lying between the southerly line of Randall street and the center line of San Jose avenue (near Diamond street), said strip being bounded and described as follows:

Bounded on the northeast by the southerly line of Randall street; on the west and northwest by a line drawn parallel or concentric with and uniformly distant 22.77 feet westerly and northwesterly, measured radially or at right angles from the original center line of the main track of the Southern Pacific Railroad Company's branch line between San Francisco and Colma; on the southwest by the center line of San Jose avenue (near Diamond street) and on the southeast and east by a line drawn parallel or concentric with and uniformly distant 10.00 feet southeasterly and easterly, measured radially or at right angles from said original center line of the Southern Pacific Railroad Company's branch line, said line coinciding with the northerly and westerly boundary line of the strip of land heretofore conveyed to the City and County of San Francisco by Southern Pacific Railroad Company and Southern Pacific Company by deed dated March 23, 1914.

Also a triangular shaped parcel of land, described as follows:

Beginning at a point in the westerly line of Dolores street, distant 100.00 feet northerly from the northerly line of Randall street; thence southerly along said westerly line of Dolores street and its prolongation a distance of 150.00 feet, more or less, to the southerly line of Randall street; thence westerly along said southerly line of Randall street a distance of 22.50 feet, more or less, to a point; thence in a northeasterly direction on a direct line to the point of beginning.

Said parcel of land above described are more particularly shown tinted in pink on said Drawing No. 5806, Sheet 2.

Said conveyance shall contain and be subject to the following express covenants, reservations and exceptions, to-wit:

(a) "Reserving nevertheless to the first parties (Southern Pacific Railroad Company and Southern Pacific Company), their successors and assigns, the right to use the northwesterly eighteen (18) inches in width of said strip of land 32.77 feet in width for the erection and maintenance of poles, wires, and any and all other necessary appliances, appendages and adjuncts, in

the event that said first parties, their successors and assigns, should at any time operate their railroad by electricity, it being expressly understood and agreed, however, that first parties, their successors or assigns, may, instead of erecting and maintaining said poles, wires, appliances, appendages and adjuncts upon and along said eighteen (18) inch strip herein described, at their option fasten their wires, fixtures, appliances and appurtenances to any poles erected by second party along or near the northwesterly boundary line of said strip of land whenever the first parties, their successors and assigns, operate their said railroad by electricity and such right is hereby granted by second party to first parties; but in the event that said first parties do attach their wires to any poles erected by the second party, as aforesaid, then said first parties shall pay to second party one-half (½) of the then value of said poles so used, at the time the attachments are made by said first parties, and upon receipt of such payment second party shall execute and deliver to Southern Pacific Railroad Company a bill of sale conveying an undivided one-half (½) interest in said poles to Southern Pacific Railroad Company. First parties shall thereafter pay one-half (½) of the cost of maintaining said poles so used, as aforesaid, from time to time as such costs are incurred and bills rendered by second party."

(b) "Excepting and reserving unto said first parties all of those certain rights reserved by the Southern Pacific Railroad Company and Southern Pacific Company for themselves, their successors and assigns, in that certain deed dated December 5, 1898, from said companies to said City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco, also those certain rights reserved by Southern Pacific Railroad Company in that certain deed from said Southern Pacific Railroad Company to said City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco."

(c) "The foregoing conveyance is subject to all the terms, conditions, restrictions and reservations contained in that certain deed, dated October 5, 1863, from H. G. Livermore et al. to the San Francisco and San Jose Railroad Company, recorded October 6, 1863, in Book 215 of Deeds, at page 276, and subject to the rights of any and all industries located upon or adjacent to said right of way between St. Mary's avenue and Bosworth street, and subject to first parties' right to maintain such spur, team or station tracks as may be required to be maintained under any subsisting agreement, recorded or otherwise, or deed, or by law. The Southern Company hereby reserves the right to maintain and operate existing industrial spur tracks upon the land hereinabove described and to maintain and operate such spur tracks in such new locations to which any of said spurs may be moved, as hereinafter provided. The City covenants and agrees that if it is necessary to reconstruct or change the location of any or all of said existing industrial spur tracks by reason of or in connection with the use of said land by the City, the City will pay the entire cost of the work of reconstruction and relocation of said tracks, including paving, and the cost and construction of crossings of said tracks by the municipal railway, if any. Nothing herein contained shall in anywise impair the right of the first parties to use, for railroad purposes, the remaining portion of their right of way adjoining the strip of land hereinabove described on the northwest, or in anywise prejudice their rights therein or thereto."

The above mentioned conveyance shall be executed by Southern Company and placed in escrow with the California Pacific Title & Trust Company of San Francisco, California, if and when this agreement has been approved by the Railroad Commission of the State of California, to be delivered to the City when the City shall have (a) acquired the lands described in Section 1 of Article II hereof and executed and delivered to the above mentioned escrowee for account of Southern Pacific Railroad Company the conveyances to Southern Pacific Railroad Company specified in said Section 1, Article II, and (b) performed, or caused to be performed, all of the construction and reconstruction work by it to be performed or contracted for, as provided in Article II hereof.

ARTICLE II.

1. In consideration of the covenants herein agreed to be performed by the Southern Company, and without further consideration or payment, the City shall at its own expense acquire and convey or cause to be conveyed to Southern

Pacific Railroad Company, by a good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear of all encumbrances to (1) a strip of land along and adjacent to the northerly and westerly boundary line of Southern Company's right of way between Randall and Diamond streets, in the City and County of San Francisco, State of California, sufficient in width, and which, together with that portion of the Southern Company's existing right of way which will remain after the conveyance to the City of the portion heretofore described, will provide a right of way sufficient in width so that a standard gauge double track railroad may be constructed for Southern Company, and so that clearances not less than those prescribed by the Railroad Commission of the State of California shall be provided; (2) strips of land sufficient in width and adjoining the additional right of way for the proposed location of the proposed double track railroad of the Southern Company, to provide a sufficient area for proper slopes, not exceeding 1¼ horizontal to one vertical in the cuts and not less than two horizontal to one vertical in the fills; provided, however, that in lieu of providing such additional land for slopes, the City may construct at its sole cost and expense adequate concrete or masonry retaining walls to provide for the full and unobstructed use of land of sufficient width to permit of the construction and operation of said standard gauge double track railroad, with clearances not less than those prescribed by said Railroad Commission, and at the grade of the Southern Company's now existing track between Randall and Diamond streets, unless a different grade is agreed to by Southern Company. The land required for said right of way for said proposed double track railroad is shown tinted in green and the land required for said slopes is shown tinted in purple upon said drawing MWD 5806, Sheet 2.

2. In the event that it shall be necessary or advisable for the City to institute condemnation proceedings to acquire any land which is to be acquired in order to comply with the terms of this agreement, and to be conveyed to the Southern Pacific Railroad Company, such proceedings may be had in the name of Southern Company, or either of them, but the City shall pay all expense thereof and all judgments and costs therein and hold Southern Company harmless therefrom.

3. The City shall, at its own expense, make all necessary excavations and construct embankments and waterways, and, if deemed necessary by Southern Company, retaining walls to support slopes on the existing right of way of Southern Company, and the said land to be acquired for the Southern Company, as hereinabove provided, so as to provide for the construction of the said double track railroad of the Southern Company, as aforesaid, and at the grade specified in Section 1 of this Article II, unless a different grade is agreed to by Southern Company, and the City shall also pay the cost, plus ten (10) per cent of all labor to cover supervision, of moving Southern Company's existing single track rails, ties, ballast and appurtenances to such new position, not exceeding 31.27 feet northerly and westerly of the present location, and the cost, plus ten (10) per cent of all labor to cover supervision, of placing Southern Company's single track in such new location in at least as good condition as the existing track was at the time of being so moved, it being understood that the Southern Company will furnish all necessary ties which, in its judgment, are required to replace those unfit for further service.

4. The City shall, at its own expense, remove and reconstruct Southern Company's present telephone, telegraph and signal lines and the poles and fixtures thereof to such new position upon and along said relocated railroad line and right of way as may be required by Southern Company.

5. The City shall, at its own cost and expense, reconstruct and thereafter maintain, at clearances not less than those prescribed by the Railroad Commission of the State of California, all bridges or other structures and foundations and appurtenances of same (including the subway at Bosworth street) located between and at Randall and Diamond streets so that the double track railroad of Southern Company may be constructed and operated without further change in said bridges, structures or appurtenances, and, in order to accomplish such works, the City shall be granted the right to the use of any land to be conveyed by the City hereunder to Southern Pacific Railroad Company, for the purpose of erecting thereon any portion of the above-mentioned structures or appurtenances thereto that may be necessary; provided, however, that the plans for any such bridges and structures and appurtenances shall

be subject to the approval of the Southern Company and of the Railroad Commission of the State of California. It is also agreed that the City shall have the right to construct and maintain at its sole cost and expense drainage constructions of such character as may be required, to be placed upon or beneath the lands to be conveyed hereunder by the City to Southern Pacific Railroad Company; provided, however, that such drainage constructions meet with the approval of Southern Company and will in no way interfere with Southern Company's operations.

6. The City shall include in the contracts which it is to let for the grading work to be performed by it under this contract, the grading work provided to be done at the expense of Southern Company in said agreement of March 23, 1914, and Southern Company shall have the right of access at all reasonable times to the books, accounts, contracts, records and papers relating to said work, for the purpose of checking the bill or bills rendered by the City to Southern Company for the cost of said work. The Southern Company shall reimburse the City in full for all of the yardage removed or excavated and graded at the contract price or rate covering the work included in said contract for the account of the Southern Company. All of the work herein provided for to be done by the City shall be in substantial conformity with the City's Cross Section plan or map entitled "Bernal Cut," numbered A-7328, hereto attached and made a part hereof.

7. It is understood and agreed that the City may enter upon said land above described for the purpose of carrying out and complying with the terms and conditions of this contract as soon as this contract becomes effective.

8. All the expenses in connection with the construction of the future second track of said Southern Company's railroad, which the Southern Company may construct now or in the future at its option, except the work herein provided to be done by and at the sole cost and expense of the City, shall be borne by the Southern Company, as this is a facility in addition to its present trackage.

9. All work required to be done by and at the expense of the City hereunder upon or affecting the property and operations of Southern Company shall be performed by it in a good and workmanlike manner to the satisfaction of the Southern Company, according to plans approved by Southern Company or such lawful authority as may have jurisdiction in the premises, and at such times and in such manner as to interfere as little as possible with the operations of Southern Company.

10. It is expressly understood and agreed that all expense of paving and otherwise improving the roadway and constructing the municipal railway and appurtenances upon the roadway upon said strip of land 32.77 feet in width, hereinabove referred to, and upon the land heretofore conveyed by the Southern Company to the City by said deed dated March 23, 1914, recorded in Volume 794 of Deeds, at pages 276 and following, County Records of the City and County of San Francisco (except the grading and filling work as herein otherwise provided for in the previous agreement) shall be borne by the City; and in the event that any improvements upon said roadway should be done upon the local assessment plan, then and in that event the City shall pay out of its treasury any and all assessments therefor levied upon or assessed against any rights, properties or franchises of Southern Company, or either of them.

ARTICLE III.

1. It is understood and agreed that the City shall have the right to construct its municipal street railroad beneath either one of the bridges carrying the railroad of the Southern Company over Thirtieth street or over Day street, and that the City shall, at its own sole cost and expense, provide the necessary clearances therefor under said bridge. The plans for said crossing and any necessary changes in the said bridge shall be subject to the approval of the Railroad Commission of the State of California. The City, subject to the approval of the Railroad Commission of the State of California, shall have the right to construct its municipal street railroad at grade across the track or tracks of Southern Company's railroad at or near the intersection of San Jose avenue and Diamond street, subject to the terms and conditions of an agreement to be executed by the parties hereto establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings; and if the parties are unable to agree upon such terms and conditions, then upon such terms and conditions as may be prescribed by said Railroad Commission. Such

crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the City. The expense of maintaining said crossings and any and all such protective device or devices, except interlocking plant, after completion, shall be borne solely by said City, but the expense of maintenance and operation of interlocking plant, if any, shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

2. The Southern Company shall likewise have the right, subject to the approval of said Railroad Commission, to construct a track or tracks at grade across the track or tracks of the municipal railway, subject to the terms and conditions of agreements in each case to be executed by the parties hereto, establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings, and if the parties hereto are unable to agree upon such terms and conditions, then subject to such terms and conditions as may be prescribed by said Railroad Commission. Such track crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the Southern Company. The expense of maintaining said crossings and such protective devices, except interlocking plants, after completion, shall be borne solely by Southern Company and the expense of maintenance and operation of interlocking plants shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

ARTICLE IV.

1. Nothing contained in this agreement shall affect the rights reserved by the Southern Pacific Railroad Company and/or Southern Pacific Company, for themselves and their successors and assigns, in that certain deed dated December 5, 1898, from the said companies to the City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco; and in that certain deed from the Southern Pacific Railroad Company to the City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco.

2. Said agreement dated March 23, 1914, hereinabove referred to, between the parties hereto, shall be and remain in full force and effect and shall not be affected hereby unless and until the City shall comply with said conditions of the escrow hereinabove set forth; but upon full compliance with the conditions of said escrow, then and in that event this agreement shall, in so far as it changes or modifies said agreement of March 23, 1914, supersede the same.

ARTICLE V.

The City hereby agrees to forever indemnify and hold Southern Company harmless from and against any and all claims, demands, liabilities and judgments, and loss, damage and injury resulting from any damages caused or claimed in the acquisition by said City of any of said lands, or occurring in or caused by or claimed to have been caused by any and all of the work covered by this agreement. In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as here in this paragraph provided.

ARTICLE VI.

1. This agreement shall not become effective and the parties hereto shall not be bound hereby unless and until it shall have been approved by the Railroad Commission of the State of California.

2. Time is of the essence of this agreement, and if this agreement is approved by said Railroad Commission and the City does not comply with and perform all the covenants and conditions hereof to be complied with and performed by it within said term of five (5) years, this agreement and any and all rights of the parties hereto hereunder shall forthwith upon the expiration of said term of five (5) years cease and determine as completely as if this agreement had never been made.

3. This agreement shall be bind-

ing upon and inure to the benefit of the successors and assigns of the respective parties hereto.

In witness whereof, the parties hereto have executed these presents in quadruple the day and year first hereinabove written.

This agreement, made and entered into this ——— day of ————, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and Southern Pacific Company, its lessee, a corporation of the State of Kentucky, first parties (herein collectively called "Railroad Company"), and ————, second party (herein sometimes called "Contractor").

Witnesseth:

That, whereas, on the ——— day of ————, 1928, the Southern Pacific Railroad Company and Southern Pacific Company as first parties, and the City and County of San Francisco, California, as second party, entered into an agreement covering the exchange of certain parcels of land between the Railroad Company and the City and County of San Francisco, for rights of way through the so-called Bernal Cut in the said City and County of San Francisco, and covering, among other things, certain construction work more specifically set forth in said agreement dated the ——— day of ————, 1928; and

Whereas, said agreement, dated the ——— day of ————, 1928, contains the following provision:

"In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as herein this paragraph provided," and

Whereas, said City and County of San Francisco did, on the ——— day of ————, 19—, enter into a contract with contractor to do and perform certain work pursuant to a compliance with the terms of said agreement dated the ——— day of ————, 19—, above referred to:

Now, therefore, it is understood and agreed that the contractor shall, in advance of performing any work under said contract of the ——— day of ————, 19—, between said City and County of San Francisco and said contractor, give to said Railroad Company a bond in the sum of twenty thousand (20,000) dollars, in form and of good and sufficient surety to be approved by the Assistant Treasurer of the Railroad Company, conditioned that the contractor will well and truly perform and fulfill all of the covenants, conditions, stipulations and obligations on his part in this agreement set forth and contained, to-wit:

In consideration of the Railroad Company permitting contractor to enter upon its property and perform said work, contractor agrees to indemnify and save Railroad Company harmless from and against any and all claims, loss, damage, injury and liability howsoever may be caused, resulting directly or indirectly from the performance of any or all work to be done upon Railroad Company's property, contemplated by said agreement dated ————, 19—, between said City and County of San Francisco and the said contractor; also from all claims, loss, damage, injury and liability howsoever same may be caused resulting directly or indirectly, made or suffered by said contractor, contractor's agents and/or employees while engaged in the performance of said work, whether caused by the negligence of Railroad Company in the operation of its railroad or otherwise.

Contractor expressly releases and

discharges Railroad Company from all liability of whatsoever character for any and all personal injuries sustained by contractor while engaged in the performance of work to be done upon Railroad Company's property, whether caused by the negligence of Railroad Company in the operation of its railroad or otherwise, and whether resulting in death or otherwise.

Contractor expressly waives any and all claims arising from said death or injury to contractor.

The contractor agrees that the license hereby given him to enter upon the premises of the Railroad Company for the purpose of performing the work covered by said contract dated the ——— day of ———, 19—, between said City and County of San Francisco and said contractor, shall not give nor be deemed or construed to give said contractor a right to do or perform any work whatsoever at any time upon or in connection with t. work covered by said contract dated the ——— day of ———, 19—, between said City and County of San Francisco and said contractor, that will render unsafe the use by said Railroad Company of its real estate, tracks, structures and other appurtenances now or hereafter existing, or weaken or injure the same for the operation of its trains, engines or cars or for its other purposes.

Contractor further agrees that should the Railroad Company deem it necessary to engage any inspectors, watchmen or flagmen, or do anything to protect its engines, trains or cars during the performance by said contractor of the work covered by said contract dated the ——— day of ———, 19—, between the said City and County of San Francisco and said contractor, then and in that event contractor agrees to fully reimburse Railroad Company promptly for all cost and expense of such inspectors, watchmen, flagmen and other expenses that may be incurred by said Railroad Company incident to or in connection with work contemplated to be performed by said contractor.

Contractor further agrees that upon completion of the work covered by said contract dated the ——— day of ———, 19—, between said City and County of San Francisco and said contractor, contractor will promptly remove from the premises of the Railroad Company all of contractor's tools, implements and other materials and leave said premises clean and presentable.

This agreement shall not be assigned, sublet or transferred in whole or in part by contractor, except with the previous written consent of Railroad Company.

Except as otherwise provided herein, the terms and conditions of this agreement shall inure to the benefit of and be binding upon the heirs, executors, administrators, successors and assigns of contractor and the successors and assigns of Railroad Company.

In witness whereof, the parties hereto have executed these presents in triplicate the day and year first hereinabove written.

Opinion of City Attorney.

June 18, 1928.

Subject: Southern Pacific Tracks from 17th and Harrison Street to County Line.

Board of Supervisors.

Dear Sirs:

I have before me the request of your Honorable Board that you be advised as to the right of the Southern Pacific Company to operate its trains from Third and Townsend streets through the Mission District and thence to the county line.

Opinion.

By reason of the destruction of all records in 1906, it has been extremely difficult to obtain any official records which will throw any light on the subject of your inquiry. I have examined the book of franchises and find none granted to the Southern Pacific Company covering any portion of the route running from Third and Townsend streets to the county line via the Mission District, since December 2, 1895, when a franchise was granted covering the following route: "From a point on the main line of the Southern Pacific Railroad at the intersection of York and Division streets, thence along said Division street to Sixteenth street; thence across Sixteenth street and along Harrison street to the intersection of the main line of the Southern Pacific Railway at

a point between Sixteenth and Seventeenth streets." It is claimed by the Southern Pacific Company that this franchise was granted in connection with a line change made by the company. The ordinance granting the franchise, however, is silent as to reasons for the grant.

This entire question was given most careful consideration by my predecessor, Honorable Percy V. Long, on January 20, 1913, when he rendered to your Board an exhaustive opinion as to the right of the Southern Pacific to operate its trains from Third and Townsend streets, through the Mission District, and to the county line. The opinion is to be found in Opinions of City Attorney, 1912-1916, pages 207-218. I have carefully checked all available information with Judge Long's opinion and I agree with the views which he has expressed, and therefore attach hereto a copy of the opinion.

I direct your attention to that portion of the opinion wherein Judge Long comments upon a certain action instituted by Honorable Franklin K. Lane on behalf of the city to restrain the Southern Pacific Company from operating its trains over and across certain streets in the Mission District, which is as follows:

"During the course of my examination I ascertained that some years before the fire of 1906 and during the administration of former City Attorney Franklin K. Lane an action was commenced by the City and County of San Francisco to enjoin the Southern Pacific Company from operating its cars over, across and along certain streets in the Mission District.

"An order to show cause was issued in said action directing the Southern Pacific Company to show cause, if any it had, why the injunction should not be made permanent pending the trial. After a hearing on said order Judge Seawell issued a preliminary injunction and rendered a written opinion upon the same. Some time thereafter he set aside said preliminary injunction and the defendant filed an answer. The reason that he gave for setting aside the preliminary injunction was, as I am informed, the inconvenience and embarrassment to the patrons of the road, resulting in the stoppage of transportation over the lines of said company. I have been unable to obtain any of the records in said action or any information concerning the same other than that disclosed above."

I direct your attention, however, to the fact that the order of Judge Seawell granting a preliminary injunction in the action was not a decision on the merits of the case, and it would be possible for him to arrive at a different conclusion upon the final determination of the action, and therefore the granting of the preliminary injunction is not decisive of the issues raised in the litigation.

The Southern Pacific Company contends that its right to operate trains over and along Harrison street from the point of the southwesterly terminus of the franchise granted December 2, 1905, to a point in Mission Block No. 54, between Twenty-first and Twenty-second streets, is included in the deed of October 10, 1863, from John Center to the San Francisco and San Jose Railroad, for the reason that Harrison street was not an open public street until after the road was built. I cannot agree with this contention, for in the description of the property in the Center deed, Harrison street is referred to more than once, and it must be presumed that it was at that time a public street.

Furthermore, the company now contends that under the provisions of the Act of May 20, 1861 (Stat. 1861, p. 607), that it or its predecessors in interest had the right to construct its road over or along or across any street necessary to reach its terminal. The language of the statute is as follows:

"Sec. 17. Every railroad corporation shall have power—Fifth. To construct their road across, along or upon any stream of water, water course, roadstead, bay, navigable stream, street, avenue, etc."

Section 21 of the same Act provides:

"Any county, city or town in this State shall have and are hereby fully empowered, by and through a two-thirds vote of the Board of Supervisors, the Common Council, or any other officers having supervisory control of such county, city or town, to give, or donate to any railroad company now organized, or that may be hereafter organized, the use of any of the streets or highways which may be absolutely necessary in order to enable such company to reach an accessible point from a depot, etc."

I am of the opinion that the fifth subdivision of Section 17 above quoted is not self-executory, and that grant to use or cross the streets must be made by the county or municipality before the company will have the right to use them.

See *Los Angeles* v. *S. P. Co.*, 157 Cal. 363-368.

As I have already said, however,

the loss of all records makes it practically impossible to ascertain whether any permission was ever granted to operate over or across any of the streets in question.

There are, however, records of official acts which tend to prove that the road was operated at least with the consent of both state and municipal authorities, for instance:

On August 18, 1865, a deed was executed by the Industrial School Department of San Francisco, conveying to the San Francisco and San Jose Railroad Company a right of way through its property, pursuant to the Act of April 25, 1862, authorizing the conveyance.

On June 6, 1864, an issue of the San Francisco Bulletin adverts to the fact that the formal examination of the San Francisco and San Jose Railroad was made by the officers of the company and Supervisors of the subscribing counties.

On March 30, 1868, there was passed by the State Legislature an Act authorizing the Board of Supervisors to dispose of the shares of stock owned by the city in the San Francisco and San Jose Railroad.

On March 6, 1872, an act was passed by the Legislature to extend the time allowed to the Southern Pacific Railroad Company and the Western Pacific Railroad Company in which to make the terminus of their roads upon certain lands donated to them by the state for that purpose.

On December 2, 1895, the Board of Supervisors granted a franchise for that portion of the present road between York and Division street and a point on Harrison street between 16th and 17th streets.

On December 8, 1896, the Board of Supervisors passed an ordinance permitting a speed not to exceed thirty miles an hour upon that portion of the road between the county line and 25th and Valencia streets.

On January 19, 1910, an action was brought by the Southern Pacific Railroad Company under the McEnerney Act to establish the title of the company to all private property and rights of way over private property, along the line of road from Third and Townsend streets to the county line. This city was not made a party to this action, and a decree establishing title practically as prayed for was made on March 8, 1912.

On several occasions from 1908 to 1914 the city accepted deeds for sewer and street crossing easements from the company.

I advert to these official acts merely for the purpose that there is a possibility of some official act having been taken which would have given to the Southern Pacific Company or to its predecessors in interest some grant which would have authorized the crossing of streets along its route, but until some more positive evidence of this grant is presented to me, I must agree with Judge Long in his conclusion, especially that since the date of his examination of the subject there has been no official action taken by your Board which would in any way increase or extend the rights or privileges of the company.

Sincerely yours,
JNO. J. O'TOOLE,
City Attorney.

June 18, 1928—Read; subject matter over three weeks.

Rights of Way of the Southern Pacific in Certain Streets.

January 20, 1913.

Board of Supervisors.

Gentlemen: I am in receipt of Resolution No. 9104 (New Series), as follows:

"Resolved, That the City Attorney be and is hereby requested to advise the Board of Supervisors as to what rights, if any, the Southern Pacific Railway Company has to run or lay its tracks over the following named streets, to-wit:

"Berry, Seventh, Division, and the crossings of Fourth, Fifth, Sixth and Seventh streets and through the Mission District."

Opinion.

The subject matter of said resolution embraces nearly all franchises granted to the San Francisco and San Jose Railroad Company and to the Southern Pacific Company, also to the Southern Pacific Railroad Company and the Central Pacific Railroad Company, successors to the Western Pacific Railroad Company. The first of said franchises was granted on January 19, 1864, by the Board of Supervisors of the City and County of San Francisco. It necessitated an examination of the grants made by private individuals to said companies.

During the course of my examination I ascertained that some years before the fire of 1906 and during the administration of former City Attorney Franklin K. Lane, an action was commenced by the City and County of San Francisco to enjoin the Southern Pacific Company from operating its

cars over, across and along certain streets in the Mission District.

An order to show cause was issued in said action directing the Southern Pacific Company to show cause, if any it had, why the injunction should not be made permanent pending the trial. After a hearing on said order Judge Seawell issued a preliminary injunction and rendered a written opinion upon the same. Some time thereafter he set aside said preliminary injunction and the defendant filed an answer. The reason that he gave for setting aside the preliminary injunction was, as I am informed, the inconvenience and embarrassment to the patrons of the road, resulting in the stoppage of transportation over the lines of said company. I have been unable to obtain any of the records in said action or any information concerning the same other than that disclosed above.

I communicated with the Secretary of State of the State of California relative to the term of the existence of the San Francisco and San Jose Railroad Company and also the Southern Pacific Railroad Company, the Central Pacific Railroad Company and the Western Pacific Railroad Company. It appears from his answers that the San Francisco and San Jose Railroad Company was chartered April 17, 1860, and consolidated with the Southern Pacific Railroad Company March 8, 1902. Its term of existence shown in the articles of incorporation was fifty years.

The Southern Pacific Railroad Company was incorporated under the laws of this State March 8, 1902, and its term of existence is fifty years; the original articles of incorporation of the Southern Pacific Railroad Company were filed in the office of the Secretary of State December 2, 1865, and its term of existence, as specified therein, was fifty years.

The Central Pacific Railroad Company was chartered under the laws of the State of California June 23, 1870, and its term of existence is fifty years.

The Western Pacific Railroad Company was chartered December 19, 1862, and its term of existence, as appears from the articles of incorporation, was fifty years.

For your information I will attach hereto a blue print copy of the map of the San Francisco and San Jose Railroad Company as located by a Board of Directors, William J. Lewis, Chief Engineer, in 1862, and prepared by G. F. Allardt, Chief Draftsman. As appears from a notation upon said blue print, it was traced from a map in the Construction Engineer's department of the Southern Pacific Railroad by J. W. Parker, Assistant Engineer, City Engineer's office, in June, 1910.

I addressed a letter to Mr. William Hood, Chief Engineer of the Southern Pacific Company, Flood Building, San Francisco, requesting him to furnish this office with any map or maps showing the route of the Southern Pacific Company over the streets of this City and County and a memorandum of the franchises under which the same are operated.

On June 18th of this year I received the following communication from Mr. W. F. Herrin, vice-president and chief counsel of the Southern Pacific Company:

"Percy V. Long, Esq.,
City Attorney,
San Francisco, Cal.

"Dear Sir: Referring to your letter of May 29th to Mr. Wm. Hood, relative to the opinion requested by the Board of Supervisors as to the right of this Company to maintain and operate its tracks upon certain streets in this city and county, and requesting a map showing all tracks of this Company upon such streets, and a memorandum of the franchises under which the same are operated.

"I herewith hand you map showing all of the railroad tracks in the City and County of San Francisco owned or operated by this company, and trust that this may be of assistance to you.

"As stated to your Mr. O'Brien, all of the property records of this company were destroyed in the fire of 1906, and I have no doubt franchises or permits were obtained by this company to which we have now no reference.

"The map makes no reference to franchises for the use of streets occupied by the old line leaving the city via Colma, south of Sixteenth and Harrison streets; the company has maintained its tracks upon Harrison street from Sixteenth southerly and across certain streets to Twenty-fifth and Valencia streets for many years, basing its right thereto upon deed from John Center et al. to the San Francisco and San Jose Railroad Company, the predecessor of the present Southern Pacific Railroad Company, dated October 10, 1863, and recorded in volume 425 of Deeds at page 291, Records of the City and County of San Francisco. This company has always maintained that the title

thus acquired preceded the laying out of all streets now occupied thereunder.

"South of Twenty-fifth and Valencia streets the construction of the old San Francisco and San Jose Railroad actually preceded the laying out of all streets in the vicinity, except the old San Jose Road. The enclosed map shows that there are some four or five crossings of the San Jose Road maintained under the Incorporation Act of 1861.

"In order that the rights of this company to maintain all its tracks on the streets of the City and County of San Francisco may be clear of record, this company intends to apply to the Board of Supervisors for a franchise covering all streets where its rights are now in any way open to question."

I will forward to you a copy of the map referred to in the above letter. On said map are delineated the tracks of the Southern Pacific Railroad Company operated under the franchises which they now hold and a reference is made thereon to the grantees of the franchise, the date of the granting thereof, the term for which it was to exist, the order of the Board of Supervisors granting the franchise and the page of the book of franchises published by order of the Board of Supervisors of the City and County of San Francisco in 1910.

I will answer your inquiries concerning the streets mentioned in the resolution in the order in which they appear in said resolution.

Berry Street.

Berry street is mentioned in only two grants of the Board of Supervisors of franchises to the Southern Pacific Railroad Company. The first is Order No. 1025, approved December 12, 1871, and the other is Ordinance No. 828 (New Series), approved July 19, 1909. Under Order No. 1025 the Southern Pacific Railroad Company and the Central Pacific Railroad Company were granted, during the corporate existence of said companies, the right to lay down and construct double or single tracks from a point in Townsend street between Fourth and Fifth streets, thence curving southerly and easterly to Block No. 43 in Mission Bay, crossing Fourth, King, Berry, between Third and Fourth streets, and Channel streets; thence crossing Hooper, Irwin Kentucky, Hubbell, Fourth, South, Merrimac, Alameda, Fifth, El Dorado, Center (now Sixteenth), Santa Clara (now Seventeenth), Mariposa, Solano (now Eighteenth), Butte (now Nineteenth), Napa (now Twentieth), Shasta (now Twenty-first), Sierra (now Twenty-second), Humboldt, Nevada (now Twenty-third), Sonoma (now Twenty-fourth), and Yolo (now Twenty-fifth) streets; also to construct its double or single tracks from a point in King street between Third and Fourth streets; thence curving southerly and westerly crossing Berry street and connecting with first above described line at a point between Berry and Channel streets.

Under Ordinance No. 828 (New Series) the Southern Pacific Company was granted the right to lay down, maintain and operate a spur track for four tracks from Block No. 27 to the South line of King street to Block No. 28, crossing Berry street between Sixth and Seventh streets, to Block No. 29; crossing Channel street to Seventh street to Block No. 30; crossing Hooper street to Block No. 31.

Seventh Street.

Seventh street is mentioned in two orders of the Board of Supervisors:

1st. Order No. 2406, approved June 14, 1891, granting to the Southern Pacific Railroad Company the right to lay down and maintain, during the operation of its road from and after the date of the passage of said order, a single or double standard gauge track along and upon the following named streets, to-wit:

Beginning on Townsend street at a point 300 feet distant northeasterly from the northeasterly line of Seventh street; thence on a curve southerly and southwesterly through private property and into Seventh street; thence along Seventh street to its intersection with Santa Clara street; thence along Santa Clara street to its intersection with Kentucky street; thence curving to the right to an intersection with the existing track of said Railroad Company at or near the northerly line of Mariposa street near the intersection of said northerly line with the westerly line of Illinois street.

Ordinance No. 1699 adopted by the Board of Supervisors December 11, 1905, grants to the Southern Pacific Company, during the pleasure of the Board of Supervisors, the right to construct, maintain and operate spur tracks as follows:

Spur Track No. 2. Commencing at a point on the constructed line of railroad of the Southern Pacific Company on Seventh street between Pennsylvania avenue and Mississippi street at a point about four feet southeasterly from a point op-

posite the intersection of the easterly line of Mississippi street with the southwesterly line of Seventh street and running thence on a curve in a general northwesterly and westerly direction along and upon Seventh street and Sixteenth street to a point in the center of Sixteenth street about thirty-three feet easterly from the easterly line of Texas street to a connection with the railroad track laid or to be laid by the Atchison, Topeka and Santa Fe Railway Company, pursuant to authority granted by Ordinance No. 1470 of the City and County of San Francisco.

Division Street.

Division street is mentioned in only one ordinance of the Board of Supervisors, viz.: Order 2933, December 2, 1895, granting a franchise to the Southern Pacific Railroad Company, its successors and assigns, the right to lay down, maintain and operate for fifty years, a single or double track street railroad, with all necessary switches and turnouts, across, along and upon the following named streets in this city and county, to-wit:

From a point on the main line of the Southern Pacific Railroad at the intersection of York and Division streets; thence along said Division street to Sixteenth street; thence across Sixteenth street and along Harrison street to an intersection with the main line of the Southern Pacific Railroad at a point between Sixteenth and Seventeenth streets.

Crossing of Fourth Street.

The Southern Pacific Company was granted a spur track privilege on February 19, 1906, by Ordinance No. 1751 to lay down, maintain and operate railroad tracks from its tracks at Fourth and Townsend streets into property on the northeast corner of Fourth and Townsend streets and to and along Bluxome street, crossing Fifth and Sixth streets into private property.

Under Order No. 1025 hereinabove mentioned in connection with Berry street, the Southern Pacific Railroad Company and the Central Pacific Railroad Company were granted the right to cross Fourth street between Townsend and King streets.

Under Order No. 1154, approved June 19, 1874, the Southern Pacific Railroad Company and the Central Pacific Railroad Company were granted the right to use, during the pleasure of the Board of Supervisors, certain streets, as therein specified, crossing Fourth street at King street.

Under Order No. 1975 approved July 17, 1888, the Southern Pacific Company was granted the right to lay down and construct a single track railway across Fourth Street from 100 Vara Lot No. 165, on the easterly side of Fourth street to Block 16 on the westerly side of Fourth street bounded by Fourth, Berry, Fifth and King streets; no term is specified in this ordinance.

It will be noticed by reference to the large map that certain tracks are delineated thereon on Fourth street just south of Townsend street for which there appears no franchise. Said tracks are delineated in blue.

Crossing of Fifth Street.

Under Ordinance No. 152 (New Series), approved February 20, 1907, the Southern Pacific Company was granted the right to lay down and maintain spur tracks from tracks at Fourth and Townsend streets into property on the northeast corner of Fourth and Townsend streets and to and along Bluxome street, crossing Fifth and Sixth streets into private property.

Under Resolution No. 3154 of the Board of Supervisors, approved January 19, 1864, the San Francisco and San Jose Railroad Company were granted the right to use Townsend street during the corporate existence of said company, from its intersection with Fourth street to the westerly end of said Townsend street, crossing Fifth street.

Under Order No. 1025 approved December 12, 1871, the Southern Pacific Railroad Company and the Central Pacific Railroad Company were granted the right to lay down and construct double or single tracks from a point on Townsend street between Sixth and Seventh streets, thence curving southerly and easterly, crossing Sixth and Seventh streets; thence tangent, crossing Fifth and along Jewett street and crossing Fourth, etc.

Under Order No. 1154, approved June 19, 1874, the Southern Pacific Railroad Company and the Central Pacific Railroad Company were granted the right to use, during the pleasure of the Board, a part of King street, as follows:

From a point in King street between Third and Fourth streets; thence westerly to the intersection of King and Sixth streets, crossing Fourth, Fifth and Sixth streets.

Crossing of Sixth Street.

The franchise enumerated herein concerning the crossings of Fifth street, include also crossings at Sixth street. It appears further that under Ordinance No. 1751, ap-

proved February 19, 1906, the Southern Pacific Company was granted the right to lay down and operate a spur track commencing in Sixth street near Channel street in Potrero Nuevo Block No. 389.

Crossings of Seventh Street.

Under Resolution No. 3154 cited above, in reference to Fifth street, the San Francisco and San Jose Railroad Company was granted the right to cross Seventh street at Townsend street.

Through the Mission District.

On October 10, 1863, John Center of the City and County of San Francisco granted to the San Francisco and San Jose Railroad Company a right of way for railroad purposes only over, along and upon the following described real property:

"Beginning at a point on the central line of the San Francisco and San Jose Railroad as now located on the eastern line of the old San Jose Road, 130 feet southerly from the southeast corner of Temple street and the old San Jose Road, thence along said central line N. 54 deg. 24½ min. east, true course 1358 feet to the southern line of Park street ten (10) feet westwardly of the western line of Capp street, including a width of fifteen feet on each side of said central line, and containing an area of 94-100 acres, thence along said central line on said course of N. 54 deg. 24 min. east 1107 feet to a point five (5) feet westerly of the western line of Folsom street and two (2) feet south of the southern line of Horner street, including a width of twenty feet on each side of said central line and containing an area of 1 2-100 acres, thence along said central line curving to left with a radius of 1433 feet for 1457 feet to a point in the middle of Harrison street fifteen feet south of the northern line of Alta street, including a width of thirty feet on each side of said central line and containing an area of 21-100 acres, thence along said central line and middle of Harrison street N. 3 deg. 52 min. west 2535 feet to a point one hundred and eighty-four (184) feet northerly of the northern line of Corbett street, including a width of thirty-three feet on each side of said central line, and containing an area of 3 84-100 acres, thence along said central line curving to the right with a radius of 1910 feet for 675 feet, including a width of thirty-three feet on each side of said central line, and containing an area of 76-100 acres, thence along said central line on a course of N. 16 deg. 23 min. east 500 feet, including a width of thirty-three feet on each side of said central line, and containing an area of 1 15-100 acres, thence along said central line on a curve to the right of 1146 feet radius, 830 feet to the right bank of Mission Creek, including a width of thirty-three feet on each side of said central line and containing an area of 1 26-100 acres.

Including the right, title and interest of said Center in and to all the streets crossed by said railroad for the distances specified on each side of said central line.

The right of way granted under said deed extends from the westerly line of Harrison street in Mission Block No. 54 to the easterly line of the old San Jose Road in Mission Block No. 184, extending through Mission Blocks Nos. 54, 139, 153, 154, 170, 171 and 184. There are some intervening blocks which are not numbered on the map of the City and County of San Francisco and which are included in the grant of the right of way.

It appears, however, from the records, that on December 23, 1861, John Center, John Treat, Eugene Casserly and George Treat conveyed to San Francisco Homestead Union, by deed of bargain and sale, the following property:

Commencing at the intersection of the old San Jose Road with the center of Park street (now Twenty-fourth street); thence easterly through Park street to the center of Howard street; thence southerly through Howard street to the center of Navy street (now Twenty-sixth street), to the old San Jose Road; thence northerly to beginning, containing 40.53 acres, being a portion of the Pioneer Race Course Tract.

The San Francisco Homestead Union subdivided said tract into lots and a map and plan thereof were recorded in Liber 163 of Deeds, page 1, and on April 30, 1862, said San Francisco Homestead Union distributed the same among its shareholders, and on May 20, 1862, executed deeds to said shareholders.

It thus appears that at the time of the execution of the deed from John Center to the San Francisco and San Jose Railroad Company that said John Center had no right, title or interest in or to any part or portion of the land previously conveyed to the San Francisco Homestead Union and it nowhere appears that the San Francisco Homestead Union ever granted a right of way over the streets embraced within the property so conveyed to it by

said Center to the San Francisco and San Jose Railroad.

The streets over which the Southern Pacific Company now maintains its tracks and operates its cars along the lines of the right of way granted by Center to the San Francisco and San Jose Railroad Company are as follows: Poplar street from Twenty-fifth to Twenty-sixth streets; Twenty-fifth street at the crossing of Valencia street; Orange Alley between Twenty-fourth and Twenty-fifth streets; Bartlett street between Twenty-fourth and Twenty-fifth streets; Osage Alley between Twenty-fourth and Twenty-fifth streets; Mission street between Twenty-fourth and Twenty-fifth streets; Lilac street between Twenty-fourth and Twenty-fifth streets; Twenty-fourth street at its intersection with Capp street; Howard and Shotwell streets between Twenty-third and Twenty-fourth streets; the intersection of Folsom and Twenty-third streets; Treat avenue between Twenty-second and Twenty-third streets; Twenty-second street westerly from Harrison street.

It also appears that no franchise was ever granted to the San Francisco and San Jose Railroad Company, or the Southern Pacific Company or the Southern Pacific Railroad Company, or to the Central Pacific Railroad Company or to the Western Pacific Railroad Company, or to any other railroad company for that portion of Harrison street commencing at a point about midway between Sixteenth and Seventeenth streets, which point marks the termination of the franchise granted to the Southern Pacific Railroad Company on December 2, 1895, by Order No. 2933 and a point on Harrison street between Twenty-first and Twenty-second streets, which point marks the beginning of the right of way granted to the San Francisco and San Jose Railroad by John Center under the deed of October 10, 1863.

It also appears that no franchise was ever granted to any of the railroad companies mentioned above or to any other company from a point at the westerly termination of Townsend street, which point marks one of the terminal points of the franchise granted to the San Francisco and San Jose Railroad Company under Resolution No. 3154 approved January 19, 1864, and thence along Division street to the point of intersection of said Division street with York street, which point also marks one of the terminal points of the franchise granted to the Southern Pacific Railroad Company on December 2, 1895, by Order No. 2933.

In relation to the right of way of the Southern Pacific Company from a point on the old San Jose Road (now San Jose avenue), between Twenty-fifth and Twenty-sixth streets and the boundary line between San Francisco and San Mateo counties, it would appear from the map of the San Francisco and San Jose Railroad Company, hereinbefore referred to, and to which reference is hereby made, that said company, the San Francisco and San Jose Railroad Company, obtained a right of way through private property from the various owners thereof prior to the location of any streets through said territory. An abstract of title of this portion would be necessary to finally determine that question.

Whether the Southern Pacific Company is maintaining tracks and operating cars on other streets than those mentioned in its franchises is a matter that I am not able to determine unless I am informed on just what streets the company is now operating. It would require an investigation and a survey to determine said question which should be conducted at the discretion of the Board.

From such information as I have been able to secure, it appears:

1st. That the Southern Pacific Company has the right to cross Berry, Seventh, Division and the crossings of Fourth, Fifth, Sixth and Seventh Streets as indicated above and as authorized by the various franchises hereinbefore enumerated.

2nd. That the said company is authorized, under the deed from John Center, to operate its trains, over the lands, exclusive of the streets, from a point in Mission Block No. 54 commencing on the westerly side of Harrison Street, running thence through the intervening blocks in a general southwesterly direction through Mission Block No. 154 on the northerly side of Twenty-fourth Street.

3rd. That the Southern Pacific Company was not granted a franchise and was not granted any private easement over and along Harrison Street from a point about midway between Sixteenth and Seventeenth Streets to a point on the westerly side of Harrison Street in Mission Block No. 54, between Twenty-first and Twenty-second Streets.

4th. That the Southern Pacific Company was not granted a franchise and was not granted a private right of way over and along Division Street from its intersection with the westerly end of Townsend Street to a point at the intersection of Division and York Streets.

Respectfully,

PERCY V. LONG,
City Attorney.

Retirement Ordinance Amendment.

Bill No. 8586, Ordinance No. 8094 (New Series), as follows:

Amending Subdivisions (g), (h), (i) and (n) of Section 2; Paragraph 3, Subdivision (a) and Paragraphs 9 and 10, Subdivision (b) of Section 4; Subdivisions (d) and (e) of Section 5; Section 6; Section 7 by changing the designations of Subdivisions (a), (b) and (c) to (b), (c) and (d), respectively, and by adding a new Subdivision (a); Section 10; Section 11; Section 12; Subdivisions (a) and (b) of Section 13; Subdivision (b) of Section 14; Subdivision (a) of Section 16; Subdivision (a) of Section 17; Option No. 1 of Section 18; Section 19 by adding a Subdivision (c); Section 21 and Section 24, all of Ordinance No. 5561 (New Series), entitled "Establishing a retirement system for employees of the City and County of San Francisco providing for the payment of retirement allowances to aged and disabled employees and for the payment of death benefits; prescribing the conditions under which said allowances and benefits shall be paid; fixing rates of contribution and the amounts of retirement allowances and death benefits, and providing for the administration of said retirement system in accordance with Article XVII of the Charter."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Subdivisions (g), (h), (i) and (n) of Section 2 of Ordinance No. 5561 (New Series), the title of which is above recited, are hereby amended to read as follows:

(g) "City-service" shall mean service rendered as an employee of the City for compensation, and for the purposes of this ordinance, a member shall be considered as being in the "city-service" only while he is receiving compensation from the City for such service.

(h) "Prior Service" shall mean the city-service of a member rendered before the first day of April, nineteen hundred and twenty-two, except that, for members employed as teachers by the San Francisco School Department at the time of their entry into the Retirement System, "prior service" shall mean the city-service, excluding service as a member, rendered before the first day of October, nineteen hundred and twenty-five.

(i) "Continuous Service" as applied to prior service shall mean all prior service, regardless of interruptions in such service, and as

applied to service as a member shall mean uninterrupted employment by the City, except that discontinuance of city-service of a member from any cause whatever followed by reentrance into city-service within three years from the date of such discontinuance shall not be considered as a break in the continuity of service.

(n) "Regular Interest" shall mean interest at four per centum per annum, compounded annually, plus such additional interest as the Board of Administration may declare from year to year in accordance with the provisions of this ordinance.

Section 2. Paragraph 3, Subdivision (a) and Paragraphs 9 and 10, Subdivision (b) of Section 4 of Ordinance No. 5561 (New Series) are hereby amended to read as follows:

(a). (3) Every other employee who shall enter city-service after April first, nineteen hundred and twenty-two, shall become a member of the Retirement System upon the completion of six months of continuous service; except that every other employee who shall enter city-service after October first, nineteen hundred and twenty-five, as a teacher employed by the San Francisco School Department shall become a member of the Retirement System upon the completion of six months of continuous service; and except, further, that any employee who shall enter city-service by reason of his status as an employee, for not less than one year, of a public utility at the time such public utility is acquired by the City, shall become a member upon such entry.

(b). (9) Employees engaged outside the City on the Hetch Hetchy project, provided that if any employee so excluded shall later become a member of the Retirement System through any change in status occasioned by transfer or assignment to other employment or by amendment to this ordinance, he shall receive credit for service with the City rendered prior to the date he enters the Retirement System, including service as an employee of the Hetch Hetchy project, in the same manner as credit for prior service is granted to employees who become members on April first, nineteen hundred and twenty-two, and provided, further, that on and after July first, nineteen hundred and twenty-six, employees of the Hetch Hetchy project on units certified, from time to time, to the San Francisco City Employees' Retirement System by the Board of Public Works as being completed and placed on a permanent operating basis, shall not be excluded from membership in the Retirement System under this paragraph, and, also, that on and after July first, nineteen hundred and twenty-eight, employees who were transferred prior to July first, nineteen hundred and twenty-two, to the Hetch Hetchy project outside the City from city-service within the City, and employees who have completed or shall complete ten years of continuous service on the Hetch Hetchy project, shall not be prevented under this paragraph from becoming members of the Retirement System.

(10) Persons in city-service on June twenty-eighth, nineteen hundred and twenty-two, who have not at that time affirmatively exercised the option of becoming members of the Retirement System as provided in Paragraph (1), Subdivision (a) of this section, and whose compensation equals or exceeds five hundred ($500) dollars per month.

Section 3. Subdivisions (d) and (e) of Section 5 of Ordinance No. 5561 (New Series) are hereby amended to read as follows:

(d) Any member may elect to contribute at rates in excess of those provided for in Subdivision (a) of this section, for the purpose of providing additional benefits, but the exercise of this privilege by a member shall not place on the City any additional financial obligation. The Board of Administration, upon application, shall furnish to such member information concerning the nature and amount of additional benefits to be provided by such additional contribution.

(e) At the close of each month the Board of Administration shall determine the aggregate amount of the normal contributions for such month and the portions of such aggregate amount deducted from compensation paid from: (a) funds of operating public utilities, which shall include units of the Hetch Hetchy project certified from time to time by the Board of Public Works as being completed and placed on a permanent operating basis; (b) bond funds not included under the preceding item (a); (c) funds of the San Francisco School Department; (d) County Roads Fund, and (e) all other sources. There shall be paid to the Retirement Fund from each of the funds included under items (a), (b), (c) and (d), as set forth in the preceding sentence, an

amount equal to the total normal contributions deducted from compensation paid from such fund during and subsequent to the fiscal year ending June thirtieth, nineteen hundred and twenty-eight, in the case of funds included in items (b) and (d), and on and after July first, nineteen hundred and twenty-eight, in the case of the funds of the San Francisco School Department, included in item (c). The Board shall certify to the Auditor the amount of normal contributions deducted from compensation paid from all other sources as set forth in item (e), and the Auditor shall transfer an equal amount to the Retirement Fund from the appropriation for the Retirement System in the Budget for the then current year.

Section 4. Section 6 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 6. Subject to the following and to all other provisions of this ordinance, including such rules and regulations as the Board of Administration may adopt in pursuance thereof, the said Board shall determine and may modify allowances for service and disability.

It shall fix and determine how much service rendered in any fiscal year shall be the equivalent of a year of service and of parts thereof, but shall credit one year for two hundred and fifty or more days of service rendered by employees on a per diem basis and one year for ten months or more of service rendered by employees on a monthly basis, but not more than one year for all service in any fiscal year.

Time during which a member was absent from service without pay shall not be allowed in computing service.

Each employee shall file with the Board of Administration such information affecting his status as a member of the Retirement System as the Board may require.

The Board of Administration shall grant credit for prior service to each member who has rendered such service as defined in this ordinance and who has entered the Retirement System prior to January first, nineteen hundred and twenty-eight. However, prior service so credited shall be the basis for a retirement allowance or benefit as provided in this ordinance only if membership continues until retirement on a retirement allowance or until the granting of such other benefit.

Section 5. Section 7 of Ordinance No. 5561 (New Series) is hereby amended by changing the designation of the present Subdivisions (a), (b) and (c) to (b), (c) and (d), respectively, and by the addition of a new subdivision, to be designated (a), and to read as follows:

(a) Contributions of members, of beneficiaries and of the City shall be improved with interest at the rate of four per cent (4%) per annum, compounded annually. The Board, however, at the end of each fiscal year, beginning with the fiscal year 1927-1928, may credit to all contributions held in the Retirement Fund at June 30th of the then current fiscal year, such additional interest as it may deem proper in the light of the earnings on the Retirement Fund during such fiscal year, provided that the total interest credited to contributions during any fiscal year shall not exceed the earnings on the Retirement Fund during that year; and provided, further, that interest at the rate of four per cent (4%) per annum, compounded annually, shall be used in the calculation of benefits under any mortality table adopted by the Board, regardless of any additional interest allowed on contributions under this paragraph.

Section 6. Section 10 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 10. There shall be paid into the Retirement Fund, by contributions of the City, the amounts necessary to pay all pensions and all other benefits allowable under this ordinance to members on account of prior service. Until the amount accumulated in the Retirement Fund becomes not less than the present value of all amounts thereafter payable from the Retirement Fund, the amount annually due to the said Fund under this section shall be the amount payable from said Fund in the ensuing fiscal year on account of prior service. Such portion of the amount as is annually due to the Retirement Fund on account of prior service rendered by persons as employees of municipally owned operating public utilities, which shall include units of the Hetch Hetchy project certified from time to time by the Board of Public Works as being completed and placed on a permanent operating basis, or on account of prior service rendered by persons as employees of the San Francisco School Department, shall be paid from the

funds of such public utilities or from the funds of the San Francisco School Department, respectively, provided that no amount due to the Retirement Fund on account of prior service rendered by persons retired under the provisions of Section 9, Article XVII of the Charter shall be paid from the funds of the San Francisco School Department.

Section 7. Section 11 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 11. The payments of the City into the San Francisco City Employees' Retirement Fund, as provided in Subdivision (e), Section 5 of this ordinance, and the payments into the said fund, as provided in Section 10 of this ordinance, are hereby made obligations of the City. The Board of Supervisors shall appropriate, in the budget for each fiscal year, such amounts as are necessary to make such payments, less the portions to be paid from the several funds set forth in the said Subdivision (e) of Section 5 and Section 10, and the amounts as appropriated shall be included in the tax levy. The Board of Supervisors, also, shall make provision for the payment from the said several funds of such amounts as shall be necessary to meet the obligations of the City under the Retirement System on account of employees whose compensation is or has been paid from such funds.

Section 8. Section 12 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 12. Should the city-service of a member be discontinued, except by death or retirement, he shall be paid, six months after the date of discontinuance, such part of his accumulated contributions as he shall demand; provided that, if in the opinion of the Board of Administration, said member is permanently separated from city-service by reason of such discontinuance, he shall be paid forthwith all of his accumulated contributions, and provided, also, that the Board of Administration may, in its discretion, withhold for not more than one year after a member last rendered city-service all or part of his accumulated normal contributions if after a previous discontinuance of city-service he withdrew all or a part of his accumulated normal contributions and failed to redeposit such withdrawn amount in the Retirement Fund as provided in this Section.

Any member may redeposit in the Retirement Fund, in one sum or in not to exceed six monthly or twelve semi-monthly payments, an amount equal to that which he withdrew therefrom at the last termination of his membership. If a member upon reentering the Retirement System after a termination of his membership shall not make such redeposit, he shall reenter as a new member without credit for any service and the rate of his contributions for future years shall be the normal rate provided for in Subdivision (a), Section 5 of this ordinance at his age of reentrance; otherwise his rate of contribution for future years shall be the same as his rate prior to the last termination of his membership, and his membership shall be the same as if unbroken by such last termination. In the event such redeposit is made by a member, an amount equal to the accumulated normal contributions so redeposited shall again be held for the benefit of the said member and shall no longer be included in the amounts available to meet the obligations of the City on account of benefits that have been granted and on account of prior service of members.

Section 9. Subdivisions (a) and (b) of Section 13 are hereby amended to read as follows:

(a) Each member in the city-service who has attained the age of seventy years at the time of his entrance into the Retirement System shall be retired forthwith, and each member in city-service, or within four months after discontinuance of city-service, or while physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of city-service, who attains the age of seventy years, shall be retired on the first day of the calendar month next succeeding that in which the said member shall have attained the age of seventy years.

(b) Any member in the city-service or within four months after discontinuance of city-service, or while physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of city-service, may retire upon written application to the Board of Administration, stating what time, not less than thirty days subsequent to the filing of such application in case one of the options set forth in Section 18 of this ordinance is selected, he desired to be retired, provided that said member, at the time so specified for his retirement, shall have

(1) Completed ten years of con-

tinuous service as defined in this ordinance and attained the age of sixty-two years; or

(2) Completed thirty years of continuous service as defined in this ordinance and attained the age of fifty-seven years.

Section 10. Subdivision (b) of Section 14 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(b) Any member who entered the Retirement System on April first, nineteen hundred and twenty-two, or who entered after said date and receives credit for prior service, and who is retired by reason of attaining the age of seventy years, shall receive on account of prior service such additional pension, purchased by the contributions of the City, as will make his total retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, not less than four hundred and eighty (480) dollars per year unless such four hundred and eighty (480) dollars exceeds one-half of his final compensation, in which event his total retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, shall be not less than one-half of his final compensation.

Section 11. Subdivision (a) of Section 16 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) Upon retirement for disability a member who has attained the age of sixty-two years shall receive a service retirement allowance as provided in Subdivision (a), Section 14 of this ordinance; otherwise he shall receive a retirement allowance which shall consist of

(1) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of his retirement; and, if, in the opinion of the Board of Administration, such disability is not due to intemperance, wilful misconduct or violation of law on the part of this member;

(2) A pension purchased by the contributions of the City which, together with the annuity provided by his accumulated normal contributions, shall make the retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, equal to (a) one and one-fourth (1¼) per centum of his final compensation multiplied by the number of years of service credited to him, if such retirement allowance exceeds one-fourth of his final compensation; otherwise (b) one and one-fourth (1¼) per centum of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age sixty-two, but such retirement allowance shall not exceed one-fourth of such final compensation. In the calculation of a retirement allowance under this paragraph in the case of a member having credit for more than one class of service, that is, service as a teacher in the day schools, as a teacher in the evening schools or as an employee in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the final compensation in each case being that for the respective class of service; provided, that the final compensation upon which the minimum total retirement allowance is calculated in such case shall be based on the compensation earnable by the member in the classes of service rendered by him during the ten years immediately preceding his retirement.

Section 12. Subdivision (a) of Section 17 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

(a) The Board of Administration may, at its pleasure, require any disability beneficiary, under age sixty-two, to undergo medical examination, such examination to be made by a physician or surgeon, appointed by the Board of Administration, at the place of residence of said beneficiary or other place mutually agreed upon. Upon the basis of such examination the Board shall determine whether said disability beneficiary is still incapacitated, physically or mentally, for service in the office or department of the City where he was employed and in the position held by him when retired for disability. If he Board of Administration shall determine that said beneficiary is not so incapacitated, his retirement allowance shall be cancelled forthwith, and he shall be reinstated to the position held by him when retired for disability.

Section 13. Option No. 1 of Section 16 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Option 1. If he die before he receives in annuity payments provided for in Paragraph (1), Subdivision (a), Section 14 and Paragraph (1), Subdivision (a), Section 16 of this ordinance, the amount of his accumulated contributions as it was at his retirement, the balance

of such accumulated contributions shall be paid to his estate or to such person, having an insurable interest in his life, as he shall nominate by written designation duly executed and filed with the Board of Administration.

Section 14. Section 19 of Ordinance No. 5561 (New Series) is hereby amended by the addition of a subdivision to be designated (c) and to read as follows:

(c) Upon the death of any person after retirement and while receiving a retirement allowance from the Retirement System, there shall be paid to his estate, or to such person having an insurable interest in his life as he shall have nominated by written designation duly executed and filed with the Board of Administration, the sum of five hundred dollars ($500), the funds for such payment to be derived from the accumulated contributions of the City held to meet the obligation of the City on account of benefits that have been granted and on account of prior service of members.

Section 15. Section 21 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 21. A pension, an annuity or retirement allowance granted under the provisions of this ordinance shall be payable in equal monthly installments or in smaller pro rata amounts when the pension, annuity or retirement allowance begins after the first day of the month or ends before the last day of the month.

Section 16. Section 24 of Ordinance No. 5561 (New Series) is hereby amended to read as follows:

Section 24. No person who has been retired for service or disability and who receives a retirement allowance under the Retirement System shall be paid for any service, except as a juror or as an election officer, rendered by him to the City after the date of his retirement.

Section 17. This ordinance shall take effect immediately.

Spur Track Permit, Southern Pacific Company.

Bill No. 8587, Ordinance No. 8095 (New Series), as follows:

Amending Section 2 of Ordinance No. 7511 (New Series), granting permission, revocable at will of the Board of Supervisors, to the Southern Pacific Company, its successors or assigns, to construct, maintain and operate certain industrial spur tracks upon First street, Bryant street and Beale street as hereinafter described.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 2 of Ordinance No. 7511 (New Series) is hereby amended to read as follows:

Section 2. Said tracks shall be used for the transportation of freight only, and shall not be used as a main line or a part thereof.

Said tracks shall be laid level with the street and must be operated under such restrictions as to interfere to the least possible degree with the use of said streets by the public.

The Southern Pacific Company shall erect and maintain all-night lighted arc lamps to be placed where directed by the Lighting Committee of the Board of Supervisors.

Provided, however, that it is the intention of this Board that said track shall be equally available to all railroads, but in order to promote safety and economy in the operation thereof it is hereby expressly provided that the State Belt Railway, or any railroad operating in San Francisco, shall have the right to make physical connection with the tracks above described, and Southern Pacific Company shall promptly and without discrimination switch to any industry on said track any car or cars which such other carriers may place on proper interchange tracks properly constructed to handle necessary business. It is understood that Southern Pacific Company is to do all of the switching on the trackage known as Beale street spur or industrial tracks.

Provided, that no locomotive, car or cars shall be taken over the spur tracks on Beale street from Howard street to Mission street between the hours of 7 a. m. and 12 m. and 1 p. m. and 4 p. m.

Section 3. This ordinance shall take effect immediately.

Islais Creek Reclamation District Assessment Approved.

Resolution No. 29202 (New Series), as follows:

Whereas, H. C. Crozier, Walter H. Sullivan and Louis A. Weidenmuller, as Commisisoners of Assessment, heretofore appointed by Resolution No. 27656 (New Series) of the Board of Supervisors of the City and County of San Francisco, State of California, for the purpose of viewing the lands within the Islais Creek Reclamation District, a reclamation district created by an act of the Legislature of the State of California, known as the Islais Creek Reclamation District Act, approved April 6, 1925, and assessing thereon a reclamation assessment of $1,620,152, same to be apportioned according to the benefits that will accrue to each tract of land within said district, respectively, by reason of the expenditure of said sum of money, estimated in gold coin of the United States, did, on the 9th day of March, 1928, in accordance with law, file with the Clerk of the Board of Supervisors of the City and County of San Francisco, State of California, their completed assessment list, and the said Board of Supervisors of the City and County of San Francisco having appointed Monday, the 9th day of April, 1928, at the hour of ten o'clock a. m., in the chambers of the Board of Supervisors of said City and County of San Francisco, in the City Hall in said City and County of San Francisco, as the time and place when and where the said Board of Supervisors would meet for the purpose of hearing objections to said assessment, and notice of such hearing having heretofore been given by publication for two weeks daily (Sundays excepted) in The Bulletin, a newspaper of general circulation, published in said City and County of San Francisco, and the matter of objections to said assessment coming on regularly on said day, to-wit, the 9th day of April, 1928, to be heard, and having thereafter been regularly continued for hearing, from time to time (the actual taking of testimony having commenced on April 17, 1928), and it appearing to the said Board of Supervisors that the said assessment had been made in accordance with the provisions of law and should be approved, and that the only written objections to said assessment filed at any time before the date of said hearing by any person interested in any land upon which any charge has been assessed, were the following: the verified written objections of Henry A. Whitley, Wm. Taaffe & Co., Reinhart Lumber and Planing Mill Company, Anderson Bros. Planing Mill and Mfg. Co., and Henry Windt, and it appearing that after April 9, 1928, the following written objections to said assessment were filed as follows: verified objection by Chas. E. Reinhart, filed April 11, 1928; additional verified objections by Wm. Taaffe & Co., filed April 16, 1928; additional verified objections by Reinhart Lumber and Planing Mill Company, filed April 16, 1928; unverified objections by Edward Wenzel, filed April 16, 1928; unverified objections by John K. Bulger, filed April 19, 1928, and verified objections by P. F. Reilly, filed April 23, 1928.

And whereas, the said Board of Supervisors, after hearing the evidence offered in support of said objections, hereby finds that the same are not well taken, and do not warrant a reapportionment of the entire assessment aforesaid, or a modification or amendment of said assessment in any particular.

Now, therefore, it is ordered and resolved by the Board of Supervisors of the City and County of San Francisco, State of California, that the aforesaid assessment list be, and the same is hereby, approved and that an order of such approval shall be endorsed upon said assessment list, which endorsement shall be signed by the Chairman of said Board of Supervisors and attested by the Clerk thereof. It is

Further ordered and resolved that the said assessment list shall be filed with the County Treasurer of said City and County of San Francisco, State of California.

This resolution shall take effect immediately.

Southern Pacific Company Commended for Suisun Bay Bridge.

The following resolution, heretofore presented by Supervisor Shannon and referred to the Public Welfare Committee, was returned by said Committee with favorable recommendation and *adopted*:

Resolution No. 29214 (New Series), as follows:

Whereas, the Southern Pacific Railroad Company has publicly announced its intention to construct a bridge over a mile long across Suisun Bay, connecting Benicia and Port Costa, to replace the train ferry service between these two points; and

Whereas, the construction of this bridge will reduce the running time and bring all cities and towns in the Sacramento Valley in closer touch with the City of San Francisco; and

Whereas, all progressive communities are constructing bridges wherever possible for the improvement of transportation facilities; and

Whereas, the City of San Francisco is deeply interested in all bridge projects, and particularly in the problem of bridging San Francisco Bay; therefore, be it

Resolved, That the Board of Supervisors commend and congratulate the Southern Pacific Railroad Company for its enterprise and progressiveness in its decision to build this bridge, which will be of such great benefit to Northern California, and particularly to San Francisco and the communities around the Bay.

Public Hearing on Raker Act.

Supervisor Shannon presented:

Resolution No. 29225 (New Series), as follows:

Whereas, the United States Government, through tne Department of the Interior and Bureau of Parks, has expressed dissatisfaction with San Francisco's compliance with certain terms of the Raker Act regarding roads, trails and use of the Hetch Hetchy watershed by the public; and

Whereas, this reported noncompliance has been called to the attention of the Congress by Representative Louis Cranton of Michigan, who, in his speech before the House of Representatives, charged this City and its government with bad faith in minor matters as well as in connection with the power

contract with the Pacific Gas and Electric Company; and

Whereas, it is apparent that the public does not know the extent of the dispute and the many reasons for this disagreement between our City and the Federal Government, and this Board of Supervisors does not fully understand the situation in a measure necessary for its handling such an important matter of public policy; therefore, be it

Resolved, That the Board of Supervisors hereby instructs and authorizes the Public Utilities Committee of the Board to hold a public hearing or hearings, at which all the facts may be brought out, and at which City Engineer M. M. O'Shaughnessy and City Attorney John J. O'Toole may review our dealings with the Government in detail; and be it

Further Resolved, That the Public Utilities Committee be required to render this Board a report and recommendation on a course of policy which it deems best for the City to follow to satisfy the Government of our willingness to comply with the Raker Act in every respect.

Adopted by the following vote:

Ayes—Supervisors Andriano, Gallagher, Havenner, Hayden, Kent, Marks, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr—14

Absent—Supervisors Colman, Deasy, Todd, Toner—4.

Absent—Supervisors Colman, Deasy, Todd, Toner—4.

Resolution No. 29222 (New Series), as follows:

Adopting a rule as to the manner in which persons, firms and corporations are to be notified why their assessment for the Fiscal Year 1928-1929 should not have been increased by the Board of Supervisors, sitting as a Board of Equalization.

Resolved, That it is hereby adopted as a rule of this Board that the notice required to be given under the provisions of Section 3673 of the Political Code, to corporations or persons, to show cause why their assessment on the assessment books of real and personal property for the Fiscal Year 1928-1929 should not be increased will be as follows:

To corporations—a written or printed notice addressed to the president, secretary, manager or agent of such corporation and delivered by the sergeant-at-arms of the Board of Supervisors at the office of such corporation in this City.

To persons, firm or companies—a written or printed notice, postage prepaid, and mailed to their address.

The Clerk is hereby directed to cause to be delivered or mailed to the several corporations, persons, firms or companies, when designated by this Board, the said notice at least twelve (12) hours prior to the time set for hearing said parties as aforesaid.

Absent — Supervisors Colman, Deasy, Todd, Toner—4.

In Re Transbay Bridge Hearings, 11 a. m.

The following matter, laid over from 11 a. m., was taken up at 3:40 p. m.:

The regular meeting of the Board of Supervisors of the City and County of San Francisco was held on Monday, the 25th day of June, 1928, beginning at the hour of 10 o'clock of said day in the chambers of the Board, City Hall, San Francisco, California. Supervisor Havenner acted as chairman of the meeting in the absence of the Mayor.

After the transaction of other business the following proceedings were had in relation to the bridge hearings:

The Chairman: Supervisor Kent and Supervisor Shannon, will you escort Senator Johnson and Congressman Welch to the desk?

(Senator Johnson and Congressman Welch are thereupon escorted to the rostrum.)

The Chairman: Members of the Board: At the suggestion of the Mayor, and after conference with him on Saturday, a formal invitation was extended on behalf of the Bridge Committee to Senator Hiram Johnson and Congressman Welch, who have handled so ably our bridge bill before Congress. Senator Johnson has just returned to San Francisco after his strenuous campaign in the Senate on behalf of our bridge bill, and in behalf of the Boulder Dam project bill, during the last session, and we felt that it was extremely appropriate and eminently desirable that we hear from him at this time, that we welcome him back to the city and ask him to tell us about the fight that he waged so magnificently in our behalf, and give us some advice as to our course in the future. Most of us are pretty clear as to what that should be, but his view and Congressman Welch's view as to the outlook for our bill in the next session of Congress is important and timely at this time. We would like to hear from Senator Johnson. (Applause.)

Senator Johnson: Mr. Chairman and members of the Board: I am very glad indeed to have the opportunity to tell something of our stewardship in the city of Washington upon a measure of such very great importance to the city and to every member of this community. I want to say, at the outset, to you that what has transpired in the city of Washington in the bridge matter is by no means a cause for discouragement, no reason for pessimism at all, but quite the contrary, what has happened there thus far in a matter of this magnitude is wholly encouraging. I do not assume to speak to you about what has happened in the House. There you have been ably represented, and I know that everything has been done by the Congressman who sits here, and who honors us by his presence, and by his colleagues from California, all has been done that could possibly be done in behalf of this measure. In the Senate I speak with greater intimacy, of course. I am familiar there by reason of long service perhaps, or by reason of other causes, with the members who constitute the body and with the proceedings that occur therein. I can say to you, I think with a fair degree of accuracy, although I detest prognostications or prophecies about what may happen in the future, that in the ensuing session of the Senate of the United States the bill which has been introduced on behalf of the city of San Francisco for a bridge from Rincon Hill across the bay will be passed. (Applause.) I think I may say that with a fair degree of certainty. I have been a little nonplused in the last couple of days, for I have been here but a couple of days, to hear occasionally something said about maintaining the contest in some other way than we have commenced it. We have commenced it in a certain fashion, by the introduction of a bill, prepared by the city of San Francisco, presented to us from the city of San Francisco, introduced in behalf of the city of San Francisco, and fought, thus far, that particular bill, as the city of San Francisco's project. Now, I know only one way to do when you begin a contest of that sort. There is only one fashion in which I know how to conduct that kind of a fight, and that is to carry on and fight it out, and fighting it out, ultimately, in my opinion, we will be successful. Of course, the project is a tremendous one. It is a constructive work of a character

greater than any perhaps that we have ever had in the United States. It is a project, too, that runs counter to the views of some of the gentlemen who are connected with the Navy Department, but that is neither here nor there. If we were right when our engineering committee reported, if we were right when we introduced our bill, if we were right when we fought it through the Commerce Committee of the Senate, and took it up on the floor of the United States Senate, we are right now, and we cannot turn back and go into any other method or into any other way to carry out the project, if the project we desire ultimately to succeed.

In addition to that, it is San Francisco that appeals to the Congress of the United States. I am unable to comprehend that there should be any doubt upon the proposition that this should be pressed as a municipal concern and a municipal enterprise. It is incredible and unthinkable that the members of the Navy Department will change their view if an individual or a private corporation were to undertake what we have undertaken. So the opposition, in any event, that has been engendered by the project will continue, no matter what you might do and no matter what might be done by any individual or any corporation on the face of the earth. Now, that opposition you understand. It seems to me, that it will be a work of supererogation to repeat what has transpired in Washington, or the opposition that we have encountered. You know, of course, that the engineers of the Navy Department protest against the locality that we have selected for our bridge. We fought it out in the committee of the Senate, before one of the committees that I think is admittedly one of the best committees of the United States Senate. We fought out there the opposing views. On one hand General Jadwin of the United States Engineers, Admiral Hughes and others presented the viewpoint of the Navy, on the other hand presented with force and vehemence, with convincing ability, our side was given by the Mayor of the city of San Francisco, by Judge Sullivan, by Mr. McSheehy, by Engineer O'Shaughnessy, Engineer Galloway and Captain Harrison. And after a full presentation thus of the divergent views to the Commerce Committee of the United States Senate, that committee, powerful as it is, with possibly the exception of one member, recommended our bill and reported it favorably to the Senate. When it comes up on the floor ultimately for debate we will have the opposition of those of course, who respond, respond without reason sometimes, to the demands of the Navy Department. But that by no means indicates that we will not be successful, and the only way in which we can proceed is to go on and go on with what we have begun and pass the bill, if it be possible to pass it, and there is every indication that that possibility exists.

Now, one other feature of this matter and one that was singularly appealing to the Commerce Committee of the Senate. There in the original bill, if you will recall, we provided that the franchise should be granted to the City of San Francisco or to its assigns. That portion of the measure which permitted an assignment of the franchise, at the instance of the Chairman of the Commerce Committee, was stricken out because he believed, the members of the Commerce Committee believed, I believe, that this is a municipal enterprise and should be carried out by the City of San Francisco and carried out to the full. (Applause.)

Now, that situation and that course we are pursuing. If there ever comes a time when you must pursue another course, that is in the dim distant future. But it would be ridiculous now in the midst of the contest to change our view or chart a course anew. We will proceed upon the lines that we have undertaken, and proceeding upon those lines I am perfectly satisfied of what our friends in the House will be able to accomplish. I feel fairly certain of what will be the accomplishment in the Senate. San Francisco, I need not tell you, has a charm for all the world. There are friends of San Francisco wherever you go, any place on the face of the earth, and there are no less friends in the Senate of the United States and the Congress of the United States. With a persuasive eye these friends look upon any just measure that is asked by the City of San Francisco. Remember yours is a great project, that education may be necessary in some directions and that it may be essential that you continue uninterruptedly the work that is yours to do in its behalf. But remember, too, that it is, after all, a project that commends itself to the best minds that there are in the Congress of the United States, and that its charm to them is that it is a municipal enterprise and carried

but by a City that every person on the face of the earth loves.

We will go forward, my friends, with this measure. We will go forward because we are right, and going forward, ultimate success will be ours. (Applause.)

The Chairman: When this Board of Supervisors decided upon the program of appealing to Congress for permission to construct a bridge across the central portion of the bay, after the War Department had stood upon its previous arbitrary refusal to permit such a bridge to be constructed, after we had drawn up here, with the counsel and advice of Senator Johnson, former Chief Justice Sullivan and others of the best legal minds that we could find in San Francisco, and had drawn up that bill and taken it back to Washington, immediately there came back to us a flood of pessimistic reports, reports that those of us who have been on the inside of this fight recognized immediately as propaganda, inspired propaganda. We did not have a chance at Washington, particularly in the Senate, it was inconceivable that the conservative Senate would permit a public ownership project of this kind to go through, even although, as submitted by us, it was not a public ownership project. But the bill has been carried to a unanimous recommendation by the Senate Committee, carried there by the very splendid fight made by Senator Johnson and the members of the Bridge Committee, who went back to help San Francisco. The bill today is in a far more favorable position than it has ever been before. If the bill be passed on the floor of the Senate in the next session, as Senator Johnson has told us here openly today—and those of us who know him know his reputation for conservatism with respect to predictions of that kind—if the prospects are that that bill will be passed by the Senate. then certainly we have a far better right than we ever had before to hope that that bill will likewise be passed by the House of Representatives. I think that this drive that is being made on us here today, gentlemen—and you are all aware of it because it has been advertised in every advertising column that could be bought up around San Francisco in the last two weeks—that there is to be a drive here today to persuade the City of San Francisco to abandon the program which it has carried on to its successful stage, to abandon it, in the face of the splendid support that we have pledged to us in the next session of Congress. That is the most ridiculous proposition that I have ever heard of, and, of course, it emanates from only one source. You gentlemen all know that. It emanates from the allied private applicants for a franchise here. There is no demand of this kind among the rank and file of the people. There is no demand of this kind among the daily press of San Francisco which is supposed to reflect the viewpoint of the city. There is no demand anywhere except on the part of these gentlemen who are now afraid that we are going to succeed, and they ask us, right here in the middle of the stream, with our faces pointed with every prospect of success toward the other bank, they ask us now to abandon this project and let them step in, in the stead of San Francisco, and carry on, these magic individuals, carry on to a successful conclusion the fight which they say the City of San Francisco cannot win. It is the most absurd proposition that has ever been put up to us, and I am glad that Congressman Welch is here because he can tell us what he thinks of our fight in the house in the coming session. Congressman Welch. (Applause.)

Congressman Welch: Mr. Chairman, members of the Board of Supervisors and fellow citizens: I could not help but think, while sitting here, how quickly time flies. It is two years since I resigned my membership on this Board to go to Washington. It is nearly two years since I came to the Board to say a parting word to my former colleagues. You will recall at the time that I advised closer cooperation and a better understanding between the legislative body of the City and County of San Francisco, your representatives in Congress and the Legislature of the State of California, in order that the big problems that San Francisco has yet to solve be better understood by these bodies.

San Francisco is committed to a certain policy in handling its big problems, San Francisco is committed, by the organic law of the City and County of San Francisco, its charter, to the policy of public ownership of public utilities, wherever it is possible. This is the course that we are pursuing. to give to San Francisco a bridge from Rincon Hill to Alameda county. in the bill which was prepared here and brought to Washington and given to Senator John-

son and me to introduce in Congress. Very recently a barrage has been sent up. Propaganda has gone out, that we have failed in Washington and that you have failed here, and that the only way to secure a bridge is under private ownership. My friends, ever since the charter of San Francisco was enacted, and ever since that particular provision was inserted in it, there has been determined opposition against every move that this city has made toward public ownership of any of its enterprises or projects and it is only natural that we should have it today. If we cannot build a bridge under public ownership, or at least if we cannot secure a grant from Congress to build a bridge under public ownership, if we cannot convince the departments at Washington that a bridge built under public ownership is a necessity, surely a private corporation cannot. If, by chance, we fail—and we are not going to fail—they have no chance at all. Let me read to you what the Chairman of the sub-committee on bridges of the important Committee on Interstate and Foreign Commerce had to say in a speech that he made before Congress on January 19, 1921, in reference to bridges and which he inserted in the record. He said, in part: "There is only one way you can avoid that and let the public know that Congress will not grant any monopoly, any exclusive right to construct bridges over any of the rivers or other navigable waters of the country. When we grant such a franchise to an individual he knows that, and the public knows it, and if any other responsible party comes to Congress and asks for a franchise to build a bridge near the same place Congress will quickly grant him that right to do so. There is one exception to this rule: if the public asks for the privilege of building a bridge at a certain location, and if some private individual also asks the right to do so, we give preference to the public as a matter of course. In other words, if a state wants to build a bridge, or if a city or county is asking for a franchise to build a bridge, we give preference to public authorities, and when we grant authority to the public to build a bridge at a particular place we will not grant a similar right to any private individual or corporation. With that exception we do not grant an exclusive right, and I am sure the members of the House, when they reflect upon this, will understand and approve the wisdom of this policy."

Mr. Dennison is the last word on bridges in the Congress of the United States. He is chairman of the sub-committee on bridges.

Now, may I ask you, my former colleagues, in all fairness, if you were to grant a franchise tomorrow to a private corporation, what chance would they have before Congress with a bridge bill? If Senator Johnson and myself were never to return to Congress, or if we were neutral while there, in my judgment a bill such as they propose introducing in Congress would not carry. If I may make a suggestion to you, it would be this: that your answer to them would be the denial of every application now pending for a privately owned bridge. My suggestion would be to create a positive militant force behind the publicly owned bridge bill that is now pending in Congress. Send a committee to Washington this winter to assist us in presenting our bill for a publicly owned bridge, particularly in the House, which is a large body consisting of 435 members. Have that committee unanimously agree to a publicly owned bridge, to a bridge of a definite type, and to a bridge at a certain location. I refer, particularly, to the bill that we now have before Congress. If that is done, my friends, our fight is far from lost. My answer to those who are attempting to stampede this Board with their foolish and absurd propaganda would be that we are going to carry on this fight for a publicly owned bridge to a finish. And we can win it if you will follow this suggestion. (Applause.)

The Chairman: Senator Johnson and Representative Welch, the Board has already, by formal action, thanked you for the splendid support that you gave to our bill in the last session of Congress, and expressed its appreciation of your very valuable help. And I am sure the Board is extremely grateful for your visit here today. We hope that you will join with us individually in our invitation to the members of the House Committee to visit San Francisco during the present summer, and to inspect in person the proposed route for our bill. Thank you very much.

Supervisor Gallagher: Mr. Chairman, as a member of the Board, I would like to express, first to our senior Senator and to our Congressman, our gratification that the coming contest, so far as we see it, finds them without opposition, and

happily so for our city and county. I would like to express, too, on behalf of the Board, our thanks for the energetic fight that they have made on behalf of the San Francisco project. It is now in a position, long hoped for, that our representatives in the city of Washington, on a matter affecting California, might be found, shoulder to shoulder, acting as a sort of a flying wedge, fighting toe to toe with anybody who desired not to give to San Francisco and to California those things to which we, as a city, are entitled. And it is a very happy sign, and I am sure it is going to have its effect in a nation-wide sense. The bridge question is not the only California institution or California movement that we need this fine and united support of these Washington representatives for, and I arose, particularly to express, as I say, gratification and commendation for the kind of fight they have made. In that connection I want to say, while they are here, that there has been proposed to this Board of Supervisors that one of its troubles in the matter of bridges will be, in a sense, the financing of the plan. I do not think the question of public ownership will be so difficult. Had it not been for the fact that they were to be present this morning, I had something to say to the Board on that subject. I have listened to his Honor, the Mayor, propose that perhaps an institution something like the Panama-Pacific Exposition directors might take in hand the business of financing the bridge for San Francisco. I have listened to a member of the Finance Committee, Mr. Havenner, say that he believed that it was entirely possible to build this bridge under public ownership and under what is known as the "Port Authority Plan." There are others who have proposed that, with the question of financing under a public ownership plan out of our way, and with a structure that will help and not hinder the work of the Senator and the Congressman, that our bridge troubles, to a certain extent, or except for federal permission, are behind us. I said that, were it not for the fact that they were present this morning, I might have been able to propose something that would meet the situation, and had it not been for the Islais Creek Reclamation project and the desire to reconcile the parties thereto so that that project could go ahead—I am glad to report to the Board that the structure for constructing a bridge under public ownership, with public supervision, and with that bridge to belong to the people, or to be the property of the people when it is completed, is nearly ready. It would have been ready this morning but for the fact that it could not be whipped into shape. When the bridge matters are being considered, I am going to ask that a period of two weeks be given in which, if this structure can be perfected—and it is nearly perfected now—it will be proposed. I am not at liberty to give the names of the gentlemen who have volunteered on the part of San Francisco to act as your agents in the construction of the bridge. In consultation with some of them on the subject of a bridge the first consideration was this: that nothing that was proposed should in any way be inimical to the efforts of our Senator and Congressman and Congresswoman from the state of California in pushing through the bill. And I think that has been worked out. And I hope the Senator and the Congressman will be in the city, as I suppose they will, for a period of the next two weeks, when I think, two weeks from today—because the Board will not meet next Monday—this plan of public ownership of a bridge involving the most favorable features of the Port Authority Plan and a public ownership bridge will be proposed. As I say, I think I may be in error, unless the figures are wrong, and if the persons who are promoting it, and who are outstanding citizens and whose integrity would not be doubted, if I do not miss my guess it may be the solution of the differences as between, first, those who are insisting that we award a franchise at once, and those who are insisting that we wait for Congressional action, and those who say that we probably will never get a bridge. That is all I ask for permission to announce that much this morning. And I think that it will meet, when proposed in its present shape at least—and I wish it were perfected—that it will meet, I hope, and I think, with the idea of contending factions on the subject of a San Francisco Bay bridge. I do not agree with my friend the Congressman that all the private applications should be thrown out. I do not think it is necessary. (Applause.) The time will come when perhaps that might be advisable, but I cannot, my friend Mr. Welch—and this is not said in a desire to criticize anything that you have said—I cannot quite bring myself

to the thought that people who have spent hundreds of thousands or thousands of dollars in preparing plans and bringing this matter in concrete shape to our attention should be pushed outside the door, as it were, simply because somebody is propagandizing in their behalf. We know, we have reason to know, in more ways than a dozen, that there are interests here who care nothing except for the fact that their particular bridge will be selected and that, regardless of what is going on, that their bridge be forwarded. And further than that, who assure us that, regardless of the power of our Senator and our Congressman and the other Congressmen in Washington, that, regardless of their standing and their power and influence, that some of these private owners could go to Washington, and, as the Chairman of our Board meeting very well says, by the wave of a magic wand, or something else, prevail upon the War Department to backtrack on its position and to grant this petition at once because it came from them. I do not believe that that is so. However, I want to close. I have talked a little longer than I should, but I want to say to you, Senator, and you, Mr. Congressman, that we admire the fight that you have been putting up. It is the kind of thing that I think has been needed around these parts for a long, long time, where we find men whom we have sent to Washington that are not afraid to stand, toe to toe, with any enemy of our interest and fight them every inch of the way. And I express here the congratulations of this Board on the work you have done so far.

Congressman Welch: Mr. Chairman, might I say, in response to the reference made to me by my friend Supervisor Gallagher in regard to denying the applications that are now pending before the Board: the proponents of privately owned bridges have fought our public enterprise, here and in Washington, all winter, and have produced copies of the calendars and minutes of this Board. They have attempted to show to members of the Committee on Interstate and Foreign Commerce, before whom the House Bill is pending, that San Francisco was not sincere in its efforts to get a grant from Congress. They told the members of Congress that it was simply a gesture, and said, "Here is the evidence of it, if San Francisco were sincere in her efforts to get a grant from Congress to build a bridge, why would San Francisco, from week to week, or from fortnight to fortnight, continue on its calendar thirty-odd applications for a privately owned bridge?" I have been confronted with this propaganda. That was the reason that I suggested that you clear the slate. It is only a suggestion, my friends, I cannot order you to do it. That is a matter for your own judgment. But if I were still a member of this Board, and with my personal knowledge of conditions in Washington, I would give positive proof to the proponents of privately owned bridges who have made so much trouble for us both here and there, that San Francisco is absolutely sincere, I would say to them by voting to deny their applications that San Francisco is committed to the policy of a publicly owned bridge. (Applause.)

Supervisor McSheehy: Mr. Chairman, Senator Johnson and Congressman Welch: I am not going to say one word about what thoughts I might have on a certain subject that has been fairly well heralded in and around the City of San Francisco, but I want to say a word to my colleagues and I want to say a word to the citizens present. As Chairman of the Bridge Committee I desire to state that we could not have picked out a better champion to present our bridge project to the Senate of the United States than the man whom we have picked out. And I want to say, as a Democrat, that I am more than pleased that the Republicans of the state of California have appreciated this great man's work, by not placing before the people a real serious contender. And we know that the people of this state will send back to Congress Senator Johnson, perhaps the greatest representative that this state has ever had in the Senate of the United States. I say that positively as a Democrat. I also state that, on one particular Saturday afternoon I went through quite an ordeal from the man that I am eulogizing here this morning, and I took it in good grace, and that man gave me his thoughts and his opinion in good grace at that particular time. I have taken my medicine. I have come out here. I still have the thoughts that I had, and I hope, some day, that the light will be spread to such a degree upon the members of this Board that perhaps a majority might think as I think. But, irrespective of that, I want to say to the members of

his Board, and to the citizens present, that Senator Johnson when the committee went to Washington and presented the Bridge Bill to him dropped everything. One Saturday afternoon he asked us for the entire proceedings before the House Committee and their report verbatim. I took good care to see that the stenographer wrote up that report, and all day Sunday that man worked on that report. And what was the consequence? The consequence was that the following day he made the most perfect presentation of our bill that I ever heard a human being make. And that is the type of man that we have sent to the United States Senate, and I am more than pleased to see that the people of California are going to continue to send this man to Washington. (Applause.)

I served with Congressman Welch here as a member of this Board for nearly ten years. I know the Congressman perhaps better than any man does on this Board. I have associated a great deal with him, and during my entire stay in Washington of six weeks' duration I may say that I have a private office almost in his rooms there in the House Building. Congressman Welch is a positive figure, he has proven that, he gets results. It does not matter whether it is today or tomorrow, or the next day, he will get results, and he proved that in the Federal Compensation Bill that he fought so hard for in having the salaries of those that were underpaid in the United States government service raised. He worked hard, he worked nights and he worked days at it. And I want to say he is working the same way on this particular bridge bill. And we are more than fortunate in having two such able representatives in the House and in the Senate of the United States. And I am more than pleased, sir, as a Democrat, to be able to cast my vote, as a Democrat, for an outstanding Republican, one who will represent and who has represented the Fifth District of this City and County of San Francisco so well. And I am more than pleased to think that he will continue to so represent us in the next two years.

Now, in reference to the bill that is before us, it is debatable. Just what the outcome of it will be I do not know. I have my own views, and I have great hopes that the majority members of this Board will share the views that I have expressed and that I will continue to express in reference to this cantankerous matter. (Applause.)

Senator Johnson: Before I leave may I express to this Board, and to the two gentlemen who have just addressed us, to its Chairman, and to each individual, my appreciation and my thanks for your cordiality and your generosity to me in the past, and for the remarks that have been made today. My friend who just addressed the Board and I, on a sultry Saturday afternoon, disagreed very radically in some respects. But I want to say in regard to him that there never was a time that I did not believe and I did not know that he was acting from the highest motives and with the very best of good faith, and while I disagreed with him radically in what was transpiring then, I always paid him the tribute of an absolute honesty of opinion and of absolute good faith and of acting with the very best motives that a man can act with. (Applause.)

Let me add, in saying goodbye to you for the moment, that I am at your command at any time upon this measure or upon any other. It has been asserted here that I am to have little or no contest this year. I confess I feel that there is a catch in it somewhere, I cannot quite understand because I have been fighting all my life and never got by without a bitter contest. So I am nonplused for the moment and am not able quite to understand what is transpiring, but, nevertheless, I am very grateful to all of you for what you have said today and for your commendation in the past. We will be on the job, we will be on the job for the city that we all love and everybody loves; we will be on the job until the job is done and we get the bridge. (Applause.)

(Senator Johnson and Congressman Welch retire.)

Bridge Hearing Deferred.

On motion duly made and carried the Bridge Hearing fixed for 11 a. m. was continued over until the afternoon session.

RECESS.

Whereupon, the Board at the hour of 12:30 p. m. took a recess until 2:30 p. m.

J. S. DUNNIGAN,
Clerk.

REASSEMBLED.

The Board of Supervisors reassembled at 2:30 p. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Andriano, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr—14.

Absent—Supervisors Colman, Deasy, Todd, Toner—4.

His Honor Mayor Rolph being absent, Supervisor Havenner was elected to preside.

BRIDGE HEARINGS.

The Clerk: The bridge matters set for a special order.

Supervisor Shannon: The matter of the bridges, Mr. Chairman, I think, in view of the statement made by Mr. Gallagher this morning, a continuance until the time that he asked, I believe he said two weeks, so that he can clear his set-up which I imagine is more or less of a financial set-up——

Supervisor Gallagher (interrupting): It is a combination set-up of finance and of control. It will cover all the points of policy involved in the construction of the bridge.

Supervisor Shannon: I was quite interested in Mr. Gallagher's statement this morning, and I think, in view of his statement, any matter connected with bridges that any member of the Board wants to present to the Board should be given a hearing. I am going to move that the further consideration of the application of the Bay Cities Bridge Corporation for a franchise for a toll bridge between San Francisco and Alameda be continued until Monday, July 9, 1928, and made a special order of business for 11 o'clock.

Supervisor Gallagher: Second that motion.

Supervisor McSheehy: Members of the Board and those present: Because there are a great many present who are interested in the bridge, I feel that this Board has reached a position that a stand should be taken, a stand should be taken one way or the other. Some twenty-eight-odd applicants, I believe, have been heard. I might be mistaken in my figures because there have been so many applications made from time to time, but some twenty-eight odd have been heard by this Board, and I think this Board should go on record as either favoring these applicants or not. So at this time I am going to serve notice on this Board, as Chairman of the Special Bridge Committee, that two weeks from today I will make a motion denying the applications of these various applicants who have been heard by this Board, so that a record will be taken by this Board and these applicants will know just the way they stand. I give notice to the Board two weeks from today. I am not trying to take the Board in any sudden manner at all, or attempt in any way to make some motion that would not be properly considered, so I am serving notice on the Board that, two weeks from today, I will make such a motion properly, in writing.

Supervisor Shannon: Will you submit to a question, Mr. McSheehy? I would like to ask respectfully of Mr. McSheehy, through the Chair, is it your intention, as the applicants are presented on the calendar, to ask for a vote whether we will grant or refuse to grant each one of the applications that are before us on the calendar, is that your thought?

Supervisor McSheehy: I would say this, Mr. Shannon: I will answer it in all good faith, that I will consult with the City Attorney between today and two weeks from today, my motion will be in writing and it will be after consultation with him. Whether I will follow that procedure or not at this time I could not say.

Supervisor Shannon: In the main your thought, I take it, is that you will force a vote on the applications that are before us on the calendar so that we will either deny or grant a franchise to some one of these applicants?

Supervisor McSheehy: Exactly.

The Chairman: As a member of the Bridge Committee, I would like to say, that I am thoroughly in accord with the idea suggested by Supervisor McSheehy. That idea was expressed before the Board today by Congressman Welch, who has been handling the bridge bill in the committee, and was again very strongly urged by Congressman Welch in a conversation which I had with him subsequently, he stated that the members of Congress who have been considering our bridge bill were unable to understand why the City of San Francisco, at the very time when it is making an application in its own name for permission from Congress to construct a bridge across the central portion of this bay, was continuing these numerous applications for different projects that have been before us for many

months under private ownership. The Senate Committee, on its own initiative, as was explained here by Senator Johnson and Mr. Welch, struck out any possibility of granting this franchise to private ownership and provided, of its own initiative, that the project should be a municipal project. I think that the time has come when we should dispose of these applications for franchises finally. If it be possible that this Board, in view of the status of our case before Congress, should, nevertheless, decide to grant a private franchise, let them decide on it now. Personally, it seems to be illogical and inconsistent that the City of San Francisco would withdraw from its position as the applicant before the Congress of the United States and substitute in its stead some individual or some private corporation. Both Senator Johnson and Mr. Welch, I know I violate no confidence when I say this, because they said it freely after we left here, said that it was unthinkable that such a procedure or such a policy should be adopted by this Board, and they expressed the opinion that no private applicant, under such circumstances, would ever get favorable action from Congress. Therefore I think that the time has come when we should make our decision with respect to these applications that have been pending for so many months. And I will be prepared, two weeks from today, to support any motion that Supervisor McSheehy may make.

Supervisor Gallagher: I want to thank the Board, first of all, for giving me that two weeks' continuance, and I think, from the indications here today, that we will clear the air on some of these matters. So far as I am concerned, I want to repeat what I said this morning, I cannot claim authorship of this plan. It is probably brought into being very largely by virtue of the conflicting opinions that have prevailed, to clarify the air. I am satisfied, when it is presented—and I wish I were at liberty to go further into it at this time—but I have declined to present it until the names of outstanding citizens can be given to the Board in connection therewith, I am satisfied that, when the matter is presented—and I have not any foolish dreams about the thing—that, when it is presented, the adherents of the public ownership plan, the adherents of the Port Authority plan, and I hope the adherents of the private ownership plan, will be satisfied. It will not conflict—and I express my judgment confidently on that—with what is going on in Congress. We have been looking for two things here, one is some action on the bridge and the other is action that will be in consonance with the declared pledges of the members of the Board, and we find ourselves in the turmoil of criticism because of delay which I hardly think we can overcome. I have nothing to say on the motion that Mr. McSheehy wants to present, or that you intend to second, I am trusting, and I will be prepared, unless—the only thing that will stop me from presenting this plan two weeks from today will be the fact that it has not been clarified, as I say, to representative citizens who will make their names known at that time, and that it will be presented to this Board through me, accompanied by the people that desire to sponsor it, whose names, if I could mention now, I think would cause you to give it a good deal of thought. In this connection, and I do this by request, I hold in my hand a petition, signed by the Weekly Herald, the Richmond Record, San Francisco Municipal Journal, Hayes Valley Advertiser, Fillmore District News, Divisadero District Advocate, Golden Gate Valley News, Presidio Heights Press, R. H. Norton, publisher of all above named newspapers, Eureka District News, San Francisco Inter-City Ledger, Eugene J. Chase, Sunset Courier, John P. Courter, San Francisco Tribune, Edward H. Hursbut, Community News, A. J. Cadero, Excelsior News, C. F. M. Cole, South of Army News, C. F. M. Cole, Ashbury Heights Advance, The Express, signed by A. L. Bentley (manager of above papers). Tney desire that I present Mr. Courter here and asked me if I would not be the instrument by which he might present this document, and I think he desires to ask of the Board the privilege of the floor on the subject matter. I prefer that it be read first and then you can judge as to whether the floor should be granted.

San Francisco, California.
June 16, 1928.

To the Honorable Board of Supervisors of the City and County of San Francisco, San Francisco, California.

Gentlemen:

As owners and publishers of San Francisco District newspapers, we are vitally interested in the profitable and continuous employment of labor, reduction of our taxes, and

the general welfare of our merchants, manufacturers and property owners.

We know that the immediate private construction of a bridge across San Francisco Bay will bring to San Francisco a financial prosperity greater than any other one development which could be undertaken.

San Francisco needs the vast millions of dollars of private capital which will be expended in San Francisco, for the purchase of California bridge materials and for the employment of California labor.

Therefore, we urge you to resume hearings of private bridge applicants beginning Monday, June 25, 1928, and diligently prosecute said hearings until such time as you have granted a franchise to an applicant, for the construction of a bridge by private capital, from the vicinity of Rincon Hill to Alameda.

Yours respectfully,

The Weekly Herald, The Richmond Record, San Francisco Municipal Journal, Hayes Valley Advertiser, Fillmore District News, Divisadero District Advocate, Golden Gate Valley News, Presidio Heights Press, R. H. Norton (publisher of all above named newspapers); Eureka District News, San Francisco Inter-City Ledger, Eugene J. Chase; Sunset Courier, John P. Courter, San Francisco Tribune, Edward H. Hurlbut, Community News, A. J. Cadero, Excelsior News, C. F. M. Cole, South of Army News, C. F. M. Cole, Ashbury Heights Advance, The Express, A. L. Bentley (manager of above papers).

Supervisor Gallagher: That is signed by the folks that I mentioned. And acting upon Mr. Courter's request, I would move he be granted the privilege of the floor.

Supervisor McSheehy: I hate to object to this, to deny the privilege of the floor to any citizen, but Supervisor Gallagher knows our rules. I would not object if the Supervisor asked the gentleman some questions.

Supervisor Gallagher: I want to be fair with you, Supervisor, if you would object—and I would like you to do a little more thinking before you do—and mind you, I do not know that I am in consonance with the views that are expressed there, but, if you object, your one objection, under the rules under which I have made the motion, will preclude the hearing. The rule provides that it shall take fifteen votes to grant the floor, or, lacking fifteen members present, it shall be unanimous. I would strongly urge you, Mr. McSheehy, this being an entirely different matter than ordinarily comes before the Board, I urge you, in a friendly way, I would strongly urge you, in a matter of this kind, not to press your objection, in the interest of light.

Supervisor McSheehy: I would say this to you, Supervisor Gallagher: that same objection could be more or less urged by any citizen who would ask the privilege of the floor, and there is a certain amount of merit to it. There are a number of bridge proponents in the rear of the room, some attorneys and some engineers who would have the same right and the same privilege. I would ask this man a question if he does not mind answering it. We can get the light. May I ask this question, Mr. Courter, so that you can give the Board, if you wish, certain light? What reasons did you have in sending this in, giving this particular notice to Supervisor Gallagher?

John P. Courter: Our interest in this is purely a mental interest, that is, after a study of the various projects that have been placed before this Board, we have watched the procedure of the Board for the last two years, and every time a bridge proposal has come up it has been postponed. We do not think, in fairness to the applicants, and mind you, we are not advocating any one applicant to the Board . . . We represent, unfortunately, the smaller newspapers of the City of San Francisco, and yet we represent, especially in my district out there, the second largest voting district in the city, and these people have come to us, the various civic organizations, the various individuals, asking if we would not try to put before this Board some resolution which would get a hearing on this bridge subject. There has been but one side to the bridge so far and that has been the side which the bridge committee has put forth. Nobody else has been heard on this thing, and we would like to know a few things here. In the first place, we would like to know whether this Board is acting as a Board of Supervisors or whether they are acting as state agents in this case.

Supervisor Gallagher: That can be answered, we are acting as state agents.

Mr. Courter: Now, we would like to know also, and I would like to ask the same question which the San Francisco Chronicle asked on

this thing: how can the Supervisors as state agents pledge Congress that we will build a bridge under a public plan? If I might be permitted to read this one paragraph, and then it may turn out that we cannot build the bridge that way. "It is beyond the power of the Board of Supervisors to pledge the city in advance to build the bridge from public funds. Only the voters can decide that and they may refuse to authorize the bonds or they may have used up the bonding limit before they get to the bridge" (reading). A bridge permit issued on that basis may be worthless.

Now, I respectfully submit that this was written in the San Francisco Chronicle in August, 1927, and there was no great rush to put this private applicant—to railroad anything through this Board at that time. . . . We merely ask you, as a Board of Supervisors, as public servants, to give these applicants a fair hearing on their applications. That is all we ask. We do not want the thing railroaded through. If anybody is trying to railroad it through, it seems to me it is our bridge committee. We have a bridge committee composed of two people, one proposing a bridge and one proposing a tube plan. Whereas the third man on your bridge committee has spent so far about $50,000 to go to Washington, in the face of the fact that the War Department says they have no concrete case before them. They asked in a letter to Mr. O'Toole: "The facts are, as stated, in my telegram of December 13, 1927, inasmuch as the department has no concrete question to place before the Attorney-General, and since the presentation to him of a hypothetical question is prohibited by the rules governing his department, I am therefore unable to comply with your request." This was a letter written to John J. O'Toole, written March 20, 1928. It is signed by Dwight F. Davis of the War Department. This arrived just shortly before the people went to Washington and was buried. Now, we dug it up. It seems to me that, in a case of that kind, that our bridge committee——

Supervisor Marks (interrupting): What question was asked of Mr. Davis?

Mr. Courter: "Reference is made to your request of February 15, 1928, that the Attorney-General of the United States be asked to pass upon the question raised by you in a telegram of December 13, 1927, as to the authority of the Secretary of War and Chief of Engineers to refuse approval of the plans of the bridge when local authorities have determined that a bridge should be built on a particular site."

Supervisor Marks: That was before the bridge bill was introduced in Congress, was it not?

Mr. Courter: No, I do not think so. This was on March 10th. It was long before that.

Supervisor Marks: It was before the bridge bill was acted upon by the committee, wasn't it?

Mr. Courter: This answer came the day or the day before the members of our so-called bridge committee, which we do not think was a legal bridge committee, we do not think that anybody had any right on this committee, with the exception of the Board of Supervisors acting as state agents, and yet we have spent $50,000, there is an expense account of $17,500 to Mr. McSheehy, it is not itemized, we do not know what it is, and he comes back with a tube plan and yet Mr. Havenner gets up as a champion of the people to save us a lot of money, and he cannot guarantee five cents, he cannot guarantee that the people of San Francisco are going to vote one nickel for a bridge.

Supervisor Marks: If that same query was addressed to Mr. Davis now he would have a definite matter to rule on.

Mr. Courter: What definite matter, what definite matter to present to him?

Supervisor Marks: You have the bridge bill which is actually before Congress.

Mr. Courter: You have no definite matter, you have nothing to guarantee them, you have not a franchise, you have not spent five cents in the bay for a sounding, you do not know if we can build a bridge across the bay.

Supervisor Marks: If you asked Mr. Davis now, he would not say there was nothing concrete before him.

Mr. Courter: My dear Supervisor, can we read Mr. Davis' mind? Is there anything definite before him now?

Supervisor Marks: We have his bill which is now pending before Congress.

Mr. Courter: Is that definite? We do not care what happens back there. All Congress can do to the City of San Francisco and all they

can grant Mr. Havenner and his bridge committee of two, all they can grant them is permission to go across the bay from Rincon Hill to Alameda, and that becomes a state matter and it is absolutely then up to the voters of San Francisco whether we shall have that bridge built privately or built by public ownership. Every bridge on this bay has been built by private ownership. One gentleman over there got up and congratulated the Southern Pacific for building a private bridge and now you are hollering your heads off for a public bridge. Now, where is the consistency in a thing of that kind? You cannot build your bridge across the bay without asking the voters of San Francisco what they are going to do about it. You do not control the bay, you do not control the city of Alameda, you only control the approach.

Supervisor Marks: What do you mean by your statement that the Board of Supervisors are state agents?

Mr. Courter: You are acting as state agents. If you do not know it, you should know it as a Supervisor.

Supervisor Marks: Thank you very much for your suggestion to me, but I am asking you what you mean by your statement that the Board of Supervisors are state agents?

Mr. Courter: I mean that the law distinctly states that, in a matter of this kind, in a bridge across the bay, that you are acting as state agents.

Supervisor Marks: What does that mean? You are just mouthing a certain phrase. What does that mean?

Mr. Courter: What does it mean? I ask you, you are a lawyer, I am no lawyer.

Supervisor Marks: What did you mean when you used those words?

Mr. Courter: You are acting on a state proposition and not on a proposition for the City of San Francisco, you are acting the same as you would be acting on a state highway, exactly.

Supervisor Marks: What control has the state over it?

Mr. Courter: You would have to change the laws of the state in order to get anything through, you would have to change the laws of the City of San Francisco.

Supervisor Marks: You had better read the law because you are saying——

Mr. Courter (interrupting): I have read the law, I have just as good legal advice as this Board has, in fact, we have probably better legal advice, and we have some of the most eminent engineers in the country. We have not gone on this thing after just a few minutes' notice; you cannot say, because we own a little paper out there, that we have not as much right to formulate an idea and a plan as the San Francisco Examiner, on the thing, and they are the only ones in the world who have advocated this thing here, and the words that Mr. Havenner uses are simply the editorials out of the San Francisco Examiner on this thing.

The Chairman: Just a moment, I am not going to permit that kind of thing. Will you be kind enough to prove that statement?

* * * * * * *

The Chairman: I did not accuse you or any other individual of taking money. I made the statement that it was obvious that all the advertising space that was for sale for this particular purpose had been purchased.

* * * * * * *

The Chairman: We will refer to the record.

(The reporter reads from the remarks of the Chairman made during the morning session of the Board as follows: "I think that this drive that is being made on us here today, gentlemen, and you are all aware of it, because it has been advertised in every advertising column that could be bought up around San Francisco in the last two weeks, that there is to be a drive here today, to persuade the City of San Francisco to abandon the program which it has carried on to this successful stage, to abandon it in the face of the splendid support that we have pledged to us at the next session of Congress.")

The Chairman: Now I hope that the Board will permit the expunging from the record of the statement that I accused anybody of accepting money. I said that advertising had been bought.

Supervisor McSheehy: I make that as a motion.

Supervisor Marks: What statement do you mean?

The Chairman: The statement that I had accused the gentleman or anybody of accepting money for their attitude on this thing.

Supervisor Marks: I think it should stay in the record, that is my advice to you, and your denial of it. I think the record is clear

in the matter. I think the record, as far as you are concerned, ought to stay intact.

The Chairman: My statement yes, but I think that the statement made before the Board by this gentleman that I had accused him or anybody else of accepting money for their attitude on this matter ought to be expunged because I made no such statement.

Supervisor McSheehy: I made that as a motion.

Supervisor Roncovieri: I second it.

The Chairman: Is there any objection? (Bringing down the gavel.)

Mr. Courter: I would like to qualify that remark by saying that he does state in there that all the advertising space for almost two weeks has been purchased by the proponents of a private bridge. I, for one, have not received five cents for any advertising space, and it has not been put in as advertising space, and therefore I took your remarks, and I am very sorry that it is being expunged from the record because the way I took your remarks, and every newspaper man in this house, every outlying newspaper man takes your remarks as saying that we have received money on advertising matter.

Supervisor Gallagher: It is a matter of interpretation. Mr. Havenner stated that all the advertising space that could be purchased was purchased. I do not think, frankly, that his remarks were intended to convey that the newspapers, or their proprietors, or editors, received any money for propagandizing. I think it is the wrong interpretation you make from the remark, that would be the way I should judge it.

Mr. Courter: Well, maybe I am wrong on that. I am fair enough to admit it if you will be fair enough to admit it.

Supervisor Marks: Has the gentleman answered your question?

Supervisor McSheehy: Yes, he has answered my question.

Supervisor Marks: I would like to ask him a few questions. You refer to the legal advice that you have had on the matter of the proceedings before this Board, and you said to the Board that your advice is from sound lawyers in San Francisco as to how the matter stands legally, is that correct?

Mr. Courter: That is correct.

Supervisor Marks: I would like the names of the persons who have advised you on legal matters, connected with bridge matters.

Mr. Courter: I do not have to disclose any names before this Board, I am not on trial here.

Supervisor Marks: I insist, Mr. Chairman, if the gentleman's statement that he has sound legal advice is to be considered as worth anything at all, that he state openly the names of the persons who gave the legal advice.

Mr. Courter: Yes, I will mention the name of Mr. Hanley.

Supervisor Marks: Who does Mr. Hanley represent?

Mr. Courter: I don't know.

Supervisor Marks: Does Mr. Hanley represent one of the applicants before the Board?

Mr. Courter: I do not think he does, if he does, I don't know it.

Supervisor Marks: Who did he give the advice to?

Mr. Courter: He gave the advice to me.

Supervisor Marks: And why did he give it to you?

Mr. Courter: Why, I asked him.

Supervisor Marks: And how did you happen to pick out Mr. Hanley for that advice?

Mr. Courter: I am looking around to find out anybody and everybody that I can on this subject.

Supervisor Marks: How did you happen to pick out Mr. Hanley and ask him for advice?

Mr. Courter: Why would you go to Mr. Andriano or any other attorney?

Supervisor Marks: Because I might consult Mr. Andriano as a lawyer.

Mr. Courter: Exactly, that is just why I went to him.

Supervisor Marks: I would like to know, Mr. Chairman, from the gentleman, why it was that, of a number of lawyers who have appeared before the Board with respect to bridge applications, this gentleman happened by mere circumstance to select Mr. Hanley, and how he happened to know that Mr. Hanley knew anything about bridge matters?

Mr. Courter: If I go to any attorney on any subject, I naturally go for what he knows, he is an attorney. Now, I do not think it is anybody's business why I go to Mr. Hanley or go to Mr. John Riordan,

who is a state attorney, or to Mr. Joseph Curley, who is also an attorney, they are both friends of mine I went to school with. Now, if I am seeking legal advice, I naturally seek the best legal advice I can, and in connection with Mr. Norton and the other members of the outlying districts we have made a thorough investigation of our premises on this bridge matter, and that is the reason why I stated that you were acting as state agents. Now, I am no lawyer, I do not profess to be an attorney on this thing, but I do know, I do take their word for it, and it has been sustained, that you are acting as state agents.

Supervisor Marks: Now, did you consult any other attorneys outside of Mr. Hanley on the matter?

Mr. Courter: I do not feel that it is any of your business who I asked on this.

Supervisor Marks: I insist upon an answer, Mr. Chairman.

The Chairman: Certainly the gentleman must recognize that his statements to the Board won't have any weight, won't have any bearing here, if he refuses to disclose the source of his legal information. He makes a statement with respect to legal information and the Board of course wants to know the origin of the information, otherwise it cannot appraise it.

Supervisor Marks: I insist on an answer to my question, whether he consulted any attorney other than Mr. Hanley in the matter.

Mr. Courter: I will also mention the name of Mr. Metson, who is the attorney for Mrs. Scanlon, of the Women's Civic Center.

Supervisor Marks: Did you consult him?

Mr. Courter: I took Mr. Metson's statement from Mrs. Scanlon on these resolutions.

Supervisor Marks: You got that from Mrs. Scanlon?

Mr. Courter: Yes.

Supervisor Marks: Did you ask Mrs. Scanlon for them?

Mr. Courter: Yes.

Supervisor Marks: What was your interest in the matter?

Mr. Courter: My interest in the matter is the interest of San Francisco. I wanted to know for myself, as a taxpayer in the City of San Francisco and a newspaper man, with an investment of several thousand dollars, I wanted to know why we have not had any discussion on the applications here, why they have been postponed from time to time, and why you are spending $50,000 of the city's money going back to Washington on a hypothetical question. I had a right as a newspaper man, just as much as any other newspaper man, to delve into this thing. I am speaking for my constituents and I have delved into the matter.

The Chairman: May I ask where you get this figure of $50,000?

Mr. Courter: Yes, I have an expense account of over $41,000 here some place.

Supervisor Marks: I would like to ask you, Mr. Courter, if I may—you will pardon the interruption while it is in my mind—you know that Mr. Hanley is the attorney for Mr. Robert Lee Dunn?

Mr. Courter: I have not the slightest idea.

Supervisor Marks: Isn't it a fact that Mr. Metson represents an applicant before the Board?

Mr. Courter: I have not the slightest idea.

Supervisor Marks: Don't you know as a fact that he represents Mr. Robert Lee Dunn?

Mr. Courter: I do not know that.

Supervisor Marks: So that you did not take the trouble to find out whom these attorneys happened to represent?

Mr. Courter: Suppose they represented John D. Rockefeller, would that be any of your business?

Supervisor Marks: Well, it is my business as a public official when you presume to come before this Board and tell us what we are to do, we have the right to find out the source of your information and the nature of your interest. That is exactly what we propose to do.

Mr. Courter: What I propose to find out is why you do not do it.

Supervisors Marks: We are going to find out from you whether it was merely an accident or a circumstance that you selected these two attorneys for your advice, we are going to find out whether it is a fact that you are simply looking at this in a broad view without any interest in any one applicant.

Mr. Courter: Yes, I went into this matter through the explanation of Mrs. Scanlon of the Women's Civic Center.

Supervisor Marks: So you did not do it of your own initiative, as a newspaper man interested in the matter?

Mr. Courter: Yes.

Supervisor Marks: But you did

it at the suggestion of Mrs. Scanlon?

Mr. Courter: After Mrs. Scanlon came to me, trying to find a medium for an outlet of her club's findings in the matter, came to me, I was the first newspaper man in the City of San Francisco to take the matter up.

Supervisor Marks: And she suggested that you speak with Mr. Hanley to get your legal information?

Mr. Courter: Why certainly, why not?

Supervisor Marks: And she also suggested that you speak with Mr. Metson?

Mr. Courter: She did.

Supervisor Marks: So you did not pick these two men out?

Mr. Courter: I did not pick them out. Did I say I picked them out?

Supervisor Marks: Yes, you did.

Mr. Courter: No, I did not. I asked you why I should not pick them out.

Supervisor Marks: So these two men were simply presented to you by Mrs. Scanlon and you were sent to them and you did not seek them?

Mr. Courter: Who sends you in to your attorneys——

Supervisor Marks (interrupting): Our attorneys?

Mr. Courter: Yes.

Supervisor Marks: We have the City Attorney and we rely upon him and we take his advice. You have taken advice from other attorneys.

Mr. Courter: Who were those attorneys and why did you seek them?

Supervisor. Marks: Because I took the advice of the City Attorney on the matter, who has made a study of it.

Mr. Courter: Just as I took advice from Mrs. Scanlon on the matter.

Supervisor Marks: We selected the city official who was elected by all the people of San Francisco and in whom the people of San Francisco have faith. You told the Board, at the outset, that you selected these two men, and you acknowledge now that you first statement was untrue, that you were first solicited by Mrs. Scanlon to interest yourself in the matter, and she sent you to these two attorneys, that is the fact.

Mr. Courter: That is the fact.

The Chairman: Did you make the statement that I, as an advocate of public ownership, could not guarantee the people that even five cents of public funds would ever be invested in this bridge? May I ask you whether you can guarantee us now that any one of these private applicants can finance this bridge?

Mr. Courter: I have not the slightest idea whether any applicant can finance the thing, I have no interest whatever in any private applicant for this bridge, but we do know that an immense sum of money has been spent already. Here is one on June 13th expense account of James B. McSheehy, $17,500; on December 28th, James B. McSheehy, $5,000; on February 1, 1927, J. B. McSheehy, $5000, and there is nothing in here for the rest of the committee that went back there. This is taken from the Auditor's books. Nobody's name appears down here in any capacity that I can see except there are a few small items, for Galloway $30, that is the engineer, you paid your engineer $30 and you paid Mr. McSheehy $17,500. Telegrams—and then he comes back with a tube affair. I promised Mr. McSheehy I would not talk tube, I would talk bridge.

Supervisor McSheehy: I asked the gentleman a question.

Supervisor Schmidt: You got your answer.

Supervisor McSheehy: Yes, I got my answer. A good Samaritan often gets answers that are not called for. All I can say is, because the gentleman mentioned it, I simply want to say this: the Auditor is here, that the first bridge committee that went East in June, there were nine members of the bridge committee and their fares, each and every one of them, I advanced their fares and so forth and I gave the Auditor a voucher for every dollar that I expended, and the same will be tendered to the Auditor on the last bridge bill. I received moneys from the Auditor and, in return, I advanced the moneys to every man. The last time there were eleven men went East and I advanced them their moneys and in return I gave——

Supervisor Stanton (interrupting): Did you say there were eleven men went East last time?

Supervisor McSheehy: Yes, eleven, including the three Supervisors from San Mateo, I advanced them alone $1,500.

Supervisor Stanton: The City paid for everything?

Supervisor McSheehy: Yes, the City paid. You know a great deal about it, Mrs. Scanlon, it is money well invested and will be and a voucher was given for every dollar of it. I asked this man the question, and as I said, as a good Samaritan I got my answer. That is all I want to say, but I want to particularly say to those who are present that a voucher will be tendered to the Auditor for every dollar advanced to me as Chairman of the bridge committee. I went East last year, I received $7,500 as an expense account and I gave the Auditor a voucher for every dollar of that expenditure and every dollar that I advanced for the various men that went on the committee.

Supervisor Gallagher: I do not think anybody is questioning your expenses.

Mrs. Scanlon: I wanted to have the privilege——

The Chairman (interrupting): Mrs. Scanlon, you know the rules of the Board as well as I do. I do not desire to discriminate against you, and I am not so doing, but you must adhere to the rules of the Board. Does anybody desire to move for Mrs. Scanlon the privilege of the floor?

Supervisor Shannon: I move the privilege of the floor for Mrs. Scanlon.

Supervisor Schmidt: I second that motion.

The Chairman: Any objection?

Supervisor McSheehy: I do object, Supervisor, I am not going to ask Mrs. Scanlon the question, I asked one question, I asked Supervisor Gallagher if he wished to ask the gentleman a question, as he was representing a newspaper that he should have a certain right to answer certain questions. I asked him the question, and I did not interrupt him at all. If Mr. Shannon wants to ask Mrs. Scanlon a question, I have no objection to it, but I hope that Mrs. Scanlon will answer the question and that is all.

Supervisor Shannon: I would like to ask Mrs. Scanlon a question: Mrs. Scanlon, have you a question you would like to ask some member of the Board?

Mrs. Scanlon: Thank you, Supervisor, yes. I want to say to Supervisor Shannon, through the Chair, that we are very much interested and—inasmuch as my name has been used as president of the Women's Civic Center and as a taxpayer of San Francisco, I want to say why we are interested in this matter.

Supervisor Shannon: I would like to ask you, why you were interested in this matter.

Mrs. Scanlon: Thank you, Supervisor Shannon. I will be very glad to answer it, inasmuch as the taxpayers pay the bill and the expense payers are outside the rail and the expense account is inside the rail, and we are very much interested when we see here on this paper $41,503 expense and then there has been no survey, no soundings, nor anything upon the bay, and there has been no specific matter placed before the War Department. In answer to that question of Supervisor Marks I might say this: That there was a letter, and it is on record down in Colonel Jackson's office, it was sent by the War Department as a matter of record to keep their files right up to date. In answer to City Attorney O'Toole's letter, why they would not grant a permit for a bay bridge, the War Department wrote back and said they could not pass upon anything except a specific matter, and there was no franchise taken from this Board who alone has the right of granting a franchise. There was neither a public franchise nor a private franchise and if we are going to have another big bill here we would like to know where the money is coming from.

Supervisor Marks: If the money that was spent by our committee to go back to Washington to get Congress to pass a bill for a publicly owned bridge had been spent in behalf of a private franchise and a private applicant, would you still be objecting?

Mrs. Scanlon: It would not be necessary.

Supervisor Marks: Would you object to that?

Mrs. Scanlon: To what, to a privately owned bridge?

Supervisor Marks: You were objecting and Mr. Courter to the fact that money was spent to send a committee back to Washington on the bridge matter. Would you have interposed an objection to sending a bridge committee back to Washington if the objective of the city was not to get a publicly owned bridge, but a privately owned bridge?

Mrs. Scanlon: Yes.

Supervisor Marks: You still would have objected?

Mrs. Scanlon: To this extent: I have to qualify that, Supervisor Marks, to make myself clear. Now there is a befogging of this matter which should be brought to the attention of the public. The people think that if there is a publicly owned bridge that they will not have to pay tolls, whereas, as a matter of fact, you pay tolls whether you have it publicly or privately built, and the minute you put one nail in your bridge it becomes a public bridge. Now, we want to know where the money is coming from to build this bridge. The people are not going to stand for any more bonds at this time. We have in the City and County of San Francisco now a budget of over thirty million dollars and where is the money coming from to build this bridge? You cannot contract for steel or lumber unless you have the money. Now, we would like to know as citizens where the money is coming from?

Supervisor Gallagher: Are you familiar with the port authority plan?

Mrs. Scanlon: I have studied the port authority plan in a measure because it was pointed out to me.

Supervisor Gallagher: Does not that port authority plan indicate to you where the money would come from?

Mrs. Scanlon: Yes, Supervisor. It does not seem, after investigating, that it is going to be very feasible to this extent: that the port authority means going up to the Legislature.

Supervisor Gallagher: Never mind explaining it, I know it, but does not the port authority plan provide means of obtaining money without a bond issue by the counties involved?

Mrs. Scanlon: Well, we had an instance of that——

Supervisor Gallagher (interrupting): Why don't you answer my question, does it or does it not?

Mrs. Scanlon: The city has to put up a certain percentage of it.

Supervisor Gallagher: What does the city put up?

Mrs. Scanlon: About 20 per cent.

Supervisor Gallagher: Where in the port authority plan does the city put up anything?

Mrs. Scanlon: Well, Supervisor Gallagher——

Supervisor Gallagher (interrupting): All right, show me.

Mrs. Scanlon: I have not——

Supervisor Gallagher (interrupting): Right there show me where in the port authority plan.

Supervisor McSheehy: I do not want to rise to a point of order, but I would say this, Supervisor Gallagher, and to Mrs. Scanlon, in all fairness you yourself are going to bring in, two weeks from today, a resolution which will give us certain enlightenment as to how——

Supervisor Gallagher (interrupting): But that is not a point of order.

Supervisor McSheehy: I will say this, I think this is not germane to the question at issue at this time—go ahead.

Supervisor Gallagher: I wanted Mrs. Scanlon to know that, under the port authority plan, the counties involved are not assessed nor are their properties liened. Now, you want to get that straight, the money is first advanced by virtue of state aid. Thereafter the bridge pays its way, that is the port authority plan. Now, whether you think the state will advance it is not the question. I ask you where in the port authority plan is San Francisco, Alameda, Berkeley or Oakland, who will be combined I presume under it, where are they taxed and where do they put up any money?

Mrs. Scanlon: There is no taxation coming, there is no taxation coming to any one county, if it is public owned, and they will have tolls just the same.

Supervisor Gallagher: Have you any notion anywhere that any bridge we are going to build at any time publicly or privately owned will be without tolls?

Mrs. Scanlon: No.

Supervisor Gallagher: All right, that settles that.

Mrs. Scanlon: Supervisor Gallagher, I might ask you this question: In the Golden Gate bridge, didn't they put districts out there, and didn't those various counties that thought it was all right first try to withdraw?

Supervisor Gallagher: That is an entirely different matter. In the Golden Gate bridge that was a bridge district organized under the State. We have not determined yet under what plan this bridge will be organized, but I was asking you about the port authority plan and you cleared it, and I wanted to clear it for your sake. The port authority plan does not contemplate taxation upon the cities and towns involved under the port authority

plan in the building of this bridge. The Marin County bridge is a bridge district and is an entirely different arrangement.

Mrs. Scanlon: Our interest in this is, we want the bridge, but we do not want the expense upon the taxpayers. If there is to be, we are not willing for any bridge. There are thirty-eight applicants. You yourselves put out money and got the engineers here, and selected the site of Rincon Hill, that being selected, you went to Washington for the bridge. Now, if you are asking for a publicly owned bridge you have not so stated in here on this Board whether you are going to have a publicly or privately owned bridge. Now, we feel that there should be a bridge across the bay, we would like to see the employment of men, we would like to see the money spent here, we would like to see all the materials for the butcher, the baker and the candlestick maker.

Supervisor Gallagher: If a plan were proposed here providing for the building of a bridge from San Francisco to Oakland at an early date, without one cent of cost to the taxpayer, and without state aid, you would favor such a bridge, wouldn't you?

Mrs. Scanlon: Sure.

The Chairman: May I ask a question: Mrs. Scanlon, do you favor, in the event that a private franchise should be granted here, do you favor the eventual public ownership of that bridge?

Mrs. Scanlon: Yes, Supervisor. My understanding—let me explain just what we think, now we might be wrong and I would like to have the right. After all, if we have this discussion. I am sorry we did not have it here when Senator Johnson and Congressman Welch were here this morning, because I think laying the cards down on the table, if we are wrong let us get together. But after all it is the best for San Francisco that we want. Now we think that in our investigations as we made them here, we were told that, if a privately owned bridge were built they would put up the money, that is the conditions would be met according to the specifications of both this Board of Supervisors and also the War Department, granting that all conditions on that are favorable and right, which would be expected, that they, would be complied with, then that in granting of that franchise, that you people naturally would look for the interests of San Francisco, and regulate the tolls, regulate the place that it was to go over and amounts and so forth of that bridge, and that in a certain length of time, whatever time the life of that franchise was, and then you would get it, and then, too, there would be so much percentage of the tolls laid aside for the number of years, and at the end of those years it automatically comes to the city free. That was our thought on the privately owned bridge which would come to the city as a public bridge. Now, that is our idea in the matter. If we are misinformed it is all right.

The Chairman: You want it to remain in private ownership until it is completely paid for?

Mrs. Scanlon: No, we are not bound, the city would have that privilege of taking it over whenever it chose.

The Chairman: Suppose at some future time the city would decide to take it over, how would you suggest that we then avoid the necessity of putting some burden on the taxpayers?

Mrs. Scanlon: Supervisor, I am very glad you asked that question because there would not be any doubting Thomases about the bottom of the bay, about spending $500,000 to see whether the mud was down deep enough, and you would have a bridge in reality.

The Chairman: I want you to answer the financial question, if you please, how are we going to avoid the necessity of putting some burden on the taxpayers?

Mrs. Scanlon: That is a very different thing, when you have a real paying thing there would not be any difficulty about it at all. The sooner we get it the better for the taxpayers. And I would like at this time to file this from the members of organizations in San Francisco. We have here all these various organizations. With the permission of the Chairman I will read them, organizations that have backed this up——

The Chairman (interrupting): Mrs. Scanlon, just a moment.

Supervisor Shannon: Mrs. Scanlon is endeavoring to answer a question that I asked her. I think that I have been very kind to the members of the Board and permitted a number of interruptions, and now, without further interruption I would like to have my question answered.

Mrs. Scanlon: What is that, Supervisor?

Supervisor Shannon: As long as you have forgotten the question maybe I have. What are the names of those organizations?

Mrs. Scanlon: No, Supervisor, I understood.

Supervisor Marks: I would like to ask you a question before you read that statement.

Supervisor Shannon: Only one question at a time.

(Mrs. Scanlon reads list of names copied in hereafter).

Supervisor Marks: What did you say about them? You say they have endorsed your plan?

Mrs. Scanlon: They have endorsed the privately owned bridge to become a public bridge, built by private capital, and to eventually go to the city as a public bridge.

Supervisor Marks: Is that what that says?

Mrs. Scanlon: May I read it?

Supervisor Marks: Just that part of it, I would like to know what they say about it.

Mrs. Scanlon (reading):

Whereas, we, the duly chosen representatives of Civic Associations, have become convinced

1st, that further effort to obtain Federal Congressional authority for a bridge to the East Bay region from our city will be an idle waste of time;

2d, that any effort within the reasonably near future to finance and construct this bridge under public auspices will lead to nothing but delay and expense;

3d, that under the established procedure and law in this State, public interests are fully protected by authorizing the construction by private interests of a toll bridge which, upon completion, becomes public property subject only to the right of the private interests to collect such tolls as may be permitted by the competent authorities, to procure a reasonable return upon their invested capital; and

Whereas, there have been before our Board of Supervisors, the competent state agency to make such a grant, for two years or more past, numerous applications for franchises to construct this bridge in accordance with plans to meet such requirements therefor as the Supervisors may determine; and the Board of Supervisors have had in its possesion now for thirteen months the report of a specailly appointed board of eminent engineers recommending the type of structure and the vicinity in which such a structure should be erected, i. e., from at or near Rincon Hill to the Alamedo Mole; and,

Whereas, from time to time additional applications for bridge franchises are submitted in due form to our Board of Supervisors which, under State requirements, must be duly heard by said Board; with no method of preventing further applications being submitted by other interests (either in good faith to construct a bridge or in bad faith simply to delay effective action) so long as the policy of our Board of Supervisors is to not determine any application until all applications have been heard; since each application must be individually acted upon and granted or refused; and

Whereas, of the applications before the Board, many have been heard and many have not been heard as required by State law, in both of which heard and unheard classes are applications for authority to erect the structure at the site recommended by our special board of engineers, in forms which permit the Supervisors to prescribe the type and capacity of bridge; and

Whereas, it seems that among both such classes of applications there are some which lacked or lack essential jurisdictional qualifications in their submission to permit them to be favorably acted upon (even extending to the inclusion of types of structure which are in no sense within the authority of our Board of Supervisors to consider); and

Whereas, the most effective way of preventing further submission of unmeritorious applications and of curtailing the time of hearing of applications already submitted and not yet heard is to make a grant as soon as possible; and

Whereas, the administrative adjustments needed will require at best several weeks after a grant has been made before physical construction or work can begin, with the expenditures for the benefit of San Francisco labor and business interests that this would cause; and

Whereas, it is obvious that stimulant or tonic for next winter's local labor employment and business is desirable or even necessary, and therefore that immediate action now is essential to permit the work on this bridge structure to serve as such; and

Whereas, the results of the election last fall on the question as to so-called public ownership vs. so-

called private ownership of the bridge were in numbers totally inadequate to serve in any sense as an index of the popular desire on the subject, not through mere technicality of our charter requirements, but through definitely well-thought-out provisions thereof to prevent, through requirements of proportionate votes, radical minorities from committing the stable majority to untried and expensive public engagements in business of problematical success; and

Whereas, to be successful a bridge structure of the type considered must necessarily largely replace the present perpetually privately owned ferries, which contribute substantial revenues under State taxation laws, on percentages of their gross income, to the State Treasury, and it is therefore desirable, to avoid unbalancing the State revenues (and incurring the opposition of rural interests through the threat thereof) that the bridge should be constructed on a basis that will permit State taxes from its operation to properly replace those that will be lost from the ferry discontinuance; and

Whereas, our studies have convinced us that the Federal officials must and will approve a reasonable bridge structure upon a site properly authorized by the Supervisors; therefore, be it

Resolved, That our Supervisors are hereby urged

1st, to discontinue all further effort and expense to procure federal legislation for a bridge;

2d, to discontinue all further delay and expense toward consideration of a publicly constructed bridge;

3d, to proceed at once to consider and act upon all the applications now properly before them (and duly heard) and determine their action on each such application; and

4th, thereafter to hear and determine in succession, each application before the Board of Supervisors that has not yet been heard.

5th, to reject at once when heard each application for a site not in the vicinity of Rincon Hill.

6th, to thus accomplish the end that there may be granted to the best qualified applicant, at the earliest possible moment, the necessary franchise authority to construct the necessary bridge at the approved site for the benefit of all concerned; and be it further

Resolved, That the secretary of this meeting at once mail a copy of this resolution to each member of the Board of Supervisors of the City and County of San Francisco, and that a committee of five members be appointed by the temporary chairman of this meeting to present a copy of this resolution to the Board of Supervisors at its meeting on Monday, June 25, 1928, heretofore set by the Board of Supervisors for further consideration of these bridge applications, and to then and there orally forcefully support the principles hereby established.

Supervisor Marks: Who prepared that document?

Mrs. Scanlon: This document?

Supervisor Marks: Yes.

Mrs. Scanlon: Mr. Metson has been attorney for me for about thirty years.

Supervisor Marks: That was prepared by Mr. Metson?

Mrs. Scanlon: Well, Mr. Metson has got in consultation with various articles, I have asked legal advice,

and they are legally drawn by Mr. Metson——

Supervisor Marks (interrupting): I want to know——

Mrs. Scanlon (interrupting): This is gotten up——

Supervisor Marks (interrupting): My question is very, very clear: you hold in your hand a typewritten document with a manuscript back and it has certain signatures on it. We want to know who prepared the document.

Mrs. Scanlon: We gave our ideas, this committee that we had, these various representatives that met in the Whitcomb Hotel the other night, and we had a meeting prior to that with the Downtown Association, Mr. Marvin and Mr. Carroll and various other representatives from—there were representatives from, I do not know how many different organizations.

Supervisor Marks: It says there at the end that the resolution was adopted at a certain meeting on a certain evening.

Mrs. Scanlon: Yes.

Supervisor Marks: Now, obviously, that paper was all prepared before you met?

Mrs. Scanlon: No, no.

Supervisor Marks: When was it physically typewritten before the signatures?

Mrs. Scanlon: At the second meeting—at the first meeting—between the first meeting and the second meeting.

Supervisor Marks: And who dictated it?

Mrs. Scanlon: What is that?

Supervisor Marks: And who dictated it?

Mrs. Scanlon: We got all our data together and then put it into the proper shape.

Supervisor Marks: Who did that?

Mrs. Scanlon: Well, I did it.

Supervisor Marks: May I see it a moment? Are you sure that you prepared this paper?

Mrs. Scanlon: Well, I brought that paper in.

Supervisor Marks: As long as you say you prepared this paper——

Mrs. Scanlon: The ideas in that thing were gotten together by our committee and then we got those up and took them down to have them prepared so as to have them in legal fashion and gave it in to Mr. Metson's office and it was prepared and then I brought it to the meeting.

Supervisor Marks: Mr. Metson prepared it?

Mrs. Scanlon: Well, probably, I won't say that he prepared it, the legal phraseology, I am not a lawyer.

Supervisor Marks: Let me ask you what this clause means, "Where, of the applications before the Board many have been heard" no, the next one—"Whereas, it seems that among both such classes of applications there are some which lacked or lack essential jurisdictional qualifications." Now, you did not prepare that yourself?

Mrs. Scanlon: Well, we certainly —no—that Rincon Hill has been adopted by this Board and these engineers.

Supervisor Marks: You did not dictate that language?

Mrs. Scanlon: No, we know just what it means, but we do not know the exact language; we know the policy of it, you know that yourself, we know what we are talking about.

Supervisor Marks: Well, I would like to ask, Mr. Chairman, of Mrs. Scanlon, or Mr. Courter, by whom is Mr. Metson employed in these bridge matters?

Mrs. Scanlon: I do not know what—Mr. Metson was doing it for me, I am talking for myself.

Supervisor Marks: Is anybody paying him for his services?

Mrs. Scanlon: Well, I have no money to pay him, I can tell you that, because nobody ever pays me.

Supervisor Marks: Do you know that anybody is paying him for his services?

Mrs. Scanlon: Not that I know of.

Supervisor Marks: He has been advising you on these matters just gratuitously?

Mrs. Scanlon: Well, Mr. Metson has been my attorney for years, I go to Mr. Metson like I go to my own father.

Supervisor Marks: So that he does not represent your organization, he merely represents you?

Mrs. Scanlon: He represents me.

Supervisor Marks: And personally.

Mrs. Scanlon: Personally, but then we got into a meeting there, and we are meeting as representatives of various organizations, it was not only our little organization; Mr. Norton was there, Mr. Pryor was there, Mr. Cole was there, Mr. Marvin of the Foreign Trades, Mr. Davis of the district, Mr.—I could

not begin to tell how many there were.

Supervisor Marks: There is no doubt in your mind, is there, that all the language of that paper was prepared by Mr. Metson?

Mrs. Scanlon: Well, the phraseology was put in there by Mr. Metson, but the principles——

Supervisor Marks (interrupting): Do you understand all the phraseology of that document?

Mrs. Scanlon: Well, when I see it and read it, certainly, I have got good sense.

Supervisor Marks: Did all of the organizations that signed that understand fully what they were signing?

Mrs. Scanlon: That was discussed; that was acted upon, each one of those articles in there, and certainly that is the gist of it. We have been working on this, Mr. Marks, we went to the bankers, we went to the lawyers, we went to the engineers, we have not done this today or yesterday.

Supervisor Marks: How long have you been working on it?

Mrs. Scanlon: Since last fall.

Supervisor Marks: Why have you been spending your time since last fall on this matter?

Mrs. Scanlon: Why do we do anything? We would not have a house or home over ourselves if we did not do something. We wanted some labor, we wanted some material, we see that the taxpayers of San Francisco are the fairy godmothers down the peninsula, and half our earning power sleeps across the Bay, and they have no further interest in this city, and we would like to see something started whereby we would have more payrolls.

Supervisor Marks: Did Mr. Hanley take any part in the preparation of that document?

Mrs. Scanlon: No.

Supervisor Marks: Has he been advising your organization on it?

Mrs. Scanlon: No.

Supervisor Marks: There is some mention made about the engineering advice which you have had. What engineers have been advising you on the bridge matters?

Mrs. Scanlon: Well, we spoke to various engineers. The engineers that I have spoken to, a good many engineers, I meet them in Mr. Metson's office because I have known Mr. Metson since I was that high, I have been in Alaska through the time of the "Spoilers," and at the time that he was the attorney and cleaned up San Francisco, my husband was a mining man; I have been dealing with engineers all my life.

Supervisor Marks: Let me have the names of some of the engineers that have been advising you on bridge matters.

Mrs. Scanlon: With reference to engineers advising, I listened to the engineers when they came here. I came here at every meeting when the engineers were talking; I read every report that I could. The first job that Chief O'Shaughnessy ever got in San Francisco my uncle gave him. I listened to Chief O'Shaughnessy.

Supervisor Marks: You mentioned, I think, incidentally, that you met some engineers up at Mr. Metson's office.

Mrs. Scanlon: Yes, sir.

Supervisor Marks: What engineers did you meet up in Mr. Metson's office?

Mrs. Scanlon: I met Colonel Rand.

Supervisor Marks: Now we are getting something very interesting. You met Colonel Rand up in Mr. Metson's office, didn't you?

Mrs. Scanlon: Yes.

Supervisor Marks: And you discussed bridge matters, didn't you?

Mrs. Scanlon: Why, certainly, because I was interested, I talked to everybody I met.

Supervisor Marks: So Mr. Metson, the attorney, and Mr. Rand, the engineer, and you met in Mr. Metson's office about bridge matters?

Mrs. Scanlon: Oh, no; I was going in upon other matters, and he was probably waiting to see Mr. Metson on some matter.

Supervisor Marks: What is Mr. Rand's connection with the bridge matter?

Mrs. Scanlon: I do not think I spoke to Colonel Rand three times in my life, I spoke to Mr. Burton over here.

Supervisor Marks: That is Mr. Rand sitting down next to Mr. Hanley.

Mrs. Scanlon: I know him when I see him.

Supervisor Marks: And Mr. Hanley represents Robert Lee Dunn, doesn't he?

Mrs. Scanlon: I do not know about that.

Supervisor Marks: Mr. Rand is

the engineer for Robert Lee Dunn, isn't he?

Mrs. Scanlon: Yes.

Supervisor Marks: And you met Mr. Rand up in Mr. Metson's office?

Mrs. Scanlon: I also spoke to Col. Webb up in Mr. Metson's office.

Supervisor Marks: And whom does he represent?

Mrs. Scanlon: I do not know; I am not interested who they represent. If I met him up there I would talk about the bridge.

Supervisor Marks: At all events, this paper was prepared by Mr. Metson.

Mrs. Scanlon: No—now, Supervisor don't you put any words in my mouth.

Supervisor Marks: No, I am trying to take them out of your mouth.

Mrs. Scanlon: I do not know, Mr. Supervisor——

Supervisor Marks: Mrs. Scanlon, Mr. Metson had something to do with preparing that paper?

Mrs. Scanlon: To this extent——

Supervisor Marks (interrupting): And the engineers that you spoke to about the bridge you met in Mr. Metson's office?

Mrs. Scanlon: Incidentally.

Supervisor Marks: And they included, among others, Mr. Rand and Mr. Webb?

Mrs. Scanlon: I spoke at the Board meeting here, I spoke to these men before I even knew who they were. Now, Supervisor Marks, I want you to clearly understand my position in this.

Supervisor Marks: Was Mr. Dunn up there, by the way, when you spoke to Mr. Metson?

Mrs. Scanlon: No.

Supervisor Marks: Just his representatives were up there, is that the fact?

Mrs. Scanlon: Well, I do not know who they are. I want to say, Supervisor Marks, that when we got this, after acting in our committee, I took the facts and the data that we had gathered together and took them up there to be put into the proper shape to be presented to this Board, and Mr. Metson's name is signed there, with his opinion about the committee that went to Washington, you have it on file right here, signed by Mr. Metson.

Supervisor Marks: Frankly, you sat here in the Board many, many weeks and heard the bridge matters being discussed?

Mrs. Scanlon: Yes.

Supervisor Marks: Is there any question in your mind that Mr. Hanley represents Robert Lee Dunn?

Mrs. Scanlon: I do not really know.

Supervisor Marks: Don't you know that, is there any question in your mind that Mr. Rand represents Robert Lee Dunn, you sat all through the bridge hearings?

Mrs. Scanlon: I sat through all the bridge hearings, no——

Supervisor Marks (interrupting): Didn't you ask them when you happened to meet them up at Mr. Metson's office what they were doing there?

Mrs. Scanlon: There are thirty-eight applicants on Rincon Hill. Now, if you put me under oath I could not tell you who they are; I am not interested in that; what we are interested in and what our women's organizations are interested in is to have the money spent in San Francisco for payrolls, for opening up the steel works, and I spoke to Mr. Burton of the Structural Steel.

Supervisor Marks: What other engineers did you meet up at Mr. Metson's office?

Mr. Burton: She did not meet me there.

Supervisor Marks: She said she did not meet any others. You met Mr. Rand and you met Mr. Webb and you talked bridge matters?

Mrs. Scanlon: In an off-hand manner.

The Chairman: Will the Sergeant-at-Arms preserve the rules of this Board?

Supervisor Marks: I am merely repeating Mrs. Scanlon's statement that when she went to Mr. Metson's office she met Mr. Rand and she met Mr. Bebb and talked bridge matters.

Mrs. Scanlon: I did not discuss this with Mr. Webb, I saw Mr. Webb come in up there to see Mr. Metson. You asked me if I saw any engineers up there and I did, and I saw him up there, he come in probably to see Mr. Metson on business. Anybody that goes up there has to wait in the outer office, isn't that correct, Colonel? I never discussed the matter with him, but I saw him up there in Mr. Metson's office.

Supervisor Marks: Any engineering advice that you had on the matter was from Mr. Rand?

Mrs. Scanlon: No, we heard all the opinions when we heard, what is his name, that went to Washington, the engineers that went to Washington, we listened to them all here, every one of them I have listened to all those engineers on that bridge all the time that they had the engineers here, the Modjeski-Davies bridge——

Supervisor Marks (interrupting): May I ask you, how often did you meet Mr. Rand up in Mr. Metson's office?

Mrs. Scanlon: Only once.

Supervisor Marks: Was that by appointment?

Mrs. Scanlon: No; as I told you, you go into the outside office and you wait to go in there and anybody that happens to come in you meet them.

Supervisor Marks: You just happened to go there to Mr. Metson's office and you happened to see Mr. Rand there and you happened to talk about bridges?

Mrs. Scanlon: No, if you don't believe me—all these various engineers came up to all of the meetings, too, when we had a women's meeting; there were different people came in there, and I do not know who the half of them were that come in there when we advertised that we were going to have a meeting on the bridge.

Supervisor Marks: I would like to ask Mr. Courter a question: You referred to taking engineering advice on the matter of the bridge. What engineering advice did you get?

Mr. Courter: What engineering advice I got, I got from Colonel Rand.

Supervisor Marks: How did that happen?

Mr. Courter: Colonel Rand came out to my office.

Supervisor Marks: So the engineer that Mrs. Scanlon met up in Mr. Metson's office is the same engineer that you got your advice from?

Mr. Courter: I have not the slightest idea whom Mrs. Scanlon or whom she consulted, and I think you are rather insulting, myself.

Supervisor Marks: I do not care what you think, but we are going to get the truth. You can attribute to my statement anything you want, or any characterization, but we are getting very interesting facts developed. The engineer that you consulted was Colonel Rand?

Mr. Courter: Absolutely.

Supervisor Marks: And that is the only engineer that you consulted?

Mr. Courter: That is the only engineer that I have consulted.

Supervisor Marks: And why did you happen to consult an engineer?

Mr. Courter: Well, he came to my office.

Supervisor Marks: He came to you?

Mr. Courter: Yes.

Supervisor Marks: And you have not sought any other engineering advice?

Mr. Courter: I have not seen Mr. Rand but once.

Supervisor Marks: Do you know Mr. Rand's connection with any of these bridge projects?

Mr. Courter: I have not the slightest idea what his connections are or whom he represents. He can state that. I know, through other people, that he is one of the most eminent engineers in the United States.

Supervisor Marks: You did not learn whom he represented?

Mr. Courter: No.

Supervisor Marks: That he represented Robert Lee Dunn's bridge?

Mr. Courter: No.

Supervisor Marks: And you did not ask him?

Mr. Courter: No.

Supervisor Marks: It did not make any difference to you?

Mr. Courter: No; it is nothing to me who gets the application.

Supervisor Marks: How did Colonel Rand come to pick you out?

Mr. Courter: Ask him.

Supervisor Marks: All right. Colonel Rand, how did it happen that you picked out Mr. Courter?

Colonel Rand: I will be very glad to answer that question. About two months ago I addressed Mrs. Scanlon's Women's Center, or something of that kind, and as a result of the talk which I gave them they appointed a committee, consisting of herself and Mrs. McLellan and Mrs. Whitcomb, I believe, and I do not know whom else. On the following day I was told that Mrs. McLellan lived out near Mr. Courter, who was interested in the Sunset-Parkside News, I think it is, I had never heard of it before, and so I thought I would ask him if he would print some information, and I telephoned out there and got an

appointment with Mr. Courter and I went out there that evening, and I told him that we had compiled a lot of information and that we had studied the matter before the Board for two years and we were perfectly willing to submit all our stuff, we did not ask him to believe a word we said, but we hoped he would verify it, we were so confident we were right, we would give it to him. It happened that that was the night of the Supreme Court decision in the Judah street matter, and, as you possibly have in mind, that was a matter of somewhat intense interest in Mr. Courter's office, and there were three or four people around there all the time, and I did not have very much of a chance to talk. The day following was the day that Mr. McSheehy sprung that brilliant tube plan of his, and the main subject for discussion was, why this tube? And Mr. McSheehy presented it very forcibly, I will admit——

Supervisor Marks (interrupting): This is all in answer to my question?

Colonel Rand: Absolutely in answer to your question. I am narrating that discussion, and we discussed, primarily, the bridge and the tube subject, and just then, as we were about to reach the point of what my interest in it was, a mass of citizens, I would say a mass, a bunch of citizens came in with the report that they had just seen, in the early editions of the morning paper on the street that the Judah street matter was going to be held up another thirty days pending a rehearing and I was interrupted before I had a chance to explain fully just what I had in mind in the whole matter, but he had asked me to submit him a little stuff and the following day I sent him a couple of sheets of paper, I have forgotten now just what was on it, primarily a demonstration of the fact that Mr. McSheehy's tube scheme was so utterly foolish that it did not deserve a discussion.

Supervisor Marks: Do you remember how you met Mrs. Scanlon up in Mr. Metson's office?

Colonel Rand: I do not very vividly because I have been going to Mr. Metson's office, he is a very intimate personal friend of mine and has handled a great many matters for me in the past eight years.

Supervisor Marks: Is he handling this bridge matter for you?

Colonel Rand: No, sir, he is not, as far as I do know, and I do not think he has received one cent compensation on the bridge matters.

Supervisor Marks: You and Mrs. Scanlon talked about bridge matters?

Colonel Rand: I do not recall that we did talk about bridge matters.

Supervisor Marks: Mrs. Scanlon says she got her engineering advice from you.

Colonel Rand: She did not say she got it from me in the presence of Mr. Metson just the same. We met in the outer office, my first knowledge of Mrs. Scanlon's name, I had seen her up at the Supervisors almost for the year and a half that I had been up here representing bridge matters, one evening when some parking station—when some parking station permit on Eddy street was up here, Mrs. Scanlon was out before the Board, Mrs. Scanlon came to me and happening to know that I was a friend of Mr. Metson's, asked me to ring up Mr. Metson that night and tell him that this thing was going to come up again in a night meeting. And before that I had never heard of Mrs. Scanlon's name and she had nodded to me, and I had nodded to her as I do to many other ladies that sit along this line. And I asked Mr. Metson if Mrs. Scanlon was a friend and client of his and he said she was an oldtime friend. From that day until some six or eight weeks ago possibly, I do not think I ever connected her particularly with Mr. Metson. One evening about 4 or 5 o'clock, as I recall it, I went in to Mr. Metson's office to ask him some questions——

Supervisor Marks (interrupting): Questions about bridges?

Colonel Rand: I do not recall now just what my object in seeing Mr. Metson that afternoon was.

Supervisor Marks: Do you know any other business you had with Mr. Metson, other than bridges?

Colonel Rand: Yes, I have had a good deal of business with Mr. Metson, but they are personal matters which you are not concerned in——

Supervisor Marks (interrupting): I merely asked you whether it was with respect to bridges or anything else.

Colonel Rand: I do not recall what the object was that afternoon, of course, Mr. Metson and I have very frequently talked over this bridge situation. And what little I know on the subject is the result of Mr. Metson's guidance.

Supervisor Marks: Mr. Metson has been guiding you, I am not mentioning bridge matters——

Colonel Rand (interrupting): Mr. Metson has been giving me the advantage of his wide public experience in those things in this city.

Supervisor Marks: And on bridge matters?

Colonel Rand: On bridge matters and other public matters, yes.

Supervisor Marks: I would like to ask Mr. Robert Lee Dunn a question, with your permission, Mr. Chairman. I would like to ask Mr. Dunn, what is Mr. Metson's relationship to the bridge matters before the Board?

Mr. Dunn: About three years ago Mr. Metson was my attorney in the bridge matter and since that time he has not been. For the past three years he has not advised me on the bridge matters at all.

Supervisor Marks: Three years ago he did help you in a bridge matter?

Mr. Dunn: He did prepare the first application in a bridge matter. Mr. Metson does not take any particular interest in outside work——

Supervisor Marks (interrupting): He has taken some little interest in writing letters to this Board and drawing up documents for Mrs. Scanlon's organizations to sign, at least that time he was interested in bridge matters. And three years ago he was your attorney in bridge matters, and Colonel Rand consults Mr. Metson on bridge matters, and Colonel Rand and Mrs. Scanlon meet in Mr. Metson's office on bridge matters.

Mr. Dunn: That is their own private business.

Mr. Webb: Mr. Chairman, may I ask——

Supervisor Marks (interrupting): I move the privilege of the floor.

The Chairman: Is there any objection?

Mr. Webb: My name has been mentioned. I want to make the statement that I have not, and I never had, anything to do with the bridge question that you are now talking about. I have not been in Mr. Metson's office or consulted with any of the gentlemen on this question since probably the early part of 1925. I have never consulted with him or any of these people on the bridge question since your hearings started here. I have no interest whatsoever in what they are doing.

Supervisor Marks: My remark was merely a repetition of what Mrs. Scanlon claimed.

Mr. Webb: I appreciate that and I did not want any misunderstanding in the record.

Supervisor Marks: So that Mrs. Scanlon's statement that she met you up in Mr. Metson's office during the time that she met Mr. Rand, or thereabouts, her statement in that respect is not entirely accurate?

Mr. Webb: If she met me there at all it was way back in 1923 or the early part of 1924.

Mrs. Scanlon: That is correct.

Mr. Webb: At that time I did go to Mr. Metson's office and at that time I did have a connection, but not now.

Supervisor Shannon: The motion I made is still pending.

The Chairman: Supervisor, if I may, I merely wanted to ask whether some member of the Board would, by formal motion, extend an invitation to Senator Johnson and to Representative Welch and to former Chief Justice Matt I. Sullivan and to the City Attorney to be present two weeks from today when the subject of this bridge matter comes up for discussion so that they may be prepared to advise us in connection with the attacks which we have a right to anticipate upon the procedure that they have been representing us on in Washington.

Supervisor Gallagher: I make such a motion.

Supervisor Roncovieri: I second the motion.

Supervisor Shannon: I will be very glad to make such a motion, if you will permit the motion I made previously to the opening up of this discussion to be passed upon, and that was that the further consideration of the application of the Bay Cities Bridge Corporation for a franchise for a toll bridge between San Francisco and Alameda be continued until Monday, July 9, 1928, at 11 a. m.

Supervisor Marks: I second that motion. And at that time I am very hopeful of submitting this plan and I hope that the Board will at that time go into the matter very fully.

Supervisor Stanton: I do not know whether Supervisor Shannon's motion is the one, but Supervisor McSheehy gave notice that two weeks from today he was going to

have all private bridge applications set aside. I do not know what his idea is in doing that. Supervisor Gallagher said that you would have something in here two weeks from today that we could act on. I do not know what his plan is. I hope, however, that we are not going to come in here in two weeks from today and have somebody come in, or anybody come in, with something new and lay it in our lap and ask us to act immediately on it.

Supervisor Gallagher: Of what I will present two weeks from today, there will be copies for every member of the Board, copies for the press and sufficient copies for the Senator and the Congressman, and, on the very contrary, you will be asked to hear it, but I have not the slightest intention, two weeks from today, to ask for action. I want you to give it some little study. It may appeal to you when it is ready.

BRIDGE HEARINGS.

Motions.

The following matters were taken up:

Supervisor Marks: I move you that, as an amendment to the motion of Supervisor Gallagher, the City Attorney be requested to submit to this Board, at the earliest possible opportunity, a form of submission of the issue of public ownership and operation of the proposed bridge, or private ownership or operation of the proposed bridge, for action by the people at the earliest possible opportunity.

* * * * *

Supervisor Marks: I desire to present the following motion and calling attention to the fact that it does not call for anything other than asking the City Attorney to submit a proper form of proposal to us. I make the motion which heretofore has been outlined three or four times. (Referring to motion set out in full above.)

The Chairman: Any objection? So ordered.

On motion of Supervisor Shannon, further consideration of the foregoing matters were *continued until Monday, July* 9, 1928, *at* 11 *a. m.*, by the following vote:

Ayes—Supervisors Andriano, Gallagher, Havenner, Hayden, Kent, McGovern, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr—13.

Absent—Supervisors Colman, Deasy, McSheehy, Todd, Toner—5.

SPECIAL ORDER—11 A. M.

Bridge Hearings.

Thereupon, the following matters were taken up:

Applications for Franchises to Construct Bridges Across San Francisco Bay.

(1)

Application of Bay Cities Bridge Corporation for a franchise for a toll bridge between San Francisco and Alameda.

Proposed rail and highway crossing for San Francisco Bay from the foot of Sixteenth street, San Francisco, to the foot of Pacific avenue, Alameda.

In Memory—Moses Gunst.

Supervisor Suhr presented:

Resolution No. 29226 (New Series), as follows:

Whereas, the death of Moses Gunst on Friday records the passing of a lovable and outstanding character in the life of San Francisco, who, as a public official (having held the position of Police Commissioner for many years with honor and distinction), and as a private citizen, has identified himself with every movement for the glory and advancement of his beloved city; therefore, be it

Resolved, That we extend to those near and dear to him our heartfelt sympathy; to them he has left the heritage of a good name; to us the pleasant memory of an earnest, sincere and kindly gentleman; and be it

Further Resolved, That when we adjourn we do so as a tribute of respect to his memory; that this memorial be spread on the minutes of the Board, and that a copy be sent to the family.

Adopted unanimously by rising vote.

Cemetery Removal Ordinances.

The following matters were presented by Supervisor Andriano and *passed for printing*:

Bill No. 8598, Ordinance No. —— (New Series), as follows:

Declaring that the further maintenance of Masonic Cemetery in the City and County of San Francisco as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein; prescribing the time within which the removal of such bodies must be made; declaring certain conditions under which the City and County will itself disinter and remove said bodies; and requiring and empowering the Board of Health to adopt and promulgate rules and regulations for such disinterment and removal.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby declared that the Masonic Cemetery, hereinafter described, contains an area of more than five acres and is situate in a city and county having a population of more than 100,000 persons; that the right of burial in said cemetery has been prohibited by law for a period of more than fifteen years, and that the further maintenance of said cemetery as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein.

Said cemetery is commonly known and designated as the Masonic Cemetery, and is situate in the City and County of San Francisco, State of California, within the boundaries of Turk street, Masonic avenue, Fulton street and Parker avenue.

Section 2. It is hereby ordered and demanded that within two years from the date upon which this ordinance shall become effective, the cemetery corporation, association, corporation sole or other person owning or controlling said cemetery hereinabove described, or the owners or holders of burial lots therein, or the relatives or friends of those whose bodies are interred in said cemetery, shall disinter all human bodies interred in said cemetery and remove the same outside the limits of the City and County of San Francisco, in accordance with and in the manner provided by that certain act of the Legislature of the State of California entitled:

"An Act authorizing the Board of Supervisors or other governing body of any incorporated city, or city and county, having a population of more than one hundred thousand persons, to order the disinterment and removal of all human bodies interred in any cemetery of more than five acres in extent, or from a part thereof, situate within the boundaries of such city, or city and county, and directing the reinterment of such bodies in cemeteries outside of the limits of such city, or city and county, or the depositing of the same in a mausoleum or columbarium, whenever the further maintenance of such cemetery, or part thereof, as a burial place for the human dead threatens or endangers the health, safety, comfort or welfare of the public, and providing a mode of procedure under and by which such removals may, when so ordered, be made by the cemetery corporation, association,

corporation sole or other persons governing or controlling such cemetery lands, or by the relatives or friends of those whose bodies are buried therein, and providing for the sale, mortgage or pledge of cemetery lands from which the human bodies are removed." Approved June 5, 1923.

Section 3. It is hereby specified, declared and ordained that after the expiration of ten months from and after the first publication of the notice of resolution or declaration of intention to disinter and remove the human bodies interred in said cemetery, required by the provisions of Section 5 of the Act of the Legislature above referred to by title, the human bodies then remaining in said cemetery, and every part thereof, shall be removed by said cemetery corporation, association, corporation sole, or other person owning or controlling said cemetery.

Section 4. It is hereby ordained that the Board of Health of the City and County of San Francisco shall, within sixty days from the date upon which this ordinance becomes effective, adopt reasonable rules and regulations relative to the manner of disinterring, transporting and removing such bodies, and shall, upon adoption thereof, cause the same to be published in a newspaper of general circulation in the City and County of San Francisco for a period of sixty days, and shall forthwith forward by registered mail to the governing body owning or controlling said cemetery, a copy thereof. Said Board of Health shall, from time to time, adopt and promulgate, in the same manner, any reasonable and necessary modifications or changes in said rules and regulations. All disinterments, transportation and removal of human remains from said cemetery made under the provisions of this ordinance and under the provisions of the said Act of the Legislature, herein in Section 2 referred to by title, shall be made and performed subject to the rules and regulations adopted by the Board of Health as herein provided.

Section 5. This ordinance shall take effect immediately.

Ayes—Supervisors Andriano, Havenner, Hayden, Kent, Marks, McGovern, Powers, Roncovieri, Shannon, Stanton, Suhr—11.

Noes—Supervisors Gallagher, Schmidt—2.

Absent—Supervisors Colman, Deasy, McSheehy, Todd, Toner—5.

Also Bill No. 8599, Ordinance No. —— (New Series), as follows:

Declaring that the further maintenance of the Odd Fellows Cemetery in the City and County of San Francisco as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein; prescribing the time within which the removal of such bodies must be made; declaring certain conditions under which the City and County will itself disinter and remove said bodies; and requiring and empowering the Board of Health to adopt and promulgate rules and regulations for such disinterment and removal.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby declared that the Odd Fellows Cemetery, hereinafter described, contains an area of more than five acres and is situate in a city and county having a population of more than 100,000 persons; that the right of burial in said cemetery has been prohibited by law for a period of more than fifteen years, and that the further maintenance of said cemetery as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein.

Said cemetery is commonly known and designated as the Odd Fellows Cemetery, and is situate in the City and County of San Francisco, State of California, within the boundaries of Geary street, Henderson avenue, St. Rose's avenue, Parker avenue, Turk street, Willard street, Edward street and Arguello boulevard.

Section 2. It is hereby ordered and demanded that within two years from the date upon which this ordinance shall become effective, the cemetery corporation, association, corporation sole or other person owning or controlling said cemetery hereinabove described, or the owners or holders of burial plots therein, or the relatives or friends of those whose bodies are interred in said cemetery, shall disinter all human bodies interred in said cemetery and remove the same outside the limits of the City and County of San Francisco, in accordance with and in the manner provided by that certain act of the Legislature of the State of California entitled:

"An Act authorizing the Board of Supervisors or other governing body of any incorporated city, or city and county, having a population of more than one hundred thousand persons, to order the disinterment and re-

moval of all human bodies interred in any cemetery of more than five acres in extent, or from a part thereof, situate within the boundaries of such city, or city and county, and directing the reinterment of such bodies in cemeteries outside of the limits of such city, or city and county, or the depositing of the same in a mausoleum or columbarium, whenever the further maintenance of such cemetery, or part thereof, as a burial place for the human dead threatens or endangers the health, safety, comfort or welfare of the public, and providing a mode of procedure under and by which such removals may, when so ordered, be made by the cemetery corporation, association, corporation sole or other person governing or controlling such cemetery lands, or by the relatives or friends of those whose bodies are buried therein, and providing for the sale, mortgage or pledge of cemetery lands from which the human bodies are removed." Approved June 5, 1923.

Section 3. It is hereby specified, declared and ordained that after the expiration of ten months from and after the first publication of the notice of resolution or declaration of intention to disinter and remove the human bodies interred in said cemetery, required by the provisions of Section 5 of the Act of the Legislature above referred to my title, the human bodies then remaining in said cemetery, and every part thereof, shall be removed by said cemetery corporation, association, corporation sole, or other person owning or controlling said cemetery.

Section 4. It is hereby ordained that the Board of Health of the City and County of San Francisco shall, within sixty days from the date upon which this ordinance becomes effective, adopt reasonable rules and regulations relative to the manner of disinterring, transporting and removing such bodies, and shall, upon adoption thereof, cause the same to be published in a newspaper of general circulation in the City and County of San Francisco for a period of sixty days, and shall forthwith forward by registered mail to the governing body owning or controlling said cemetery, a copy thereof. Said Board of Health shall, from time to time, adopt and promulgate, in the same manner, any reasonable and necessary modifications or changes in said rules and regulations. All disinterments, transportation and removal of human remains from said cemetery made under the provisions of this ordinance and under the provisions of the said Act of the Legislature, herein in Section 2 referred to by title, shall be made and performed subject to the rules and regulations adopted by the Board of Health as herein provided.

Section 5. This ordinance shall take effect immediately.

Death of John Murphy, Engineer of Auditorium.

Supervisor Hayden presented:

Resolution No. 29229 (New Series), as follows:

Whereas, this Board of Supervisors learns with deep regret of the passing of one of its faithful and trustworthy employees in the person of John Murphy, for many years employed as an engineer in the Civic Auditorium. As a friend and associate John Murphy endeared himself to all by his many estimable qualities and cheerful character. As a public employee he served his city with diligence and fidelity; therefore, be it

Resolved, That this Board of Supervisors extends to his sorrowing wife and family its profound condolence and sincere sympathy in the passing of one who was a devoted husband, father and friend.

Adopted unanimously by rising vote.

In Memory of Senator Frank R. Gooding of Idaho.

Resolution No. 29230 (New Series), as follows:

The Board of Supervisors of San Francisco learns with deep regret of the death of United States Senator Frank R. Gooding of Idaho. Senator Gooding gave distinguished service in public life in his State and in the National Congress. San Francisco is particularly grateful to him for his earnest and emphatic support of legislation affecting this City, particularly in reference to the bill granting San Francisco the right to build a bridge across the Bay.

On behalf of the people of San Francisco this appreciation is entered in the Journal.

The sympathy and condolence of the Board of Supervisors is respectfully presented to his family.

Adopted unanimously by rising vote.

Report on Daylight Saving Legislation.

The following was read and ordered *filed*:

San Francisco, June 25, 1928.

To the Members of the Board of Supervisors.

Gentlemen:

Your Public Welfare Committee, to which was referred proposed ordinance establishing daylight saving in San Francisco, desires to report that the Committee has received an opinion from the City Attorney stating that the Board of Supervisors has no authority to enact the proposed daylight saving ordinance for the reason that it conflicts with the State law fixing the hours during which official business may be conducted in county offices.

The San Francisco Junior Chamber of Commerce, the organization which proposed the ordinance, has requested that it be withdrawn from further consideration, in view of the City Attorney's opinion.

Your Committee therefore recommends, in view of the City Attorney's opinion and the request of the San Francisco Junior Chamber of Commerce, that the proposed ordinance establishing daylight saving be filed.

For the information of the Board the Committee has attached to this report the City Attorney's opinion and respectfully requests that it be read by the Clerk and made a part of the record of the Board.

Respectfully submitted,

MILO F. KENT,
F. J. McGOVERN,
ANDREW J. GALLAGHER,
Public Welfare Committee.

ADJOURNMENT.

There being no further business the Board at 5:30 p. m. adjourned.

J. S. DUNNIGAN,
Clerk.

Approved by the Board of Supervisors July 23, 1928.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, John S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date thereon stated and approved as above recited.

BOARD OF SUPERVISORS

MONDAY, JULY 2, 1928, 10 A. M.

In Board of Supervisors, San Francisco, July 2, 1928, 10 a. m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors McSheehy, McGovern —2.

Report of the Assessor on the Assessment Roll for 1928-1929.

The following was read by the Clerk and ordered *filed*:

July 2, 1928.

To the Honorable Board of Supervisors, City Hall, San Francisco, California.

Gentlemen:

In accordance with the provisions of the Political Code I have this day delivered to the Clerk of your Honorable Board the Assessment Roll for 1928.

The taxable roll should total $804,000,000.

You will understand that this figure is submitted as an estimate—an estimate which takes into consideration certain contingencies more or less clearly defined in Sections 3820, 3821 and 3885 of the Political Code of the State of California.

To tender to the Board at this time—and through the Board to the public at large—an estimated figure which is immediately employed as a basis for another estimate, the estimate of the probable tax rate, is, in my judgment, prejudicial to the best interests of the taxpayers, the Board of Supervisors and the Assessor's office.

It has been the custom to submit, on the first Monday of July of each year, an estimate of the taxable roll, but, in view of the facts set forth in the preceding paragraph, the Assessor must decline to be bound by this custom in the future. I am confident that the Board will recognize the soundness of the decision arrived at in this connection.

Yours truly,

(Sgd) RUSSELL L. WOLDEN,
Assessor.

ADJOURNMENT.

Whereupon, on motion of Supervisor McSheehy, the Board at the hour of 10:15 a. m. adjourned.

J. S. DUNNIGAN,
Clerk.

Approved by the Board of Supervisors July 23, 1928.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, John S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date thereon stated and approved as above recited.

JOHN S. DUNNIGAN,
Clerk of the Board of Supervisors,
City and County of San Francisco.

BOARD OF SUPERVISORS.

Whereupon, the Board resolved itself into a Board of Supervisors with Supervisor Havenner in the chair.

Relative to Hetch Hetchy Road Construction and Pollution of Water. Supervisor Shannon's Statement.

Supervisor Shannon: Mr. Chairman, I feel that, for the benefit of the members of the Board who did not make the annual inspection of Hetch Hetchy and had the opportunity to be present at the conference held with Mr. Mather, that, as chairman of the Public Utilities Committee, a statement to them and to the citizens present should be made at this time, so that an understanding of what is in the mind of Mr. Mather and his associates should be made clear. We held a meeting with Mr. Mather and Mr. Albright in Yosemite on the 4th day of July, and we held the meeting in the morning at 11 o'clock, and at that meeting Mr. Mather and Mr. Albright told us that it was their intention to permit campers the use of the Hetch Hetchy reservoir; that they would permit swimming and boating and fishing on the lake, and we might just as well make up our mind that we would have to chlorinate that water before its use by the citizens of San Francisco. Naturally the members of the Board were quite exercised when this statement was made. We discussed the matter of roads, and the meeting lasted until 1 o'clock. Realizing that we had not had opportunity to discuss the matter in full, I suggested an afternoon meeting, but as both of the gentlemen had an engagement it was postponed until 8 o'clock on the 4th of July. At that meeting Mr. Broderick, the former Health Officer of San Francisco, and now the Health Officer of Alameda county, in charge of their hospital, appeared before us, on the invitation of Mr. Mather, and said that boating, swimming, fishing and camping around the lake would unquestionably pollute the water, and if there was any possible way to overcome that condition it should be done. And Mr. Albright, Mr. Mather's superintendent in the Yosemite Park, stated that you must have misunderstood him at the morning meeting, that what they intended to convey was that they would have these rights under the terms of the Raker Act as it now reads; that he inadvertently stated that they could allow swimming in the lake, but he knew when he made the statement that the Raker Act specifically forbade swimming, but that as it did not forbid the boating or fishing or camping he felt that if, in the future years, that procedure became necessary to accommodate the people in the Yosemite Park and Playground they might permit it. They also said that they had notified the Yosemite Transportation Company some two years ago, that they should procure boats and put them in the lake for use, and the Yosemite Transportation Company sent up some fifteen boats for use and they are now in the warehouse at Hetch Hetchy, but, as Mr. O'Shaughnessy protested their use, they have not been put in use. Mr. Mather said that he would be unable to be present in San Francisco next Wednesday, at which time the Board hoped to have him before the Public Utilities Committee, and he said that Mr. Cramton, the Congressman from Michigan, who seems to be the leader in the fight, would leave New York on a transport about the 15th of July, and would be in San Francisco in the early part of August, and he would arrange at that time, or endeavor to arrange with Mr. Cramton, who will be in and around San Francisco for four days, waiting for the transport to prepare to go to Hawaii, and he will be upon that boat, he will endeavor to arrange for a meeting with Mr. Albright and Mr. Cramton, and attend in person, so that we can go into these matters with him.

The matter of roads we discussed at length, and he said that he was perfectly willing to have the trail

around the north end of the lake leading up to the easterly end of the lake, which is seven miles, and as far as the road from Hetch Hetchy to Lake Eleanor, they wanted a 24-foot road. Mr. Havenner pointed out that a 24-foot road was in excess of some of the roads that are now being used or being built by the State Highway Commission leading to the large centers of population. And they finally said that possibly we might arrange to have a 14-foot road, and it could later, when the demand for it arose, be increased to 24 feet. But they felt that this was necessary to accommodate the people that would want to view Hetch Hetchy and Lake Eleanor.

Supervisor McGovern: How far is it?

Supervisor Shannon: That is 12 miles. And they also explained that while the Raker Act specifically says "wagon roads," and we have been interpreting it as wagon roads which were in use in 1913, when the Raker Act was passed, that they used the term "wagon roads" to differentiate from railroads; that they felt that a proper surface should be on those roads. They also wanted us to spent $270,000 to fix up the road between Hog Ranch or Mather to the dam. And we made that trip over that road, and it is a distance of 9 miles; we came up there in about twenty minutes. To those of us that were in the party and rode over that road in automobiles, we felt that it was in very good shape, and do not feel that that amount of money is necessary. However, those gentlemen are in a position, and they expect it, to enforce the demands, and they felt that the road from Mather to O'Shaughnessy dam was one of the first roads that should be fixed. The surface is very good, and they said that some work would be necessary in squaring out the turns. Speaking with Mr. Reid at the dam site, he told us that he kept that road open in the winter time as well as he could, and when he made the trips to Mather for food he went up on snowshoes. From experience with motorists we know very well that if there was a surface put on that road, with the ice that would naturally fall on a surface of that kind, it would be practically impossible for motorists to negotiate that road in safety. As far as the Lake Eleanor road is concerned it was pointed out that it leads to no place but Lake Eleanor, and we felt that a 24-foot road that would cost over a million dollars over there at this time was absolutely unnecessary. I think when we have our conference with Mr. Cramton, which I look forward to with fond expectations, that possibly we will be able to get some place and have a general understanding.

They also touched on the matter of the Hetch Hetchy contract, and said that a letter had been sent them asking if it was legal, and they took the same attitude that was taken by the department at the time that our representatives went to Washington, stating that until the contract had been entered into they did not feel that action by the department was necessary. From their standpoint they had not answered the letter. I believe that they said that that letter came from Mr. Edwards, the chief of the department under Secretary Work. So I will endeavor to keep in touch with Mr. Mather, so that when Mr. Cramton does come in we will have our representatives, Senators Johnson and Shortridge, and Congressmen Welch and Kahn, present, so that we can go into the matter in detail and it will be thoroughly understood, and all members of the Board will be notified to be in attendance at that meeting, which will undoubtedly take place in the early part of August.

The Chairman: The Chair might say, in addition to what the Supervisor has suggested, that it would be a good idea, if possible, to arrange an inspection trip for the members of the congressional delegation to represent San Francisco to Hetch Hetchy. Perhaps some of them have not had the opportunity to examine the road, for instance, leading from Mather down to the dam. In my opinion that is about the best grade in the high mountains today. And I think that if our representatives could see it and see how easy it is to come up that grade in high, without any danger whatever, around the curves or anywhere, that they would be impressed with what we believe to be the injustice of the demand that more than a quarter of a million dollars be expended on that road alone. I think, also, if they could see for themselves what is proposed on this million dollar project that the department is insisting on leading up to a cul-de-sac in the mountains, they are asking us to build a major highway up to an isolated spot beyond Lake Eleanor, in the mountains, for no purpose whatever, apparently, except to create a major camp up there at the source of our

water supply. I think if our congressional representatives could see that thing for themselves, in the light of what the department has stated to us, it would be very important when they go back to Washington, and when this matter is going to be threshed out, because I think that most of the members of the Board were impressed with the absolute injustice of these demands. We have not had an opportunity ourselves to visualize just what they are demanding. I do not think the City is offering any particular objection to the program of the construction of a road from the Hog Ranch past Harding Lake to connect with the Tioga road. I think that the City Engineer is not making that road an issue, but very properly he is making an issue of this enormous expenditure on a road which is already, as I have said, one of the very best roads in the California mountains today, and for the expenditure of a million dollars to carry a major highway up into a cul-de-sac in the mountains. Our representatives ought to have the opportunty to see that under expert guidance, and I hope that an arrangement can be made to take them up there before Mr. Cramton comes, so that they will be in a position to discuss with him, of their own knowledge, the details of this proposition.

Supervisor Schmidt: I was going to add to that that probably it would not be bad to send a communication to the various Congressmen of the State, probably some of those from Oakland and various other places, asking a delegation of Congressmen to visit the various projects outlined, and I think that would be a very good idea, because many of them are not familiar with it, and I think if we had some of those go along, too, on this congressional investigation it would be a good move.

UNFINISHED BUSINESS.

Establishing Set-back Lines Along Portions of Baker Street and Nineteenth Avenue.

Bill No. 8600, Ordinance No. 8106 (New Series), as follows:

Establishing set-back lines along portions of Baker street and Nineteenth avenue.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited that on the 28th day of May, 1928, the Board of Supervisors adopted Resolution of Intention No. 178 to establish set-back lines along portions of Baker street and Nineteenth avenue, and fixed the 25th day of June, 1928, at 11 o'clock a. m., at the chambers of the Board of Supervisors, as the time and place for hearing objections thereto; that thereafter, and more than ten days prior to said hearing, the said resolution was published and notices of the passage of said resolution were posted along the line of said streets, in time, form and manner required by Ordinance No. 5636 (New Series); that said hearing was held at the time and place aforesaid, and that all objections made at said hearing have been properly overruled.

Section 2. Pursuant to the foregoing recitals and in accordance with the provisions of said Ordinance No. 5636 (New Series), set-back lines are hereby established as follows:

Along the easterly side of Baker street, commencing at Jefferson street and running thence northerly 137½ feet, said set-back line to be 5 feet; thence northerly 35 feet 10½ inches, said set-back line to be 6 feet; thence northerly 36 feet, said set-back line to be 7 feet; thence northerly to Marina boulevard, said set-back line to be 9 feet.

Along both sides of Nineteenth avenue between Vicente street and Wawona street, said set-back lines to be 15 feet.

Along both sides of Nineteenth avenue between Wawona street and Sloat boulevard, said set-back lines to be 15 feet.

As shown on the maps filed in the office of the Board of Supervisors and to which reference is hereby made for further particulars.

Section 3. No structures shall be erected in the area between said set-back lines and the street lines, except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

Cemetery Removal Ordinances.

Bill No. 8598, Ordinance No. 8108 (New Series), as follows:

Declaring that the further maintenance of Masonic Cemetery in the City and County of San Francisco as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein; prescribing the time within which the removal of such bodies must be made; declaring certain conditions under which the City and County will itself disinter and remove said bodies; and requiring and empowering the Board of Health to adopt and promulgate rules and regulations for such disinterment and removal.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby declared that the Masonic Cemetery, hereinafter described, contains an area of more than five acres and is situate in a city and county having a population of more than 100,000 persons; that the right of burial in said cemetery has been prohibited by law for a period of more than fifteen years, and that the further maintenance of said cemetery as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein.

Said cemetery is commonly known and designated as the Masonic Cemetery, and is situate in the City and County of San Francisco, State of California, within the boundaries of Turk street, Masonic avenue, Fulton street and Parker avenue.

Section 2. It is hereby ordered and demanded that within two years from the date upon which this ordinance shall become effective, the cemetery corporation, association, corporation sole or other person owning or controlling said cemetery hereinabove described, or the owners or holders of burial lots therein, or the relatives or friends of those whose bodies are interred in said cemetery, shall disinter all human bodies interred in said cemetery and remove the same outside the limits of the City and County of San Francisco, in accordance with and in the manner provided by that certain act of the Legislature of the State of California entitled:

"An Act authorizing the Board of Supervisors or other governing body of any incorporated city, or city and county, having a population of more than one hundred thousand persons, to order the disinterment and removal of all human bodies interred in any cemetery of more than five acres in extent, or from a part thereof, situate within the boundaries of such city, or city and county, and directing the reinterment of such bodies in cemeteries outside of the limits of such city, or city and county, or the depositing of the same in a mausoleum or columbarium, whenever the further maintenance of such cemetery, or part thereof, as a burial place for the human dead threatens or endangers the health, safety, comfort or welfare of the public, and providing a mode of procedure under and by which such removals may, when so ordered, be made by the cemetery corporation, association, corporation sole or other persons governing or controlling such cemetery lands, or by the relatives or friends of those whose bodies are buried therein, and providing for the sale, mortgage or pledge of cemetery lands from which the human bodies are removed." Approved June 5, 1923.

Section 3. It is hereby specified, declared and ordained that after the expiration of ten months from and after the first publication of the notice of resolution or declaration of intention to disinter and remove the human bodies interred in said cemetery, required by the provisions of Section 5 of the Act of the Legislature above referred to by title, the human bodies then remaining in said cemetery, and every part thereof, shall be removed by said cemetery corporation, association, corporation sole, or other person owning or controlling said cemetery.

Section 4. It is hereby ordained that the Board of Health of the City and County of San Francisco shall, within sixty days from the date upon which this ordinance becomes effective, adopt reasonable rules and regulations relative to the manner of disinterring, transporting and removing such bodies, and shall, upon adoption thereof, cause the same to be published in a newspaper of general circulation in the City and County of San Francisco for a period of sixty days, and shall forthwith forward by registered mail to the governing body owning or controlling said cemetery, a copy thereof. Said Board of Health shall, from time to time, adopt and promulgate, in the same manner, any reasonable and necessary modifications or changes in said rules and regulations. All disinterments, transportation and removal of human remains from said cemetery made under the provisions of this ordinance and under the provisions of the said Act of the Legislature, herein in Section 2 referred to by title, shall be made and performed subject to the rules and regulations adopted by

the Board of Health as herein provided.

Section 5. This ordinance shall take effect immediately.

Bill No. 8599, Ordinance No. 8109 (New Series), as follows:

Declaring that the further maintenance of the Odd Fellows Cemetery in the City and County of San Francisco as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein; prescribing the time within which the removal of such bodies must be made; declaring certain conditions under which the City and County will itself disinter and remove said bodies; and requiring and empowering the Board of Health to adopt and promulgate rules and regulations for such disinterment and removal.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby declared that the Odd Fellows Cemetery, hereinafter described, contains an area of more than five acres and is situate in a city and county having a population of more than 100,000 persons; that the right of burial in said cemetery has been prohibited by law for a period of more than fifteen years, and that the further maintenance of said cemetery as a burial place for the human dead threatens and endangers the health, safety, comfort and welfare of the public, and demands the disinterment and removal beyond the limits of the City and County of San Francisco of the human bodies interred therein.

Said cemetery is commonly known and designated as the Odd Fellows Cemetery, and is situate in the City and County of San Francisco, State of California, within the boundaries of Geary street, Henderson avenue, St. Rose's avenue, Parker avenue, Turk street, Willard street, Edward street and Arguello boulevard.

Section 2. It is hereby ordered and demanded that within two years from the date upon which this ordinance shall become effective, the cemetery corporation, association, corporation sole or other person owning or controlling said cemetery hereinabove described, or the owners or holders of burial plots therein, or the relatives or friends of those whose bodies are interred in said cemetery, shall disinter all human bodies interred in said cemetery and remove the same outside the limits of the City and County of San Francisco, in accordance with and in the manner provided by that certain act of the Legislature of the State of California entitled:

"An Act authorizing the Board of Supervisors or other governing body of any incorporated city, or city and county, having a population of more than one hundred thousand persons, to order the disinterment and removal of all human bodies interred in any cemetery of more than five acres in extent, or from a part thereof, situate within the boundaries of such city, or city and county, and directing the reinterment of such bodies in cemeteries outside of the limits of such city, or city and county, or the depositing of the same in a mausoleum or columbarium, whenever the further maintenance of such cemetery, or part thereof, as a burial place for the human dead threatens or endangers the health, safety, comfort or welfare of the public, and providing a mode of procedure under and by which such removals may, when so ordered, be made by the cemetery corporation, association, corporation sole or other person governing or controlling such cemetery lands, or by the relatives or friends of those whose bodies are buried therein, and providing for the sale, mortgage or pledge of cemetery lands from which the human bodies are removed." Approved June 5, 1923.

Section 3. It is hereby specified, declared and ordained that after the expiration of ten months from and after the first publication of the notice of resolution or declaration of intention to disinter and remove the human bodies interred in said cemetery, required by the provisions of Section 5 of the Act of the Legislature above referred to my title, the human bodies then remaining in said cemetery, and every part thereof, shall be removed by said cemetery corporation, association, corporation sole, or other person owning or controlling said cemetery.

Section 4. It is hereby ordained that the Board of Health of the City and County of San Francisco shall, within sixty days from the date upon which this ordinance becomes effective, adopt reasonable rules and regulations relative to the manner of disinterring, transporting and removing such bodies, and shall, upon adoption thereof, cause the same to be published in a newspaper of general circulation in the City and

County of San Francisco for a period of sixty days, and shall forthwith forward by registered mail to the governing body owning or controlling said cemetery, a copy thereof. Said Board of Health shall, from time to time, adopt and promulgate, in the same manner, any reasonable and necessary modifications or changes in said rules and regulations. All disinterments, transportation and removal of human remains from said cemetery made under the provisions of this ordinance and under the provisions of the said Act of the Legislature, herein in Section 2 referred to by title, shall be made and performed subject to the rules and regulations adopted by the Board of Health as herein provided.

Section 5. This ordinance shall take effect immediately.

Market Street Railway Company's Contract, Judah Street Line.

On recommendation of Public Utilities Committee:

Resolution No. — (New Series), as follows:

Whereas, the use of the hereinafter mentioned railway tracks belonging to the Market Street Railway Company is necessary for the operation by the City of its proposed extension of the Municipal Railway lines, which extension is commonly known as the "Judah street line"; be it

Resolved, That the City and County of San Francisco enter into an agreement with the Market Street Railway Company for the use of its tracks, overhead trolley and electrical equipment on the following named streets, with the right to make all necessary switches and connections with said tracks and trolleys, and to operate the cars of the City on said tracks, to-wit:

(a) On Duboce avenue between Church and Fillmore streets;

(b) On Carl street, from a point east of Cole street, westerly to Stanyan street.

That in consideration of said privilege the City shall pay to said Market Street Railway Company the sum of five hundred and fifty ($550) dollars annually and seven and one-half (7½c) cents per car mile for each car mile that the cars of the City are operated over said track, with the understanding that at the end of any annual period during the

life of said agreement, at the request of either party to said agreement, the cost of power and maintenance may be reestimated on the basis of the actual cost of the preceding year, and the payment for the succeeding year on the car mile basis shall be on the cost so determined.

That the said Market Street Railway Company shall furnish the necessary power for the operation of the City's cars, and pay all expense incident to the upkeep of said tracks or any repairs or renewal to the pavement incident to the maintenance of said tracks.

That the entering into said agreement shall not be construed as a waiver of any right or claim that either of the parties thereto may have under the general law or the Charter of the City and County of San Francisco. Be it

Further Resolved, That the Mayor of the City and County of San Francisco and the Clerk of the Board of Supervisors be and they are hereby authorized to execute said agreement for and on behalf of the City upon the same being approved as to form by the City Attorney.

Extension of Minna Street.

Also, Resolution No. 29266 (New Series), as follows:

Whereas, on the 21st day of May, 1928, the Board of Supervisors duly and regularly passed Resolution No. 29035 (New Series), which resolution was, on the 1st day of June, 1928, duly and regularly approved by the Mayor of the City and County of San Francisco, and said resolution being in words and figures as follows, to-wit:

Resolution No. 29035 (New Series):

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the extension of Minna street between Tenth and Eleventh streets. The land and improvements deemed necessary to be taken for said extension of Minna street is particularly described as follows:

Beginning at a point on the northeasterly line of Eleventh street, distant thereon 160 feet southeasterly from the southeasterly line of Mission street, and running thence

southeasterly along the northeasterly line of Eleventh street 35 feet; thence at right angles northeasterly 100 feet to the southwesterly terminus of Minna street in Mission Block 6; thence at right angles northwesterly along said southwesterly terminus 35 feet; thence at right angles southwesterly 100 feet to the point of beginning; being portion of Mission Block 6.

And said Board of Supervisors does hereby determine and declare that said proposed extension of Minna street between Tenth and Eleventh streets is of more than ordinary public benefit and will affect and benefit the lands and district hereinafter described and which said district is hereby declared to be the district affected and benefited by said extension. The City and County of San Francisco to pay the sum of four thousand five hundred ($4,500) dollars to defray one-half of the cost of the land and improvements and therefore the remaining cost and expenses of said extension shall be and are hereby made chargeable against and shall be assessable upon said lands and district, which lands and district are within the City and County of San Francisco, State of California, and the exterior boundaries of said lands and district affected and benefited by said extension are particularly described as follows:

Beginning at a point on the northeasterly line of Eleventh street, distant thereon 100 feet southeasterly from the southeasterly line of Mission street, and running thence southeasterly along the northeasterly line of Eleventh street 125 feet; thence at right angles northeasterly 100 feet; thence at right angles southeasterly 50 feet; thence at right angles northeasterly 231 feet 9 inches; thence at right angles northwesterly 20 feet; thence at right angles northeasterly 78 feet 3 inches to a point on the southwesterly line of Tenth street, distant thereon 60 feet southeasterly from the southeasterly line of Minna street; thence at right angles northwesterly along the southwesterly line of Tenth street 123 feet; thence at right angles southwesterly 80 feet; thence at right angles northwesterly 30 feet; thence at right angles southwesterly 169 feet 4 inches; thence at right angles northwesterly 22 feet; thence at right angles southwesterly 27 feet 4 inches; thence at right angles southeasterly 20 feet; thence at right angles southwesterly 133 feet 4 inches to the point of beginning; being portion of Mission Block 6.

Said extension of Minna street between Tenth and Eleventh streets shall be done in pursuance of Chapter III of Article VI of the Charter of the City and County of San Francisco, and shall be done in the manner and in accordance with the provisions of Section 2 and sections following Section 2 of Chapter III of Article VI of said Charter of the City and County of San Francisco.

Adopted—Board of Supervisors, San Francisco, May 21, 1928.

Ayes—Supervisors Andriano, Deasy, Gallagher, Havenner, Kent, McGovern, McSheehy, Roncovieri, Schmidt, Stanton, Suhr, Todd, Toner.

Absent — Supervisors Colman, Hayden, Marks, Powers, Shannon.

J. S. DUNNIGAN, Clerk.

Approved, San Francisco, June 1, 1928.

JAMES ROLPH, JR., Mayor.

And whereas, the Clerk of the Supervisors of the City and County of San Francisco did transmit to the Board of Public Works of the City and County of San Francisco a certified copy of said resolution, and the said Board of Public Works did, upon receipt of said resolution, cause to be posted in the manner and as required by law, notices of the passage of said resolution and did also cause, in the manner and as required by law, a notice similar in substance, to be published for a period of ten days in the official newspaper of the City and County of San Francisco; and

Whereas, no objection or objections to the said extension of Minna street between Tenth and Eleventh street or to the extent of the district and lands to be affected and benefited by said improvement and to be assessed to pay the costs and expenses thereof or both was or were made or delivered to the Clerk of this Board within said period of ten days after the expiration of the time of publication of said notice, or at all; and

Whereas, the public interest and convenience require said improvement to be done as specifically described in said Resolution No. 29035 (New Series); and

Whereas, the Supervisors have acquired jurisdiction to order the extension of Minna street, as aforesaid, and as specifically described and proposed in said Resolution No. 29035 (New Series); now, therefore, be it

Resolved, That it be ordered that said Minna street be extended as aforesaid and as specifically described and proposed in said Resolution No 29035 (New Series); and be it

Further Resolved, That the damages, costs and expenses for said extension of Minna street between Tenth street and Eleventh street be and they are hereby made chargeable against and shall be assessable upon the lands and district described in said Resolution No. 29035 (New Series) as being the lands and district affected and benfited by said extension and against which the damages, costs and expenses of said extension should be made chargeable. The City and County of San Francisco, in accordance with Resolution No. 29035 (New Series), will pay the sum of four thousand five hundred dollars to defray part of the cost and expenses of said extension of Minna street. Be it

Further Resolved, That the extension of Minna street between Tenth street and Eleventh street be done in pursuance of Chapter 3 of Article VI of the Charter of the City and County of San Francisco, and in the manner laid down in and in accordance with the provisions of Section 2 and the sections following Section 2 of said Chapter 3 of Article VI of said Charter.

Absent — Supervisors Colman, Marks—2.

Closing and Abandoning all That Portion of San Aleso Avenue Lying Between Ocean Avenue and Kenwood Way.

Also, Resolution No. 29267 (New Series), as follows:

Whereas, this Board has, by Resolution No. 28986 (New Series), declared its intention to close up and abandon all that portion of San Aleso avenue lying between Ocean avenue and Kenwood way; and

Whereas, proper notice of said resolution and of said proposed closing and abandoning of all that portion of San Aleso avenue lying between Ocean avenue and Kenwood way was duly given by the Board of Public Works of said City and County of San Francisco by publication and posting in the manner provided by the Charter of the City and County of San Francisco; and

Whereas, more than ten (10) days have elapsed after the expiration of the publication of said notice, and no objections to the closing and abandonment of all that portion of San Aleso avenue lying between Ocean avenue and Kenwood way were made or delivered to the Clerk of this Board within said period of ten (10) days, or at all; and

Whereas, it is the opinion of this Board that the public interests and convenience will be conserved by the closing and abandonment of all that portion of San Aleso avenue lying between Ocean avenue and Kenwood way; and

Whereas, in and by said Resolution No. 28986 (New Series), this Board did declare that the damages, costs and expenses of closing said street shall be paid out of the revenues of the City and County of San Francisco; and

Whereas, the said work is for the closing and abandonment of all that portion of San Aleso avenue lying between Ocean avenue and Kenwood way, and it appears to this Board that no assessment is necessary; now, therefore be it

Resolved, That said closing and abandonment of all of that portion of San Aleso avenue lying between Ocean avenue and Kenwood way be and the same is hereby ordered, and that all of that portion of San Aleso avenue lying between Ocean avenue and Kenwood way be and the same is hereby closed and abandoned as a public street. Be it

Further Resolved, That the Clerk of this Board transmit a certified copy of this resolution to the Board of Public Works and that the Board of Public Works be instructed to proceed thereafter as required by law and the Charter of the City and County of San Francisco.

Adopted by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner —16.

Mayor to Enter Into Agreement With Southern Pacific, Bernal Cut.

Resolution No. ——— (New Series), as follows:

Resolved, That the Mayor is herebe authorized to enter into agreements with the Southern Pacific Railway Company, terms and conditions as follows:

This agreement, made this —— day of ————, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

The parties hereto entered into a certain agreement dated March 23, 1914, relating to rights of way through Bernal Cut, in the City and County of San Francisco, and also entered into a certain agreement of even date herewith modifying and changing said agreement of March 23, 1914, and enlarging the plan of

construction of rights of way, tracks and a public street or roadway through said Bernal Cut.

In connection with said work it will be necessary that the Southern Company remove its existing team track near Bosworth street, in said City and County of San Francisco, from the southeasterly side of its track to the northwesterly side of proposed location of its main track through Bernal Cut.

Said agreement of March 23, 1914, provided, among other things, that Southern Company would convey certain land to the City, which land was conveyed pursuant to said agreement by deed dated March 23, 1914. Said deed contained a reservation on behalf of Southern Company to use a certain strip of land 8½ feet wide and a certain strip of land 13½ feet wide, both of which are hereinafter described. In the event that the agreement of even date herewith is carried out the City desires that Southern Company quitclaim to the City all of its right, title and interest in and to said strip of land covered by said reservation above mentioned.

The parties hereto desire to set forth their understandings and agreements relative to the matters hereinabove mentioned.

Agreement:

Now, therefore, in consideration of the mutual and dependent promises of the parties hereto, it is hereby agreed as follows, to-wit:

First: That the City will pay to Southern Pacific Company the entire cost, plus ten (10) per cent of all labor, to cover supervision of removing said existing team track and replacing and reconstructing said team track in kind and in good condition upon the property hereinafter described, to be acquired by the City and conveyed to the Southern Pacific Railroad Company.

Concurrently with the delivery to it by the City of the deed hereinafter specified the Southern Company will deliver to the City a quitclaim deed conveying all the right, title and interest of the Southern Company in and to those certain parcels of land described as follows, being those certain strips of land 8½ feet in width and 13½ feet in width, respectively, covered by said reservation contained in said deed dated March 23, 1914, to-wit:

All those certain strips of land situate, lying and being in the City and County of San Francisco, State of California, more particularly described as follows:

Parcel 1: A strip of land 8.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles and radially southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno Branch, between Engineer's Station 78+48.5 and 92+40.

Parcel 2: A strip of land 13.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno branch, between Engineer's Station 92+40 and 101+20.

The above described parcels of land being the same property as reserved in part III, page 3, of that certain deed dated March 23, 1914, between Southern Pacific Railroad Company, Southern Pacific Company and the City and County of San Francisco.

The City hereby covenants and agrees to acquire and convey to Southern Pacific Railroad Company, without cost to Southern Company, by good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear of all encumbrances, to that certain parcel of land described as follows, to-wit:

That certain piece or parcel of land situate, lying and being in the City and County of San Francisco, State of California, more particularly described as follows:

Beginning at the point of intersection of the southwesterly line of Roanoke street with the southeasterly line of Arlington street; thence along said southeasterly line of Arlington street south 47 deg. 16 min. 17 sec. west a distance of 663.843 feet to a point; thence south 30 deg. 41 min. .09 sec. east a distance of 22.104 feet to a point, said point being distant radially 58.77 feet northwesterly from the original center line of the Southern Pacific Railroad Company's right of way; thence in a northeasterly direction on the arc of a curve, concave to the left, having a radius of 5670.826 feet (the tangent to said curve at last mentioned point bears north 58 deg. 57 min. 20 sec. east) an arc distance of 675.82 feet to a point on said southwesterly line of Roanoke street (last described arc course is concentric with and distant northwesterly and radially 58.77 feet from said original center line of the Southern Pacific Railroad Company's right of way); thence north 42 deg. 43 min. 43 sec. west along said southwesterly line of Roanoke street a distance of 118.768 feet to

the point of beginning and containing an area of 51401 square feet (equals 1.180 acres), more or less.

Upon delivery of the conveyance by the City mentioned in the last preceding paragraph of this agreement, and upon completion of the work of grading, to be done by the City as provided in said agreement of even date herewith, the Southern Company will, simultaneously with the shifting of the location of its main track, as provided in said agreement of even date herewith, remove its said existing team track from its present location and construct said team track as aforesaid upon said property above described, to be conveyed by the City to Southern Pacific Railroad Company.

This agreement is subject to the approval of the Railroad Commission of the State of California, and if not approved by said Railroad Commission it shall be of no force or effect.

In witness whereof, the parties hereto have executed this agreement in quadruplicate the day and year first hereinabove written.

This agreement, made this——— day of———, 1928, between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

Under the terms of an agreement entered into on the 23rd day of March, 1914, and subsequent deed bearing even date therewith, recorded June 16, 1914, in Vol. 794 of Deeds, pages 276 and following, the City acquired, for street purposes, a portion of the railroad right of way of the Southern Company through the so-called Bernal Cut, in said City and County of San Francisco, being the easterly portion of said right of way from the westerly line of Dolores street produced, to the center line of San Jose avenue produced, near Diamond street.

It was stipulated in said agreement that the Southern Company shall grade the strip of land described in section 1 thereof, so as to provide a uniform roadway for the proposed street at least forty (40) feet in width or thirty-five (35) feet, according to the width of said strip, according to the directions and under the supervision of the City Engineer of the City, and said City shall cooperate in such work to the extent of removing encroachments and also by the erection of retaining walls wherever necessary along the line of said grading; and Southern Company agreed to deposit the material excavated as aforesaid upon such portions of the land described in said agreement and deed as may be indicated by said City Engineer, and to entirely remove all surplus material; said grading and filling to be at the expense of Southern Company. It was further understood and agreed and so provided in said agreement that the construction of retaining walls along said grading and the paving of the roadway upon said strip of land shall be at the cost and expense of the City and without cost to the Southern Company.

The City now desires to acquire additional rights of way in said Bernal Cut for the purpose of constructing a better roadway than at first contemplated and offering better facilities for the construction of its double-track street railroad adjacent to the northerly and westerly line of the land conveyed to the City for street purposes by the hereinbefore mentioned deed. Such construction would be facilitated by the railroad of the Southern Company being moved northerly and westerly not exceeding 31.27 feet.

The parties hereto desire to set forth their agreement as to their rights and obligations in connection with acquisition and exchange of certain parcels of land to provide additional rights of way for each of the parties hereto, reconstruction of the railroad and appurtenances of Southern Company, construction of the municipal railway and

the proposed street, and other matters in relation thereto.

Agreement:

Now, therefore, in consideration of the premises, it is hereby mutually agreed as follows, to-wit:

ARTICLE I.

1. The location plan, showing the changes proposed and the parcels of land to be acquired and exchanged by and between the parties hereto, for the purpose of carrying out the plans of the parties hereto as hereinafter set forth, is shown on the attached copy of Southern Pacific Company's Drawing entitled, "Proposed Improvements in Bernal Cut, San Francisco," and numbered M W D Drawing 5806, Sheet 2, which is hereby made a part hereof.

2. Southern Company hereby agrees to execute and place in escrow a conveyance to said City of all of Southern Company's right, title and interest in and to that certain portion of Southern Company's right of way in the City and County of San Francisco, State of California, particularly described as follows, to-wit:

A strip of land 32.77 feet in width lying between the southerly line of Randall street and the center line of San Jose avenue (near Diamond street), said strip being bounded and described as follows:

Bounded on the northeast by the southerly line of Randall street; on the west and northwest by a line drawn parallel or concentric with and uniformly distant 22.77 feet westerly and northwesterly, measured radially or at right angles from the original center line of the main track of the Southern Pacific Railroad Company's branch line between San Francisco and Colma; on the southwest by the center line of San Jose avenue (near Diamond street) and on the southeast and east by a line drawn parallel or concentric with and uniformly distant 10.00 feet southeasterly and easterly, measured radially or at right angles from said original center line of the Southern Pacific Railroad Company's branch line, said line coinciding with the northerly and westerly boundary line of the strip of land heretofore conveyed to the City and County of San Francisco by Southern Pacific Railroad Company and Southern Pacific Company by deed dated March 23, 1914.

Also a triangular shaped parcel of land, described as follows:

Beginning at a point in the westerly line of Dolores street, distant 100.00 feet northerly from the northerly line of Randall street; thence southerly along said westerly line of Dolores street and its prolongation a distance of 150.00 feet, more or less, to the southerly line of Randall street; thence westerly along said southerly line of Randall street a distance of 22.50 feet, more or less, to a point; thence in a northeasterly direction on a direct line to the point of beginning.

Said parcel of land above described are more particularly shown tinted in pink on said Drawing No. 5806, Sheet 2.

Said conveyance shall contain and be subject to the following express covenants, reservations and exceptions, to-wit:

(a) "Reserving nevertheless to the first parties (Southern Pacific Railroad Company and Southern Pacific Company), their successors and assigns, the right to use the northwesterly eighteen (18) inches in width of said strip of land 32.77 feet in width for the erection and maintenance of poles, wires, and any and all other necessary appliances, appendages and adjuncts, in the event that said first parties, their successors and assigns, should at any time operate their railroad by electricity, it being expressly understood and agreed, however, that first parties, their successors or assigns, may, instead of erecting and maintaining said poles, wires, appliances, appendages and adjuncts upon and along said eighteen (18) inch strip herein described, at their option fasten their wires, fixtures, appliances and appurtenances to any poles erected by second party along or near the northwesterly boundary line of said strip of land whenever the first parties, their successors and assigns, operate their said railroad by electricity and such right is hereby granted by second party to first parties; but in the event that said first parties do attach their wires to any poles erected by the second party, as aforesaid, then said first parties shall pay to second party one-half (½) of the then value of said poles so used, at the time the attachments are made by said first parties, and upon receipt of such payment second party shall execute and deliver to Southern Pacific Railroad Company a bill of sale conveying an undivided one-half (½) interest in said poles to Southern Pacific Railroad Company. First parties shall thereafter pay one-half (½) of the cost of maintaining said poles so used, as aforesaid, from time to time as such costs are incurred and bills rendered by second party."

(b) "Excepting and reserving unto said first parties all of those

certain rights reserved by the Southern Pacific Railroad Company and Southern Pacific Company for themselves, their successors and assigns, in that certain deed dated December 5, 1898, from said companies to said City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco, also those certain rights reserved by Southern Pacific Railroad Company in that certain deed from said Southern Pacific Railroad Company to said City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco."

(c) "The foregoing conveyance is subject to all the terms, conditions, restrictions and reservations contained in that certain deed, dated October 5, 1863, from H. G. Livermore et al. to the San Francisco and San Jose Railroad Company, recorded October 6, 1863, in Book 215 of Deeds, at page 276, and subject to the rights of any and all industries located upon or adjacent to said right of way between St. Mary's avenue and Bosworth street, and subject to first parties' right to maintain such spur, team or station tracks as may be required to be maintained under any subsisting agreement, recorded or otherwise, or deed, or by law. The Southern Company hereby reserves the right to maintain and operate existing industrial spur tracks upon the land hereinabove described and to maintain and operate such spur tracks in such new locations to which any of said spurs may be moved, as hereinafter provided. The City covenants and agrees that if it is necessary to reconstruct or change the location of any or all of said existing industrial spur tracks by reason of or in connection with the use of said land by the City, the City will pay the entire cost of the work of reconstruction and relocation of said tracks, including paving, and the cost and construction of crossings of said tracks by the municipal railway, if any. Nothing herein contained shall in anywise impair the right of the first parties to use, for railroad purposes, the remaining portion of their right of way adjoining the strip of land hereinabove described on the northwest, or in anywise prejudice their rights therein or thereto."

The above mentioned conveyance shall be executed by Southern Company and placed in escrow with the California Pacific Title & Trust Company of San Francisco, California, if and when this agreement has been approved by the Railroad Commission of the State of California, to be delivered to the City when the City shall have (a) acquired the lands described in Section 1 of Article II hereof and executed and delivered to the above mentioned escrowee for account of Southern Pacific Railroad Company the conveyances to Southern Pacific Railroad Company specified in said Section 1, Article II, and (b) performed, or caused to be performed, all of the construction and reconstruction work by it to be performed or contracted for, as provided in Article II hereof.

ARTICLE II.

1. In consideration of the covenants herein agreed to be performed by the Southern Company, and without further consideration or payment, the City shall at its own expense acquire and convey or cause to be conveyed to Southern Pacific Railroad Company, by a good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear of all encumbrances to (1) a strip of land along and adjacent to the northerly and westerly boundary line of Southern Company's right of way between Randall and Diamond streets, in the City and County of San Francisco, State of California, sufficient in width, and which, together with that portion of the Southern Company's existing right of way which will remain after the conveyance to the City of the portion heretofore described, will provide a right of way sufficient in width so that a standard gauge double track railroad may be constructed for Southern Company, and so that clearances not less than those prescribed by the Railroad Commission of the State of California shall be provided; (2) strips of land sufficient in width and adjoining the additional right of way for the proposed location of the proposed double track railroad of the Southern Company, to provide a sufficient area for proper slopes, not exceeding 1¼ horizontal to one vertical in the cuts and not less than two horizontal to one vertical in the fills; provided, however, that in lieu of providing such additional land for slopes, the City may construct at its sole cost and expense adequate concrete or masonry retaining walls to provide for the full and unobstructed use of land of sufficient width to permit of the construction and operation of said standard gauge double

track railroad, with clearances not less than those prescribed by said Railroad Commission, and at the grade of the Southern Company's now existing track between Randall and Diamond streets, unless a different grade is agreed to by Southern Company. The land required for said right of way for said proposed double track railroad is shown tinted in green and the land required for said slopes is shown tinted in purple upon said drawing MWD 5806, Sheet 2.

2. In the event that it shall be necessary or advisable for the City to institute condemnation proceedings to acquire any land which is to be acquired in order to comply with the terms of this agreement, and to be conveyed to the Southern Pacific Railroad Company, such proceedings may be had in the name of Southern Company, or either of them, but the City shall pay all expense thereof and all judgments and costs therein and hold Southern Company harmless therefrom.

3. The City shall, at its own expense, make all necessary excavations and construct embankments and waterways, and, if deemed necessary by Southern Company, retaining walls to support slopes on the existing right of way of Southern Company, and the said land to be acquired for the Southern Company, as hereinabove provided, so as to provide for the construction of the said double track railroad of the Southern Company, as aforesaid, and at the grade specified in Section 1 of this Article II, unless a different grade is agreed to by Southern Company, and the City shall also pay the cost, plus ten (10) per cent of all labor to cover supervision, of moving Southern Company's existing single track rails, ties, ballast and appurtenances to such new position, not exceeding 31.27 feet northerly and westerly of the present location, and the cost, plus ten (10) per cent of all labor to cover supervision, of placing Southern Company's single track in such new location in at least as good condition as the existing track was at the time of being so moved, it being understood that the Southern Company will furnish all necessary ties which, in its judgment, are required to replace those unfit for further service.

4. The City shall, at its own expense, remove and reconstruct Southern Company's present telephone, telegraph and signal lines and the poles and fixtures thereof to such new position upon and along said relocated railroad line and right of way as may be required by Southern Company.

5. The City shall, at its own cost and expense, reconstruct and thereafter maintain, at clearances not less than those prescribed by the Railroad Commission of the State of California, all bridges or other structures and foundations and appurtenances of same (including the subway at Bosworth street) located between and at Randall and Diamond streets so that the double track railroad of Southern Company may be constructed and operated without further change in said bridges, structures or appurtenances, and, in order to accomplish such works, the City shall be granted the right to the use of any land to be conveyed by the City hereunder to Southern Pacific Railroad Company, for the purpose of erecting thereon any portion of the above-mentioned structures or appurtenances thereto that may be necessary; provided, however, that the plans for any such bridges and structures and appurtenances shall be subject to the approval of the Southern Company and of the Railroad Commission of the State of California. It is also agreed that the City shall have the right to construct and maintain at its sole cost and expense drainage constructions of such character as may be required, to be placed upon or beneath the lands to be conveyed hereunder by the City to Southern Pacific Railroad Company; provided, however, that such drainage constructions meet with the approval of Southern Company and will in no way interfere with Southern Company's operations.

6. The City shall include in the contracts which it is to let for the grading work to be performed by it under this contract, the grading work provided to be done at the expense of Southern Company in said agreement of March 23, 1914, and Southern Company shall have the right of access at all reasonable times to the books, accounts, contracts, records and papers relating to said work, for the purpose of checking the bill or bills rendered by the City to Southern Company for the cost of said work. The Southern Company shall reimburse the City in full for all of the yardage removed or excavated and graded at the contract price or rate covering the work included in said contract for the account of the Southern Company. All of the work herein provided for to be done by the City shall be in substantial conformity with the City's Cross Section plan or map entitled "Ber-

nal Cut," numbered A-7328, hereto attached and made a part hereof.

7. It is understood and agreed that the City may enter upon said land above described for the purpose of carrying out and complying with the terms and conditions of this contract as soon as this con tract becomes effective.

8. All the expenses in connection with the construction of the future second track of said Southern Company's railroad, which the Southern Company may construct now or in the future at its option, except the work herein provided to be done by and at the sole cost and expense of the City, shall be borne by the Southern Company, as this is a facility in addition to its present trackage.

9. All work required to be done by and at the expense of the City hereunder upon or affecting the property and operations of Southern Company shall be performed by it in a good and workmanlike manner to the satisfaction of the Southern Company, according to plans approved by Southern Company or such lawful authority as may have jurisdiction in the premises, and at such times and in such manner as to interfere as little as possible with the operations of Southern Company.

10. It is expressly understood and agreed that all expense of paving and otherwise improving the roadway and constructing the municipal railway and appurtenances upon the roadway upon said strip of land 32.77 feet in width, hereinabove referred to, and upon the land heretofore conveyed by the Southern Company to the City by said deed dated March 23, 1914, recorded in Volume 794 of Deeds, at pages 276 and following, County Records of the City and County of San Francisco (except the grading and filling work as herein otherwise provided for in the previous agreement) shall be borne by the City; and in the event that any improvements upon said roadway should be done upon the local assessment plan, then and in that event the City shall pay out of its treasury any and all assessments therefor levied upon or assessed against any rights, properties or franchises of Southern Company, or either of them.

ARTICLE III.

1. It is understood and agreed that the City shall have the right to construct its municipal street railroad beneath either one of the bridges carrying the railroad of the Southern Company over Thirtieth street or over Day street, and that the City shall, at its own sole cost and expense, provide the necessary clearances therefor under said bridge. The plans for said crossing and any necessary changes in the said bridge shall be subject to the approval of the Railroad Commission of the State of California. The City, subject to the approval of the Railroad Commission of the State of California, shall have the right to construct its municipal street railroad at grade across the track or tracks of Southern Company's railroad at or near the intersection of San Jose avenue and Diamond street, subject to the terms and conditions of an agreement to be executed by the parties hereto establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings; and if the parties are unable to agree upon such terms and conditions, then upon such terms and conditions as may be prescribed by said Railroad Commission. Such crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the City. The expense of maintaining said crossings and any and all such protective device or devices, except interlocking plant, after completion, shall be borne solely by said City, but the expense of maintenance and operation of interlocking plant, if any, shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

2. The Southern Company shall likewise have the right, subject to the approval of said Railroad Commission, to construct a track or tracks at grade across the track or tracks of the municipal railway, subject to the terms and conditions of agreements in each case to be executed by the parties hereto, establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings, and if the parties hereto are unable to agree upon such terms and conditions, then subject to such terms and conditions as may be prescribed by said Railroad Commission. Such track crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the Southern Company. The expense of maintaining said crossings and such protective devices, except interlocking plants, after completion, shall be borne solely by Southern Company and the expense of main-

tenance and operation of interlocking plants shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

ARTICLE IV.

1. Nothing contained in this agreement shall affect the rights reserved by the Southern Pacific Railroad Company and/or Southern Pacific Company, for themselves and their successors and assigns, in that certain deed dated December 5, 1898, from the said companies to the City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco; and in that certain deed from the Southern Pacific Railroad Company to the City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco.

2. Said agreement dated March 23, 1914, hereinabove referred to, between the parties hereto, shall be and remain in full force and effect and shall not be affected hereby unless and until the City shall comply with said conditions of the escrow hereinabove set forth; but upon full compliance with the conditions of said escrow, then and in that event this agreement shall, in so far as it changes or modifies said agreement of March 23, 1914, supersede the same.

ARTICLE V.

The City hereby agrees to forever indemnify and hold Southern Company harmless from and against any and all claims, demands, liabilities and judgments, and loss, damage and injury resulting from any damages caused or claimed in the acquisition by said City of any of said lands, or occurring in or caused by or claimed to have been caused by any and all of the work covered by this agreement. In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as here in this paragraph provided.

ARTICLE VI.

1. This agreement shall not become effective and the parties hereto shall not be bound hereby unless and until it shall have been approved by the Railroad Commission of the State of California.

2. Time is of the essence of this agreement, and if this agreement is approved by said Railroad Commission and the City does not comply with and perform all the covenants and conditions hereof to be complied with and performed by it within said term of five (5) years, this agreement and any and all rights of the parties hereto hereunder shall forthwith upon the expiration of said term of five (5) years cease and determine as completely as if this agreement had never been made.

3. This agreement shall be binding upon and inure to the benefit of the successors and assigns of the respective parties hereto.

In witness whereof, the parties hereto have executed these presents in quadruple the day and year first hereinabove written.

This agreement, made and entered into this ——— day of ———, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and Southern Pacific Company, its lessee, a corporation of the State of Kentucky, first parties (herein collectively called "Railroad Company"), and ———, second party (herein sometimes called "Contractor").

Witnesseth:

That, whereas, on the ——— day of ————————, 1928, the Southern Pacific Railroad Company and Southern Pacific Company as first parties, and the City and County of San Francisco, California, as second party, entered into an agreement covering the exchange of certain parcels of land between the Railroad Company and the City and County of San Francisco, for rights of way through the so-called Bernal Cut in the said City and County of San Francisco, and covering, among other things, certain construction work more specifically set forth in said agreement dated the ——— day of ————————, 1928; and

Whereas, said agreement, dated the ——— day of ————————, 1928, contains the following provision:

"In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as herein this paragraph provided." and

Whereas, said City and County of San Francisco did, on the ——— day of ————————, 19—, enter into a contract with contractor to do and perform certain work pursuant to a compliance with the terms of said agreement dated the ——— day of ————————, 19—, above referred to:

Now, therefore, it is understood and agreed that the contractor shall, in advance of performing any work under said contract of the ——— day of ————————, 19—, between said City and County of San Francisco and said contractor, give to said Railroad Company a bond in the sum of twenty thousand (20,000) dollars, in form and of good and sufficient surety to be approved by the Assistant Treasurer of the Railroad Company, conditioned that the contractor will well and truly perform and fulfill all of the covenants, conditions, stipulations and obligations on his part in this agreement set forth and contained, to-wit:

In consideration of the Railroad Company permitting contractor to enter upon its property and perform said work, contractor agrees to indemnify and save Railroad Company harmless from and against any and all claims, loss, damage, injury and liability howsoever may be caused, resulting directly or indirectly from the performance of any or all work to be done upon Railroad Company's property, contemplated by said agreement dated ————————, 19—, between said City and County of San Francisco and the said contractor; also from all claims, loss, damage, injury and liability howsoever same may be caused resulting directly or indirectly, made or suffered by said contractor, contractor's agents and/or employees while engaged in the performance of said work, whether caused by the negligence of Railroad Company in the operation of its railroad or otherwise.

Contractor expressly releases and discharges Railroad Company from all liability of whatsoever character for any and all personal injuries sustained by contractor while engaged in the performance of work to be done upon Railroad Company's property, whether caused by the negligence of Railroad Company in the operation of its railroad or otherwise, and whether resulting in death or otherwise.

Contractor expressly waives any and all claims arising from said death or injury to contractor.

The contractor agrees that the license hereby given him to enter upon the premises of the Railroad Company for the purpose of performing the work covered by said contract dated the ——— day of ————————, 19—, between said City and County of San Francisco and said contractor, shall not give nor be deemed or construed to give said contractor a right to do or perform any work whatsoever at any time upon or in connection with the work covered by said contract dated the ——— day of ————————, 19—, between said City and County of San Francisco and said contractor, that will render unsafe the use by said Railroad Company of its real estate, tracks, structures and other appurtenances now or hereafter existing, or weaken or injure the same for the operation of its trains, engines or cars or for its other purposes.

Contractor further agrees that should the Railroad Company deem

it necessary to engage any inspectors, watchmen or flagmen, or do anything to protect its engines, trains or cars during the performance by said contractor of the work covered by said contract dated the ——— day of ————————, 19—, between the said City and County of San Francisco and said contractor, then and in that event contractor agrees to fully reimburse Railroad Company promptly for all cost and expense of such inspectors, watchmen, flagmen and other expenses that may be incurred by said Railroad Company incident to or in connection with work contemplated to be performed by said contractor.

Contractor further agrees that upon completion of the work covered by said contract dated the ——— day of ————————, 19—, between said City and County of San Francisco and said contractor, contractor will promptly remove from the premises of the Railroad Company all of contractor's tools, implements and other materials and leave said premises clean and presentable.

This agreement shall not be assigned, sublet or transferred in whole or in part by contractor, except with the previous written consent of Railroad Company.

Except as otherwise provided herein, the terms and conditions of this agreement shall inure to the benefit of and be binding upon the heirs, executors, administrators, successors and assigns of contractor and the successors and assigns of Railroad Company.

In witness whereof, the parties hereto have executed these presents in triplicate the day and year first hereinabove written.

Also, Resolution No. 29276 (New Series), as follows:

Resolved, That award of contract be hereby made to United Materials Company on bid submitted June 11, 1928 (Proposal No. 38), for furnishing the following, viz.: Sand for Playground Commission as same may be required from time to time during the fiscal year 1928-29.

Specifications: Sand washed and dried equal to Lake Majella or to Monterey sand. Awarded on sample submitted. Price, $5.77 per cubic yard.

A bond in the sum of $200 re-

quired for the faithful performance of said contract.

All other bids submitted hereon be rejected.

Adopted by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner —16.

Absent — Supervisors Colman, Marks—2.

Award of Contract, Machinery Equipment.

Also, Resolution No. 29277 (New Series), as follows:

Resolved, That award of contract be hereby made for furnishing machinery equipment and tools for School Department on bid submitted May 21, 1928 (Proposal No. 79), and tabulation thereof on file in Bureau of Supplies, which is hereby made a part hereof; said matter having heretofore received full consideration in an open public meeting of the Supplies Committee and the awards herein approved by it, same are now made to the following, viz.:

Bid No. 1, Marshall-Newell Supply Co.; 2, Pacific States Electric Co.; 3. Ducommun Corporation; 4, Dunham, Carrigan & Hayden Co.; 6, The A. J. Glesener Co.; 7, H. H. Plummer & Co., Inc.; 8, General Machinery & Supply Co.; 9, C. W. Marwedel; 10, The Winchester-Simmons Co. of the Pacific; 12, The Eby Machinery Co.; 13, Miller & Stern Tool Co.; 14, Smith-Booth-Usher Co.; 15, Overkamp Machinery Co.; 18, Pratt & Whitney Co.; 19, Chanslor & Lyon Co.; 25, C. F. Bulotti Machinery Co.; 27, The Electric Corporation; 28, Peninsula Iron & Steel Co.; 29, H. C. Wood Machine Works; 30, H. E. Stallman; 31, Holbrook, Merrill & Stetson; 32, Yates American Machinery Co.

Resolved, That bonds for the faithful performance of said contracts be not required, as above is for definite quantities for immediate delivery.

Note: All above awards are made to the lowest bidder except when award is made in consideration of deliveries or on account of the quality as determined by such tests as required or recommended by the Purchaser of Supplies.

Resolved, That all other bids submitted hereon be rejected.

Bridge Hearings.

On motion duly made and carried, the Bridge Hearings were continued from 11 a. m. to 2.30 p. m.

RECESS.

Whereupon, the Board at the hour of 12:35 p. m. took a recess until 2 p. m.

J. S. DUNNIGAN,
Clerk.

REASSEMBLED.

The Board of Supervisors reassembled at 2 p. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner—16.

Absent — Supervisors Colman, Marks—2.

Quorum present.

His Honor Mayor Rolph being absent Supervisor Hevenner was elected to preside.

Bridge Hearings.

Bridge matters laid over from 11 a. m. were taken up at 2:30 p. m.

CONSIDERATION OF BRIDGE APPLICATIONS.

Supervisor Gallagher, in accordance with his statement two weeks ago, asked permission to present a plan for the immediate construction of a publicly-owned transbay bridge from Rincon Hill to West Oakland and to that end requested that application No. 20 (H. S. Henion) be taken up for consideration.

Motions.

Supervisor McSheehy moved that the application of Bay Cities Bridge Corporation for a franchise for a toll-bridge between San Francisco and Alameda be denied.

Supervisor Gallagher moved as an amendment that No. 20 (H. S. Henion application) be taken up.

Statement of Supervisor Gallagher.

Supervisor Gallagher: I said, two weeks ago that, if the Board would be courteous enough to give me two weeks time, I would submit at this time a plan of public ownership of the bridge and bridge financing that I thought would meet with the—would compromise or nearly compromise all of the differing ideas on the policy, and the differing ideas on whether it should be done privately, publicly, or whether we should await the action of Congress or not. The Board was good enough to do that and I can see now that the motion made by Mr. McSheehy will prob-

ably cause a great deal of debate. I am willing to say to you now that the plan is ready, the tables are here, and I am willing to take up the application for a bridge which it fits. The document would have to be read to the Board in full, or nearly so, except for the financial tables, and I think you will find it a very novel plan. I have a statement to make before it is heard, and if you will take up the application that it fits it will not affect your motions to deny the other applications, which can be taken up, but you can see what there is in it by the reading and then decide what you will do with it. The members of the press have asked me for copies, and they are here, but I have declined until it is submitted to the Board to give them out. I have copies for each of the members of the Board, and I have declined, until it is submitted to the Board and the Board is ready to have it read, to give copies out. I will simply say to you that I am ready, and the application to which it refers, and the Clerk tells me there is no objection, the application to which it refers is that of H. S. Henion, I think is the name, I think it is the Henion application, yes, H. S. Henion. If Mr. McSheehy did not object, all of this plan might be given to you. I think you are going to like it. I would like to know if you would object if we would take up the Henion application, or would you rather put on your fight for a denial right now?

Supervisor McSheehy: I would. Mr. Chairman and members of the Board: I made this motion, which of course I know you all recognize, in good faith, at least I gave notice two weeks ago. And for what purpose? For the purpose of trying to accomplish something in reference to this entire bridge matter. And I feel we should deny here this afternoon these various applicants who have been heard by this Board. That is my opinion as one member of the Board. If ten members agree with me on that opinion, of course, the particular application will be denied. And Supervisor Gallagher, you, as a proponent of a certain applicant or a certain procedure or anything else, of course you have your right to start the procedure as prescribed by law. The thought that have in mind is to start getting something on its way, and we will agree eventually on some particular bridge. And we will either give a franchise for a bridge or, we have already gone on record as favoring a public ownership bridge, and which we hope to erect ourselves by receiving the proper permit from the authorities at Washington. And I hope this afternoon that the members will see fit to go along and do something that is constructive and to do something that is constructive we should deny the various applicants that have petitioned us for these franchises because we simply should deny their applications so that we can agree on some one application, or that we can positively go back to Washington with our hands stronger than they ever were before in reference to the particular application that this Board has gone on record for.

Supervisor Gallagher: I would say to Mr. McSheehy that I cannot object, of course, to his motion, but I think that if the Board would concede to me, representing those I do at the time, and I am not representing a private applicant, I think that, if you will permit this No. 20 to be taken up, you will feel that you have made no mistake in temporarily delaying your motion to deny. I say that because the Congressman, the Engineer and several others have come here, I think, to hear what this plan is. I repeat it is novel, and I think that you will all say so when you hear it. And I think, Mr. McSheehy, on the proposition of the denial, your decks may be very much more cleared when it is read than they would be now. And I would move you, sir, as an amendment, in order that I might get the sense of the Board—and I had wished Mr. McSheehy would have helped me out in this, it has been a rather hard task—I would move you, as an amendment, if I am in order, that the application No. 20 on the calendar on page B14 be taken up. If Mr. McSheehy would consent to that I am very sure he would not be sorry after it has been taken up.

Supervisor Andriano: I will second that motion.

The Chairman: May I ask Supervisor Kent to take the chair?

(Supervisor Kent takes the chair.)

* * * * *

Subsequently, Supervisor McSheehy withdrew the foregoing motion.

Motions.

Supervisor Gallagher renewed his motion that No. 20, the H. S. Henion application be taken up.

Supervisor McSheehy moved as an amendment that No. 20 be denied.

Supervisor Gallagher Presents Plan.

Supervisor Gallagher: I want to say, to the members of the Board, the Mayor, Supervisor Havenner and everybody concerned we have found ourselves—I am not going into much argument on the question of how can we get a publicly-owned bridge and how can it be financed. Mr. A. W. Scott and others, Mr. C. E. Reinhart and others have agreed to raise sufficient funds, to the tune of $65,000,000, to build your bridge and give you the bridge the day it is completed, that is a part of this plan. And it is worth while of a hearing. The bill before the Senate provides for public ownership and operation. This plan provides for that. That it may not be perfect is true. Supervisor Stanton probably said a good deal. This is not to the exclusion of any other citizens. Any other set of citizens can come in, and when this is submitted submit something better. I am submitting to this Board this thought: that you gave me two weeks to get it ready. It was nearly ready two weeks ago. I had to meet with bankers, I had to meet with financiers, I had to find out where I was at. You gave me two weeks to get it ready. It is now ready for presentation. All I have asked you is to listen. You may throw it in the waste basket. I doubt that you will. Your eyes are going to be opened to this fact—and this is not said in deprecation of anybody else's application—that if you gave a franchise for a bridge to anybody their profit out of it will be just $200,000,000. That is surprising information to this Board, and this plan shows it. Now, all I have asked of this Board is to consider and give me an apportunity to present it. If you do not like it, it is through. I merely desired a complimentary second. I am not bringing the issue on, I am presenting you the following resolution, just to get it before the Board properly: "Resolved, That the City Attorney is hereby instructed to prepare the necessary legal proceedings to grant H. S. Henion a franchise to construct, operate and maintain a bridge across San Francisco Bay." I present, first, an assignment from H. S. Henion to Montgomery K. Miller for this application, attested to by a notary public, sworn to. I present the assignment to M. K. Miller. (Reading assignment.) That takes Mr. Henion out of the picture, that takes Mr. Miller out of the picture and puts the plan before you on its merits as a publicly owned and operated bridge. And if you will listen to the plan, you will find in this plan some startling information as to what you are able to do with the bridge under your own engineers, along the lines that your own engineers set, and it is a Rincon Hill bridge.

Supervisor Andriano: I second that.

The Chairman: Any objection?

Supervisor Gallagher: I present this copy to the Clerk. and if the Clerk will give me some help—there are on the top there copies for the press and below are copies for the members of the Board. I would like to say to the——

Supervisor Deasy (interrupting): Another bridge plan?

Supervisor Gallagher: No, it is not another bridge plan. I will tell you what I think about this. This plan was brought to my attention by Mr. A. W. Scott, who said that he thought that, considering the conflicting views of people who wanted to build the bridge privately and the people who wanted to build the bridge publicly, that there might be some compromise. I think this is it. This does help, and it will be proven that it does help the fight of the Congressman and Senator in Washington. Will you proceed to read, Mr. Clerk, and I will follow you.

(The Clerk reads the plan.)

A Plan for the Immediate Construction of a Publicly-owned Transbay Bridge From Rincon Hill, San Francisco, to West Oakland, Without Legislation, Without Changing the City Charter, Without Creating a Bridge District, Without Issuing Municipal Bonds and Without the City Incurring Any Future Financial Obligations. The Bridge to Be Financed Under Public Supervision Solely on Its Own Security. The City and County of San Francisco to Take Over the Owneship, Control and Operation of the Bridge Immediately Upon Its Completion.

Outstanding Features of the Plan.

Public inspection and approval of all bridge plans.

Public inspection and approval of all bridge specifications.

Public inspection and approval of all bridge materials.

Public inspection and approval of all bridge contracts.

Public inspection and approval of all bridge financing.

Public ownership and operation upon completion of the bridge.

Public fixing of all bridge tolls.

Major Advantages of the Plan.

Avoids State legislation.

Avoids Federal legislation.

Avoids changing Charter.

Avoids formation of a bridge district.

Avoids voting municipal bonds.

Avoids three to five years' delay.

Avoids assumption by San Francisco of any future financial bridge obligations.

Avoids complications incident to divided ownership and control, which a bridge district would entail.

The only obligation San Francisco assumes is to annually fix the schedule of tolls.

This plan for the financing and construction of the San Francisco transbay bridge is similar to the Port of New York Authority plan. It embodies all the advantages and eliminates certain features thereof which make it inapplicable to conditions which obtain in San Francisco and California.

Under this plan the transbay bridge will be financed and constructed under public supervision. The City and County of San Francisco will acquire the ownership, control and operation of the bridge immediately upon its completion. It will be unnecessary for the City and County of San Francisco or the State of California to furnish any part of the cost of the bridge, as was required under the Port of New York Authority plan. The bridge will be paid for out of its own revenues without costing the City and County of San Francisco or the taxpayers one dollar.

The City to advance the cost of bay soundings and the expenses of securing the permit from the Federal authorities, which cost and expenses are to be repaid, with interest, to the City out of bridge financing.

The Plan.

1. Grant or assign to a corporation, now in the process of incorporation, a franchise to construct the bridge. This corporation will be hereinafter referred to as the "Bridge Corporation."

2. The Bridge Corporation will issue and sell bonds equal to the entire cost of the bridge, estimated at sixty-five million dollars ($65,000,000). The bonds to be direct and general obligations of the Bridge Corporation, and bear interest at not more than six per cent (6%) per annum. The bonds will be divided into two issues, a first of fifty million dollars ($50,000,000) and a second for the balance.

3. Pending sale and delivery, all bonds shall be deposited with a depositary designated by the Board of Supervisors, preferably the Treasurer of the City and County of San Francisco.

4. Bonds shall be sold to the highest bidder, but not less than ninety-five.

5. Organize a board, composed of three engineers, one to be appointed by the Board of Supervisors of the City and County of San Francisco, one by the underwriter of the first bond issue, and the third by the Bridge Corporation. The board of engineers shall inspect and approve all bridge plans and specifications and construction work. The board shall appoint and act in conjunction with a nationally-known inspection bureau for the purpose of inspecting and approving all materials used in the construction of the bridge. Compensation for said board of engineers to be fixed by commission referred to in paragraph 6 hereof.

6. Organize a commission of nine members, composed of leading citizens of San Francisco, five to be appointed by the Mayor and the Board of Supervisors of the City and County of San Francisco, and four by the Bridge Corporation. The commission shall have general advisory supervision of all bridge matters and shall approve the sale of all bonds, all contracts before letting, and the acquisition of all rights of way. The commission to act without compensation and may function through committees of its members.

7. The Board of Supervisors of the City and County of San Francisco shall appoint one or more auditors to audit all Bridge Corporation books and accounts, and furnish to San Francisco, from time to time, full audits and statements showing in detail (a) all bridge funds received; (b) all bridge funds disbursed; (c) to whom disbursed, and (d) the purpose for which disbursements were made; and all other information which the Board of Supervisors may, from time to time, require. The books of the Bridge Corporation shall at all times be open to public inspection.

8. Pending disbursement the proceeds of the sale of bonds shall be deposited in local banks or trust companies paying the highest rate of interest; such banks or trust companies shall be selected by the underwriter of the first bond issue and the commission.

9. The bridge will be constructed at cost, plus reasonable compensation to the Bridge Corporation, such

compensation to be fixed by the Board of Supervisors of the City and County of San Francisco.

10. The City and County of San Francisco wil advance the costs of soundings and the expense of securing the permit from the Federal government. It is estimated that the cost of soundings will not exceed one hundred thousand dollars ($100,000). The City will be repaid all sums so advanced, with interest, out of bridge financing.

11. The Bridge Corporation, concurrently with the granting of the franchise, shall enter into an agreement with the City and County of San Francisco, by the terms of which the Bridge Corporation will agree to convey the ownership and deliver possession and control of the bridge immediately upon its completion, to the City, the City agreeing to fix tolls (not in excess of the rate authorized by the provisions of Subdivision 3 of Section 2845 of the Political Code), sufficient to raise adequate revenues to pay all charges for the maintenance and operation of the bridge, and all interest and bond redemption payments.

12. Redemption of bonds shall commence eight years after the date of the trust deed securing the first bond issue, and to be fully redeemed in not less than twenty years thereafter. It is estimated that the period of construction will be five years, and that redemption of bonds will commence three years after completion.

13. The only obligation to be assumed by the City and County of San Francisco will be its agreement to fix tolls as aforesaid, and as provided in paragraph 10 hereof.

14. After provision has been made for the operation and maintenance of the bridge and for the payment of interest on and the redemption of bonds, the Board of Supervisors may, if it so elects, create a maintenance and operation fund out of the surplus and earnings of the bridge. When this fund is sufficiently large, the interest thereon may be used to thereafter pay all costs and expenses incidental to the City's ownership and operation thereof, thus giving the public a free, self-sustaining bridge without placing any future burden on the City and County of San Francisco or its taxpayers.

15. After the bridge is constructed and ready for operation and all bills paid, the surplus remaining from the sale of bonds shall be transferred to the bond redemption account under the control of the City and all unsold bonds shall be cancelled.

By the adoption of the foregoing plan, the bridge will be constructed at the lowest possible cost and a great many savings effected. Under this plan of public ownership the bridge, its properties and its revenues will be exempt from State and county taxation.

The income derived from the operation of the bridge will be exempt from Federal income taxes under the provisions of the Revenue Act of 1924, 1926 and 1927. Immunity from Federal taxation follows from the fact that the transbay bridge will be owned, controlled and operated by the City and County of San Francisco.

This plan is in accord with the policy of Senator Johnson and Congressman Welch. It was, in fact, largely inspired by their intelligent, persistent and untiring efforts to secure for the people of the San Francisco Bay District a publicly-owned transbay bridge, and is submitted with full confidence that, if adopted by the Board of Supervisors of San Francisco, and even if rejected by the War Department, it will immeasurably aid Senator Johnson and Congressman Welch in securing favorably congressional action. The plan conforms in all main esentials to the declarations of the Senate and House committees for a publicly constructed and owned transbay bridge.

An Analysis of the Port of New York Authority Plan and Its Application to the City and County of San Francisco Bay Bridge Problem.

It has been suggested that San Francisco adopt and follow the Port of New York Authority plan in solving its transbay bridge problem.

The Port of New York Authority is a quasi-municipal corporate instrumentality created by a treaty between the states of New York and New Jersey, and approved by an act of Congress of the United States.

It created a port or bridge district, which embraces the municipalities of New York, Hoboken, Newark, South Amboy and Jersey City.

It is governed by a commission of five members. It has authority to purchase, construct, lease, hold and operate any terminal, bridge or transportation facility within the district, and to issue bonds and secure the same by mortgage or pledge of any properties held, owned or operated by it, and all its revenues.

It cannot pledge the credit of the states, cities or of the district, nor

can it levy or collect taxes, nor can taxes be levied or collected therefor.

Its power is strictly limited to the borrowing of money, issuing its own mortgages and bonds to cover the cost of the property which it constructs, purchases, leases or operates. The Port of New York Authority plan resembles a private corporation created for a special public purpose, placed under public control, and operated for the benefit of the public.

The principal advantages of the Port of New York Authority plan are:

1. It creates a special corporate agency which is empowered by law to raise funds for the sale of its own securities to make public improvements within the district without subjecting the municipalities therein to future financial obligations, and without the necessity of increasing the bonded indebtedness or the taxes of such municipalities. All funds raised by it are secured solely by such improvements and the revenues derived therefrom.

2. It places the construction and management of such improvements under immediate public ownership and control, thus giving the public the full benefit of all savings and profits derived therefrom, and at the same time avoiding the danger of exploitation of the public by private monopoly.

3. The bonds issued by the Port of New York Authority, as well as the earnings or income from its property and improvements, are entirely exempt from Federal, State, county or municipal taxation.

The above advantages should be adopted by the City and County of San Francisco in the construction of the transbay bridge. The Port of New York Authority plan, however, has several features, which, under existing conditions and the laws of the State of California, make it inapplicable to San Francisco's transbay bridge problem. Among these features are the following:

1. The Port of New York Authority plan requires the formation of a port or bridge district, including therein a number of incorporated cities and towns, which in San Francisco's case would necessarily include the cities of San Francisco, Oakland, Alameda and Berkeley, and several towns in the Bay District. The consent of these cities and towns to the formation of the port or bridge district would first have to be obtained. There are no state laws in California at the present time authorizing the formation of such a district. It would, therefore, be necessary to secure the necessary new legislation in order to make the plan operative. It would also be necessary for San Francisco, Oakland and the other cities and towns included to amend their present charters to comply with the new legislation.

This new legislation would necessarily require a delay of from three to five years. It took approximately four years to carry the necessary legislation through its various stages in the Port of New York Authority case. San Francisco might do it in a shorter time, but it is reasonable to assume that it would take at least three years, and with out present system of referendum, it may require five years. Such a delay under present transportation conditions in San Francisco Bay would be ruinous to the interests of the Bay cities and would not meet with the approval of the people when fully understood.

2. The question of divided control of the transbay bridge should be seriously considered. San Francisco is the moving party in this enterprise, and while the construction of the bridge will benefit the other bay cities as well as San Francisco, it is true that San Francisco has borne, and will continue to bear, the burdens of carrying the enterprise to a successful conclusion. San Francisco should, therefore, have the controlling voice in the conduct and management of the bridge. If a bridge district be formed, as in New York, it is reasonable to assume that Oakland, Berkeley, Alameda and the other bay cities and towns in the district would insist upon their full share in the control and management of the bridge. If the Port of New York Authority plan is adopted, the power of fixing tolls, as well as the general management and control of the enterprise will be taken from the Board of Supervisors of the City and County of San Francisco and placed in an independent, joint board or commission over which the people of San Francisco will have no control. This constitutes a serious problem which deserves the most careful consideration of the Board of Supervisors and the people of San Francisco.

3. By the adoption of the Port of New York Authority plan the State of California would be required to do the junior financing of the transbay bridge. The states of New York and New Jersey advanced one-fourth of the entire cost

of the two bridges that were built under that plan, and the full amount so advanced by the states was subordinated, both as to principal and interest, under the provisions of the act, to the bonds issued by the Port of New York Authority.

The estimated cost of the San Francisco transbay bridge is sixty-five million dollars ($65,000,000). Under the Port of New York Authority plan the State of California would be required to advance twenty-five per cent (25%), or sixteen million two hundred and fifty thousand dollars ($16,250,000), of this amount. One familiar with the keen political divisions of California knows that it would be extremely difficult to get any such measure through our State Legislature. The Los Angeles and Southern California delegations would undoubtedly defeat it, for the reason that they are not at all interested in bridging San Francisco Bay. The Bay of San Francisco forms no obstruction whatever to the communication between San Francisco and Los Angeles, because southern traffic enters through the peninsula side of San Francisco Bay.

4. Under the Port of New York Authority plan the cities of San Francisco, Oakland, Berkeley, Alameda and others included in the district would be precluded from contributing any financial assistance to the construction of the bridge, because the plan prohibits the bonding of the district or any municipality therein, or the levying of taxes thereon for bridge purposes. The only securities possible to pledge under the plan are the bridge properties and its revenues. In the preceding paragraph attention is directed to the impossibility of securing State aid. Therefore no financial assistance can be expected under the Port of New York Authority plan from either the State of California or the municipalities which would be included in the San Francisco bridge district.

The foregoing objections make the adoption of the Port of New York Authority plan inapplicable in this State.

The plan submitted herewith for the financing and construction of the transbay bridge adopts all of the advantages and eliminates the disadvantages of the Port of New York Authority plan. Under the plan submitted no State or Federal legislation is required, no funds from the State or City are required, the formation of the bridge district is unnecessary, and there is no danger of divided control of the bridge. The main feature of this plan is that the transbay bridge will be financed and constructed under public supervision, and the City and County of San Francisco will take over its ownership, operation and control immediately upon completion, without the cost of one dollar or the assumption of any financial obligation whatsoever.

San Francisco, Cal.,
July 7, 1928.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen:

The foregoing plan for financing and constructing the San Francisco transbay bridge has been carefully considered by me and meets with my approval.

I have been requested to assign my application for a bay bridge franchise (filed March 14, 1927, in the name of H. S. Henion, and assigned to me, copy of the assignment hereto attached) to the Bridge Corporation mentioned in the plan. This I agree to do if the plan meets with your approval.

Therefore, if the Board of Supervisors of the City and County of San Francisco adopt a resolution of intention to grant a bay bridge franchise on condition that the bridge be financed and constructed substantially in accordance with this plan, I hereby agree to assign my application, or the franchise, if it is issued in my name, to said Bridge Corporation.

Submitted herewith is data as to the cost of the bridge, etc. Exhibits "A", "B" and "C" show the financial soundness of a centrally located bridge. Exhibit "D" gives an approximate detailed estimate of the steel construction cost, etc. Exhibit "E" shows the location of the route specified in my application; also other data.

Respectfully submitted,
MONTGOMERY K. MILLER.

Oakland, Cal., April 29, 1927.

To Whom It May Concern:

For a valuable consideration, the receipt of which is hereby acknowledged, I, the undersigned, H. S. Henion, do hereby assign, transfer and set over to Montgomery K. Miller, of Oakland, California, his heirs or assigns, all my right, title and interest in and to that certain application for a toll-bridge franchise over the Bay of San Francisco, from the City and County of San Francisco to the County of Alameda, which application was made by me to the Board of Supervisors of the City and County of San Francisco

on the 14th day of March, 1927, and is now pending before that Board; and in the event of such a franchise being granted pursuant to said application, or any amendment or modification thereof, I hereby assign, transfer and set over such franchise to said Montgomery K. Miller, his heirs or assigns, with all rights thereunder or appertaining thereto.

I hereby authorize and direct that such franchise be issued to and in the name of said Montgomery K. Miller, his heirs or assigns; and I ratify and confirm that certain assignment heretofore made by me to said Montgomery K. Miller on the 28th day of January, 1927, wherein I assigned to him all my right, title and interest, present and future, in and to my said application; and I hereby agree to execute and deliver to said Montgomery K. Miller, his heirs or assigns, such further document or documents as he or they may at any time deem necessary to effectuate the assignment hereinabove set forth, or to secure the issuance to him or them of the franchise hereinabove mentioned, and this agreement to execute and deliver shall be binding upon my heirs, executors and administrators.

In witness whereof, I have hereunto subscribed my name the day and year first above written.

(Signed) H. S. HENION.

Acknowledged before Victor A. Dunn, Notary Public, County of Alameda.

Description of Bridge.

Double-deck high-level steel structure, including four types of construction, viz.: Cantilever, truss, girder and viaduct.

Width not less than 80 feet.

Height above mean high water to be fixed by War Department, probably 150 feet.

Length, including approaches, approximately six miles.

Location: From Rincon Hill southerly via Second street to Pier No. 46, thence easterly across the Bay to a point about 3000 feet south of the Alameda Mole, thence easterly and northerly to West Oakland and Alameda.

Lower deck will have double tracks for electric train service and four vehicular traffic lanes.

Upper deck will have four vehicular lanes, which may be only partially included in first construction and completed when traffic requires. It is estimated that the completion of the upper deck will cost $2,000,000. The question whether the upper deck should be constructed now or later is one which must be determined by the Board of Engineers provided for in this plan, after a thorough study of conditions.

Capacity of the Bridge.

The automobile capacity of traffic lanes on bridges exceeds 1000 vehicles per hour. Four lanes on lower deck, two each way, therefore, will accommodate four thousand vehicles per hour—40,000 in ten hours. This is approximately equivalent to a traffic of 15,000,000 vehicles per year, more than twice the traffic expected the first year's operation, in 1935. Assuming a 10 per cent increase in vehicular traffic each year, the four lower deck lanes will carry the load for nine years. Therefore, it is contemplated (but not fully decided) to install only the floor beams of the upper deck during initial construction, these members serving also as lateral bracing, and rendering completion of the upper floor practicable without interference with traffic on the lower deck.

Estimated Cost of Bridge.

Subject to adjustment when prices of bonds, foundation conditions, etc., are known.

Steel superstructure (see Exhibit "D")	$19,800,000
Foundations	19,000,000
Flooring	2,000,000
Approaches and rights of way	5,000,000
Interest during construction	7,000,000
Legal expenses, including condemnation proceedings, etc.	200,000
Engineering fee of 6 per cent (on $50,000,000), to include cost of complete organization of experts and consulting engineers for four to five years' operations	3,000,000
Bond discount, estimated	3,200,000
Contingencies	5,750,000
Total cost	$65,000,000

Detail of Estimated Revenue Per Year.

As shown in Exhibit "A".

Your Board of Engineers estimates that transbay auto and passenger traffic over a bridge in 1935 will be 6,171,000 autos and 55,480,000 passengers. About one-half the passengers are commuters (according to official reports to the Railroad Commission).

Your Board of Engineers also estimates that traffic will increase at the rate of 2 per cent per annum. Our estimate of revenue for 1935 is based upon these figures for volume, after deducting 20 per cent

of commute and passenger traffic, on the assumption that the ferry boats will continue to operate and hold 20 per cent of the passenger business. (See Schedule A, Column 3.)

We believe, however, that the bridge, centrally located as herein proposed, will eliminate ferry boat traffic between San Francisco and Oakland, Alameda and Berkeley almost entirely.

The bridge will provide double tracks for electric trains for the commuters, avoiding the present transfer at the moles, reducing the time considerably and improving the service. Passengers from transcontinental trains may be transferred to electric trains or motor buses in place of the ferry boats. There is no possible basis for assuming that ferry boats can continue to operate as a business proposition. (See Engineer's Report, page 51.)

Our proposed schedule of tolls is based upon present ferry rates—10 cents each way for commuters and 20 cents each way for other foot passengers and 5 cents for passengers in automobiles; one-half the commute and passenger fares to go to the bridge, the other one-half to the transportation companies furnishing electric cars or motor buses. Automobile fares can be reduced as much as 25 per cent and still leave the earning capacity of the bridge entirely satisfactory. (See Schedule B, Columns 3-5-7.)

Estimated Gross Annual Revenue.

Upon the above basis the gross revenue in 1935 will be as follows:

6,171,600 automobiles, at 45 cents	$2,777,220
20,858,500 commuters, at 5 cents (less 20%)	834,340
20,858,500 passengers, at 10 cents (less 20%)	1,668,680
13,763,000 passengers in autos, at 5 cents	688,150
Auto freight trucks with loads	500,000
A commute rate for autos of $12 per month will probably influence many commuters to drive over the bridge in their own cars. This would yield additional revenue of, say	300,000
Miscellaneous traffic	46,500
First year's total gross revenue	$6,814,890

The above estimate for auto traffic is low. The traffic on the four bridges crossing East River, New York, increased from 40 per cent to 60 per cent per year for the period from 1916 to 1926. (See Board of Engineers' Report, page 63.) The average increase in auto traffic between San Francisco and the east bay cities for the past four years has been 28 per cent per year. It is not at all improbable that an auto toll of 30 cents would stimulate traffic 50 per cent, thus producing the same revenue as our 45 cents toll.

Our estimate of operating expenses is ultra conservatively high. We allow $750,000 for maintenance and operation, $975,000 for depreciation, $325,000 for insurance and $300,000 for contingencies and unexpected expenses, making a total of $2,350,000, as against an estimate by a transcontinental railroad company's engineers of $750,000 for maintenance and operation, $50,000 for administration, $100,000 for insurance and $1,300,000 for taxes, a total of $2,200,000. The municipality will have no taxes to pay. In other words, our estimate for operating expenses is $2,350,000 as against $900,000 by the railroad company.

Advantages of Location.

Up to the present moment the engineering details of a definite, final, correct location for a bridge joining Rincon Hill and West Oakland have not received the careful consideration which their importance requires.

The bridge location, to be correct, must join the adopted terminals with the shortest line possible consistent with the least obstruction to general navigation, the least damage to the Oakland waterfront, the Alameda waterfront and the San Francisco waterfront, the least hazard to transbay ferry traffic and commercial shipping, the least obstruction to naval requirements, and the least menace to transbay traffic during construction of the bridge. A correct location line must be entirely free of short radius curves.

This location provides for all these requirements and has all the following paramount advantages and is as nearly perfect as is possible in joining Rincon Hill and West Oakland.

1. The bridge location leaves the Oakland waterfront entirely free from any obstruction and conforms with the official demands of that city.

2. It clears the Alameda Mole by a wide margin and leaves abundant space on that city's waterfront between the Mole and proposed bridge for extensive harbor development for municipal use or naval base pur-

poses. It conforms with the demands of the Alameda city government.

3. It crosses the San Francisco waterfront at the only correct point for a bridge crossing—namely, Pier No. 46—because that crossing leaves the entire waterfront north of China Basin free from obstruction. Any location further south would force traffic to cross Channel street over draw-bridges, a fatal obstacle to transbay traffic.

4. It clears the naval anchorage entirely; also the anchorage for explosives by a wide margin.

5. It leaves an extra half-mile of open water area between Goat Island and the bridge for naval maneuvering.

6. This extra half-mile of open water is of tremendous importance to all interests and should be maintained. It will eliminate hazard to transbay traffic during construction of the bridge. For three or four years its construction will necessitate the constant use of tugs, barges, coffer dams, caisons, etc.—all of which, obviously, should be a safe distance south of the lanes of transbay traffic. In foggy weather ferry boats and commercial ships to and from Oakland estuary frequently drift considerably south of their regular lanes. It would be almost a criminal disregard for many thousands of human lives and much property to build a bridge—unnecessarily—on a location in close proximity to the traffic lanes.

7. The extra half-mile of open water should, and probably will, eliminate opposition from the Navy because it not only clears the official naval anchorage and increases space for naval maneuverings, but also leaves abundant space on the Alameda western waterfront for harbor development for naval base purposes or municipal use. We submit a definite plan and leave the necessary space for this development, comprising six large docks, one thousand feet in length, equal to 2¼ miles of berthing space, 3500 lineal feet of quay wall berthing space, and three drydocks, all with an ideal anchorage and turning basin. It is the only project before the Board, economically within the first choice zone, which provides for these vitally important requirements.

8. The "Ship Owners Association," representing nearly 500 merchant ships which enter this harbor, greatly prefer this location to any other route further north.

9. At Pier No. 46 the mud is only 20 feet deep to hard bottom—the most favorable condition found on the whole San Francisco front.

10. This location connects with Rincon Hill via Second street with an elevated approach, without obstructing any intersection streets.

11. This location eliminates the large expense of crossing diagonally several blocks of improved business property as would be necessary on a line direct from Rincon Hill to Alameda Mole.

12. This location is entirely free of short radius curves. Electric trains, auto busses and private automobiles will travel 30 to 40 miles per hour over this bridge and any short radius "death" curves would greatly impair its usefulness.

13. This location, with all the above mentioned advantages, is economically within the "first choice" zone. It is only 800 feet longer between the terminals, which are approximately six miles apart, than the original "first choice" line. It provides for all the factors involved in the problem, which claim cannot be successfully denied and is the only application pending for which such a claim can be proven.

14. Grant of this franchise will, in effect, be notice to State and Federal authorities and financial and shipping interests that after an exhaustive investigation San Francisco has officially reached the settled conviction that her transbay problem can be and will be correctly solved only by the centrally located bridge herein provided for. Any claim that navigation in general, or the naval operations in wartime, will be interfered with to any serious degree can be proved to be erroneous. San Francisco, in these respects, is the most vitally interested party, and is thoroughly convinced of the soundness of her position.

Congressional Committee having already approved a bay bridge on a location which cuts through the naval anchorage, cuts off the Alameda Naval Base, and which also cuts off eight of the most important docks on the San Francisco waterfront, will certainly approve more strongly than ever a parallel route —joining the same terminals, which by reason of being located 1500 feet further south, entirely eliminates all those fatal objections.

Application for a permit will be made with full confidence that, because of the greatly improved location further south and the more complete data on the subject than has previously been submitted, the permit will be granted by the War Department. Congress can also be

appealed to at the next session with renewed and greater confidence than before.

The Clerk: A letter signed by Montgomery K. Miller.

Supervisor Gallagher: I called attention to that.

The Clerk: The next one H. S. Henion. Do you want that read?

Supervisor Gallagher: No.

The Clerk: A description of the bridge; do you want that read?

Supervisor Gallagher: Yes.

(The Clerk reads description of the bridge.)

(At this time Supervisor Toner acts as chairman.)

Supervisor Gallagher: May I interrupt you, Mr. Clerk? If the members will turn over they will see here a table, entitled Exhibit A. I do not intend, of course, that it will be necessary to check these figures. I wish to say that the gentleman sitting beside me, his name is signed at the bottom, Oscar T. Holdal, a certified public accountant, who has checked these figures. These figures I am going to call your attention to one which may occur to you to be an error, and you can check them at your leisure and examine them. Exhibit A is the estimate of income and expense of transbay bridge from 1935 to 1954, inclusive, based on an auto toll of 45 cents, a commute passenger toll of 5 cents and other passengers 10 cents, with 2% annual increase. The first year's gross income, according to the report of your own engineers, not ours, the engineers who figured on this, would be $7,440,645. But in order to be safe, the gentlemen who are bringing this to you have allowed the ferries 20 per cent of the traffic. They have taken the position that perhaps they might not be all eliminated, so they have allowed the ferries, in Column No. 3, $625,755, the allotment if the ferries still ran. Column 4 is the balance of the gross income, taking out first $7,000,000 in Column 2, subtracting the $625,000 in Column 3, gives you the gross income for the bridge of $6,814,000. Then follows the insurance per year, then the maintenance and operation costs, which I think admittedly are high, and if they are, of course, so much the better for us. Then the contingencies and unexpected expenses per year. Then the interest on the bonds, the bond redemption commencing, as you notice down here, in 1928, three years after the bridge is in operation. The depreciation fund of $975,000. This is set aside, as is usual with all other utilities, and then the next column is the interest on the depreciation fund, the next column is 4½% interest on the accumulated surplus. Column No. 13 I want to call your special attention to. Column No. 13 is the additional surplus taken year by year. You will notice that when you get down to 1940 there is a figure in red there, $174,033.96. That is not added to that column, but when the column is added it is subtracted, for this reason: that you will notice in the years 1933 to 1940 they pay $500,000 more in bond redemption than they did previously, so that when you see that red figure in Column 13 you subtract that from the total at the bottom. Then it goes on and shows the accumulated surplus year by year. It shows the income allowed the ferries year by year, 4½% increase. Then the interest on accumulated surplus. The totals are as follows: Allowing the ferries their 20% of the traffic, the total gross income, added year by year, to the City and County, or not to the City and County except for bond redemption, would be a hundred and sixty-five million odd dollars. The insurance would be $6,500. Maintenance and operation would cost $15,000,000. This is on a 20-year basis. Contingencies and unexpected expenses would be $6,000,000. The interest on bonds would be $56,000,000. That is figured at approximately 6 per cent and it may be lower and probably would be. The bond redemption is $44,000,000. The depreciation fund is $19,000,000, and so on to the end of the table, except as I say, in Column 13. The accumulated surplus, see Column 14, would be $30,741,312.21, less the balance of bonds outstanding at that period, would be $21,000,000. The balance of the surplus, through expenses paid and bond interest and redemption paid, would be $9,000,000, and add to that the depreciation fund, which you have set up in Column No. 10, you will have available funds of $29,241,212.21, with bond interest and expenses of operation paid. In the above estimate the traffic is below the estimate of the board of engineers, that is the board of your engineers you appointed, in nearly every year. See Exhibit B. And an allowance has been made for continued ferry operation at the rate of 20% for passenger traffic for the entire twenty years.

I call your attention to the fact that the citizens who have presented this have been conservative. This statement from the board of

engineers' report, page 51, as to the continuation of ferry operations—this is quoted from your engineers' statement, Mr. O'Shaughnessy, Mr. Galloway and the other engineers, and this is taken verbatim from page 51 of their report: "With a satisfactory adjustment of these matters it is believed that nearly all of the interurban passengers will use the bridge. If a majority of them do so, it is a question whether the ferries could continue to operate except perhaps for main line passengers." That is the language of your engineers. It should be noted that, at the end of twenty years' operation, there remains a surplus of $29,241,212.21. Now, this is important, gentlemen, in your consideration of the table: if the ferries did go out of business, as they have in most places where there has been bridge competition, if the ferries are entirely discontinued and all the revenues from traffic were allocated to this bridge, there would be an additional accumulated surplus of $23,731,423 at the end of twenty years' operation, which could be added, not subtracted, if you pleased, to the $29,000,000 plus that you would have even if 20% of the passengers, or 11,000,000 pasengers a year, used the ferries. So much for that for the moment. As I say, Mr. Holdal is here, and he has checked these figures.

Now, Exhibit B, in that Column No. 2, I would like to ask you to disregard that dollar sign, that is the printer's mistake, in Column No. 2, Exhibit B, that dollar sign should not be there. That is the estimated traffic, number of passengers, based upon your own engineers' report. The next column averages the fare at 7½ cents and gives you that total for the year. Then it gives you the vehicular number of passengers, the revenue from the vehicular passengers at 5 cents. In the next column the automobile traffic, number of autos, is recited here as per the engineers' report, and on the 45-cent rate, it is given in Column No. 7. The total revenue, based on your board of engineers' report, mind you, is $3,762,062. At the bottom is an explanation. "The number of units of traffic used in Columns 2, 4, 6 and 7 is taken from the report of the board of engineers appointed by you. The number of units of traffic used for Columns 9 and 10 are taken from the report of the Chief Engineer of the United States Army for the year 1927, Volumne 2. The number of units of traffic used for Column 11, on Exhibit B, which is an estimate location selected by your engineers. Now, I frankly say to you that these figures have been checked, not only by experts, but they are founded on the report of your own engineers, and they have been gone over by bankers and their soundness is not disputed. I say, in the beginning, that this was a publicly-owned bridge. The Senate, if it passes the bill, and I am not ready to speak on that—first of all I want to repeat what I said in the first place, that the gentlemen that brought this to my attention, and said that it had possibilities along these and similar lines, was, as I said, Mr. A. W. Scott. Mr. Scott and his conferees, who are outstanding citizens and who are not connected with any bridge project as far as I know, will, when the time is ready, come before your committee and be ready to tell about the plan, and with their financial experts, to explain in detail what is needed to explain. In that connection I wish to say that the Navy Department's objections to a bridge—and I am not going into an academic argument—have heretofore been these: No. 1, Naval Anchorage, not No. 1 in their order. No. 2, Explosive Anchorage, and 3, Alameda Naval Base. The groundwork—and this, mind you, is to be turned over to this Board to be formed, if you are so disposed—the work for the Navy's objections were those as recited and national defense. This leaves the Navy without anything but the last objection, or the War Department, that its only possible ground for objection relative to this bridge would be national defense, an inconceivable contention and one which I am positive Congress and the Senate would not support. Its protestations as to anchorage, its protestations as to maneuvering and its protestations as to explosive anchorage are removed. Alameda will approve this location, which is south of its naval base and south of its prospective dock development. Now, I call this briefly to your attention to the provision No. 7, and that is that the Board of Supervisors, if this plan is found—not No. 7, No. 6, on page 2—if this plan is found to be soundly based, an organization of a commission of nine members is proposed. Five of those members are to be appointed by the Board of Supervisors and the Mayor of San Francisco, and four will represent the underwriters and the corporation of citizens who will finance the bridge. I wish Mr. Havenner to understand this very clearly, since he has been one of the chief advo-

cates of the port authority plan, that it was not intended, and it was my premise, my purpose in carefully reviewing this and helping to get into plain language, too, in no case, attack anybody's ideas relative to the port authority plan, and this is not presented as a criticism, it is presented merely as our conception of what will apply to San Francisco and California, and what, as we see it, under the port authority plan, does not apply and would be disadvantageous.

This, briefly stated, then—and I will be willing to answer such questions as I can answer—are some of the features of the plan, and I say to you that these gentlemen are ready now to come before you. And this, briefly stated, does this: it provides the money for the building of the bridge just as soon as it is possible to do so.. It then, upon the day that the bridge is completed, by contract beforehand entered into, delivers the bridge to the representatives of the people of San Francisco, with only one provision or one restriction, that they shall set tolls sufficient to meet the bond interest and redemption and the operating costs of the bridge. Obviously, as these tables have indicated, the building and operation of this bridge, even under your own engineers' report, and under the most conservative figures, is to be one of the most profitable enterprises that this community has known in years. Now, this is submitted without any great pride of mind that it is probably the clearance for everybody's ideas, but it is fostered by me on this theory, and I say it probably is not perfect: I only know that it was made, as far as I was concerned, to meet the things that have to be met. And what have we? We have, first, the people who think the bridge should be built privately; we have, second, the people who believe that it ought to be built publicly but cannot seem to find the manner in which it could be financed, and I submit to the Board there has never been presented to this Board, not to this moment, that I know of—and if I am mistaken I would like to be corrected — anybody's statement anywhere showing where the money will come from to build this bridge. That has not been stated. It is stated that it is possible, under the bridge district or with the port authority plan, but nobody has said yet under what terms the money could be raised.

No. 2. This obviates all of the delays incident to legislation. There is one thing this would do if you decided that it was a good plan: you will proceed to Washington and attempt to get a permit on your new clearance. I assume that the Navy Department would say no again. The Navy Department would then have really stripped from it every other reason but the single reason, and the insensible and the impossible reason, of national defense, to-wit: that the people of San Francisco and the transbay cities in the State of California shall not, because there might be a war, have a peacetime bridge for the purpose that they want it, for their state highway system. It seems to me that Congress and the Senate would, if the War Department again rejects —I doubt that it will—will say to them: "That premise is not sufficiently strong and well founded to deny the people of this community the right to the bridge which they need so much." There are no jokers in this as far as I can see. I do not pretend to be a financier, but here is really a plan of financing that is conservative, there are no excessive profits anywhere. If the contingencies are not as high as they are represented here, and I do not think they will be, but they are figured on that basis, then so much the better for the bridge. And this will, if you set a 45-cent rate, Mr. Chairman, give you this bridge, in twenty years, free and clear of cost, and with at least a surplus, with 20 per cent of the people still riding on the ferries, under your own engineers' report, it will bring to you, free of cost, a bridge and a surplus of $29,000,000. If the ferries go out of commission, as I think they must, it brings to you, paid, a bridge, its operating costs and its interest charges have been taken care of, its bond issues have been cleared, and if the ferries are out of business, a surplus of $53,000,000. I make this challenge now to anybody, that I want somebody to take these tables or figures and take your own engineers' report and figure the rate of 45 cents which we figured as the cost of automobiles crossing on this bridge and 5 cents for passengers, and I would like to see them find the flaw in this. I would like to see somebody else present, if they can, a plan which brings the bridge to the people of San Francisco at as early a date as this does. Let me say here and now that at the last moment I would consent to the port authority plan, but I would do it only in the interest of public ownership, because, gentlemen of the Board, if it is possible, and I say

this to any proponent of any other plan that is presented, I beg of you not to divide the authority of this bridge and its earnings and its responsibility with any other city around the Bay of San Francisco. Let it be San Francisco's bridge, or the State of California through the money it lends us, but surely not the bridge of cities that will throw obstacles in our way. I am not now speaking of Alameda. Now I will be glad, if I can, and Mr. Holdal, the expert, will be glad to answer any questions. What I would like to see the Board—and this has nothing to do with your motions on denial, mind you—what I would like to see the Board do, and this only relates to this, is this: I would like to see this document taken into your possession, I would like to see the City Attorney take it and the City Engineer take it, and anybody else take it, if you think it is worth while, and I would like them then to pick the defects in it; I would like this Board to meet two weeks from today, or as soon as possible, not too soon, at which time the sponsors for this plan will be ready, their attorneys will be ready, and I think the attorneys will be men of such character as to indicate that they have given it a very thorough study, and they will be ready to go into any detail of this plan that I naturally might not be able to answer. I repeat, no bridge proponent that I know of, no party to any bridge application that I know of, no person concerned in a private application, is herein concerned in this plan. In connection with the bridge itself, its advantages, as recited, Mr. Chairman, were that the applicant himself and the engineer with the applicant have agreed that if this public ownership plan meets with your approval everything they have got, every right, every title, every interest therein connected with this goes to this body which is formed, first, to the board of three engineers, of which you select one, not first; second, your advisory control board controlling all of the finances and all of the disbursements; thirdly, your only other obligation is to appoint the auditor who will keep track of the books, and books must be opened. I submit that while I may be in error, I submit, Mr. Chairman, that this plan ought to bring us together on all fours for as early a date as possible in the construction of a bridge.

Privilege of the Floor.

Hon. Richard J. Welch and *Hon. Matt I. Sullivan* were granted the privilege of the floor and urged that nothing be done to interfere with the work already done in Congress for the project that has already been endorsed by this Board and for which a successful fight is being made in Congress.

BRIDGE HEARINGS.

Motions.

The following motions were taken up and, on motion, continued until July 31, 1928, at 2 p. m.:

Supervisor Marks: I move you that, as an amendment to the motion of Supervisor Gallagher, the City Attorney be requested to submit to this Board, at the earliest possible opportunity, a form of submission of the issue of public ownership and operation of the proposed bridge, or private ownership or operation of the proposed bridge, for action by the people at the earliest possible opportunity.

* * * * *

Supervisor Marks: I desire to present the following motion and calling attention to the fact that it does not call for anything other than asking the City Attorney to submit a proper form of proposal to us. I make the motion which heretofore has been outlined three or four times. (Referring to motion set out in full above.)

Applications for Franchises to Construct Bridges Across San Francisco Bay.

(20)

Application of H. S. Henion to construct toll bridge along the following route, to-wit :

Beginning at the intersection of the center lines of Berry and Second streets, in the City and County of San Francisco, California, thence southeasterly to the west end of Pier No. 46, on the San Francisco waterfront; thence easterly over said pier to its eastern end; thence easterly across the Bay of San Francisco to the point of intersection of the center line of Peralta street, in the City of Oakland, California, produced southerly to the center line of the vehicular roadway on the Alameda Mole, in the City of Alameda, California; thence northeasterly on the said produced center line of Peralta street to its intersection with the center line of Eighth street, in said City of Oakland, Alameda County, California.

That the length of said bridge is approximately thirty thousand feet; that the width of said bridge is approximately eighty feet.

The above bridge will include an overhead approach, to extend from Second and Berry streets, San Fran-

cisco, to Rincon Hill or immediate vicinity, where abundant terminal facilities will be provided.

Filed March 14, 1927.

Motion.

Supervisor Shannon moved that further consideration of the foregoing application be continued until Tuesday, July 31, 1928, at 2 p. m.

Amendment.

Supervisor McSheehy moved as an amendment that application be denied.

Amendment *lost* by the following vote:

Ayes — Supervisors Havenner, Kent, McSheehy, Powers, Schmidt —5.

Noes — Supervisors Andriano, Deasy, Gallagher, Hayden, McGovern, Roncovieri, Shannon, Stanton, Suhr, Todd, Toner—11.

Absent — Supervisors Colman, Marks—2.

Action Deferred.

Whereupon, the roll was called on Supervisor Shannon's motion to continue the hearing of the foregoing application until July 31, at 2 p. m., and the same was *carried* by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner —16.

Absent — Supervisors Colman, Marks—2.

(1)

Application of Bay Cities Bridge Corporation for a franchise for a toll bridge between San Francisco and Alameda.

Proposed rail and highway crossing for San Francisco Bay from the foot of Sixteenth street, San Francisco, to the foot of Pacific avenue, Alameda.

Beginning at the intersection of the center line of Sixteenth street with the center line of Third (Kentucky) street, in the City and County of San Francisco, and extending thence easterly along the center line of Sixteenth street to the waterfront line; thence easterly along a straight line to a point on the center line of Pacific avenue, in the City of Alameda, County of Alameda, which point is one hundred feet westerly from the intersection of said center line of Pacific avenue with the center line of Bryant street.

That the length of said bridge is 27,750 feet and that the width of the roadway on said bridge is 38 feet.

Filed April 6, 1925.

DUDLEY D. SALES,
Attorney.

Motion.

Supervisor Shannon moved that further consideration of the foregoing application be continued until Tuesday, July 31, 1928, at 2 p. m.

Amendment.

Supervisor McSheehy moved as an amendment that application be denied.

Amendment *lost* by the following vote:

Ayes — Supervisors Havenner, Kent, McSheehy, Powers, Schmidt —5.

Noes — Supervisors Andriano, Deasy, Gallagher, Hayden, McGovern, Roncovieri, Shannon, Stanton, Suhr, Todd, Toner—11.

Absent — Supervisors Colman, Marks—2.

Action Deferred.

Whereupon, the roll was called on Supervisor Shannon's motion to continue the hearing of the foregoing application until July 31, at 2 p. m., and the same was *carried* by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner —16.

Absent — Supervisors Colman, Marks—2.

(2)

Application of Elbert W. Davis for a franchise for a toll bridge between San Franicsco and Alameda.

Across San Francisco Bay, beginning at a point in the City and County of San Francisco on the bulkhead line of San Francisco Harbor between Piers 26 and 28, and running approximately north 67 degrees 45 minutes east 17,962 feet, more or less, to a point in the City of Oakland, County of Alameda, State of California, on the easterly shore of San Francisco Bay.

That the length of said bridge is to be 17,962 feet and that the breadth thereof is to be 65 feet, more or less.

Filed June 29, 1925.

JAMES M. OLIVER,
Attorney.

Motion.

Supervisor Shannon moved that further consideration of the foregoing application be continued until Tuesday, July 31, 1928, at 2 p. m.

Amendment.

Supervisor McSheehy moved as an amendment that application be denied.

Amendment *lost* by the following vote:

Ayes — Supervisors Havenner, Kent, McSheehy, Powers, Schmidt —5.

Noes — Supervisors Andriano, Deasy, Gallagher, Hayden, McGovern, Roncovieri, Shannon, Stanton, Suhr, Todd, Toner—11.

Absent — Supervisors Colman, Marks—2.

Action Deferred.

Whereupon, the roll was called on Supervisor Shannon's motion to continue the hearing of the foregoing application until July 31, at 2 p. m., and the same was *carried* by the following vote:

Ayes — Supervisors Andriano, Deasy, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner —16.

Absent — Supervisors Colman, Marks—2.

PRESENTATION OF PROPOSALS.

License Plates, Etc.

Sealed proposals were received by the Board of Supervisors for furnishing license plates, tags and badges between the hours of 10 and 11 a. m. and *referred to the Supplies Committee.*

Boulevard Bonds.

Sealed bids for the purchase of certain bonds of the City of San Francisco, State of California, were received by the Board of Supervisors up to the hour of 3 o'clock p. m. on Monday, July 9, 1928, and were opened by said Board at said time.

The bonds offered are described as follows:

Two million five hundred thousand dollars four and one-half per cent Boulevard Bonds, issue of November 1, 1927, comprising 125 bonds of $1,000 denomination, maturing each year from 1932 to 1951, inclusive.

Seven hundred thousand dollars four and one-half per cent Bernal Cut Bonds, issue of July 1, 1927, comprising 35 bonds of $1,000 denomination, maturing each year from 1932 to 1951, inclusive.

The said described bonds bear interest at the rate of four and one-half per centum per annum, payable semi-annually, and shall not be sold at a price less than the par value thereof, together with accrued interest thereon at date of delivery.

Bidders may bid for the whole or any part of the bonds here offered, and when a less amount of the whole amount offered is bid on, the bidder shall state the year or years of maturity thereof.

The bonds offered are tax exempt, State and Federal.

Delivery of the bonds to the purchaser will be made within ten days from the date of award, or within such time thereafter as may be agreed upon by the purchaser and Finance Committee of the Board of Supervisors.

All proposals for the purchase of such bonds shall be accompanied by a deposit of five per cent of the amount bid, in lawful money of the United States, or by a deposit of a certified check payable to J. S. Dunnigan, Clerk of the Board of Supervisors of the City and County, for a like sum, provided that no deposit need exceed the sum of $10,000, and that no deposit need be given by the State of California, which money or check shall be forfeited by the bidder in case he fails to accept and pay for the bonds bid for by him if his bid is accepted.

The approval of Thomson, Wood & Hoffman, attorneys, New York, as to the legality of these bonds is on file in the Clerk's office.

This notice is given pursuant to the direction of a resolution of the Board of Supervisors adopted June 4, 1928.

Amending Zoning Ordinance, San Jose Avenue and Alemany Boulevard.

The following bill was presented by Supervisor Hayden and *laid over one week:*

Bill No. ——, Ordinance No. —— (New Series), as follows:

Amending Ordinance No. 5464 (New Series, entitled, "Regulating and establishing the location of trades, industries and buildings, and the locations of buildings designed for specific uses, and establishing the boundaries for said purposes, and providing penalties for the violation of its provisions."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Ordinance No. 5464 (New Series), the title of which is above recited, is hereby amended as follows:

Section 13 of the Use of Property Zone Map, constituting a part of said ordinance, is hereby changed so as to place the easterly corner of the crossing of San Jose avenue and Alemany boulevard, for a distance of 160 feet on San Jose avenue and a distance of 200 feet on Alemany boulevard, in the Commercial District instead of the First Residential District.

Judah Street Rezoning Proposed.

Supervisor Todd presented:

Resolution No. ——— (New Series), as follows:

Whereas, a petition, signed by 877 property owners and residents, requesting that the Zoning Ordinance and Zone Map of the City and County of San Francisco be amended so as to place Judah street between Tenth and Twenty-fifth avenues in the commercial zone, has heretofore been presented to this Board; and

Whereas, after a full hearing and due consideration, this Board adopted an amendment to the Zoning Ordinance and Zone Map in keeping with the prayer of said petition; and

Whereas, his Honor Mayor James Rolph, Jr., vetoed this ordinance at the last moment provided by law for his official action, on the sole ground that rumors of corruption on the part of this Board in connection with the passage of the ordinance in question had been called to his attention; and

Whereas, a full and complete investigation of these rumors by the Detective Bureau of the San Francisco Police Department, as disclosed by their report, on file with this Board, has demonstrated the malicious falsity of the grounds on which the veto of his Honor the Mayor was based, and that these charges are unfounded in fact and positively untrue; and

Whereas, the City Attorney has advised this Board that his Honor the Mayor could not under the law recall his veto, nor could this Board treat the matter except as a new proceeding; and

Whereas, a positive injustice to the 877 petitioners in this matter has resulted from the publication of these unfounded rumors, the action of the Mayor, based solely thereon, and the delay necessarily incident to the initiation of a new proceeding; and

Whereas, his Honor the Mayor advised this Board on Monday, June 4, 1928, that if the Board would reenact the ordinance so vetoed by him, he would give the measure his official approval as soon as it was presented to him; and

Whereas, the loss of time to the people of the Sunset District incident to the obtaining of signatures on a new petition can be obviated by this Board through a request from the Board to the City Planning Commission, to hear and consider this proposed change, in lieu of the initiation of such a proceeding by petition; now, therefore, be it

Resolved, That the City Planning Commission be and it is hereby requested to hear and consider a proposed change in the classification of both sides of Judah street between the westerly line of Tenth avenue and the easterly line of Twenty-fifth avenue, and to extend to the depth of the rear lot line, to a Commercial District instead of Second Residential District, as now constituted, and to transmit to this Board, at its earliest convenience, its recommendation in connection therewith.

Referred to City Planning Committee.

Reconstruction of Streets, County Road Fund.

Octavia street, California to Sacramento streets, $4,500.

Scott street, Broadway to Vallejo street, $2,000.

Sutter street, Buchanan street to Van Ness avenue (widening), $9,000.

Total, $88,400.

Referred to Finance Committee.

Declaratory Ordinance for Acquisition of Hospitals and Health Centers.

Supervisor Toner presented:

Bill No. ——, Ordinance No. —— (New Series), as follows:

Determining and declaring that the public interest and necessity demand the acquisition, construction, completion and equipment of permanent public buildings and the acquisition of the necessary lands, equipment and furnishings to be used as hospitals and health centers by the people of the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby determined and specifically declared that the public interest and necessity demand the acquisition, construction, completion and equipment of permanent buildings within and without the City and County of San Francisco, to be used as additions to the Tuberculosis Preventorium Health Farm in San Mateo County, and in San Francisco County construct a psychopathic building, cancer institute, a new home and nurses' training school, additions to the Laguna Honda Home, additional stories to be added to the present tuberculosis hospital on the San Francisco Hospital site, enlarge Central Emergency Hospital, including a health center building on lands adjacent to the Civic Center and additional lands allowing for the extension of hospitals and the purchase of existing hospitals, and this ordinance specifically provides that for the proper care of the health of the people of San Francisco that all necessary lands be acquired to construct the buildings herein described and the purchase of all necessary buildings and furnishings.

Section 2. The Board of Public Works is hereby directed to procure, through the City Engineer and to file with the Board of Supervisors, plans and estimates of the cost of the acquisition, construction, completion and equipment of the public buildings and objects described in Section 1 of this ordinance.

Section 3. This ordinance shall be published for two weeks in the official newspaper and shall take effect immediately.

Referred to Public Health, Buildings and Public Utilities Committees, jointly.

Automobile Supply Station Permit.

The following resolution was presented by Supervisor Deasy and *laid over one week*:

Resolution No. ——— (New Series), as follows:

Resolved, That B. E. Johnson be and is hereby granted permission, revocable at will of the Board of Supervisors, to maintain and operate an automobile supply station on the northwest corner of Balboa street and Arguello boulevard.

The rights granted under this resolution shall be exercised within six months, otherwise said permit shall become null and void.

Amending Ordinance No. 5464

(New Series), entitled "Regulating and establishing the location of trades, industries and buildings, and the locations of buildings designed for specific uses, and establishing the boundaries for said purposes, and providing penalties for the violation of its provisions."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Ordinance No. 5464 (New Series), the title of which is above recited, is hereby amended as follows:

Section 2 of the Use of Property Zone Map, constituting a part of said ordinance, is hereby ordered changed so as to place the southerly side of Fell street, commencing at a point 109 feet 6 inches westerly from Van Ness avenue and running thence westerly 41 feet 3 inches and extending southerly to Hickory street, in the Commercial District instead of the Second Residential District as now zoned.

Reception Committee, Ford Reliability Tour.

Supervisor Andriano presented the following resolution, which was *passed for printing*:

Resolution No. ——— (New Series), as follows:

Resolved, That the Public Welfare, Publicity and Airport Committee be and is hereby authorized and directed to arrange for the proper reception of the participants of the Ford Reliability Tour over the United States who will arrive at Mills Field Municipal Airport Friday, July 13, 1928; be it

Further Resolved, That the sum of $2,500 be and the same is hereby set aside, appropriated and authorized out of Publicity and Advertising Fund (Appropriation 54) for the proper advertising of San Francisco in connection with this event.

Prohibiting Obscene Shows.

Supervisor Todd presented:

Bill No. 8611, Ordinance No. ——— (New Series), as follows:

An ordinance prohibiting the showing or exhibition of any entertainment, show, play or scene which is obscene, or indecent, or lewd, or which has for its subject or theme sex degeneracy, or sex perversion, or sex inversion.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful for any person, firm, corporation, partnership or association, either as owner, manager, producer, director, actor or agent, or who acts in any other capacity, to give, direct, present or participate in any obscene, indecent, immoral or impure drama, play, exhibition, show or entertainment, or any obscene, indecent, immoral, impure scene, tableau, incident, part or portion of any drama, play, exhibition, show or entertainment which tends to corrupt the morals of youth or others; or to give, direct, present or participate in any drama, play, exhibition, show, entertainment, scene or tableau depicting or dealing with the subject or theme of sex degeneracy or sex perversion or sex inversion.

Section 2. It shall be unlawful for any person to exhibit, or perform, or participate in the presentation or performance of any obscene, indecent or lewd play or representation.

Section 3. All ordinances or parts of ordinances in conflict with this ordinance are hereby repealed.

Section 4. If any word, phrase, line, sentence, paragraph or part of this ordinance shall be held to be unconstitutional or void for any reason, it shall not invalidate or void any of the balance of this ordinance, and the Board of Supervisors hereby declares its intention to pass the balance of this ordinance without that portion so held to be unconstitutional or void, if any there be.

Section 5. Any person, firm, corporation, partnership or association violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not more than five hundred ($500) dollars, or by imprisonment in the County Jail for a period of not more than six (6) months, or by both such fine and imprisonment.

Section 6. This ordinance shall take effect immediately.

Relative to the Pollution of the Waters of Hetch Hetchy.

Supervisor Thos. Hickey of San Mateo County was granted the privilege of the floor and addressed the Board with reference to pollu-

tion of the waters of Hetch Hetchy as set forth in certain statements in the public press. He declared that San Mateo and Santa Clara counties would "go all the way" with San Francisco in anything it might do in the matter. He presented the following resolutions of San Mateo and Santa Clara counties, which the Clerk was directed to acknowledge and forward to Washington to the Secretary of the Interior Department:

Resolutions.

Whereas, the City of San Francisco, in order to obtain a pure supply of mountain water, has gone to the Tuolumne river and its tributaries, Eleanor and Cherry creeks, and has voted $79,000,000 of bonds for the development of that water supply and the construction of an aqueduct; and

Whereas, the people of San Mateo County expect to participate jointly with San Francisco in the use of the water from the Hetch Hetchy supply as contemplated under an Act of Congress known as the Raker Bill; and

Whereas, according to statements in the public press the Yosemite National Park authorities contemplate opening the reservoirs constructed by San Francisco for water supply purposes to public boating and general recreational purposes, thus subjecting the water supply to pollution, which is contrary to the spirit of the Raker Act; therefore, be it

Resolved, That this Board of Supervisors go on record as protesting against the National Park authorities permitting boating, bathing or other forms of recreation in Hetch Hetchy or Lake Eleanor reservoirs or the immediate vicinity which would be contrary to the specific provisions of the Raker Act that

"No person shall bathe, wash clothes or cooking utensils, or water soak in, or in any way pollute the waters within the limits of the Hetch Hetchy reservoir or any reservoir constructed by the said grantee under the provisions of this grant, or in the streams leading thereto within one mile of said reservoir; or, with reference to the Hetch Hetchy reservoir, in the waters from the reservoir or waters entering the river between it and the 'Early Intake' of the aqueduct, pending the completion of the aqueduct between 'Early Intake' and the Hetch Hetchy damsite."

And be it

Further Resolved, That the Secretary of Interior be requested to see that all sanitary provisions set forth in the Raker Act to guard against the pollution of this water supply be strictly enforced; and be it

Further Resolved, That copies of this resolution be sent to the President of the United States, the Secretary of Interior, the director of National Parks and the superintendent of the Yosemite National Park.

State of California, County of San Mateo.—ss.

I, Elizabeth M. Kneese, County Clerk of the County of San Mateo, State of California, and ex-officio Clerk of the Board of Supervisors thereof, do hereby certify that the above and foregoing is a full, true and correct copy of a minute entry made and entered in the minutes of said Board.

In witness whereof, I have hereunto set my hand and the seal of said Board this 9th day of July, A. D. 1928.

(Seal)

(Signed) Elizabeth M. Kneese,
Clerk.

Whereas, the City of San Francisco is constructing the Hetch Hetchy Water Supply for the purpose of bringing pure mountain water from the high Sierras to San Francisco and vicinity for domestic purposes; and

Whereas, there is no doubt that when this water is available a number of municipalities and communities in Santa Clara County will secure their domestic water supply from the supply being brought in by San Francisco; and

Whereas, it is to the interest of these people that the Hetch Hetchy Water Supply be kept free from pollution at its source; and

Whereas, the public press has quoted Stephen T. Mather, director of the Park Service, as intending to open wide the entire Hetch Hetchy watershed to all campers, fishermen and motorists, and to permit boating and camps on San Francisco's reservoirs, with the result that the water supply will be polluted; and

Whereas, the Raker Act, under which San Francisco secured its rights of way within Yosemite Park boundaries, specifically provides for the protection of these

reservoirs against pollution; now, therefore, be it

Resolved, That the Board of Supervisors of Santa Clara County does hereby protest against such unwarranted action and do respectfully request the Secretary of the Interior to insist that the sanitary regulations provided for in the Raker Act for the purpose of protecting the Hetch Hetchy Water Supply from pollution be rigidly enforced; and be it

Further Resolved, That a copy of this resolution be sent to the Secretary of Interior and to the director of National Parks.

Mayor Requests Revocation of Oil Station Permit on Hirschberg Lot, Stanyan and Frederick Streets.

The following was presented and read by the Clerk:

San Francisco, Cal., June 27, 1928.

Honorable Board of Supervisors, City Hall, San Francisco, California.

Gentlemen:

With reference to Resolution No. 29008 (New Series), accepting the offer of A. Hirschberg to sell for $10,267.85 certain land at the corner of Frederick and Stanyan streets, required for the widening of Stanyan street, and my message to your Honorable Board disapproving same and referring to the action of your Honorable Board on last Monday in sustaining my disapproval of said purchase of land, I respectfully recommend that in view of the fact that it is the intention of your Honorable Board to proceed to acquire said property under condemnation proceedings that the permit granted to the California Petroleum Corporation for an oil station on said lot be immediately revoked, because in the appraisement of the value of the property the value of said oil station permit was a matter of consideration.

Very respectfully yours,
JAMES ROLPH, JR.,
Mayor.

Passed for Printing.

Whereupon, the following resolution was presented by Supervisor Gallagher and *passed for printing*:

Resolution No. ——— (New Series), as follows:

Resolved, That the permit heretofore granted the California Petroleum Corporation by Resolution No. 28691 (New Series), approved March 27, 1928, to maintain and operate an automobile supply station at the northwest corner of Stanyan and Frederick streets is hereby revoked.

SET-BACK LINE HEARING—11 A. M.

Hearing of objections to the establishing of set-back lines along Tenth avenue between Lincoln way and Irving street fixed for 11 a. m. this day.

No objection being offered, the following bill was *passed for printing*:

Bill No. 8613, Ordinance No. —— (New Series), as follows:

Establishing set-back lines along Tenth avenue between Lincoln way and Irving street.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited that on the 11th day of June, 1928, the Board of Supervisors adopted Resolution of Intention No. 179, to establish set-back lines along Tenth avenue between Lincoln way and Irving street, and fixed the 16th day of July, 1928, at 11 o'clock a. m., at the chambers of the Board of Supervisors as the time and place for hearing objections thereto; that thereafter and more than ten days prior to said hearing the said resolution was published and notices of the passage of said resolution were posted along the line of said Tenth avenue in time, form and manner required by Ordinance No. 5636 (New Series); that said hearing was held at the time and place aforesaid, and that all objections made at said hearing have been properly overruled.

Section 2. Pursuant to the foregoing recitals and in accordance with the provisions of said Ordinance No. 5636 (New Series), setback lines are hereby established as follows:

Along the westerly side of Tenth avenue commencing at a point 100 feet northerly from Irving street, and running thence northerly 400 feet, said set-back line to be 9 feet; along the easterly side of Tenth avenue commencing at a point 100 feet northerly from Irving street, and running thence northerly 325 feet, said set-back line to be 12 feet.

As shown on the maps filed in the office of the Board of Supervis-

ors and to which reference is hereby made for further particulars.

Section 3. No structures shall be erected in the area between said set-back lines and the street lines except as provided in said Ordinance No. 5636 (New Series), and the penalties for the violation of this ordinance shall be as fixed by the ordinance aforesaid.

UNFINISHED BUSINESS.

Final Passage.

Mayor to Enter Into Agreement With Southern Pacific, Bernal Cut.

Resolution No. ——— (New Series), as follows:

Resolved, That the Mayor is hereby authorized to enter into agreements with the Southern Pacific Railway Company, terms and conditions as follows:

This agreement, made this ——— day of ————, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

The parties hereto entered into a certain agreement dated March 23, 1914, relating to rights of way through Bernal Cut, in the City and County of San Francisco, and also entered into a certain agreement of even date herewith modifying and changing said agreement of March 23, 1914, and enlarging the plan of construction of rights of way, tracks and a public street or roadway through said Bernal Cut.

In connection with said work it will be necessary that the Southern Company remove its existing team track near Bosworth street, in said City and County of San Francisco, from the southeasterly side of its track to the northwesterly side of proposed location of its main track through Bernal Cut.

Said agreement of March 23, 1914, provided, among other things, that Southern Company would convey certain land to the City, which land was conveyed pursuant to said agreement by deed dated March 23, 1914. Said deed contained a reservation on behalf of Southern Company to use a certain strip of land 8½ feet wide and a certain strip of land 13½ feet wide, both of which are hereinafter described. In the event that the agreement of even date herewith is carried out the City desires that Southern Company quitclaim to the City all of its right, title and interest in and to said strip of land covered by said reservation above mentioned.

The parties hereto desire to set forth their understandings and agreements relative to the matters hereinabove mentioned.

Agreement:

Now, therefore, in consideration of the mutual and dependent promises of the parties hereto, it is hereby agreed as follows, to-wit:

First: That the City will pay to Southern Pacific Company the entire cost, plus ten (10) per cent of all labor, to cover supervision of removing said existing team track and replacing and reconstructing said team track in kind and in good condition upon the property hereinafter described, to be acquired by the City and conveyed to the Southern Pacific Railroad Company.

Concurrently with the delivery to it by the City of the deed hereinafter specified the Southern Company will deliver to the City a quitclaim deed conveying all the right, title and interest of the Southern Company in and to those certain parcels of land described as follows, being those certain strips of land 8½ feet in width and 13½ feet in width, respectively, covered by said reservation contained in said deed dated March 23, 1914, to-wit:

All those certain strips of land situate, lying and being in the City and County of San Francisco, State of California, more particularly described as follows:

Parcel 1: A strip of land 8.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles and radially southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno Branch, between Engineer's Station 78+48.5 and 92+40.

Parcel 2: A strip of land 13.5 feet wide, lying adjacent to and southeasterly of a line drawn 10.00 feet at right angles southeasterly from the original center line of the main track of the Southern Pacific Railroad Company's San Francisco-San Bruno branch, between Engineer's Station 92+40 and 101+20.

The above described parcels of land being the same property as reserved in part III, page 3, of that certain deed dated March 23, 1914, between Southern Pacific Railroad Company, Southern Pacific Company and the City and County of San Francisco.

The City hereby covenants and agrees to acquire and convey to Southern Pacific Railroad Company, without cost to Southern Company, by good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear of all encumbrances, to that certain parcel of land described as follows, to-wit:

That certain piece or parcel of land situate, lying and being in the

City and County of San Francisco, State of California, more particularly described as follows:

Beginning at the point of intersection of the southwesterly line of Roanoke street with the southeasterly line of Arlington street; thence along said southeasterly line of Arlington street south 47 deg. 16 min. 17 sec. west a distance of 663.843 feet to a point; thence south 30 deg. 41 min. .09 sec. east a distance of 22.104 feet to a point, said point being distant radially 58.77 feet northwesterly from the original center line of the Southern Pacific Railroad Company's right of way; thence in a northeasterly direction on the arc of a curve, concave to the left, having a radius of 5670.826 feet (the tangent to said curve at last mentioned point bears north 58 deg. 57 min. 20 sec. east) an arc distance of 675.82 feet to a point on said southwesterly line of Roanoke street (last described arc course is concentric with and distant northwesterly and radially 58.77 feet from said original center line of the Southern Pacific Railroad Company's right of way); thence north 42 deg. 43 min. 43 sec. west along said southwesterly line of Roanoke street a distance of 118.768 feet to the point of beginning and containing an area of 51401 square feet (equals 1.180 acres), more or less.

Upon delivery of the conveyance by the City mentioned in the last preceding paragraph of this agreement, and upon completion of the work of grading, to be done by the City as provided in said agreement of even date herewith, the Southern Company will, simultaneously with the shifting of the location of its main track, as provided in said agreement of even date herewith, remove its said existing team track from its present location and construct said team track as aforesaid upon said property above described, to be conveyed by the City to Southern Pacific Railroad Company.

This agreement is subject to the approval of the Railroad Commission of the State of California, and if not approved by said Railroad Commission it shall be of no force or effect.

In witness whereof, the parties hereto have executed this agreement in quadruplicate the day and year first hereinabove written.

This agreement, made this——— day of———————, 1928, between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and its lessee, Southern Pacific Company, a corporation of the State of Kentucky, first parties, herein collectively called "Southern Company," and the City and County of San Francisco, a municipal corporation of the State of California, second party, herein called "City."

Recitals:

Under the terms of an agreement entered into on the 23rd day of March, 1914, and subsequent deed bearing even date therewith, recorded June 16, 1914, in Vol. 794 of Deeds, pages 276 and following, the City acquired, for street purposes, a portion of the railroad right of way of the Southern Company through the so-called Bernal Cut, in said City and County of San Francisco, being the easterly portion of said right of way from the westerly line of Dolores street produced, to the center line of San Jose avenue produced, near Diamond street.

It was stipulated in said agreement that the Southern Company shall grade the strip of land described in section 1 thereof, so as to provide a uniform roadway for the proposed street at least forty (40) feet in width or thirty-five (35) feet, according to the width of said strip, according to the directions and under the supervision of the City Engineer of the City, and said City shall cooperate in such work to the extent of removing encroachments and also by the erection of retaining walls wherever necessary along the line of said grading; and Southern Company agreed to deposit the material excavated as aforesaid upon such portions of the land described in said agreement and deed as may be indicated by said City Engineer, and to entirely remove all surplus material; said grading and filling to be at the expense of Southern Com-

pany. It was further understood and agreed and so provided in said agreement that the construction of retaining walls along said grading and the paving of the roadway upon said strip of land shall be at the cost and expense of the City and without cost to the Southern Company.

The City now desires to acquire additional rights of way in said Bernal Cut for the purpose of constructing a better roadway than at first contemplated and offering better facilities for the construction of its double-track street railroad adjacent to the northerly and westerly line of the land conveyed to the City for street purposes by the hereinbefore mentioned deed. Such construction would be facilitated by the railroad of the Southern Company being moved northerly and westerly not exceeding 31.27 feet.

The parties hereto desire to set forth their agreement as to their rights and obligations in connection with acquisition and exchange of certain parcels of land to provide additional rights of way for each of the parties hereto, reconstruction of the railroad and appurtenances of Southern Company, construction of the municipal railway and the proposed street, and other matters in relation thereto.

Agreement:

Now, therefore, in consideration of the premises, it is hereby mutually agreed as follows, to-wit:

ARTICLE I.

1. The location plan, showing the changes proposed and the parcels of land to be acquired and exchanged by and between the parties hereto, for the purpose of carrying out the plans of the parties hereto as hereinafter set forth, is shown on the attached copy of Southern Pacific Company's Drawing entitled, "Proposed Improvements in Bernal Cut. San Francisco," and numbered M W D Drawing 5806, Sheet 2, which is hereby made a part hereof.

2. Southern Company hereby agrees to execute and place in escrow a conveyance to said City of all of Southern Company's right, title and interest in and to that certain portion of Southern Company's right of way in the City and County of San Francisco, State of California, particularly described as follows, to-wit:

A strip of land 32.77 feet in width lying between the southerly line of Randall street and the center line of San Jose avenue (near Diamond street), said strip being bounded and described as follows:

Bounded on the northeast by the southerly line of Randall street; on the west and northwest by a line drawn parallel or concentric with and uniformly distant 22.77 feet westerly and northwesterly, measured radially or at right angles from the original center line of the main track of the Southern Pacific Railroad Company's branch line between San Francisco and Colma; on the southwest by the center line of San Jose avenue (near Diamond street) and on the southeast and east by a line drawn parallel or concentric with and uniformly distant 10.00 feet southeasterly and easterly, measured radially or at right angles from said original center line of the Southern Pacific Railroad Company's branch line, said line coinciding with the northerly and westerly boundary line of the strip of land heretofore conveyed to the City and County of San Francisco by Southern Pacific Railroad Company and Southern Pacific Company by deed dated March 23, 1914.

Also a triangular shaped parcel of land, described as follows:

Beginning at a point in the westerly line of Dolores street, distant 100.00 feet northerly from the northerly line of Randall street; thence southerly along said westerly line of Dolores street and its prolongation a distance of 150.00 feet, more or less, to the southerly line of Randall street; thence westerly along said southerly line of Randall street a distance of 22.50 feet, more or less, to a point; thence in a northeasterly direction on a direct line to the point of beginning.

Said parcel of land above described are more particularly shown tinted in pink on said Drawing No. 5806, Sheet 2.

Said conveyance shall contain and be subject to the following express covenants, reservations and exceptions, to-wit:

(a) "Reserving nevertheless to the first parties (Southern Pacific Railroad Company and Southern Pacific Company), their successors and assigns, the right to use the northwesterly eighteen (18) inches in width of said strip of land 32.77 feet in width for the erection and maintenance of poles, wires, and any and all other necessary appliances, appendages and adjuncts, in the event that said first parties, their successors and assigns, should at any time operate their railroad by electricity, it being expressly understood and agreed, however, that first parties, their successors or assigns, may, instead of erecting and maintaining said poles, wires,

appliances, appendages and adjuncts upon and along said eighteen (18) inch strip herein described, at their option fasten their wires, fixtures, appliances and appurtenances to any poles erected by second party along or near the northwesterly boundary line of said strip of land whenever the first parties, their successors and assigns, operate their said railroad by electricity and such right is hereby granted by second party to first parties; but in the event that said first parties do attach their wires to any poles erected by the second party, as aforesaid, then said first parties shall pay to second party one-half (½) of the then value of said poles so used, at the time the attachments are made by said first parties, and upon receipt of such payment second party shall execute and deliver to Southern Pacific Railroad Company a bill of sale conveying an undivided one-half (½) interest in said poles to Southern Pacific Railroad Company. First parties shall thereafter pay one-half (½) of the cost of maintaining said poles so used, as aforesaid, from time to time as such costs are incurred and bills rendered by second party."

(b) "Excepting and reserving unto said first parties all of those certain rights reserved by the Southern Pacific Railroad Company and Southern Pacific Company for themselves, their successors and assigns, in that certain deed dated December 5, 1898, from said companies to said City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco, also those certain rights reserved by Southern Pacific Railroad Company in that certain deed from said Southern Pacific Railroad Company to said City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco."

(c) "The foregoing conveyance is subject to all the terms, conditions, restrictions and reservations contained in that certain deed, dated October 5, 1863, from H. G. Livermore et al. to the San Francisco and San Jose Railroad Company, recorded October 6, 1863, in Book 215 of Deeds, at page 276, and subject to the rights of any and all industries located upon or adjacent to said right of way between St. Mary's avenue and Bosworth street, and subject to first parties' right to maintain such spur, team or station tracks as may be required to be maintained under any subsisting agreement, recorded or otherwise, or deed, or by law. The Southern Company hereby reserves the right to maintain and operate existing industrial spur tracks upon the land hereinabove described and to maintain and operate such spur tracks in such new locations to which any of said spurs may be moved, as hereinafter provided. The City covenants and agrees that if it is necessary to reconstruct or change the location of any or all of said existing industrial spur tracks by reason of or in connection with the use of said land by the City, the City will pay the entire cost of the work of reconstruction and relocation of said tracks, including paving, and the cost and construction of crossings of said tracks by the municipal railway, if any. Nothing herein contained shall in anywise impair the right of the first parties to use, for railroad purposes, the remaining portion of their right of way adjoining the strip of land hereinabove described on the northwest, or in anywise prejudice their rights therein or thereto."

The above mentioned conveyance shall be executed by Southern Company and placed in escrow with the California Pacific Title & Trust Company of San Francisco, California, if and when this agreement has been approved by the Railroad Commission of the State of California, to be delivered to the City when the City shall have (a) acquired the lands described in Section 1 of Article II hereof and executed and delivered to the above mentioned escrowee for account of Southern Pacific Railroad Company the conveyances to Southern Pacific Railroad Company specified in said Section 1, Article II, and (b) performed, or caused to be performed, all of the construction and reconstruction work by it to be performed or contracted for, as provided in Article II hereof.

ARTICLE II.

1. In consideration of the covenants herein agreed to be performed by the Southern Company, and without further consideration or payment, the City shall at its own expense acquire and convey or cause to be conveyed to Southern Pacific Railroad Company, by a good and sufficient grant, bargain and sale deed, a good, merchantable, legal title, free and clear of all encumbrances to (1) a strip of land along and adjacent to the northerly and westerly boundary line of Southern Company's right of way between Randall and Dia-

mond streets, in the City and County of San Francisco, State of California, sufficient in width, and which, together with that portion of the Southern Company's existing right of way which will remain after the conveyance to the City of the portion heretofore described, will provide a right of way sufficient in width so that a standard gauge double track railroad may be constructed for Southern Company, and so that clearances not less than those prescribed by the Railroad Commission of the State of California shall be provided; (2) strips of land sufficient in width and adjoining the additional right of way for the proposed location of the proposed double track railroad of the Southern Company, to provide a sufficient area for proper slopes, not exceeding 1¼ horizontal to one vertical in the cuts and not less than two horizontal to one vertical in the fills; provided, however, that in lieu of providing such additional land for slopes, the City may construct at its sole cost and expense adequate concrete or masonry retaining walls to provide for the full and unobstructed use of land of sufficient width to permit of the construction and operation of said standard gauge double track railroad, with clearances not less than those prescribed by said Railroad Commission, and at the grade of the Southern Company's now existing track between Randall and Diamond streets, unless a different grade is agreed to by Southern Company. The land required for said right of way for said proposed double track railroad is shown tinted in green and the land required for said slopes is shown tinted in purple upon said drawing MWD 5806, Sheet 2.

2. In the event that it shall be necessary or advisable for the City to institute condemnation proceedings to acquire any land which is to be acquired in order to comply with the terms of this agreement, and to be conveyed to the Southern Pacific Railroad Company, such proceedings may be had in the name of Southern Company, or either of them, but the City shall pay all expense thereof and all judgments and costs therein and hold Southern Company harmless therefrom.

3. The City shall, at its own expense, make all necessary excavations and construct embankments and waterways, and, if deemed necessary by Southern Company, retaining walls to support slopes on the existing right of way of Southern Company, and the said land to be acquired for the Southern Company, as hereinabove provided, so as to provide for the construction of the said double track railroad of the Southern Company, as aforesaid, and at the grade specified in Section 1 of this Article II, unless a different grade is agreed to by Southern Company, and the City shall also pay the cost, plus ten (10) per cent of all labor to cover supervision, of moving Southern Company's existing single track rails, ties, ballast and appurtenances to such new position, not exceeding 31.27 feet northerly and westerly of the present location, and the cost, plus ten (10) per cent of all labor to cover supervision, of placing Southern Company's single track in such new location in at least as good condition as the existing track was at the time of being so moved, it being understood that the Southern Company will furnish all necessary ties which, in its judgment, are required to replace those unfit for further service.

4. The City shall, at its own expense, remove and reconstruct Southern Company's present telephone, telegraph and signal lines and the poles and fixtures thereof to such new position upon and along said relocated railroad line and right of way as may be required by Southern Company.

5. The City shall, at its own cost and expense, reconstruct and thereafter maintain, at clearances not less than those prescribed by the Railroad Commission of the State of California, all bridges or other structures and foundations and appurtenances of same (including the subway at Bosworth street) located between and at Randall and Diamond streets so that the double track railroad of Southern Company may be constructed and operated without further change in said bridges, structures or appurtenances, and, in order to accomplish such works, the City shall be granted the right to the use of any land to be conveyed by the City hereunder to Southern Pacific Railroad Company, for the purpose of erecting thereon any portion of the above-mentioned structures or appurtenances thereto that may be necessary; provided, however, that the plans for any such bridges and structures and appurtenances shall be subject to the approval of the Southern Company and of the Railroad Commission of the State of California. It is also agreed that the City shall have the right to construct and maintain at its sole cost and expense drainage constructions of such character as may be required, to be placed upon or be-

neath the lands to be conveyed hereunder by the City to Southern Pacific Railroad Company; provided, however, that such drainage constructions meet with the approval of Southern Company and will in no way interfere with Southern Company's operations.

6. The City shall include in the contracts which it is to let for the grading work to be performed by it under this contract, the grading work provided to be done at the expense of Southern Company in said agreement of March 23, 1914, and Southern Company shall have the right of access at all reasonable times to the books, accounts, contracts, records and papers relating to said work, for the purpose of checking the bill or bills rendered by the City to Southern Company for the cost of said work. The Southern Company shall reimburse the City in full for all of the yardage removed or excavated and graded at the contract price or rate covering the work included in said contract for the account of the Southern Company. All of the work herein provided for to be done by the City shall be in substantial conformity with the City's Cross Section plan or map entitled "Bernal Cut," numbered A-7328, hereto attached and made a part hereof.

7. It is understood and agreed that the City may enter upon said land above described for the purpose of carrying out and complying with the terms and conditions of this contract as soon as this con tract becomes effective.

8. All the expenses in connection with the construction of the future second track of said Southern Company's railroad, which the Southern Company may construct now or in the future at its option, except the work herein provided to be done by and at the sole cost and expense of the City, shall be borne by the Southern Company, as this is a facility in addition to its present trackage.

9. All work required to be done by and at the expense of the City hereunder upon or affecting the property and operations of Southern Company shall be performed by it in a good and workmanlike manner to the satisfaction of the Southern Company, according to plans approved by Southern Company or such lawful authority as may have jurisdiction in the premises, and at such times and in such manner as to interfere as little as possible with the operations of Southern Company.

10. It is expressly understood and agreed that all expense of paving and otherwise improving the roadway and constructing the municipal railway and appurtenances upon the roadway upon said strip of land 32.77 feet in width, hereinabove referred to, and upon the land heretofore conveyed by the Southern Company to the City by said deed dated March 23, 1914, recorded in Volume 794 of Deeds, at pages 276 and following, County Records of the City and County of San Francisco (except the grading and filling work as herein otherwise provided for in the previous agreement) shall be borne by the City; and in the event that any improvements upon said roadway should be done upon the local assessment plan, then and in that event the City shall pay out of its treasury any and all assessments therefor levied upon or assessed against any rights, properties or franchises of Southern Company, or either of them.

ARTICLE III.

1. It is understood and agreed that the City shall have the right to construct its municipal street railroad beneath either one of the bridges carrying the railroad of the Southern Company over Thirtieth street or over Day street, and that the City shall, at its own sole cost and expense, provide the necessary clearances therefor under said bridge. The plans for said crossing and any necessary changes in the said bridge shall be subject to the approval of the Railroad Commission of the State of California. The City, subject to the approval of the Railroad Commission of the State of California, shall have the right to construct its municipal street railroad at grade across the track or tracks of Southern Company's railroad at or near the intersection of San Jose avenue and Diamond street, subject to the terms and conditions of an agreement to be executed by the parties hereto establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings; and if the parties are unable to agree upon such terms and conditions, then upon such terms and conditions as may be prescribed by said Railroad Commission. Such crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the City. The expense of maintaining said crossings and any and all such protective device or devices, except interlocking plant, after completion, shall be borne

solely by said City, but the expense of maintenance and operation of interlocking plant, if any, shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

2. The Southern Company shall likewise have the right, subject to the approval of said Railroad Commission, to construct a track or tracks at grade across the track or tracks of the municipal railway, subject to the terms and conditions of agreements in each case to be executed by the parties hereto, establishing the respective rights, duties and liabilities of said parties in the movement of engines, trains, motors and cars over said crossings, and if the parties hereto are unable to agree upon such terms and conditions, then subject to such terms and conditions as may be prescribed by said Railroad Commission. Such track crossings, together with any and all protective device or devices that may be necessary, shall be installed at the entire cost and expense of the Southern Company. The expense of maintaining said crossings and such protective devices, except interlocking plants, after completion, shall be borne solely by Southern Company and the expense of maintenance and operation of interlocking plants shall be borne fifty (50) per cent by Southern Company and fifty (50) per cent by the City.

ARTICLE IV.

1. Nothing contained in this agreement shall affect the rights reserved by the Southern Pacific Railroad Company and/or Southern Pacific Company, for themselves and their successors and assigns, in that certain deed dated December 5, 1898, from the said companies to the City and County of San Francisco, recorded February 3, 1899, in Liber 1802 of Deeds, page 379, Records of said City and County of San Francisco; and in that certain deed from the Southern Pacific Railroad Company to the City and County of San Francisco, dated November 7, 1901, and recorded September 20, 1902, in Liber 1968 of Deeds, page 89, Records of said City and County of San Francisco.

2. Said agreement dated March 23, 1914, hereinabove referred to, between the parties hereto, shall be and remain in full force and effect and shall not be affected hereby unless and until the City shall comply with said conditions of the escrow hereinabove set forth; but upon full compliance with the conditions of said escrow, then and in that event this agreement shall, in so far as it changes or modifies said agreement of March 23, 1914, supersede the same.

ARTICLE V.

The City hereby agrees to forever indemnify and hold Southern Company harmless from and against any and all claims, demands, liabilities and judgments, and loss, damage and injury resulting from any damages caused or claimed in the acquisition by said City of any of said lands, or occurring in or caused by or claimed to have been caused by any and all of the work covered by this agreement. In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as here in this paragraph provided.

ARTICLE VI.

1. This agreement shall not become effective and the parties hereto shall not be bound hereby unless and until it shall have been approved by the Railroad Commission of the State of California.

2. Time is of the essence of this agreement, and if this agreement is approved by said Railroad Commission and the City does not comply with and perform all the covenants and conditions hereof to be complied with and performed by it within said term of five (5) years, this agreement and any and all rights of the parties hereto hereunder shall forthwith upon the expiration of said term of five (5) years cease and determine as completely as if this agreement had never been made.

3. This agreement shall be binding upon and inure to the benefit of the successors and assigns of the respective parties hereto.

In witness whereof, the parties hereto have executed these presents in quadruple the day and year first hereinabove written.

This agreement, made and entered into this ——— day of ———, 1928, by and between Southern Pacific Railroad Company, a corporation of the States of California, Arizona and New Mexico, and Southern Pacific Company, its lessee, a corporation of the State of Kentucky, first parties (herein collectively called "Railroad Company"), and ———, second party (herein sometimes called "Contractor").

Witnesseth:

That, whereas, on the ——— day of ———, 1928, the Southern Pacific Railroad Company and Southern Pacific Company as first parties, and the City and County of San Francisco, California, as second party, entered into an agreement covering the exchange of certain parcels of land between the Railroad Company and the City and County of San Francisco, for rights of way through the so-called Bernal Cut in the said City and County of San Francisco, and covering, among other things, certain construction work more specifically set forth in said agreement dated the ——— day of ———, 1928; and

Whereas, said agreement, dated the ——— day of ———, 1928, contains the following provision:

"In the event that any work to be performed hereunder by the City, to be done upon the property of the Southern Company, shall be let to contractors by the City, such work shall not be begun until each such contractor shall have first entered into a written agreement with Southern Company substantially as in the form hereto attached and made a part hereof, and such contractors and each such contractor shall have furnished, at no expense to the Southern Company, a good and sufficient bond in such amount as may be reasonable, of a reliable surety company, in form and satisfactory to Southern Pacific Company, guaranteeing the true and full performance of all of the terms, conditions and stipulations contained in said agreement to be entered into with the Southern Company by the contractors, as herein this paragraph provided." and

Whereas, said City and County of San Francisco did, on the ——— day of ———, 19—, enter into a contract with contractor to do and perform certain work pursuant to a compliance with the terms of said agreement dated the ——— day of ———, 19—, above referred to:

Now, therefore, it is understood and agreed that the contractor shall, in advance of performing any work under said contract of the ——— day of ———, 19—, between said City and County of San Francisco and said contractor, give to said Railroad Company a bond in the sum of twenty thousand (20,000) dollars, in form and of good and sufficient surety to be approved by the Assistant Treasurer of the Railroad Company, conditioned that the contractor will well and truly perform and fulfill all of the covenants, conditions, stipulations and obligations on his part in this agreement set forth and contained, to-wit:

In consideration of the Railroad Company permitting contractor to enter upon its property and perform said work, contractor agrees to indemnify and save Railroad Company harmless from and against any and all claims, loss, damage, injury and liability howsoever may be caused, resulting directly or indirectly from the performance of any or all work to be done upon Railroad Company's property, contemplated by said agreement dated ———, 19—, between said City and County of San Francisco and the said contractor; also from all claims, loss, damage, injury and liability howsoever same may be caused resulting directly or indirectly, made or suffered by said contractor, contractor's agents and/or employees while engaged in the performance of said work, whether caused by the negligence of Railroad Company in the operation of its railroad or otherwise.

Contractor expressly releases and discharges Railroad Company from all liability of whatsoever character for any and all personal injuries sustained by contractor while engaged in the performance of work to be done upon Railroad Company's property, whether

caused by the negligence of Railroad Company in the operation of its railroad or otherwise, and whether resulting in death or otherwise.

Contractor expressly waives any and all claims arising from said death or injury to contractor.

The contractor agrees that the license hereby given him to enter upon the premises of the Railroad Company for the purpose of performing the work covered by said contract dated the ——— day of ————, 19—, between said City and County of San Francisco and said contractor, shall not give nor be deemed or construed to give said contractor a right to do or perform any work whatsoever at any time upon or in connection with the work covered by said contract dated the ——— day of ————, 19—, between said City and County of San Francisco and said contractor, that will render unsafe the use by said Railroad Company of its real estate, tracks, structures and other appurtenances now or hereafter existing, or weaken or injure the same for the operation of its trains, engines or cars or for its other purposes.

Contractor further agrees that should the Railroad Company deem it necessary to engage any inspectors, watchmen or flagmen, or do anything to protect its engines, trains or cars during the performance by said contractor of the work covered by said contract dated the ——— day of ————, 19—, between the said City and County of San Francisco and said contractor, then and in that event contractor agrees to fully reimburse Railroad Company promptly for all cost and expense of such inspectors, watchmen, flagmen and other expenses that may be incurred by said Railroad Company incident to or in connection with work contemplated to be performed by said contractor.

Contractor further agrees that upon completion of the work covered by said contract dated the ——— day of ————, 19—, between said City and County of San Francisco and said contractor, contractor will promptly remove from the premises of the Railroad Company all of contractor's tools, implements and other materials and leave said premises clean and presentable.

This agreement shall not be assigned, sublet or transferred in whole or in part by contractor, except with the previous written consent of Railroad Company.

Except as otherwise provided herein, the terms and conditions of this agreement shall inure to the benefit of and be binding upon the heirs, executors, administrators, successors and assigns of contractor and the successors and assigns of Railroad Company.

In witness whereof, the parties hereto have executed these presents in triplicate the day and year first hereinabove written.

Report of Committee on Streets and Commercial Development and Street Lighting, Jointly.

The following was read by the Clerk:

To the Honorable Board of Supervisors.

Gentlemen:

Your Committee on Streets and Commercial Development, together with the Committee on Street Lighting, submits the following:

Recommendation Relative to Street Lighting and Street Improvements.

The Committee on Street Lighting has discussed with and secured the hearty cooperation of the Committee on Streets in the adoption of a general policy of installing street lighting circuits and fixtures in connection with all street improvements. This will enable a start to be made in providing San Francisco with an improved street-lighting system, meeting the rapidly increasing demands for better and more artistic lighting.

The Committee on Streets having advised the Street Lighting Committee that it has already considered the policy involved in this procedure, and had determined to instruct the City Engineer to (in the boulevard and road program) make provision to install ducts and light standards thereon; which said standards to be as approved by the Committee on Street Lighting. The present street ordinances permit the inclusion in the street work specifications provisions that permit the installing of all materials necessary for lighting such streets.

Under the contract made with the Pacific Gas and Electric Company for the fiscal year 1928-1929, a new schedule of rates (No. 13) has been included, which offers, for the first time, a substantial saving to the City where the distribution circuits and street lighting fixtures are provided by the property owners, which is the usual practice in other cities.

These new rates show a saving of approximately $15 a year per light in overhead districts and $31 a year per light in the underground districts, the electric company supplying the electricity and maintaining the equipment.

The cost of installing modern electric light standards with underground circuits on streets under construction will range from $1.25 to $1.65 per front foot, depending upon the style of pole and spacing along the street.

On the lines of the Municipal Railway and possibly on the United Railway lines also, by using brackets on the trolley poles the cost per front foot with circuits placed underground for lights on every alternate pole will be from 85 cents to 95 cents.

In overhead districts using brackets on the trolley poles and running the distribution circuit on the poles the cost per front foot will be from 40 cents to 50 cents.

In order to take immediate advantage of these new rates, we therefore recommend that this Board request the Board of Works to include in all plans and specifications for street opening and improvements provision for the distribution circuits and fixtures for street lights of such number and size as shall be recommended by the Street Lighting Committee.

And we also recommend that the Board of Works be requested to prepare and submit for approval of this Board plans and specifications for the installation of circuits and fixtures for street lighting along all the lines of the Municipal Railway system.

Whereupon, the following resolution was *adopted*:

Resolution No. 29341 (New Series), as follows:

Resolved, In accordance with the recommendation of the Committee on Streets and Commercial Development and the Lighting Committee of this Board, that the Board of Public Works is hereby requested to include in all plans and specifications for street opening and improvements provision for the distribution circuits and fixtures of street lights of such number and size as may be recommended by the Street Lighting Committee. Also, said Board of Public Works shall prepare and submit for approval of this Board plans and specifications for the installation of circuits and fixtures for street lighting along all the lines of the Municipal Railway system.

A y e s — Supervisors Andriano, Deasy, Gallagher, Havenner, Kent, McGovern, McSheehy, Powers, Roncovieri, Stanton, Suhr, Todd. Toner —13.

JOURNAL OF PROCEEDINGS
BOARD OF SUPERVISORS

MONDAY, JULY 23, 1928, 10 A. M.

In Board of Supervisors, San Francisco, Monday, July 23, 1928, at 10 a. m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Andriano, Deasy, Havenner, Hayden, Kent, McGovern, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—15.

Absent—Supervisors Colman, Gallagher, Toner—3.

Supervisor Gallagher sent word that he was delayed at Salinas, but would be present at the afternoon session.

Quorum present.

His Honor Mayor Rolph being absent, Supervisor McSheehy was elected to preside.

APPROVAL OF JOURNALS.

The Journals of Proceedings of the meetings of June 25 and July 2, 1928, were considered read and approved.

ROLL CALL FOR PETITIONS.

The Report of Building Appraisal, City and County of San Francisco, 1927-1928, the Bureau of Appraisal of the Advisory Committee of the Board of Equalization by Jas. G. Stafford & Associates, Inc., was received and *ordered filed.*

Report of Assessor on Southern Pacific Assessment.

The following was presented, read and *ordered filed*:

July 20, 1928.

To the Honorable Board of Supervisors, San Francisco, California.

Gentlemen:

Reference is made to your proceedings as a Board of Equalization, which were completed on July 16.

The request of the Southern Pacific Company for reduction in assessment on that parcel of land known as Lot 4A, Block 3810 (Board of Equalization No. 1), is denied. I have made no reduction in the assessment; it remains at $186,050.

The request came before the Board on July 9th; on motion it was referred to the Finance Committee. On July 16th the Finance Committee presented the matter to the Board for action. The Board accorded the complainant opportunity to present evidence in support of claim for reduction; the Board debated the matter at some length; all of the circumstances attendant upon the matter were developed in the course of the debate.

At the conclusion of the Board's consideration of this request four courses were open to the Board: the Board could have denied the request for reduction specifically, they could have granted the request, they could have referred the matter to the Assessor with a specific recommendation as to reduction, or they could have referred the matter to the Assessor without recommendation of any kind.

The Board, upon motion, referred the matter to the Assessor without recommendation.

It is not to be denied that the circumstances surrounding this particular parcel of land are unusual, in that it is rented to the municipality by the corporation for one dollar per year. The proceedings before the Board indicated that if the reduction in assessment was not granted the Southern Pacific would seek some other avenue of relief.

The Board of Equalization, following detailed consideration of the case, having referred the matter to the Assessor without recommendation of any kind, the present assessment of $186,050 for the fiscal year 1928-1929 will stand.

Respectfully submitted,

RUSSELL L. WOLDEN,
Assessor.

Joint Highway District Withdraws Report on Extension of Junipero Serra Boulevard.

The following was read and *ordered filed*:

To the Honorable Boards of Super-

visors, Counties of San Mateo and San Francisco.

Gentlemen:

Under date of July 5, 1928, the Board of Directors of the proposed Joint Highway District, composed of the counties of San Mateo and San Francisco, organized for the purpose of extending Junipero Serra boulevard southerly into San Mateo County, transmitted to the Boards of Supervisors of the counties involved their tentative report on the proposed highway.

I am directed by the Board of Directors to withdraw this report, as they wish to give it further consideration and resubmit it at a later date.

Very truly yours,

R. J. MARTIN,
Secretary.
